REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders of
Financial Northeastern Securities, Inc.

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Financial Northeastern Securities, Inc. (the "Company"), as of December 31, 2018, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

WithumSmith+Brown, PC

We have served as the Company's auditor since 2014.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

1. Nature of Business

Financial Northeastern Securities, Inc. (the "Company") is a full-service broker-dealer that serves institutional investors, credit unions, and individual investors located throughout the United States. The Company is registered under the Securities and Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's operations consist primarily of engaging in principal transactions and underwriting certificates of deposit.

2. Summary of Significant Accounting Policies

Basis of Presentation

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States of America, as detailed in the Financial Accounting Standards Board's (FASB) Accounting Standards Codification.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. Estimates are based on several factors including the facts and circumstances available at the time the estimates are made, historical experience, risk of loss, general economic conditions and trends, and the assessment of the probable future outcome. Some of the significant estimates include determinations of the useful lives of assets and allowance for doubtful accounts. Estimates and assumptions are reviewed periodically, and the effects of changes, if any, are reflected in the statement of operations in the period that they are determined. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events for recognition or disclosure through the date of the financial statements issuance.

Cash and Cash Equivalents

For purposes of the statement of financial condition and statement of cash flows, the Company considers all highly liquid investments, consisting mostly of certificates of deposit, which are readily convertible into known amounts of cash and have a maturity of three months or less as of December 31, 2018 to be cash equivalents.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

Concentration of Credit Risk

The Company places its cash and cash equivalents with seven financial institutions that have offices located in New Jersey and New York. Financial instruments that potentially subject the Company to concentration of credit risk consist principally of cash and cash equivalents. The Company's cash and cash equivalents are placed with high credit quality financial institutions. At times, such balances may exceed federally insured limits of \$250,000 per financial institution. The Company has not experienced any losses in such accounts, and it believes it is not exposed to any significant credit risk on cash and cash equivalents.

Accounts Receivables

Accounts receivable from customers are recorded at the present value of estimated cash flows on the date the receivables were established. The Company receives collections on its customer receivables based on the length of the certificates of deposit. The present value discounts on the customer receivables are computed using assumptions made by management of the Company regarding the market and ultimate collectability of the receivables. Uncollectible accounts receivable are charged to operations during the period they are determined to be uncollectible. It is management's policy to review the outstanding accounts receivable from its customers and write-off any uncollectible accounts as they arise. At December 31, 2018, there was no allowance for doubtful accounts.

Accounts receivables consist of the following:

Receivables due in less than one year	\$ 33,324
Receivables due in more than one year	10,000
Less discounts to present value (ranging from 1.2% to 2.5%)	<u>(8,565)</u>
Total	<u>\$ 34,759</u>

Investments

The Company's investments are comprised of certificates of deposit, corporate obligations, U.S. Treasuries and mortgage-backed securities.

Investments are bought and held principally for the purpose of selling them in the near term and are classified as trading securities. Trading securities are measured at fair value in the accompanying statement of financial condition.

The Company uses the specific identification method in determining realized gains and losses reflected in revenues under other income in the statement of operations. The unrealized gains and losses are also reflected in other income in the statement of operations.

The Company measures its investments on a recurring basis at fair value.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

Fair value is defined as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets, and other observable inputs.

Level 3 – Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and other similar techniques.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation. Expenditures for maintenance, repairs and betterments which do not materially prolong the normal useful life of an asset are charged to operations as incurred. Purchases of property and equipment and additions and betterments which substantially extend the useful life of the asset are capitalized at cost. Upon sale or other disposition of assets, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss, if any, is reflected in the statement of operations. The Company provides for depreciation as follows:

Asset	Estimated Useful Life	Principle Method
Furniture and fixtures	7 years	Straight-line
Office equipment	3 -10 years	Straight-line

Revenue Recognition from Securities Transactions

Effective January 1, 2018, the Company adopted ASC Topic 606, *Revenue from Contracts with Customers* ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

The Company completed an assessment of the impact of ASU No. 2014-09 on its existing revenue recognition policies and adopted the rule on January 1, 2018 using the modified retrospective method. Based on the analysis completed, the new rule does not have a material impact on its financial statements and no adjustment using the modified retrospective method was necessary.

The Company's principle sources of revenue are derived from Underwriting of Certificates of Deposits, Commissions, Selling Group Participation and Principal Transactions (Proprietary Trading activity). The new revenue recognition guidance does not apply to revenue associated with realized and unrealized gains and losses related to proprietary trading as well as interest and dividend income from financial instruments owned.

Principal transactions revenue is derived from the mark up or mark down on securities purchased and re-sold by the Company. Principal transactions and the related revenue are recorded when the arrangement is completed on the closing date or the contract is cancelled. All Principal Transactions revenues are recorded on a settlement-date basis, which is not materially different than a trade-date basis, in accordance with FINRA Rule 15c3-1(c)(2)/01. As discussed earlier, ASC 606 does not apply to revenue associated with realized and unrealized gains and losses related to proprietary trading.

The following is a description of principal activities within the scope of ASC 606 from which the Company generates its revenue:

Underwriting of Certificates of Deposit Revenue

The Company underwrites securities for Banks and Credit Unions that want to raise deposits. Fee revenue relating to underwriting commitments is recorded at the point in time when all significant items relating to the underwriting process have been completed and the amount of the underwriting revenue has been determined. This generally is the point at which all of the following have occurred: (i) all offering documents are finalized, and; (ii) the selling period is completed and the Company has finalized the total face amount of the issue, and (iii) the issuer has delivered the master certificate, and; (iv) the funds resulting from the offering have been received by the issuer.

In accordance with FASB ASC 606-10-25-27, the Company recognizes securities underwriting revenue at a point in time. As per guidance, in a typical underwriting agreement, a broker-dealer will not have an enforceable right to payment until the consummation of the securities issuance and therefore has no right to payment for the services performed prior to such date. That point in time is the settlement-date.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

Underwriting fees are recognized gross of transaction-related expenses. Such amounts are adjusted to reflect actual expenses in the period in which the Company receives the final settlement, typically within 30 days following the settlement-date of the transaction. In the event that transactions are not completed and the securities are not issued, the Company immediately expenses those costs.

Commission Revenue

Commission revenues are derived from investment transactions where the Company acts as agent. The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on a settlement-date basis. The Company believes that the performance obligation is satisfied on the trade-date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. However, in accordance with FINRA Rule 15c3-1(c)(2)/01, the Company has always maintained a consistent policy of reflecting all transactions on a settlement date basis for revenues and corresponding expenses as well as computing net capital. The rule allows for the use of settlement-date basis provided there is not a material difference between trade and settlement-date accounting. Moreover, Rule 15c3-1(c)(2)/013 and Generally Accepted Accounting Practices (GAAP) require a proper matching of revenues and expenses. In order to achieve this matching, the Company reports on a settlement-date basis which is not materially different than a trade-date basis, consistent with the Company's account statements.

Selling Groups Revenue Participation

Revenue derived from participation in a selling group of corporate note programs, certificates of deposit, share certificates and various other corporate underwritings is recognized in accordance with the terms of the respective note programs. The Company believes that its completed performance obligation is the date the security transfers to the investor. As a selling group member in a typical underwriting agreement, a broker-dealer will not have an enforceable right to payment until the consummation of the securities issuance and therefore has no right to payment for the services performed prior to such date. All selling group participation revenues are recorded on a settlement-date basis, which is not materially different than a trade-date basis.

There were no contract assets or liabilities as of January 1, 2018 and December 31, 2018.

Income Taxes

As an "S" corporation, the Company is not subject to federal, New Jersey and Florida corporate income taxes. The individual stockholders are responsible for the payment of income taxes on the Company's earnings. Accordingly, there are no provisions for federal,

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

New Jersey, and Florida income tax in the accompanying financial statements, however, the Company is subject to income taxes in Ohio and the City of Dublin, Ohio.

The Company has evaluated its tax positions and has concluded that there are no unrecognized tax benefits or obligations at December 31, 2018. There are no tax related penalties and interest reflected in these financial statements.

Distributions and Dividends Payable

During 2018, the Company recorded distributions of \$398,056 to its stockholders.

Commissions Expense

Commissions are paid to various brokers based upon a percentage of sales and are paid at the end of the following month.

3. Recent Accounting Pronouncements

In February 2017, the FASB issued an accounting standard update which amends existing lease guidance. The update requires lessees to recognize a right-of-use asset and related lease liability for many operating leases now currently off-balance sheet under current US GAAP. Accounting by lessors remains largely unchanged from current US GAAP. The update is effective using a modified retrospective approach for fiscal years beginning after December 15, 2018, and interim periods within those years, with early application permitted. The Company expects to record a right-of-use asset of \$764,522 and related lease liability of \$764,522 upon the adoption of this accounting standard update.

4. Property and Equipment

Property and equipment consists of the following:

Furniture and fixtures	\$	7,862
Office equipment		<u>149,465</u>
Total		157,327
Less accumulated depreciation		<u>125,762</u>
Net	\$	<u>31,565</u>

Depreciation expense for the year ended December 31, 2018 was \$24,487.

5. Investments

As of December 31, 2018, investments include various certificates of deposit, US Treasury securities and corporate obligations maturing at dates through 2035 at interest rates ranging from 0% to 8%. These items were measured using the following inputs at December 31, 2018:

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets at Fair Value				
Certificates of Deposit	\$ 2,325,795	\$	\$	\$ 2,325,795
Corporate Obligations	847,105			847,105
U.S. Treasury Securities	1,974,990			1,974,990
Asset-Backed Securities	2,435			2,435
Total	<u>\$ 5,150,325</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,150,325</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies as of December 31, 2018.

Certificates of Deposit and U.S. Treasuries: Valued based upon quoted prices from an exchange or liquidation value.

Corporate Obligations and Asset-backed Securities: Valued at the closing price reported on the active market on which the individual security is traded.

6. Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2018, the Company had net capital of \$15,336,413, which was \$15,236,413 in excess of its required net capital of \$100,000. The Company's net capital ratio was 0.0203 to 1.

7. Off-Balance Sheet Risk

The security transactions of the Company's customers are introduced on a fully disclosed basis with a clearing broker-dealer. The Company holds no customer funds or securities. The clearing broker-dealer is responsible for execution, collection of and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker-dealer may charge any related losses to the Company. The Company seeks to minimize this risk through procedures designed to monitor the creditworthiness of its customers and to ensure that the clearing broker-dealer executes customer transactions properly.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

8. Related Party Transactions

Pursuant to an administrative annual cost sharing agreement, renewable on a year-to-year basis, the Company shares the cost of overhead expenses with an affiliated company through common ownership, Financial Northeastern Corporation (the "Affiliate"), based on relative sales levels. The shared overhead expenses pertain to rent, employee compensation and benefits, professional fees, utilities, travel and other miscellaneous expenses. As of December 31, 2018, the Affiliate owed the Company \$92,797 toward 2018 shared costs. This asset is reflected in the Due from Affiliate on the Statement of Financial Condition. The Company incurred shared costs of \$2,624,313 for 2018 from the Affiliate representing 99.03% of the total expenses to be allocated.

9. Commitments and Contingencies

Operating Lease

The Company and its Affiliate have entered into various operating leases for office space located in New Jersey and Ohio through 2021. The Company and its Affiliate have options to renew its office leases. Minimum annual lease payments subsequent to December 31, 2018 are as follows:

Years ending December 31:

2019	\$	334,841
2020		340,610
2021		<u>89,071</u>
Total	\$	<u>764,522</u>

Occupancy expense charged to the Company under operating leases was \$357,918 during 2018. As described in Note 8, an agreement is in place whereby the Affiliate shares the cost relative to the office space leases with the Company.

10. Pension Plans

Defined Contribution Pension Plan

The Company is a participating employer of a 401K plan that allows for pre-tax employee contributions and a discretionary employer match in addition to a discretionary employer profit sharing contribution. Eligible employees to benefit from employer contributions must meet certain age and service requirements. Full vesting is reached in year three after 33% vesting each in years one and two. The Company's total expense for the defined contribution pension plan for 2018 was \$245,900.

Financial Northeastern Securities, Inc.

Notes to Financial Statements

December 31, 2018

Supplemental Executive Retirement Plan

The Affiliate established a non-qualified deferred compensation program and a Supplemental Executive Retirement Plan (SERP) in 2004, both of which were amended and restated effective January 1, 2007. Effective January 1, 2010, the Affiliate has suspended contributions to the SERP Plan. Current year administrative expenses for this plan are allocated to the Company in accordance with the Cost Sharing Agreement and are included in Other General and Operating Expenses on the Statement of Operations.
