REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholder of
DBS Vickers Securities (USA) Inc.

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of DBS Vickers Securities (USA) Inc. (the "Company"), as of December 31, 2018, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

WithumSmith+Brown, PC

We have served as the Company's auditor since 2014.

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies

Nature of Business

DBS Vickers Securities (USA) Inc. (the "Company") is a Delaware corporation which is wholly-owned by DBS Vickers Securities Holdings PTE Ltd., a subsidiary of DBS Bank Ltd. (the "Parent") based in Singapore. The Company is registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA"). The Company relies on the international dealer exception with the Ontario Securities Commission.

The Company operates as a broker-dealer dealing principally in Pacific Rim and other emerging markets' equity securities and effects securities transactions on behalf of U.S. institutional clients through its foreign broker-dealer affiliates on a delivery and/or receipt versus payment basis. The Company's commissions from customers are collected by an affiliate and remitted to the Company monthly. The Company does not hold cash or securities for its institutional customers.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

These financial statements were approved by management and available for issuance on February 20, 2019. Subsequent events have been evaluated through this date.

Cash and Cash Equivalent

The Company considers highly-liquid investments with original maturities of three months or less to be cash equivalents.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. The Company provides for depreciation on a straight-line basis over the estimated useful lives of the assets of three to seven years. Leasehold improvements are amortized using the straight-line method over the lesser of their economic useful lives or the term of the lease.

Revenue Recognition

On January 1, 2018, we adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 606 by applying the modified retrospective method. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported under the accounting standards in effect for the prior period. The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The adoption of this standard did not have a material impact on prior revenue recognition or on opening equity, as the timing and measurement of revenue recognition for the Company is materially the same under ASC 606 as it was under the prior relevant guidance.

Investment Banking

Investment banking revenues include various expenses arising from securities offerings in which the Company's services are provided. These revenues are recorded in accordance with the terms of the investment banking agreements, which are in accordance with GAAP.

Transactions in Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated into United States dollar amounts at the year-end exchange rates. Transactions denominated in foreign currencies, are translated into United States dollar amounts on the transaction date. Adjustments arising from foreign currency transactions are reflected in commissions on the statement of operations.

Income Taxes

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statements as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense.

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce stockholders equity. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in the U.S. federal and various state and local jurisdictions. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Property and equipment

Details of property and equipment at December 31, 2018 are as follows:

Furniture and Fixtures	\$ 61,350
Leasehold improvements	109,093
Office equipment	1,400
Computer software	15,274
Computer hardware	<u>138,966</u>
	326,083
Less accumulated depreciation And amortization	<u>292,837</u>
	\$ <u>33,246</u>

Depreciation and amortization expense was approximately \$19,000 for the year ended December 31, 2018.

3. Security deposit

At December 31, 2018, the Company had a high yield savings account of approximately \$145,000 pledged to third parties to collateralize a letter of credit related to a lease deposit in connection with the operating lease agreement which was signed in November 2010.

4. Net capital requirement

The Company, as a member of FINRA, is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The Company has elected to use the alternative net capital requirement, permitted by Rule 15c3-1, which requires that the Company maintain minimum regulatory net capital, as defined, equal to the greater of

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

4. Net capital requirement (continued)

\$250,000 or 2% of aggregate debit balances arising from customer transactions, as defined. At December 31, 2018, the Company's net capital was approximately \$6,720,000, which was approximately \$6,470,000 in excess of its minimum requirement of \$250,000.

5. Income taxes

The provision for income taxes for the year ended December 31, 2018 consists of the following:

Current	
Federal	\$ -
State and local	<u>1,069</u>
	<u>1,069</u>
Deferred	
Federal	-
State and local	<u>-</u>
	<u>-</u>
	<u>\$ 1,069</u>

At December 31, 2018, the Company has federal, state, and city net operating loss carryforwards of approximately \$1,731,000, \$763,000, and \$897,000 respectively, which begin to expire in 2034. The Company had approximately \$478,000 of deferred tax assets generated by the net losses as well as other timing differences. The current valuation allowance of approximately \$478,000 is due to changes in net operating loss carryforwards. At December 31, 2017, the valuation allowance was \$359,000. For the year ended December 31, 2018, the Company has determined that realization of its deferred tax asset is not likely and therefore has recorded a valuation reserve for the full amount.

6. Concentrations of credit risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

The Company maintains its cash balances in various financial institutions which at times may exceed federally insured limits. The Company is subject to credit risk to the extent any financial institution with which it conducts business is unable to fulfill contractual obligations on its behalf. Management monitors the financial condition of such financial institutions and does not anticipate any losses for these counterparties.

7. Exemption from Rule 15c3-3

The Company is exempt from SEC Rule 15c3-3 pursuant to the exemptive provision under sub-paragraph (k)(2)(i). The Company does not hold customers' cash or securities and therefore, did not maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers".

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

8. Related party transactions

Substantially all of the Company's commission revenue is derived from effecting securities transactions on behalf of customers, primarily United States institutional investors, with its affiliates in the Pacific Rim and other emerging markets. The Company pays clearing fees to its affiliates based on customer trading activity. Clearing fees paid to the Company affiliates amounted to approximately \$1,251,000 for the year ended December 31, 2018, pursuant to a clearing arrangement with the Parent and its affiliates. The Company's commissions from customers is collected by an affiliate and remitted to the Company monthly after deducting clearing fees owed to the affiliates. As a result, there are no clearing fees payable to affiliates. Commissions receivable from customers (net of clearing fees), pending collection by its affiliate, amounted to approximately \$78,000 as of December 31, 2018.

The Company also receives commissions from its participation in an affiliate's investment banking activity in relation to its trades made to the Company's customers. Such commissions are allocated by the affiliate based on the most current estimates and amounted to approximately \$206,000 for the year ended December 31, 2018.

In 2017, the Company entered into a Referral Agreement with The Williams Capital Group and Academy Securities, (the "Alliance Partners"), both minority owned U.S. SEC registered broker-dealers, whereby they may, from time to time, present their securities services including public and private underwritings of debt and equity securities. DBS Bank, parent to DBS Vickers Securities Holdings PTE Ltd., may refer certain of its clients (the "Clients") to the Company which may introduce such Clients to the Alliance Partners pursuant to the terms of the Referral Agreement. During 2018, the Referral Agreement yielded gross revenue for the Company of approximately \$444,000 of which \$311,000 was paid to DBS Bank. At December 31, 2018, approximately \$181,000 remains payable to the Parent as noted on the Statement of Financial Condition.

The Company has amounts due to affiliates for advances in the normal course of business. As of December 31, 2018, \$20,000 remains due to affiliates, which is not interest bearing and due on demand.

9. Commitments

On November 11, 2010, the Company entered into a new operating lease agreement for office space which expires on February 28, 2021.

Future minimum lease payments as of December 31, 2018 are as follows:

December 31,	Operating Commitments
2019	333,000
2020	333,000
2021	56,000
Total	<u>\$722,000</u>

Rent expense for the year ended December 31, 2018 amounted to approximately \$298,000.

DBS Vickers Securities (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

9. Commitments (continued)

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)." This ASU requires that, for leases longer than one year, a lessee recognize in the statements of financial condition a right-of-use asset, representing the right to use the underlying asset for the lease term, and a lease liability, representing the liability to make lease payments. It also requires that for finance leases, a lessee recognize interest expense on the lease liability, separately from the amortization of the right-of-use asset in the statements of earnings, while for operating leases, such amounts should be recognized as a combined expense. It also requires that for qualifying sale-leaseback transactions the seller recognize any gain or loss (based on the estimated fair value of the asset at the time of sale) when control of the asset is transferred instead of amortizing it over the lease period. In addition, this ASU requires expanded disclosures about the nature and terms of lease agreements.

The ASU is effective for the firm in January 2019 under a modified retrospective approach. The firm's implementation efforts include reviewing the terms of existing leases and service contracts, which may include embedded leases. Based on the implementation efforts to date, the firm expects a gross up of approximately \$753,000 on its statements of financial condition upon recognition of the right-of-use assets and lease liabilities.

10. Customer transactions

In the normal course of business, the Company effects, as agent, transactions on behalf of customers on a basis of either delivery or receipt versus payment. If these agency transactions do not settle due to failure to perform by either the customer or the counterparty, the Company may be obligated to discharge the obligation of the nonperforming party and, as a result, may incur a loss if the market value of the securities is different from the contract amounts. The risk of loss to the Company is normally limited to differences in market values of the securities compared to their contract amounts. At December 31, 2018, there were no estimated losses due to nonperforming parties. All open transactions at December 31, 2018 settled with no resultant loss being incurred by the Company.
