Report of Independent Registered Public Accounting Firm

To the Members of GovDesk, LLC.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of GovDesk, LLC. (the "Company") as of December 31, 2018, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements are fairly stated, in all material respects.

Dave Banerjee CPA, an Accountancy Corporation
We have served as the Company's auditor since 2015.

See independent auditor's report and accompanying notes.

Govdesk LLC
Notes to the Financial Statements
December 31, 2018

1. Organization

Govdesk LLC (the "Company") was formed as a Limited Liability Company in California in September 1997, with a termination date of September 30, 2047.

The Company registered as a broker-dealer with the Securities and Exchange Commission in August, 1998, and is a member of the Financial Industry Regulatory Authority. The Company engages in the brokerage of United States government securities, corporate bonds, and private placement of securities and related advisory services on a fee basis.

2. Significant Accounting Policies

Cash and Cash Equivalents

The Company considers all demand deposits held in banks and certain highly liquid investments with original maturities of three months or less, other than those held for sale in the ordinary course of business, to be cash equivalents.

Accounts Receivable

The Company considers accounts receivable to be fully collectible, and accordingly, no allowance for doubtful accounts has been provided. Management reviews accounts receivable and sets up an allowance for doubtful accounts when collection of a receivable becomes unlikely.

Furniture and Equipment

Furniture and equipment purchases greater than \$500 are valued at cost. Depreciation is being provided by the use of the straight-line method over estimated useful lives ranging from five to seven years. Total cost of furniture and equipment was \$37,388. Accumulated depreciation was \$31,247 and current depreciation expense amounts to \$4,733.

Investment Banking Fees:

Investment banking revenues are earned from providing advisory services related to the private placement of securities. Revenue is recognized when earned either by fee contract or the success of a predetermined specified event and the income is reasonably determined.

Trading Revenue

Commissions are related to securities transactions and are recorded on a trade date basis.

The Company buys and sells securities on an agency basis on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

The Company adopted Topic 606 "Revenue from Contracts with Customers" with a date of January 1, 2018. As a result, it has changed its accounting policy for revenue recognition as detailed below.

The Company applied Topic 606 using the cumulative effect method – i.e. by recognizing the cumulative effect of initially applying Topic 606 as an adjustment to the opening balance of equity at January 1, 2018. This was immaterial. Therefore, any prior reporting information has not been adjusted and continues to be reported under Topic 606.

Govdesk LLC
Notes to the Financial Statements
December 31, 2018

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and may have an impact on future periods.

Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

Income Taxes

The Company, a limited liability company, has elected to be taxed as a partnership under the Internal Revenue Code and a similar state statute. In lieu of income taxes, the Company passes 100% of its taxable income and expenses to its members. Therefore, no provision or liability for federal or state income taxes is included in these financial statements. However, the Company is subject to the annual California LLC tax of \$800 and a California LLC fee based on gross income. The Company is no longer subject to examinations by major tax jurisdictions for years before 2012.

3. Fair Market Measurements

The Fair Value Measurements Topic of the FASB accounting standards codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 Unobservable inputs for the asset or liability

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. It is the company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets and liabilities where there exists limited or no observable market data, and therefore, are based primarily upon management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the assets and liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future value. The Company had no financial instruments to measure for fair value as of December 31, 2018.

Govdesk LLC
Notes to the Financial Statements
December 31, 2018

4. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform net capital rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2018, the Company had net capital of \$20,232 which was \$12,075 in excess of its required net capital of \$8,157. The Company's ratio of aggregate indebtedness to net capital was 6.05 to 1.

5. Risk Concentration

Due to the nature of the merger and acquisition business, the company's investment banking fees during the period was primarily the result of a few customers. The company earned all of its investment banking fee revenue from one customer.

6. Related Parties

The Company is affiliated with Seagate Research and Consulting LLC ("Seagate Research"), Seagate Global Advisors LLC ("Seagate Global"), and SEAL Capital, Inc. ("SEAL"). A member of the Company is also a member of Seagate Research, Seagate Global, and SEAL.

Jeffery Matthews Financial is a broker-dealer and served as the Company's clearing broker where all customer transactions are cleared on a fully disclosed basis. At December 31, 2018 \$22,663 is due from Jeffery Matthews. During 2018, clearance fees totaling \$31,148 was paid to Jeffery Matthews.

During 2018, the Company paid \$195,513 to King Harbor Wealth Management ("KHWM") for consulting services. KHWM is an entity which wholly owned by Management of Govdesk, LLC.

7. Lease Obligation

The Company has a lease agreement for office space in Redondo Beach, California. The Company sub-leases office space on a month to month basis to Seagate Global. On November 1, 2018, the Company signed a one-year lease extension which expires on October 31, 2019. Future minimum lease payments under the lease are:

<u>Year</u>	<u>Amount</u>
2019	21,226
<u>Total</u>	<u>\$ 21,226</u>

Rent Expense for the year ended December 31, 2018 was \$24,461.

8. Financial Instruments with Off-Balance-Sheet Credit Risk

As a securities broker, the Company executes transactions with and on the behalf of customers. The Company introduces these transactions for clearance to a clearing firm on a fully disclosed basis.

Govdesk LLC
Notes to the Financial Statements
December 31, 2018

8. Financial Instruments with Off-Balance-Sheet Credit Risk Continued

In the normal course of business, the Company's customer activities involve the execution of securities transactions and settlement by its clearing broker. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to nonperformance by its customers. These activities may expose the Company to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations.

In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at the prevailing market price in order to fulfill the customer's obligation.

The Company seeks to control off-the-balance-sheet credit risk by monitoring its customer transaction and reviewing information it receives from its clearing broker on a daily basis and reserving for doubtful accounts when necessary.

9. Recent Accounting Pronouncements

ASC 606, Revenue from Contracts with Customers, was issued on May 28, 2014. ASC 606 provides guidance related to revenue from contracts with customers. Guidance applies to all entities and to all contracts with customers, with the exception of the following transactions noted in ASC 606-10: lease contracts, insurance contracts, financial instruments and other contractual rights or obligations, guarantees, nonmonetary exchanges between entities in the same line of business. For public business entities, certain not-for-profit entities, and certain employee plans, the effective date for ASC 606 is annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2017. Early application is permitted only as of annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016.

The effective date for all other entities is annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2018.

As of the reporting date the company has not yet adopted the recently issued accounting standards, as trading revenue on principal trades are exempted from the application of the new standard.

In February 2016, the FASB issued new accounting guidance related to leases. This update, effective for the Company beginning January 1, 2019, will replace existing lease guidance in GAAP and will require lessees to recognize lease assets and lease liabilities on the balance sheet for all leases and disclose key information about leasing arrangements. When implemented, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company currently has approximately \$19,610 of lease obligations that would come on balance sheet as both assets and liabilities upon adoption of this accounting standard.

10. Subsequent Events

The Company has evaluated subsequent events through February 22, 2019, the date which the financial statements were available to be issued. Based upon the review, the Company had determined that there are no events which took place that would have a material impact on the financial statements, which would require disclosure.
