To the Board of Directors and Shareholders
of Cantone Research, Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Cantone Research, Inc. as of December 31, 2018, the related statements of income, changes in shareholders' equity, and cash flows for the year then ended, and the related notes and schedules (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of Cantone Research, Inc. as of December 31, 2018, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in the accompanying notes to the financial statements, Note 11 – Commitments and Contingencies, the Company and its officers are the subject of a formal complaint filed by the Financial Regulatory Agency ("FINRA") in connection with a private placement of securities in 2015. An Extended Hearing Panel ("EHP") decided on a fine against the Company. An appeal was lodged with the National Adjudicatory Council ("NAC") of FINRA. The NAC issued its decision on January 16, 2019, largely affirming the findings of the EHP. On February 13, 2019, the Company filed an appeal of the NAC decision with the U.S. Securities and Exchange Commission ("SEC"). As a result of the NAC decision, the Company is, per applicable regulations, statutorily disqualified ("SD"). On February 15, 2019, the Company, filed the required Membership Continuance (MC) form with FINRA in order to continue its membership despite the SD. The Company is currently awaiting the SEC's decision regarding its appeal. After giving consideration to the Company's liquidity and the circumstances regarding the Company's appeal process with the SEC, we believe that there is reasonable basis to management's assessment that the Company is able to continue to operate as a going concern during the next operating period. Our audit opinion is not modified as result of this matter.

Basis for Opinion

These financial statements are the responsibility of Cantone Research, Inc.'s management. Our responsibility is to express an opinion on Cantone Research, Inc.'s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Cantone Research, Inc. in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The Schedule I-Computation of Net Capital Under Rule 15c3-1, and Exemption Report on Schedule II-Computation for Determination of Reserve Requirements Under SEC Rule 15c3-3, and Exemption Report on Schedule III-Information Relating to Possession or Control Requirements Under SEC Rule 15c3-3 has been subjected to audit procedures performed in conjunction with the audit of Cantone Research, Inc.'s financial statements. The supplemental information is the responsibility of Cantone Research, Inc.'s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Schedule I-Computation of Net Capital Under Rule 15c3-1, and Exemption Report on Schedule II-Computation for Determination of Reserve Requirements Under SEC Rule 15c3-3, and Exemption Report on Schedule III-Information Relating to Possession or Control Requirements Under SEC Rule 15c3-3 is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Organization

Cantone Research, Inc. (the "Company") is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA).

Nature of Business

The Company is engaged in a single line of business as an introducing broker-dealer for its clients. The Company is an introducing broker-dealer for its clients and clears its securities transactions on a fully disclosed basis primarily through Wedbush Securities, Inc. ("Wedbush").

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Company is presented to assist in understanding the Company's financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America.

Basis of Accounting

The financial statements include all the accounts of the Company. The accompanying financial statements are presented on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Commission

Commission fee income is recognized when the customer has agreed with the Company on the security to be transacted and the amount of commission to be charged, the service has been rendered, at which point there are no outstanding performance obligations due to the customer, and the Company is assured that its commission fee will be received. Transactions in securities, including the related commission revenues and expenses, are recorded on a trade-date basis as securities transactions occur.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments

Investments are recorded at fair value in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 320, *Investments*. Trading gains and losses, which are composed of both realized and unrealized gains and losses, from all security transactions entered into for the account and risk of the Company are recorded using the specific identification method on a trade-date basis.

Depreciation

The Company provides for depreciation of furniture and equipment on the straight-line method over estimated useful lives of three, five and seven years. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease.

Concentration of Credit Risk

Financial instruments that potentially expose the Company to concentrations of credit risk consist principally of cash. The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. Company's management performs periodic reviews of the relative credit rating of its banks to lower its risk. The Company had not experienced any losses in such accounts and believes it is not exposed to any significant credit risk. Commission receivable is due primarily from its clearing broker and other financial institutions. The Company has not historically experienced any uncollectible balances from these parties; accordingly, the management has determined that an allowance for credit losses and bad debt is not necessary.

Advertising

The Company follows the policy of charging the costs of advertising to expense as incurred. There was no advertising expense for the year ended December 31, 2018.

Income Taxes

The Company, with the consent of its sole stockholder, has elected to report as an S corporation for both Federal and New Jersey corporate income tax purposes. In lieu of Federal corporation income taxes, the stockholders of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for current year federal income taxes has been included in the financial statements. In New Jersey, "S" corporations pay a reduced rate corporate income tax and are subject to a minimum tax.

The Company follows the provisions of FASB ASC 740, *Income Taxes*. This standard provides guidance on accounting for income taxes, including uncertain tax positions.

No interest and penalties related to income taxes have been recognized in the accompanying financial statements. The Company believes there are no uncertain tax positions. Income tax returns filed or to be filed for years ended December 31, 2017 through 2018 remain open, and are subject to review by applicable tax authorities.

Deferred Rent

Deferred rent, included in accrued expenses, consists of the difference between cash basis rent payments and the straight-line rent expense over the term of the lease.

CANTONE RESEARCH, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE 6 – FAIR VALUE MEASUREMENT

Fair value guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under market conditions.

In accordance with this guidance, the Company groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

Level 1 - Valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation.

For financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2018, the fair value measurements by level within the fair value hierarchy used are as follows:

	<u>Assets and Liabilities at Fair Value as of December 31, 2018</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
Securities - common stock	\$ 1,179,986	\$ -	\$ -	\$ 1,179,986

		\$	<u><u>31,198</u></u>

The Company calculates depreciation for its fixed assets using the straight-line method. The Company recorded \$8,031 in depreciation expense during 2018.

NOTE 8 – NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1).

At December 31, 2018, the Company's net capital was \$830,987, which was \$730,987 in excess of its required net capital of \$100,000. The Company's aggregate indebtedness to net capital ratio was 0.47 to 1 at December 31, 2018.

The Company does not carry securities accounts for customers or perform custodial functions related to customer securities. This allows the Company to claim an exemption from SEC Rule 15c3-3 under paragraph (k)(2)(ii), which relates to the maintenance of special accounts for the exclusive benefits of customers.

NOTE 10 – 401(k) PLAN

The Company provides a 401(k) profit sharing plan. The Company does not match the contributions by the participating, eligible employees. The Company did not make any profit sharing contributions for the year ended December 31, 2018.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

The Financial Regulatory Agency ("FINRA") filed a formal complaint against the Company and its officers in 2015 in connection with the private placements of securities. An Extended Hearing Panel ("EHP") decided on a fine against the Company in the amount of \$225,000, jointly and severally, and ordered the Company to pay costs in the amount of \$17,201, jointly and severally. The Company has accrued the fine and costs in full. Both parties appealed the decision to the National Adjudicatory Council ("NAC"). The NAC issued its decision on January 16, 2019, largely affirming the findings of the EHP. On February 13, 2019, the Company filed an appeal of the NAC decision with the U.S. Securities and Exchange Commission ("SEC"). As a result of the NAC decision, the Company is, per applicable regulations, statutorily disqualified ("SD"). On February 15, 2019, the Company filed the required Membership Continuance (MC) form with FINRA in order to continue its membership despite the SD. The FINRA complaint is seeking \$6 million in investor restitution. Both the Extended Hearing Panel and the NAC did not support this claim. Additionally, the issuer of the securities at issue, has agreed in Federal Court to repay the investors. In light of the judgment against the issuer of the securities, the expected loss to the Company is expected to be minimal at this time.

The New Jersey Bureau of Securities ("Bureau") filed a lawsuit in 2015 in New Jersey Superior Court against the Company and affiliates related to the private placement of securities by the Company in 2005 and 2007. To resolve the matter, without admitting liability, in June 2017, the Company agreed to pay customer restitution in the amount of \$1,800,000 and a civil monetary penalty of \$600,000, both jointly and severally. Per the agreement, \$1,100,000 of the restitution was paid during 2017. The remaining \$700,000 was paid in October 2018. Additionally, per the agreement, \$300,000 of the penalty was paid during 2017. The remaining \$300,000 was waived by the Bureau in December 2018 as the remaining restitution was paid on a timely basis.

The U.S. Securities and Exchange Commission ("SEC") is currently conducting an investigation related to the offering of private securities by the Company. The Company is cooperating with the SEC's investigation. To date, the Company has provided documents and the testimony of its employees to the SEC.

Customer transactions are cleared through a clearing organization on a fully disclosed basis. In the event that customers are unable to fulfill their contractual obligations, the clearing organization may charge the Company for any losses incurred in connection with the purchase or sale of securities at prevailing market prices to satisfy customers' obligations. The Company regularly monitors the activity in its customer accounts for compliance with the clearing organization margin requirements.

The Company is exposed to the risk of loss on unsettled customer transactions in the event customers and other counterparties are unable to fulfill contractual obligations. Securities transactions entered into as of December 31, 2018 settled with no adverse effect on the Company's financial condition.

The Company is subject to other lawsuits, claims and other legal proceedings in connection with its business. Some of these legal actions include claims for substantial or unspecified compensatory and/or punitive damages. A substantial adverse judgment or other unfavorable resolution of these matters could have a material adverse effect on the Company's Statement of Financial Condition or could cause the Company significant reputational harm. However, in light of the uncertainties involved in such matters, the Company is unable to predict the outcome or the timing of the ultimate resolution of these matters or the potential losses, if any, that may result from these matters.
