Notes to the Financial Statements

December 31, 2018

NOTE A – SUMMARY OF ACCOUNTING POLICIES

Accounting principles followed by Stinson Securities, LLC (the Company) and the methods of applying those principles which materially affect the determination of financial position, results of operation and cash flows are summarized below:

Organization

The Company) was formed as a California Limited Liability Company in July 19, 2001. The National Association of Securities Dealers, Inc. (NASD) approved the Company's application to provide broker-dealer services for the sale of corporate equity and debt securities, U.S. government and municipal securities, mutual funds and variable life insurance products. The Company has adopted a calendar year.

Description of Business

The Company, located in San Francisco, CA is a broker-dealer in securities registered with the Securities and Exchanges Commission ("SEC") and is a member of FINRA. The Company operates under SEC Rule 15c3-3(k)(ii), which provides "All customers transactions are cleared through another broker-dealer on a fully disclosed basis." The Company participates in municipal and corporate debt securities underwriting, and brokers U.S. government municipal and corporate debt securities, and the sale of private placements of securities.

Basis of Accounting

The financial statements of the Corporation have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update "(ASU)" 2014-09, Revenue from Contracts with Customers: Topic 606, to supersede nearly all existing revenue recognition guidance under GAAP. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date, which deferred the effective date for implementation of ASU 2014-09 by one year and is now effective for annual reporting periods beginning after December 15, 2017, with early adoption permitted but not earlier than the original effective date. ASU 2014-09 also requires new qualitative and quantitative disclosures, including disaggregation of revenues and descriptions of performance obligations. The new standard is in effect for fiscal years beginning July 1, 2018, and interim periods therein, using the modified retrospective method. The Company has performed an assessment of its revenue contracts as well as worked with industry participants on matters of interpretation and application and has not identified any material changes to the timing or amount of its revenue recognition under ASU 2014-09. The Company's accounting policies did not change materially as a result of applying the principles of revenue recognition from ASU-2014-09 and are largely consistent with existing guidance and current practices applied by the Company.

Stinson Securities, LLC

Cash and Cash Equivalents

The Company considers as cash all short-term investments with an original maturity of three months or less to be cash equivalents.

Accounts Receivable – Recognition of Bad Debt

The Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Revenue Recognition

A. Significant accounting policy

Revenue is measured based on a consideration specified in a contract with a customer and excludes any sales incentives and amounts collected on behalf of third parties. The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a customer

Taxes and regulatory fees assessed by a government authority or agency that are both imposed on and concurrent with a specified revenue-producing transaction, that are collected by the Company from a customer, are excluded from revenue.

B. Nature of services

The Company applied Topic 606 under the cumulative effect method – i.e by recognizing the cumulative effect if initially applying Topic 606 as an adjustment to the opening balance of equity at January 1, 2018. There were no adjustments necessary.

Revenue from contracts equal to twelve months or less in duration is recognized upon termination, completion and acceptance by the customer and when the collectability of the related receivable is reasonably assured.

The Company underwrites municipal bond offerings by contracting to purchase and then sell offerings on a best effort basis. Commission revenues are recorded by the Company on the trade date reported by the clearing broker with whom it does business. The difference between the price paid and the issue price, the gross underwriting spread, is recognized as underwriting income on the trade date of the sale.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. All of the Company's cash and cash equivalents are held at high credit quality financial institutions.

Fair Value of Financial Instruments

Financial instruments that are subject to fair value disclosure requirements are carried in the financial statements at an amount that approximates fair value and include cash and cash equivalents. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risk.

Stinson Securities, LLC

Comprehensive Income

Statement of Financial Accounting Standards (SFAS) No. 130, Reporting Comprehensive Income, establishes requirements for disclosure of comprehensive income that includes certain items previously not included in the statement of income, including unrealized gains and losses on available-for-sales securities and foreign currency translation adjustment among others. During the year ended December 31, 2018, the Company did not have any components of comprehensive income to report.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

For federal income tax purposes, Stinson Securities, LLC, a limited liability company has elected to be taxed as partnership. Federal and state income tax statutes require that the income or loss of the LLC be included in the tax returns of the individual members. Management believes there are no uncertain tax positions.

Concentrations

The Company has revenue concentrations; the company specializes in sales of municipal and corporate debt securities underwriting, U.S. government municipal and corporate debt securities.

Subsequent Event

The Company has evaluated events subsequent to the balance sheet date for items requiring recording or disclosure in the financial statements. The evaluation was performed through February 15, 2019, which is the date the financial statement were available to be issued. Based upon this review, the Company has determined that there were no events which took place that would have a material impact on its financial statements.

NOTE B – NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-3 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis.

During the period August 8, 2018 to August 10, 2018 and further from September 6, 2018 to October 22, 2018 and extending to February 15, 2019 (the date of audit issuance), the Company did not maintain sufficient regulatory net capital of \$100,000 under SEA Rule 15c3-1(a) to qualify as an underwriter. On August 16, 2018 the Company maintained net capital of \$84,514 which was \$15,486 below its minimum of \$100,000. On October 22, 2018, the Company maintained net capital of \$94,850 which was \$5,150 below its requirement of \$100,000.

Stinson Securities, LLC

During this period and until the date of issuance of the audit report on February 15, 2019 however, the Company operated as a broker dealer with a \$5,000 minimum net capital requirement. Throughout the year the Company met the exemptive provision of SEA Rule 15c3-3(k)(2)(ii) as a fully disclosed broker dealer and did not engage in any securities business, or conduct an underwriting or syndicate business, or hold customer accounts or funds.

The Company notified the SEC and its Designated Examining Authority of its net capital position on August 16, 2018 and again on October 22, 2018.

A reconciliation of the difference between the Company's audit report and its FOCUS filed at December 31, 2018 reflects the adjustment of its minimum capital requirement from \$100,000 to \$5,000.

NOTE C – POSSESSION OR CONTROL REQUIREMENTS

The Company does not have any possession or control of customer's funds or securities. There were no material inadequacies in the procedures followed in adhering to the exemptive provisions of SEC Rule 15c-3-3(k)(ii).

NOTE D – CAPITALIZATION AND DISTRIBUTION

The Company has three classes of members. Class B members have priority over Class A and Class C members with the respect to return of capital and distributions. Class B members are entitled to distributions of 1% of gross revenue for every \$10,000 invested as capital. Class C members are entitled to a distribution of .5% for each \$10,000 invested as capital. The Class A Members are entitled to the remaining profit or loss. A members' liability is equal to their respective capital contribution.

Under the Company's amended Operating Agreement, no Class C member is either required or permitted to make additional capital contributions.

NOTE E – RENT

The amount of rent for 2018 was \$37,624.

NOTE F – LINES OF CREDIT

The balance of the line of credit at December 31, 2018 was 24,048 and the interest rate was 12.25%.

NOTE G – OTHER COMMITMENTS AND CONTINGENCIES

The Company has a clearing agreement with its clearing broker-dealer which included an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on the unsettled trade. At December 31, 2018, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware of any potential losses relating to this indemnification.

NOTE H – GOING CONCERN

The Company will not engage in an underwriting, other than best efforts, or in any syndicate business without the Company enabling its capital to meet the minimum and early warning provisions of SEA Rule 15c3-1. Management believes that additional capital is available from its members to meet such requirements in 2019.
