Report of Independent Auditors

The Board of Directors and Member
The NASDAQ Stock Market LLC and Subsidiaries

We have audited the accompanying consolidated financial statements of The NASDAQ Stock Market LLC and Subsidiaries, which comprise the consolidated balance sheet as of December 31, 2018 and the related consolidated statements of income, comprehensive income, changes in member's equity and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The NASDAQ Stock Market LLC and Subsidiaries at December 31, 2018, and the consolidated results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2018

1. Organization and Nature of Operations

The Nasdaq Stock Market LLC (the “Company,” the “Exchange,” “The Nasdaq Stock Market,” “EXCH,” or “we”) is a registered national securities exchange in the United States owned and operated by Nasdaq, Inc., (“Nasdaq” or the “Parent”) and its liability is limited to the balance of its capital account. As of December 31, 2018, a total of 3,058 companies were listed securities on The Nasdaq Stock Market.

As of December 31, 2018, The Nasdaq Stock Market is the parent of its wholly-owned subsidiaries: The Nasdaq Options Market LLC (“Nasdaq Options Market”) and Norway Acquisition LLC (“Norway”). Norway, a holding company, is the parent company of Nasdaq Execution Services, LLC (“Nasdaq Execution Services” or “NES”) and INET Futures Exchange, LLC (“INET Futures Exchange”).

NES is a registered broker-dealer with the Securities and Exchange Commission (“SEC”) under Section 15(b) of the Securities Exchange Act of 1934. Nasdaq Execution Services currently operates as the routing broker-dealer for affiliate exchanges for sending orders from the affiliate exchanges to other venues for execution in accordance with member order instructions and requirements. Affiliate exchanges include Nasdaq BX, Inc. (“BX”), Nasdaq PHLX LLC (“PHLX”), Nasdaq ISE, LLC (“ISEL”), Nasdaq GEMX, LLC (“GEMX”), and Nasdaq MRX, LLC (“MRX”). NES began routing options as of March 24, 2014 and became the sole routing broker for Nasdaq’s equities and options exchanges in the U.S. INET Futures Exchange, LLC is currently an inactive entity. NES is distinguished from most broker-dealers in that it is a facility of The Nasdaq Stock Market, which functions as both an exchange and a Self-Regulatory Organization (“SRO”).

The Company offers trading in cash equity securities, derivatives and exchange traded funds (“ETFs”) on The Nasdaq Stock Market and the Nasdaq Options Market. The Company’s transaction-based platforms in the U.S. provide market participants with the ability to access, process, display and integrate orders and quotes for cash equity securities, derivatives and ETFs. The platforms allow the routing and execution of buy and sell orders as well as the reporting of transactions for cash equity securities, derivatives and ETFs, providing fee-based revenues. The Company provides market participants with several alternatives for accessing the Company’s markets for a fee. The Company also earns revenues from annual and monthly exchange membership and registration fees. The Nasdaq Stock Market operates as the exclusive Securities Information Processor of the Joint Self-Regulatory Organization Plan Governing the Collection, Consolidation, and Dissemination of Quotation and Transaction Information for Nasdaq-listed Securities Traded on Exchanges on an Unlisted Trading Privilege Basis (“UTP Plan”), for the collection and dissemination of best bid and offer information and last transaction information from markets that quote and trade in Nasdaq-listed securities. The Nasdaq Stock Market also is a participant in the UTP Plan and shares in the net distribution of revenue according to the plan on the same terms as the other plan participants. In the role as the Securities Information Processor, The Nasdaq Stock Market collects and disseminates quotation and last sale information for all transactions in Nasdaq-listed securities whether

traded on The Nasdaq Stock Market or other exchanges. The Company sells this information to market participants and to data distributors, who then provide the information to subscribers. After deducting costs associated with our role as an exclusive Securities Information Processor, as permitted under the revenue sharing provision of the UTP Plan, we distribute the tape revenues to the respective UTP Plan participants, including The Nasdaq Stock Market, based on a formula required by Regulation NMS that takes into account both trading and quoting activity. In addition, all quotes and trades in NYSE- and NYSE MKT-listed securities are reported and disseminated in real time, and as such, we share in the tape revenues for information on NYSE- and NYSE MKT-listed securities.

The Company's market data products enhance transparency and provide critical information to professional and non-professional investors. We collect, process, and create information and earn revenues as a distributor of our own, as well as select, third party content. We provide varying levels of quote and trade information to market participants and to data distributors, who in turn provide subscriptions for this information. Our systems enable distributors to gain direct access to our market depth, index values, mutual fund valuation, order imbalances, market sentiment and other analytical data. Revenues from U.S. market data products are subscription-based and are generated primarily based on the number of data subscribers and distributors of our data.

Companies listed on The Nasdaq Stock Market represent a diverse array of industries including health care, consumer products, telecommunication services, information technology, financial services, industrials and energy. Companies seeking to list securities on The Nasdaq Stock Market must meet minimum listing requirements, including specified financial and corporate governance criteria. Once listed, companies must meet continued listing standards. The Nasdaq Stock Market currently has three listing tiers: The Nasdaq Global Select Market, The Nasdaq Global Market and The Nasdaq Capital Market. All three market tiers maintain rigorous listing and corporate governance standards (both initial and ongoing). There are two types of fees applicable to companies that list on The Nasdaq Stock Market: an annual renewal fee and an initial listing fee.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The consolidated financial statements, which include the accounts of The Nasdaq Stock Market and its wholly owned subsidiaries, are prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"), as codified in the ASC and set forth by the Financial Accounting Standards Board ("FASB"). All intercompany accounts and transactions have been eliminated in consolidation. The Exchange's significant accounting policies are as follows.

The accompanying consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the period presented. These adjustments are of a normal recurring nature.

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash held in banks and all non-restricted highly liquid investments with original maturities of three months or less at the time of purchase. Cash equivalents are carried at cost plus accrued interest, which approximates fair value due to the short maturities of these investments. At December 31, 2018, the Exchange held no cash equivalents.

Receivables, Net

The Exchange's receivables are concentrated with our member firms, market data distributors, and listed companies. Receivables are shown net of reserves for uncollectible accounts. The reserve for uncollectible accounts is maintained at a level that management believes to be sufficient to absorb estimated losses in the accounts receivable portfolio. The reserve is increased by the provision for bad debts which is charged against operating results and decreased by the amount of charge-offs, net of recoveries. The amount charged against operating results is based on several factors including, but not limited to, a continuous assessment of the collectability of each account, the length of time a receivable is past due and our historical experience with the particular customer. In circumstances where a specific customer's inability to meet its financial obligations is known (i.e., bankruptcy filings), we record a specific provision for bad debts against amounts due to reduce the receivable to the amount we reasonably believe will be collected. Due to changing economic, business and market conditions, we review the reserve for bad debts monthly and make changes to the reserve through the provision for bad debts as appropriate. If circumstances change (i.e., higher than expected defaults or an unexpected material adverse change in a major customer's ability to pay), our estimates of recoverability could be reduced by a material amount. Total reserve for uncollectible accounts netted against receivables on the Consolidated Balance Sheet was \$1.1 million at December 31, 2018.

Property and Equipment, Net

Property and equipment, including leasehold improvements, are carried at cost less accumulated depreciation and amortization. Depreciation of furniture and equipment is provided using the straight-line method over five to ten years. Depreciation of data processing equipment is provided using the straight-line method over two to five years. Depreciation of capitalized software is provided using the straight-line method over three to five years. Leasehold improvements are amortized over the lesser of the lease term or its estimated useful life. See Note 4, "*Property and Equipment, Net*" for further discussion.

The Exchange also assesses potential impairments to its property and equipment when there is evidence

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

that events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of property and equipment is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Any required impairment loss is measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value and is recorded as a reduction in the carrying amount of the related asset and a charge to operating results.

Goodwill

Goodwill represents the excess of purchase price over the value assigned to the net assets, including identifiable intangible assets, of a business acquired. Goodwill is assessed for impairment annually in the fourth quarter of our fiscal year using carrying amounts as of October 1, or more frequently if conditions exist that indicate that the asset may be impaired, such as changes in the business climate, indicators of poor operating performance or the sale or disposition of a significant portion of a reporting unit. When assessing goodwill for impairment, first, qualitative factors may be assessed to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the results of the qualitative assessment are not conclusive, a quantitative goodwill test is performed. The quantitative goodwill test consists of two steps:

- The first step compares the fair value of each reporting unit with its carrying amount, including goodwill. If the reporting unit's fair value exceeds its carrying amount, goodwill is not impaired.
- If the fair value of a reporting unit is less than its carrying amount, the second step of the goodwill test is performed to measure the amount of impairment, if any. An impairment is equal to the excess of the carrying amount of goodwill over its fair value.

The Exchange has concluded that, for purposes of its goodwill impairment test, it has a single reporting unit. The Exchange completed the required annual impairment test, which determined that goodwill was not impaired for the year ended December 31, 2018. However, events such as economic weakness and unexpected significant declines in operating results may result in goodwill impairment charges in the future.

Deferred Revenue

Deferred revenue represents cash payments received that are yet to be recognized as revenue, primarily related to listing services revenue. See Note 5, "*Deferred Revenue*," for further discussion.

Revenue Recognition and Cost of Revenues

Revenue from Contracts with Customers

On January 1, 2018, we adopted Topic 606 using the full retrospective method. The adoption of Topic 606 impacted the revenue recognition for our Listing Services business. However, the adoption of Topic 606

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

did not have a material impact on our consolidated financial statements at the time of adoption or in any prior reporting periods. There was no impact to revenue or expense recognition for our other businesses.

The following table presents the effect of the adoption on the Consolidated Balance Sheet as of December 31, 2017:

Adjustment to Reflect Adoption of Topic 606

Assets:	
Other assets	\$ (949)

Member's Equity:

Total Member's Equity	<u>8,158</u>

Contract Balances

Substantially all our revenues are considered to be revenues from contracts with customers. For the majority of our contracts with customers, except for listing services contracts, our performance obligations are short-term in nature and there is no significant variable consideration.

We do not have revenues recognized from performance obligations that were satisfied in prior periods. We have elected not to provide disclosures about transaction price allocated to unsatisfied performance obligations if contract durations are less than one year. For contract durations that are one-year or greater, we do not have a material portion of transaction price allocated to unsatisfied performance obligations that are not included in deferred revenue. Deferred revenue primarily represents our contract liabilities related to our fees for annual and initial listing services contracts. Deferred revenue is the only significant contract asset or liability impacted by our adoption of Topic 606. See Note 5, "Deferred Revenue," for our discussion on deferred revenue balances, activity, and expected timing of recognition.

Sales commissions earned by our sales force are considered incremental and recoverable costs of obtaining a contract with a customer. These costs are deferred and amortized on a straight-line basis over the period of benefit that we have determined to be the contract term or estimated service periods. Sales commissions for renewal contracts are deferred and amortized on a straight-line basis over the related contractual renewal

period. Amortization expense is included in *Compensation and benefits* expense in the Consolidated Statement of Income. The balance of deferred costs and related amortization expense are not material to our consolidated financial statements. We elected the practical expedient of recognizing sales commissions as an expense when incurred if contract durations are one year or less. We also have elected the practical expedient of excluding sales taxes from transaction prices.

Market Services

Transaction-Based Trading

Transaction-based trading includes cash equity trading and equity derivative trading revenues. EXCH charges transaction fees for trades executed on the exchange, as well as on orders that are routed to and executed on other market venues. Transaction fees are based on trading volumes for trades executed on the exchange. EXCH satisfies its performance obligation for trading services upon the execution of a customer trade, as trading transactions are substantially complete when they are executed and we have no further obligation to the customer at that time. Transaction-based trading fees can be variable and are based on trade volume tiered discounts. Transaction revenues, as well as any tiered volume discounts, are calculated and billed monthly in accordance with our published fee schedules. We also pay liquidity payments to customers based on our published fee schedules. We use these payments to improve the liquidity on our markets and therefore recognize those payments as a cost of revenue.

For cash equity trading and equity derivative trading, we credit a portion of the per share execution charge to the market participant that provides the liquidity. We record these credits as transaction rebates that are included in transaction-based expense in the Statement of Income. These transaction rebates are paid on a monthly basis and the amounts due are included in *Accounts payable and accrued expenses* in the Balance Sheet.

EXCH pays Section 31 fees to the SEC for supervision and regulation of securities markets. We pass these costs along to our customers through our cash equity and equity derivative trading fees. We collect the fees as a pass-through charge from organizations executing eligible trades on our exchange and we recognize these amounts in transaction-based expenses when incurred. Since the amount recorded as revenues is equal to the amount recorded as transaction-based expenses, there is no impact on our revenues less transaction-based expenses.

Under our Limitation of Liability Rule and procedures, we may, subject to certain caps, provide compensation for losses directly resulting from the systems' actual failure to correctly process an order, quote, message or other data into our platform. We do not record a liability for any potential claims that may be submitted under the Limitation of Liability Rule unless they meet the provisions required in accordance with U.S. GAAP. As such, losses arising as a result of the rule are accrued and charged to expense only if the loss is probable and estimable.

Trade Management Services

We provide market participants with a wide variety of alternatives for connecting to and accessing our markets for a fee. These participants are charged monthly fees for connectivity and support in accordance with our published fee schedules. These fees are recognized on a monthly basis when the performance obligation is met. Revenues for providing access to our markets, connection services and monthly exchange membership and registration fees are recognized on a monthly basis as the service is provided.

Information Services

Market Data Products

Market data products revenues are earned from proprietary market data products. We earn revenues primarily based on the number of data subscribers and distributors of our data. Market data products revenues are subscription-based and are recognized on a monthly basis net of amounts due under revenue sharing arrangements with market participants.

Net Tape Plans

Revenues from U.S. tape plans include eligible UTP Plan revenues which are shared among UTP Plan participants and are presented on a net basis. Under the revenue sharing provision of the UTP Plan, we are permitted to deduct costs associated with acting as the exclusive Securities Information Processor from the total amount of tape revenues collected. After these costs are deducted from the tape revenues, we distribute to the respective UTP Plan participants, including The Nasdaq Stock Market, their share of tape fees based on a formula, required by Regulation NMS that takes into account both trading and quoting activity. In addition, all quotes and trades in NYSE- and NYSE MKT-listed securities are reported and disseminated in real time, and as such, we share in the tape fees for information on NYSE- and NYSE MKT-listed securities. Revenues from net tape plans are recognized on a monthly basis and are recorded within *Information services* on the Consolidated Statement of Income.

Market Data Products Revenue Sharing

The most significant component of information services revenues presented on a net basis is the UTP Plan revenue sharing in the U.S. All indicators of principal versus agent reporting under U.S. GAAP have been considered in analyzing the appropriate presentation of UTP Plan revenue sharing. However, the following are the primary indicators of net reporting:

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

- *Primary Obligor:* We are the administrator for the UTP Plan, in addition to being a participant in the UTP Plan. In our unique role as administrator, we facilitate the collection and dissemination of revenues on behalf of the UTP Plan participants. As a participant, we share in the net distribution of revenues according to the plan on the same terms as all other plan participants.
- *Risk of Loss/Credit Risk:* Risk of loss on the revenue is shared equally among plan participants according to the UTP Plan.
- *Price Latitude:* The operating committee of the UTP Plan, which is comprised of representatives from each of the participants, including us solely in our capacity as a UTP Plan participant, is responsible for setting the level of fees to be paid by distributors and subscribers and taking action in accordance with the provisions of the UTP Plan, subject to SEC approval.

Listing Services

Listing services revenues primarily include initial listing fees and annual renewal fees. Under Topic 606, the initial listing fee is allocated to multiple performance obligations including initial and subsequent listing services and corporate solutions services (when a company qualifies to receive these services under the applicable Exchange rule), as well as a customer's material right to renew the option to list on our exchanges. In performing this allocation, the standalone selling price of the performance obligations is based on the initial and annual listing fees and the standalone selling price of the corporate solutions services is based on its market value. All listing fees are billed upfront and the identified performance obligations are satisfied over time since the customer receives and consumes the benefit as the Exchange provides the listing service. Upon adoption of Topic 606, the amount of revenue related to the corporate solutions services performance obligation is recognized ratably over a two-year period, which is based on contract terms, with the remaining revenue recognized ratably over six years which is based on our historical listing experience and projected future listing duration.

Annual renewal fees are charged based on the number of outstanding shares of companies listed in the U.S. at the end of the prior year and are recognized ratably over the following 12-month period since the customer receives and consumes the benefit as the Exchange provides the service.

Technology Solutions

Technology solutions revenues primarily include fees earned for administering the UTP Plan. Revenue is recognized over time since the customer receives and consumes the benefit as the Exchange provides the service.

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Other Revenues

Other revenues include income earned from Company affiliates in connection with routing fees charged to other affiliate exchanges, as well as certain transfer pricing arrangements with other affiliated companies. See Note 8, “*Related Party Transactions*,” for further discussion. *Other* revenues also include fines from parties that are members of the Exchange. Fines are recognized as they are assessed to the member.

Share-Based Compensation

Accounting for share-based compensation requires the measurement and recognition of compensation expense for all equity awards based on estimated fair values. We recognize compensation expense for equity awards on a straight-line basis over the requisite service period of the award. See Note 7, “*Share-Based Compensation*,” for further discussion.

Advertising Costs

We expense advertising costs, which include media advertising and production costs, in the periods in which the costs are incurred. Media advertising and production costs included as *Marketing and advertising expense* on the Consolidated Statement of Income totaled \$7.0 million in 2018.

Software Costs

Significant purchased application software and operational software that are an integral part of computer hardware are capitalized and amortized on a straight-line basis over their estimated useful lives, generally two to five years. All other purchased software is charged to expense as incurred.

Certain costs incurred in connection with developing or obtaining internal use software are capitalized. Unamortized capitalized software development costs are included in data processing equipment and software, within *Property and equipment, net* on the Consolidated Balance Sheet. Amortization of costs capitalized is included in *Depreciation and amortization expense* in the Consolidated Statement of Income.

Income Taxes

The Exchange’s operating results are included in the consolidated federal income tax return and certain state income tax returns filed by Nasdaq. The Exchange uses the asset and liability method to provide income taxes on all transactions recorded in the consolidated Nasdaq financial statements. The Exchange also files separate tax returns in certain states. Deferred tax assets and liabilities are determined based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities (i.e., temporary differences) and are measured at the enacted rates that are expected to be in effect when these differences are realized. If necessary, a valuation allowance is established to reduce deferred tax assets to the amount that is more likely than not to be realized.

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In order to recognize and measure the Exchange's unrecognized tax benefits, management determines whether a tax position is more likely than not to be sustained upon examination of Nasdaq, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the recognition thresholds, the position is measured to determine the amount of benefit to be recognized for the portion of its share in the consolidated financial statements. Interest and penalties related to income tax matters are recognized in *Provision for income taxes* on the Consolidated Statement of Income.

Recently Issued Accounting Pronouncements

In August 2018, FASB released ASU 2018-13, "Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement", which modifies the disclosure requirements on fair value measurements by removing certain disclosure requirements related to the fair value hierarchy, modifying existing disclosure requirements related to measurement uncertainty, and adding new requirements, mainly for Level 3 fair value measurements. The Exchange early adopted this standard as of July 1, 2018 on a prospective basis. The Exchange has assessed the impact and determined the adoption of this standard has no impact on the consolidated financial statements of the Exchange.

In February 2018, the FASB issued ASU 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income", which provides an election to reclassify tax effects that are stranded in accumulated other comprehensive income as a result of tax reform to retained earnings. An election is also available to reclassify other stranded tax effects that relate to the Tax Cuts and Jobs Act but do not directly relate to the change in the federal rate. Tax effects that are stranded in accumulated other comprehensive income for other reasons (e.g., prior changes in tax law, a change in valuation allowance) may not be reclassified. Previously, the effects of changes in tax rates and laws on deferred tax balances were required to be recorded as a component of tax expense related to continuing operations for the period in which the law was enacted, even if the assets and liabilities related to items of accumulated other comprehensive income. In other words, backward tracing of the income tax effects of items originally recognized through accumulated other comprehensive income was prohibited. The new standard is effective for EXCH on January 1, 2019 with early adoption permitted. Management is currently assessing the impact that this standard will have on the consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, "Simplifying the Test for Goodwill Impairment", which simplifies how an entity is required to test goodwill for impairment and removes the second step of the goodwill impairment test, which required a hypothetical purchase price allocation if the fair value of a reporting unit is less than its carrying amount. Goodwill impairment will now be measured using the difference between the carrying amount and the fair value of the reporting unit and the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The amendments in the ASU should be applied on a prospective basis. The effective date is January 1, 2020 with early adoption permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Exchange does not anticipate a material impact on its consolidated financial statements. The Exchange does not anticipate early adoption of this standard.

2. Summary of Significant Accounting Policies (continued)

In June 2016, the FASB issued ASU 2016-13, “Measurement of Credit Losses on Financial Instruments” which changes the impairment model for certain financial instruments. The new model is a forward looking expected loss model and will apply to financial assets subject to credit losses and measured at amortized cost and certain off-balance sheet credit exposures. This includes loans, held-to-maturity debt securities, loan commitments, financial guarantees and net investments in leases, as well as trade receivables. For available-for-sale debt securities with unrealized losses, credit losses will be measured in a manner similar to today, except that the losses will be recognized as allowances rather than reductions in the amortized cost of the securities. The Exchange will adopt this standard on January 1, 2020. We are currently assessing the impact that this standard will have on our financial statements.

3. Goodwill and Intangible Assets

Goodwill

In 2006, Nasdaq completed an internal reorganization that resulted in the transfer of certain assets and liabilities relating to Nasdaq’s acquisition of Inet ATS, Inc. and Brut LLC’s trading platforms to the Exchange and its subsidiaries. These assets and liabilities of Nasdaq were transferred as of December 28, 2006 based on the revised operating structure of these entities and resulted in an allocation of goodwill based on the relative fair value of the Company.

During the year ended December 31, 2018, there were no changes in goodwill. As of December 31, 2018, \$23.0 million of the Company’s goodwill is deductible for tax purposes.

The Exchange completed the required annual impairment test, which determined that goodwill was not impaired for the year ended December 31, 2018. However, events such as economic weakness and unexpected significant declines in operating results may result in goodwill impairment charges in the future. A significant impairment charge in the future could have a material adverse effect on our operating results.

Intangible Assets

For the year ended December 31, 2018, no impairment was recorded with respect to finite-lived intangible assets.

Amortization expense for purchased finite-lived intangible assets was \$11.7 million for the year ended December 31, 2018. As of December 31, 2018, all finite-lived intangible assets were fully amortized.

4. Property and Equipment, Net

The following table presents the Exchange's major categories of property and equipment, net:

	December 31, 2018
	<i>(In thousands)</i>
Data processing equipment and software	\$ 83,358
Capitalized software development	65,964
Furniture, equipment and leasehold improvements	46,730
	196,052
Less: accumulated depreciation and amortization	(119,192)
Total property and equipment, net	\$ 76,860

The Exchange follows the provisions of ASC 350-40, *Internal-Use Software*, which requires entities to capitalize direct internal and external costs that meet certain capitalization criteria. During the year ended December 31, 2018, costs capitalized relating to internal-use software was \$13.1 million. At December 31, 2018, unamortized capitalized software development was \$38.0 million.

For the year ended December 31, 2018, capitalized software amortization expense was \$10.6 million, while total depreciation expense relating to all other property and equipment was \$14.1 million. These amounts are included in *Depreciation and amortization expense* in the Consolidated Statement of Income.

5. Deferred Revenue

At December 31, 2018, we estimate that our deferred revenues, which are primarily related to Listing Services, will be recognized in the following years:

	Initial Listing Fees	Listing of Additional Shares Fees	Annual Renewal and Other Fees	Total
	<i>(In thousands)</i>			
Fiscal year ended:				
2019	\$ 18,076	\$ 6,435	\$ 24	\$ 24,535

6. Income Taxes

The Exchange's operating results are included in the federal, state and local income tax returns filed by Nasdaq. For income tax purposes, the Exchange is disregarded as an entity separate from its indirect owner, Nasdaq, pursuant to U.S. Income Tax Regulations Sec. 301.7701-3(b)(1)(ii). As a single-member LLC, the Exchange computes its provision for income taxes by applying the rate applicable to Nasdaq to the Exchange's own taxable income. With respect to each taxable period for which a consolidated or unitary return is filed by Nasdaq, which includes the Exchange, Nasdaq shall pay to and has the right to receive from the Exchange an amount based on the Exchange's stand-alone operating results using the tax rate applicable to Nasdaq.

The Tax Cuts and Jobs Act was enacted on December 22, 2017 and is effective January 1, 2018. The new legislation contains several key provisions, including a reduction of the U.S. corporate income tax rate from 35% to 21%. The Exchange is required to remeasure all our U.S. deferred tax assets and liabilities as of December 22, 2017 and record the impact of such remeasurement in our 2017 financial statements. For the year ended December 31, 2017, the Exchange recorded a decrease to tax expense of \$18 million, all of which reflects the estimated impact associated with the remeasurement of the net deferred tax liability at the lower U.S. federal corporate income tax rate. The Tax Cuts and Jobs Act also imposes a transition tax on unremitted aggregate accumulated earnings of non-U.S. subsidiaries. The Exchange is not subject to the transition tax.

SAB 118 has provided guidance which allows us to record provisional amounts during a measurement period not to extend beyond one year of the enactment date. As of December 31, 2018, the provisional estimate of the effects of the new legislation has been finalized.

7. Share-Based Compensation

The Exchange is part of a share-based compensation program that provides Nasdaq's Board of Directors broad discretion in creating employee equity incentives. As such, share-based compensation is allocated to us from Nasdaq. Share-based awards, or equity awards, granted under this program include stock options, restricted stock and Performance Stock Units ("PSUs").

PSUs are based on performance measures that impact the amount of shares that each recipient will receive upon vesting. The Exchange has two performance-based long-term PSU programs for certain officers, a one-year performance-based program and a three-year cumulative performance based program that focuses on Total Shareholder Return ("TSR").

Under the one -year performance-based program, an employee may receive from 0.0% to 150.0% of the target amount granted, depending on the achievement of performance measures. These awards vest ratably on an annual basis over a three-year period commencing with the end of the performance period. Compensation cost is recognized over the performance period and the three -year vesting period, taking into account an estimated forfeiture rate. The grant date fair value of PSUs is based on the closing price of Nasdaq stock at the date of grant less the present value of future cash dividends.

Under the three-year performance-based program, each individual receives PSUs with a three-year cumulative performance period that vest at the end of the performance period. Compensation cost is recognized over the three -year vesting period. Performance will be determined by comparing Nasdaq's TSR to two peer groups, each weighted 50.0% . The first peer group consists of exchange companies, and the second peer group consists of all companies in the S&P 500. Nasdaq's relative performance ranking against each of these groups will determine the final number of shares delivered to each individual under the program. The payout under this program will be between 0.0% and 200.0% of the number of PSUs granted and will be determined by Nasdaq's overall performance against both peer groups. However, if Nasdaq's TSR is negative for the three-year performance period, regardless of TSR ranking, the payout will not exceed 100.0% of the number of PSUs granted. The Exchange estimates the fair value of PSU's granted under the three -year PSU program using the Monte Carlo simulation model, as these awards contain a market condition. Assumptions used in the Monte Carlo simulation model include the weighted average risk-free rate and the expected volatility. The risk-free interest rate for periods within the expected life of the award is based on the U.S. Treasury yield curve in effect at the time of grant. The Parent uses historic volatility for PSU awards issued under the TSR program, as implied volatility data could not be obtained for all the companies in the peer groups used for relative performance measurement within the TSR program. Any expenses related to this program that impacts employees of the Exchange are allocated to the Exchange.

Restricted stock is generally time-based and vests over a four-year period beginning on the date of the grant. The grant date fair value of restricted stock awards is based on the closing price of Nasdaq stock at the date of grant less the present value of future cash dividends. Restricted stock awards granted generally vest 25.0% on the second anniversary of the grant date, 25.0% on the third anniversary of the grant date, and 50.0% on the fourth anniversary of the grant date. The Exchange recognizes compensation expense for restricted stock awards on a straight-line basis over the requisite service period of the award, taking into account an estimated forfeiture rate.

7. Share-Based Compensation (continued)

Stock options are also time-based and expire ten years from the grant date, vesting ratably over a four-year period.

The following table shows the total share-based compensation expense allocated to the Company through an intercompany transaction from Nasdaq resulting from equity awards for the year ended December 31, 2018 included in *Compensation and benefits* on the Consolidated Statement of Income:

	Year Ended December 31, 2018
	<i>(In thousands)</i>
Share-based compensation expense before income taxes	\$ 16,693
Income tax benefit	(4,614)
Total share-based compensation expense after income taxes	<u>\$ 12,079</u>

At December 31, 2018, \$24.1 million of total unrecognized compensation cost related to restricted stock and PSUs are expected to be recognized over a weighted-average period of 1.6 years.

8. Related Party Transactions

The Company engages in transactions with the Parent and its affiliates. Third party revenues earned by the Company are collected on its behalf by the Parent resulting in receivables from affiliated companies. Such revenues include income earned from Company affiliates in connection with routing fees charged to other affiliate exchanges, as well as certain transfer pricing arrangements with other affiliated companies. Additionally, expenses incurred by the Exchange are settled on its behalf by the Parent or the Parent's other wholly-owned subsidiaries and allocated through intercompany charges resulting in payables to affiliated companies.

NES operates solely as the routing broker dealer for the Exchange, BX, PHLX, ISEL, GEMX, and MRX, affiliated entities of the Exchange. Under separate equity and options service agreements, the Exchange, BX, PHLX, ISEL, GEMX, and MRX agree to pay a fee per share for routing orders related to securities. Revenue is recognized as earned, and is allocated through an intercompany account. Additionally, expenses incurred by the Company are settled on its behalf by the Parent or the Parent's other subsidiaries and allocated through intercompany charges resulting in payables to affiliated companies.

The Company, its Parent, and affiliates share certain services such as accounting, finance, legal, and other administrative support. Expenses related to these shared services are allocated to the Company and its affiliates through intercompany charges based on an allocation model. These expenses represent amounts related to the Company's proportionate share of each expense incurred. In addition, certain transfer pricing arrangements are established with certain affiliates related to the shared services. The transfer pricing

arrangements utilize a “cost plus” model whereby costs incurred by the Company on behalf of these foreign affiliates are charged back on a “cost plus” basis. The Company allocated out \$27.9 million in expenses for the year ended December 31, 2018, as revenues recognized, and is included in *Other* revenue on the Consolidated Statement of Income.

Occupancy costs are based on leases and adjusted for allocations to/from Nasdaq based on a corporate allocation model based on usage by entity. The Company was allocated \$21.5 million in expenses for the year ended December 31, 2018, which is included in *Occupancy* on the Consolidated Statement of Income.

A Regulatory Services Agreement exists between the Company, PHLX, BX, ISEL, GEMX, and MRX that allows one SRO to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

At December 31, 2018, \$122.1 million remained in *Receivable from Nasdaq, Inc.* All affiliates are ultimately wholly-owned by Nasdaq. It is the intent and ability of management to settle all intercompany balances between Nasdaq and its wholly-owned subsidiaries, such as the Exchange, on a net basis, as Nasdaq serves as the master financing entity for all wholly-owned subsidiaries. In addition, all intercompany transactions are guaranteed by Nasdaq and are settled in accordance with Nasdaq’s intercompany settlement policy. In 2018, the Exchange received \$8.2 million from Nasdaq to settle intercompany balances. Also in 2018, the Exchange paid a dividend of \$550.0 million to the Parent. This transaction between the Exchange and the Parent was settled through *Receivable from Nasdaq, Inc.* The Exchange records all transactions to and from affiliates, including tax, subject to the netting arrangement (Services Agreement) into a single account.

9. Fair Value of Financial Instruments

The Exchange’s financial assets and financial liabilities are recorded at fair value or at amounts that approximate fair value. The carrying amounts reported on the Consolidated Balance Sheet for *Cash and cash equivalents* approximate fair value based on the on-demand nature. Other assets and liabilities with short and intermediate-term maturities and defined settlement amounts, including *Receivables, net, Receivable from Nasdaq, Inc., Other assets, Accounts payable and accrued expenses, Section 31 fees payable to SEC, and Accrued personnel costs* are reported at their contractual amounts, which approximate fair value.

10. Risks and Uncertainties

EXCH’s market participants operate in a highly regulated industry. The SEC and other regulatory authorities could impose regulatory changes that could adversely impact the ability of EXCH’s market participants to use its markets. Regulatory changes by the SEC or other regulatory authorities could result in the loss of a significant number of market participants or a reduction in trading activity on the exchange.

Notes to Consolidated Financial Statements (continued)

10. Risks and Uncertainties (continued)

The markets in which EXCH competes are characterized by rapidly changing technology, evolving industry standards, frequent enhancements to existing products and services, the adoption of new services and products and changing customer demands. EXCH may not be able to keep up with rapid technological and other competitive changes affecting our industry. For example, EXCH must continue to enhance its electronic trading platforms to remain competitive, and its business will be negatively affected if its electronic trading platforms fail to function as expected. If EXCH is unable to develop its electronic trading platforms to include other products and markets, or if its electronic trading platforms do not have the required functionality, performance, capacity, reliability and speed required by its business, as well as by its customers, EXCH may not be able to compete successfully. Further, its failure to anticipate or respond adequately to changes in technology and customer preferences, especially in its market technology business, or any significant delays in product development efforts, could have a material adverse effect on its business, financial condition and operating results.

The Exchange is exposed to credit risk related to transaction, access, and market data services that are billed to customers on a monthly basis, in arrears. The Exchange's potential exposure to credit losses on these transactions is represented in the *Receivables, net* balance on the Consolidated Balance Sheet. The Exchange's customers are financial institutions whose ability to satisfy their contractual obligations may be impacted by volatile securities markets. On an ongoing basis, management reviews and evaluates changes in the status of the counterparty's creditworthiness. Credit losses such as those described above could adversely affect the Exchange's consolidated financial position and results of operations.

The EXCH's business is subject to extensive regulation. Under current U.S. federal securities laws, changes in the rules and operations of EXCH's markets, including its pricing structure, must be reviewed and in many cases explicitly approved by the SEC. The SEC may approve, disapprove, or recommend changes to proposals that EXCH submits. In addition, the SEC may delay either the approval process or the initiation of the public comment process. Any delay in approving changes, or the altering of any proposed change, could have an adverse effect on EXCH's business, financial condition and operating results. EXCH must compete not only with Alternative Trading Systems, known collectively as dark pools, that are not subject to the same SEC approval process but also with other exchanges that may have lower regulation and surveillance costs than it. There is a risk that trading will shift to exchanges that charge lower fees because, among other reasons, they spend significantly less on regulation.

In 2016, the SEC approved a plan to establish a market-wide consolidated audit trail ("CAT") to improve regulators' ability to monitor trading activity. In addition to increased regulatory obligations, implementation of a consolidated audit trail could result in significant additional expenditures, including to implement any new technology to meet any plan's requirements. Creating CAT has required the development and implementation of complex and costly technology. This development effort has been funded by the SROs (including EXCH) in exchange for promissory notes that EXCH expects to be repaid at such time that the SEC approves the assessment of fees for the funding of CAT. The SEC could determine not to approve the assessment of such fees in which case some or all of the promissory notes would not be repaid. In addition, the ongoing failure to timely launch or properly operate such technology exposes EXCH

and other exchanges to SEC fines. EXCH, in conjunction with all other national securities exchanges, has funded CAT NMS, LLC which shall create, implement, and maintain the CAT. At December 31, 2018, EXCH holds \$5.6 million in promissory notes from CAT MNS, LLC and the amount due is included in *Other assets* on the Consolidated Balance Sheet.

11. Commitments, Contingencies and Guarantees

Brokerage Activities

NES, as a registered broker-dealer, is subject to regulatory requirements intended to ensure its general financial soundness and liquidity. These requirements obligate NES to comply with minimum net capital requirements. NES is subject to the SEC's Uniform Net Capital Rule 15c3-1. At December 31, 2018 NES was required to maintain minimum net capital of \$0.3 million and had total net capital of approximately \$16.3 million, or \$16.0 million in excess of the minimum amount required. NES is also subject to OCC Rule 302 which requires maintenance of net capital equal to the greater of \$2.0 million or 6 2/3 percent of aggregate indebtedness. At December 31, 2018, the Company had \$14.3 million of net capital in excess of this minimum requirement.

NES provides guarantees to securities clearinghouses and exchanges under its standard membership agreements, which require members to guarantee the performance of other members. If a member becomes unable to satisfy its obligations to a clearinghouses or exchange, other members would be required to meet its shortfalls. To mitigate these performance risks, the exchanges and clearinghouses often require members to post collateral as well as meet certain minimum financial standards. NES's maximum potential liability under these arrangements cannot be quantified. However, we believe that the potential for NES to be required to make payments under these arrangements is not probable. Accordingly, no contingent liability is recorded in the Consolidated Balance Sheet for these arrangements.

Regulatory Matters

SROs in the securities industry are an essential component of the regulatory structure of the Securities Exchange Act of 1934 (the "Exchange Act"), for providing fair and orderly markets and protecting investors. The Exchange Act and the rules thereunder impose on the SROs many regulatory and operational responsibilities, including the day-to-day responsibilities for market and broker-dealer oversight. In general, an SRO is responsible for regulating its members through the adoption and enforcement of rules and regulations governing the business conduct of its members. A Regulatory Services Agreement exists between the Company, PHLX, BX, ISEL, GEMX, and MRX that allows one SRO to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

The Exchange is subject to SEC oversight, as prescribed by the Exchange Act, including periodic and special examinations by the SEC. The Exchange is also potentially subject to regulatory or legal action by the SEC or other interested parties at any time in connection with alleged regulatory violations. The Exchange is also subject to Section 17 of the Exchange Act, which imposes record-keeping requirements,

The Nasdaq Stock Market LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

11. Commitments, Contingencies and Guarantees (continued)

including the requirement to make records available to the SEC for examination. The Exchange has been subject to a number of routine reviews and inspections by the SEC or other third parties in the ordinary course and in connection with settlements with the SEC. To the extent such actions or reviews and inspections result in regulatory or other changes, the Exchange may be required to modify the manner in which it conducts its business, which may adversely affect our business.

FINRA provides regulatory services to the markets operated or regulated by the Exchange, including the regulation of trading activity and surveillance and investigative functions. The Exchange has a limited direct regulatory role in conducting real-time market monitoring, options surveillance, rulemaking and some membership functions through the Exchange's MarketWatch department. The Exchange refers suspicious trading behavior discovered by its regulatory staff and all other employees of the markets operated or regulated by the Exchange to FINRA for further investigation.

Under our Limitation of Liability Rule and procedures, we, subject to certain caps, provide compensation for losses directly resulting from the trading systems' actual failure to correctly process an order, quote, message or other data into our platform. We do not record a liability for any potential claims that may be submitted under the Limitation of Liability Rule unless they meet the provisions required in accordance with U.S. GAAP. As such, losses arising as a result of the rule are accrued and charged to expense only if the loss is probable and estimable. The Limitation of Liability Rule and procedures apply to both cash equity and derivative trading in the aggregate.

General Litigation

We may be subject to claims arising out of the conduct of our business. Currently, there are certain legal proceedings pending against us. We believe, based on the opinion of counsel, that any liabilities or settlements arising from these proceedings will not have a material effect on our business, consolidated financial condition, or operating results. Management is not aware of any unasserted claims or assessments that would have a material adverse effect on our consolidated financial condition or operation results.

12. Subsequent Events

The Exchange has evaluated subsequent events through June 24, 2019, the date the consolidated financial statements were available to be issued and has determined that there are no known events that require disclosure in the consolidated financial statements or accompanying notes in accordance with ASC 855, Subsequent Events.
