NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2018

1. ORGANIZATION AND NATURE OF BUSINESS

PCA Capital Securities, LLC (the “Company”), formed in the State of Delaware on June 30, 2004, is a broker-dealer registered with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company operates primarily as an agent that assists issuers in executing Equity Private Placements for which it earns fees. The members share profits and losses equally and each member’s liability is limited. The Company continues until such time it is terminated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation

The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

b) Use of Estimates

The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

c) Revenue Recognition

Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers (“ASC 606”). The new revenue recognition guidance, which has been amended several times, requires that an entity recognize revenue to depict the transfer of promised services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. The guidance requires an entity to follow a five-step model to (a) identify the contract with a customer (b) identify the performance obligations in the contract (c) determine the transaction price (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when the entity satisfies a performance obligation. In connection with adoption of ASC 606, the Company evaluated its revenue contracts and concluded that ASC 606 would not cause revenue to be recognized differently than it has historically been recorded concerning the amounts and timing of its recognition.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

c) Revenue Recognition (cont'd)

The Company's principle source of revenue is derived from referral fees earned for introducing investors to funds and residual interests afterwards. Each distinct service listed on the agreements with asset managers is considered a performance obligation. The fees earned are allocated to each distinct performance obligations and revenue is recognized when performance obligations are met. The Company's key performance obligation is met when the underlying information from the respective asset managers is received and authenticated. The Company is generally deemed to control the services; accordingly, it presents the revenues gross of the associated third-party costs.

d) Income Taxes

No provision has been made for Federal or New York State ("NYS") income taxes since the Company is treated like a partnership under the Internal Revenue Code and NYS Partnership tax law whereby its income will be taxed directly to its members.

However, the Company is liable for New York City Unincorporated Business taxes ("UBT"). The Company did not have income in 2018 and no provision for income taxes is included in the accompanying financial statements.

The Company recognizes deferred tax assets or liabilities for the future tax consequences of events that have been recognized differently in their financial statements and UBT tax returns. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The Company prepares its UBT tax returns on a cash basis. Accordingly, the Company records deferred tax assets or liabilities for the increase or decrease in future years' tax liabilities related to the temporary differences which arise by utilizing these two accounting methods. Deferred taxes are primarily attributable to accounts receivable and accrued expenses for financial statement purposes. The Company did not record any deferred taxes at December 31, 2018.
