ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE A - Organization and nature of business

Access Financial Group, Inc. (the Company) was incorporated in the State of Delaware on December 18, 1992. The Company is a registered securities broker-dealer and registered investment advisor regulated by the Securities and Exchange Commission and Financial Investors Regulatory Authority, and clears its trades through a clearing broker on a fully disclosed basis. The Company provides recordkeeping, investment services and investment advice, primarily to funeral directors and cemetery associations throughout the United States.

NOTE B - Summary of significant accounting policies

Basis of accounting

The Company uses the accrual method of accounting. Customer transactions are cleared on a fully disclosed basis through another broker-dealer. Commissions and related clearing expenses are recorded on a trade date basis as transactions occur.

Cash and cash equivalents

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents. Furthermore, the Company maintains its cash in accounts at various financial institutions. The balances, at times, may exceed federally insured amounts. Management periodically reviews the financial stability of these institutions.

Management fee receivable, administrative fees receivable and allowance for doubtful accounts

Management and administrative fees are recognized as income ratably during the year. Management fees and administrative fees are billed substantially in arrears of each calendar quarter. The Company determined there were no accounts deemed uncollectible, and as a result had no allowance for doubtful accounts recorded at December 31, 2018

Property and equipment

Property and equipment are carried at cost and depreciated by the straight-line method over the estimated useful lives of the assets.

Income taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. The differences relate to primarily depreciable assets (use of different depreciation methods and lives for financial statement and income tax purposes), accrued compensation and other comprehensive income. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Revenue Recognition

The Company adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606), and all related amendments on January 1, 2018. The adoption of ASU 2014-09 had no impact on the Company's financial statements for the year ended December 31, 2018, as the timing of revenue recognition for all contracts and revenue streams remains substantially unchanged. Commission revenue, investment advisory fees, and recordkeeping fees are recognized based upon the accrual method of accounting. These fees are fixed in nature and are thus quantifiable on a monthly basis.

The Company buys and sells securities on behalf of its clients; these transactions result in commission revenue for the Company. Commissions and related clearing expenses are recorded on the trade date. The Company believes that the performance obligation is satisfied on the trade date, as the pricing is agreed upon with the identification of the underlying financial instrument or purchaser. Once the transaction has been agreed upon, the risk and rewards of ownership transfer to or from the customer.

The Company charges fees to its clients for providing investment advisory services and recordkeeping fees to its trust service clients. The Company believes the performance obligation for providing these services is satisfied over time, with the customer receiving and consuming the services as they are provided by the Company. Fee arrangements are based on a percentage applied to a customer's assets under management. Fees are received monthly or quarterly, and are recognized as revenue in the period(s) specific to the services provided.

Advertising costs

The Company expenses advertising costs as incurred. Advertising expense for year ending December 31, 2018 was \$ 949.

Securities transactions

Securities transactions on behalf of customers and the related income and expenses are recorded on trade date. Proprietary securities transactions are recorded on trade date, as if they have settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Securities owned are recorded at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures.

Fair value of financial instruments

FASB ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels established by FASB ASC 820 are described as follows:

Level 1 - Valuation is based on quoted prices for identical assets or liabilities traded in active markets.

Level 2 - Valuation is based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 - Valuation is based on model-based techniques that use significant inputs and assumptions not observable in the market. These unobservable inputs and assumptions reflect the Fund's estimates of inputs and assumptions that market participants would use in pricing the assets and liabilities, and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fair values of the Company's assets and liabilities, which qualify as financial instruments, approximate the carrying amounts presented in the Statement of Financial Condition.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive income

Other comprehensive income refers to revenues, expenses, gains and losses that, under accounting principles generally accepted in the United States of America, are included in comprehensive income but are excluded from net income as these amounts are recorded directly as an adjustment to stockholders' equity.

Subsequent events

The Company has evaluated subsequent events through February 25, 2019, the date which the financial statements were issued, and has determined that there were no subsequent events to recognize or disclose in these financial statements.

NOTE C - Employee benefit plan

The Company's eligible employees participate in a Safe Harbor 401(k) plan. The Company made its mandatory Safe Harbor contribution; however, no additional discretionary contributions were made. The amount of the Safe Harbor contribution for the year ending December 31, 2018 was \$46,150.

NOTE D - Securities owned, at fair value

In accordance with the ASC 820, the following tables represent the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2018:

	<u>Quoted Prices In Active Markets for Identical Assets (Level 1)</u>
Equities and financial institution preferred equities	\$1,144,129

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE D - Securities owned, at fair value, continued

There were no transfers between levels during the year ending December 31, 2018. The company classifies its marketable securities as "available for sale". They may be sold in response to changes in interest rates, liquidity need, and for other purposes.

Cost and fair value of marketable equity securities at December 31, 2018 are as follows:

	Cost	Gross unrealized gains	Fair value
Equities and financial institution preferred equities	<u>\$1,084,153</u>	<u>\$59,976</u>	<u>\$1,144,129</u>

NOTE E - Commitments and related party transactions

The Company leases office space under an operating lease agreement expiring on May 31, 2022. The lease is with a partnership in which the officers of the Company have an interest. Future minimum rentals, exclusive of additional payments for operating expenses and taxes, are as follows for the years ending December 31st:

2019	\$	158,947
2020		161,729
2021		164,559
2022		69,061
	\$	<u>554,296</u>

Rent expense for the year ending December 31, 2018 was \$ 156,213 which was paid to the affiliated partnership.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE F - Property and equipment

Property and equipment

Property and equipment consist of the following as of December 31, 2018:

Furniture and equipment	\$	15,427
Computer equipment	\$	165,074
Leasehold improvements	\$	88,947
	\$	269,448
Less accumulated depreciation	\$	(228,674)
	\$	<u>40,774</u>

Depreciation expense for the twelve months ending December 31, 2018 was \$29,573.

NOTE G - Off balance sheet credit and market risk

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

Receivables from broker-dealers represent a concentration of credit risk and primarily relate to fees and commissions receivables on security transactions. The Company does not anticipate nonperformance by customers or broker-dealers with which it conducts business.

NOTE H - Net capital requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2018, the Company has a net capital of \$2,028,923, (per regulatory requirements) which is \$1,978,923 in excess of its required net capital of \$50,000. The Company's ratio of aggregate indebtedness to net capital ratio was .14 to 1 at December 31, 2018.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL

STATEMENTS

NOTE I - Income taxes

The Company's total deferred tax assets and deferred tax liabilities at December 31, 2018 are as follows:

Total deferred tax assets	\$ 24,150
Total deferred tax liability	<u>(20,550)</u>
Net deferred tax assets	<u>\$ 3,600</u>

The Company's provision for income taxes consists of the following:

Current income tax expense	\$ 43,358
Deferred tax benefit	<u>(8,400)</u>
	<u>\$ 34,958</u>

The provision for income taxes is based upon income or loss before tax for financial reporting purposes. Deferred tax assets or liabilities are recognized for the expected future tax consequences of temporary differences between tax basis of assets and liabilities and their carrying values for financial reporting purposes. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company files income tax returns in the U.S. federal jurisdiction and Illinois. The Company follows the accounting guidance for uncertainty in income taxes according to the FASB ASC 740, *Income Taxes*. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities.

As of December 31, 2018, the Company had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. It is the Company's policy to include any penalties and interest related to income taxes in its operating expenses, however, the Company currently has no penalties or interest related to income taxes. The company is no longer subject to U.S. federal and state income tax examinations by the authorities for years before 2015.

On December 22, 2017 the Tax Cuts and Jobs Act (the "Act") was signed into law. Among other provisions, the Act reduces the Federal statutory corporate income tax rate from 35% to 21% beginning in 2018. We have incorporated the new rates in our tax calculations for the year ended December 31, 2018 and the effects are reflected in our financial statements.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE I - Income taxes, continued

The provision for income taxes generally does not bear the customary relationship to pretax statutory income that would be expected applying ordinary corporate tax rates. A reconciliation of the Company's provision for taxes determined by applying the federal and state statutory rate of 28% as of

December 31, 2018 is as follow:

		<u>Effective Tax Rate</u>
Tax computed at statutory rate	\$ 49,908	28.00 %
Dividends received deduction	(14,532)	(8.10)%
Other	<u>(418)</u>	<u>(.29)%</u>
Total statutory income taxes incurred	<u>\$ 34,958</u>	<u>19.61%</u>

NOTE J - Recent accounting pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The guidance in this ASU supersedes the leasing guidance in Topic 840, Leases. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard will be effective for the Company's December 31, 2020 financial statements.

Management is currently reviewing the impact of these accounting pronouncements on the Company's financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
Access Financial Group, Inc.

We have reviewed management's statements, included in the accompanying exemption report, in which (1) Access Financial Group, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which Access Financial Group, Inc. claimed an exemption from 17 C.F.R. §240.15c3-3:(k)(2)(ii) (the "exemption provisions") and (2) Access Financial Group, Inc. stated that Access Financial Group, Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. Access Financial Group, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Access Financial Group, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

RE: Letter of explanation for Access Financial Group Deductions on 12/31/2018 SIPC 7 Calculation

Dear Ms. King,

It was suggested by SIPC that we always include this letter as an explanation of our deductions of Funeral Home Accounting Fees from our SIPC calculation. Access Financial Group does participant record-keeping for funeral homes and cemeteries preneed trusts through its memorial record keeping division, Interment Trust Services (ITS). People prepay for their funerals and burial plots and pay this money to their funeral homes or cemeteries (FH/Cems). These FH/Cems need to put the funds in a funeral trust account. ITS/Access does participant detailed record-keeping for the FH/Cem accounts in three different types of accounting services. These will be described below.

- 1) **Investment Advisory FH/Cem Accounts.** For these accounts, Access does the investment management is paid an Investment Advisory Fee and receives NO commissions. This Investment Advisory revenue is included in the calculation of revenue that SIPC receives a fee on. Access also receives an accounting fee on the NH trust that is not part of the Investment Advisory Fee and therefore these fees been excluded from the SIPC calculation, as this portion of the business has nothing to do with investments.
- 2) **Investment Management / Record-Keeping accounts.** For these accounts, Any investments purchased or sold through Access that generate commissions are included in the SIPC calculation, for which SIPC receives a fee. Any ITS Record-Keeping fees for accounting services from this group of FH/Cem accounts have been excluded from the SIPC calculation, as this portion of the business has nothing to do with investments.
- 3) **TPA Only Accounts – Third Party Record-Keeping.** For these accounts, Access has nothing to do with any of the investments, and receives a copy of the bank or trust statement from outside Banks to do accounting services. ITS/Access only performs a TPA/accounting service function and therefore excludes all revenues from this line of business from the SIPC calculation, as this portion of the business has nothing to do with investments.
