UOB GLOBAL EQUITY SALES LLC
(A Limited Liability Company)

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018 AND 2017

1. ORGANIZATION

UOB Global Equity Sales LLC (the "Company") was established as a limited liability company ("LLC") in the state of New York on November 22, 2002. The Company commenced operations in September 2003, when the Company became a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and a registered member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company is a wholly owned subsidiary of UOB Global Capital LLC (the "Parent").

The Company's activities have been limited to acting as a placement agent for alternative investments, including, but not limited to, hedge funds, private equity funds, etc. The Company does not carry security accounts for customers or perform custodial functions relating to customer securities. The Company's principal business office is located in New York City.

Since the Company is an LLC, the member is not liable for the debts, obligations or liabilities of the Company, whether arising in tort, contract or otherwise, unless the member has signed a specific guarantee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Income is recognized as earned and expenses are recognized as incurred.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenues when there is evidence of an arrangement, performance obligation is identified, the fee revenue is determined and performance obligation has been satisfied.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Accounts Receivable

Accounts receivable are stated at the amount the Company expects to collect. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. Management considers the following factors when determining the collectability of specific customer accounts: customer creditworthiness, past transaction history with the customer, current economic industry trends, and changes in customer payment terms. If the financial conditions of the Company's customers were to deteriorate, adversely affecting their ability to make payments, additional allowances would be required. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Company has made reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management has determined that a valuation allowance was not required at December 31, 2018 and 2017.

Income Taxes

As a single-member LLC, the Company is considered a disregarded entity for Federal, New York State and New York City income tax purposes. No provision for the New York City Unincorporated Business Tax has been made for the years ended December 31, 2018 and 2017.

The Company recognizes and measures its unrecognized tax benefits in accordance with Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 740, *Income Taxes*. Under that guidance, management assesses the likelihood that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period, including the technical merits of those positions. The measurement of unrecognized tax benefits is adjusted when new information is available or when an event occurs that requires a change.

The Company is subject to examinations by taxing authorities.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018 AND 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

New Accounting Pronouncements

As of January 1, 2018, the Company elected to adopt ASU No. 2014-09, *Revenue from Contracts with Customers* ("ASU 2014-09") which applies to contracts with customers to transfer goods or services and contracts to transfer nonfinancial assets unless those contracts are within the scope of other standards (for example, lease transactions). The update supersedes the revenue recognition requirements in Topic 605, Revenue Recognition and most industry-specific guidance. The core principle of the guidance is that revenue is recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. The update is effective for annual periods beginning after December 15, 2017. The Company has evaluated the impact of ASU 2014-09 on the Company's financial statements and determined there was no material impact.

ASU 2016-02, *Leases* ("ASU 2016-02"). In February 2016, the FASB issued ASU 2016-02, which requires that, at lease inception, a lessee recognize in the statements of financial condition a right-of-use asset, representing the right to use the underlying asset for the lease term, and a lease liability, representing the liability to make lease payments. The ASU also requires that for finance leases, a lessee recognize interest expense on the lease liability, separately from the amortization of the right of use asset in the statements of operations, while for operating leases, such amounts should be recognized as a combined expense in the statements of operations. In addition, ASU 2016-02 requires expanded disclosures about the nature and terms of lease agreements and is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period. As of January 1, 2019, the Company adopted ASU 2016-02 and has evaluated its effect on the Company's financial statements and related disclosures and determined there is no material impact.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through February 15, 2019, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. MANAGEMENT AND INCENTIVE FEES

Management and incentive fees are calculated by the investment manager according to the advisory agreement it has with each investor. Management fees are calculated based upon an agreed-upon rate and the value of the assets under management. Incentive fees are calculated at an agreed-upon rate and are dependent on the performance of the investment under management. The Company receives a portion of the management and/or incentive fees for its activities as a placement agent according to its agreement(s) with the investment manager. Generally, such fees are earned and collected in quarterly arrears.

4. RELATED PARTIES

Pursuant to a cost sharing agreement (the "Agreement") between the Parent and the Company, the Parent acts as the common paymaster for certain compensation and overhead costs incurred on behalf of the Company. In addition, pursuant to the Agreement, the Parent acts as the common paymaster for certain non-compensation related expenses incurred by itself and the Company. Included in the aforementioned costs are amounts paid by the Company and the Parent for direct costs as well as costs that are subject to an allocation (the "Allocated Costs") between the Company and the Parent. Allocated Costs generally consist of salaries and related benefits paid for shared personnel, as well as other overhead costs. The Agreement provides that allocations of shared employee compensation costs between the Company and the Parent are based on the estimated amount of time spent by employees on behalf of the Company and the Parent. In addition, the Agreement provides that the allocation of other overhead costs is based primarily on the estimated usage of such services by the Company and the Parent. Total Allocated Costs charged to the Company by the Parent in 2018 and 2017 are included in the accompanying statements of operations and amounted to \$359,120 and \$858,353 in 2018 and 2017, respectively.

The amount due to the Parent is \$22,048 and \$36,886 as of December 31, 2018 and 2017, respectively.

5. NET CAPITAL AND RESERVE REQUIREMENTS

The Company is subject to the SEC's Uniform Net Capital Rule ("SEC Rule 15c3-1"), which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, not exceed 15 to 1. Net capital and aggregate indebtedness change from day to day. At December 31, 2018 and 2017, the Company's regulatory net capital was \$297,121 and \$365,657, respectively, which exceeded the Company's minimum net capital requirement of

5. NET CAPITAL AND RESERVE REQUIREMENTS (Cont'd)

\$5,000 for both years. At December 31, 2018, the Company's ratio of aggregate indebtedness to net capital was .145 to 1.

6. CONCENTRATION OF CREDIT RISK

The Company places its cash and cash equivalents, which may at times be in excess of Federal Deposit Insurance Corporation limits, with high credit quality financial institutions and attempts to limit the amount of credit exposure with any one institution. Accounts receivable are from investment advisors for which the Company reviews their backgrounds and credit history before entering into agreements. Allowances for possible losses are based on factors surrounding the credit risk of the investment advisor, historical trends and other information. At December 31, 2018 and 2017, one customer accounted for 97% and 94% of the Company's accounts receivable, respectively. The Company's receivables represent amounts due from the customer. These receivables are primarily paid to the Company in the month following the quarter in which the amounts are earned.
