Notes to Financial Statements

1. Nature of Business and Summary of Significant Accounting Policies

The Nature of business and a summary of the significant accounting policies of Huckin Financial Group, Inc. (the “Company”) is set forth below:

Basis of presentation

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States and are expressed in U.S. dollars. The Company’s fiscal year end is December 31.

Organization and nature of business

Huckin Financial Group, Inc. was incorporated in Texas on January 2, 1982, and is a registered broker-dealer under the Securities Exchange Act of 1934 and a member of the National Association of Securities Dealers, Inc. The Company is also registered as an investment advisor with the Texas State Securities Board. Additionally, the Company is licensed as an insurance agency under state laws.

Revenue recognition

On January 1, 2018, we adopted Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in Accounting Standards Codification (ASC) Topic 605, *Revenue Recognition (Topic 605)*. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606. The impact of adopting the new revenue standard was not material to our financial statements and there was no adjustment to beginning retained earnings on January 1, 2018.

Under Topic 606, revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

We determine revenue recognition through the following steps:

- identification of the contract, or contracts, with a customer;
- identification of the performance obligations in the contract;
- determination of the transaction price;
- allocation of the transaction price to the performance obligations in the contract;
- and
- recognition of revenue when, or as, we satisfy a performance obligation.

Revenue from the sale of annuity products, insurance products, mutual funds, security transactions and other revenue are recognized on the accrual basis. The Company

records its revenue as received adjusted monthly for receivables based on the Company's estimate of revenue earned from the sale of specific financial products, but not yet collected from the respective insurance company, mutual fund or other financial services company. Securities transactions and all related revenue and expense are recorded in the accounts on a settlement date basis. Revenue and expenses related to securities transactions executed but not yet settled as of period end are not material to the Company's financial statements.

Commissions from the sale of annuity products are recognized when the annuity issuer accepts the sales contract or when a contract is renewed. Commission refunds and charge-backs are normally recognized when the Company is notified of policy cancellation by an annuity issuer.

Revenue from the sale of mutual funds is recognized when the investment in the mutual fund is made.

Depreciation

Depreciation of furniture and equipment is provided on the straight line method over the estimated useful lives of the assets of five to seven years.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Property, plant and equipment

Property and equipment is recorded at historical cost, including expenditures which substantially increase the useful lives of existing property and equipment. Maintenance, repairs and minor renewals are expensed as incurred. Costs of assets sold or retired and the related amounts of accumulated depreciation or amortization are eliminated from the accounts in the year of sale or retirement; any resulting gain or loss is reflected in the statement of income.

Cash and cash equivalents

For purposes of the statement of cash flows, cash includes cash on hand, bank checking, money market accounts and money market mutual funds, and short term debt instruments with a maturity of three months or less. As of December 31, 2018, there were no cash equivalents.

Advertising

The costs of advertising are expensed either as incurred or the first time the advertising takes place.

Securities owned

Securities owned by a broker-dealer are subject to specialized industry guidance as prescribed by the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide, Brokers and Dealers in Securities. Securities held by broker-dealers are accounted for at fair value with realized and unrealized gains and losses included in earnings. As of December 31, 2018, there were no securities owned by the Company.

Credit risk

The Company maintains its cash in bank deposit accounts, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

The Company does not require collateral from its customers with respect to accounts receivable but performs periodic credit evaluations of such customers' financial conditions. The Company determines any required allowance by considering a number of factors including lengths of time accounts receivable are past due and our previous loss history. The Company provides reserves for accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts. As of December 31, 2018 the Company has determined that no allowance for doubtful accounts is required.

Income taxes

The Company elected to be treated as an S-Corporation effective January 1, 2010 which does not pay U.S. federal income taxes itself, nor does it recognize income taxes resulting from members' tax situations, if any. As such, no income taxes have been recognized for the year ended December 31, 2018.

Recent accounting pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Topic 606, which supersedes the revenue recognition requirements in Topic 605. We adopted Topic 606 as of January 1, 2018. See *Revenue Recognition* above for further details.

In February 2018, the FASB issued Accounting Standards Update No. 2018-02, *Income Statement—Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income* (ASU 2018-02), which allows companies to reclassify stranded tax effects resulting from the Tax Act, from

accumulated other comprehensive income to retained earnings. The new standard is effective beginning January 1, 2019, with early adoption permitted. The tax effects are anticipated as a result of this standard.

In January 2017, the FASB issued Accounting Standards Update No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (ASU 2017-01), which revises the definition of a business and provides new guidance in evaluating when a set of transferred assets and activities is a business. The new standard does not impact on our financial statements.

In March, 2017, the FASB issued Update 2017-08—*Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. For public business entities, the amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period.

In March 2017, the FASB issued Update 2017-07—*Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. Effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those annual periods. For other entities, the amendments in this Update are effective for annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, early adoption should be within the first interim period if an employer issues interim financial statements. Disclosures of the nature of and reason for the change in accounting principle are required in the first interim and annual periods of adoption.

2. Furniture and Equipment

Furniture and equipment consist of the following at December 31, 2018:

Equipment	\$49,331
Furniture	<u>94,681</u>
Total Cost	<u>144,012</u>
Less Accumulated Depreciation	(128,471)
Net	<u>\$ 15,541</u>

Depreciation expense for the period ended December 31, 2018 was \$5,576.

3. Employee Benefit Plans

The Company offers a simple IRA plan as well as health insurance plan with Blue Cross Blue Shield.

4. Contingencies

The Company is subject to the normal business risks inherent to broker-dealers in the securities industry. Commission revenue may be unfavorably impacted by changes in financial markets, loss or changes in dealer relationships, loss of access to traditional markets, and product suitability risks attributable to agent and customer relationships. As of December 31, 2018, no claims had been asserted against the Company.

5. Operating Leases

The Company leases its office space under an operating lease that expires on June 30, 2020. Future minimum rental payments required under the noncancellable operating lease as of December 31, 2018, are:

Year	Amount
2019	\$83,099
2020	\$41,550
2021	\$ -

Rental expense on the office space for the ended December 31, 2018 was \$86,092.

6. Minimum Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Retained earnings may be restricted as to payment of dividends if this ratio exceeds 10 to 1. At December 31, 2018, the Company had net capital of \$162,189 which exceeded its required net capital of \$5,000 by \$157,189. Withdrawals of equity capital are restricted from causing the Company's net capital to be less than \$5,000. The Company's ratio of aggregate indebtedness to net capital was .12 to 1. There were no liabilities subordinated to the claims of general creditors during 2018.

7. Fair Value of Financial Instruments

Current accounting literature clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions,

accounting literature established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows.

- Level 1. Observable inputs such as quoted market prices in active markets;
- Level 2. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company had no assets or liabilities that were measured and recognized at fair value on a non-recurring basis as of December 31, 2018, and as such, had no assets or liabilities that fell into the tiers described above.

8. Subsequent Events

Management reported that there are no reportable events through the date of this filing.
