REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Directors and Equity Owners of Glendale Securities, Inc.:

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Glendale Securities, Inc. (the "Company") as of December 31, 2018, the related statements of operations, changes in stockholders' equity, and cash flows for the year then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States.

Emphasis of Matter Regarding Litigation

As discussed in Note 5&7 to the financial statements, the Company is a defendant in a FINRA Disciplinary Proceedings and accordingly a preliminary order was issued on April 5, 2019 imposing fines on the Company as well as certain of its officers and registered representatives. The Company believes the charges are defensible but an adverse ruling on this matter could have a profound effect upon the Company's ability to continue operations. Since it is not possible, at this time, to predict the outcome of this contingency, we have not modified our opinion on the financial statements taken as a whole and have not included any adjustments that might result from the outcome of these uncertainties.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. Federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The information contained in Schedules I, II and III ("Supplemental Information") has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The Supplemental Information is the responsibility of the Company's management. Our audit procedures included determining whether the Supplemental Information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Information. In forming our opinion on the Supplemental Information, we evaluated whether the Supplemental Information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, Schedules I, II and III are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 1 – Organization and Nature of Business

Glendale Securities, Inc. (the “Company”) was incorporated in the State of California on August 19, 2002. The Company is a registered broker-dealer with the Securities Exchange Commission (SEC), the Financial Industry Regulatory Authority (“FINRA”), the Municipal Securities Rulemaking Board (“MSRB”), and the Securities Investor Protection Corporation (“SIPC”). The Company has two locations: one in Sherman Oaks, California and one in New York, New York.

Note 2 – Significant Accounting Policies

Basis of Presentation – The Company is an introducing broker-dealer that clears all transactions with and for customers on a fully disclosed basis with a registered securities clearing broker and promptly transmits all customer funds and securities to the clearing broker, which carries all of the accounts of such customers and maintains and preserves such books and records pertaining thereto pursuant to the requirements of the SEC Rule 17a-3 and 17a-4, as are customarily made and kept by a clearing broker or dealer.

Under its membership agreement with FINRA and the exemption provisions of SEC Rule 15c3(k)(2)(ii), the Company is exempt from the requirement of Rule 15c3-3 under the Securities Exchange Act of 1934 pertaining to the possession or control of customer assets and reserve requirements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Commissions - The Company earns commissions by referring client transactions in mutual funds, and equities. Commissions revenue is recognized in the period earned when the performance obligation is satisfied. Customers’ securities transactions and related commission income and expenses are recorded on a trade-date basis.

Securities Inventory – Proprietary securities transactions in regular-way trades are recorded on trade date. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Securities inventory positions are marked to market at the end of each reporting period.

Services – The Company provides DTC Eligibility services to issuers of securities. Services and related income and expenses are recorded when the services are performed under the terms of the underlying engagements.

Accounts Receivable – The Company recognizes an allowance for doubtful accounts to record its Accounts Receivable and other balances receivable at net collection value. No such allowance was required as of December 31, 2018.

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 2 – Significant Accounting Policies (continued)

Clearing Broker Deposit - The Company has a clearing agreement with Wilson-Davis & Co., Inc. which requires a minimum deposit of \$100,000. The clearing broker deposit at December 31, 2018 was \$100,000.

Income Taxes – The amount of current taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates.

The Company recognizes and measures its unrecognized tax benefits in accordance with FASB ASC 740, *Income Taxes*. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances, and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an organization in its tax returns that might be uncertain. Management has considered its tax positions and believes that all of the positions taken by the Company in its Federal and State organization tax returns are more likely than not to be sustained upon examination. The Company is subject to examinations by U.S. Federal and State tax authorities from 2015 to the present, generally for three years after they are filed.

Note 3 - Fair Value

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

Note 3 - Fair Value (continued)

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2018.

Fair Value Measurements on a Recurring Basis
As of December 31, 2018

	Level 1	Level 2	Level 3	Total

Ending Balance at December 31, 2018	<u>\$ 202,000</u>

Investment at FMV represents an equity investment in another entity with minimal operations to date, therefore the investment is currently held at cost. [See Note 5]

Penny Stocks are valued using the last trade on December 31, 2018 or the best bid price if there were no trades on December 31, 2018.

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 4 – Commissions and Fees Payable

As of December 31, 2018, the Company had Commissions payable of \$19,510 and Referral fees payable of \$19,780, representing balances due to broker-dealers and registered representatives.

Note 5 – Related Party

Investments, at fair market value in the amount of \$202,000 as of December 31, 2018 represent an investment in GLEN Holdings Corp. ("GHC"), which is owned by certain shareholders and officers of the Company. GHC is a holding company principally for the purchase of a controlling interest in the Company's clearing firm, Wilson-Davis & Co., Inc. ("WDCO"). The Company initially invested \$502,600 in GHC during 2017, of which \$300,600 was redeemed for cash during 2018.

The Company believes that its shareholders may close on the acquisition of a controlling financial or beneficial interest in WDCO during 2019. There are substantial regulatory, financial and business hurdles for the closing transaction to occur. As a result, the Company's investment transactions and balances referred to in the preceding paragraph are recorded at cost, which the Company believes represents fair market value currently.

Effective January 2018, WDCO is the Company's sole clearing broker for customer and proprietary transactions, as set forth in Footnote 2. In addition to GHC's current and pending interests in WDCO noted above, a Company officer and shareholder is a member of WDCO's Board of Directors. As of December 31, 2018, Due from clearing firm (related party), or WDCO, amounted to \$254,949, consisting of clearing transactions receivable of \$154,949 and deposit of \$100,000. The clearing transactions receivable is recorded net of associated amounts payable on the Statement of Financial Condition.

As of December 31, 2018, a balance of \$137,857 was due from a stockholder under the Company's terms of a proprietary trading agreement. The balance is non-interest bearing without a stated repayment date.

The Company incurred a substantial net loss for the year ended December 31, 2018. The Company and its stockholders have sufficient available financials resources and are committed to fund the Company as needed to maintain its normal operations in the future.

It is possible that the terms of certain related party transactions are not the same as those that would result from transactions among wholly unrelated parties.

Note 6 – Provision For Income Taxes

The Company files its tax returns on an accrual basis. The current income tax expense included in the statements of operations as determined in accordance with FASB ASC 740 is as follows:

	<u>Federal</u>	<u>State</u>	<u>Local</u>	<u>Total</u>
Current	\$ -	\$ (60,024)	\$ -	\$ (60,024)
Deferred	(198,378)	(23,413)		(221,791)
Total	<u>\$ (198,378)</u>	<u>\$ (83,437)</u>	<u>\$ -</u>	<u>\$ (281,815)</u>

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 6 – Provision For Income Taxes (continued)

As required by the Income Taxes Topic of Financial Accounting Standards Board *Accounting Standards Codification*, deferred taxes are accounted for using an asset and liability approach in recognizing timing differences. This approach requires the recognition of deferred tax assets and liabilities for the expected future tax of such timing differences.

Timing differences include the use of the cash basis for tax purposes and accrual basis for accounting purposes and the different treatment between book and tax accounting methodologies arising from the daily operating activities of the Company. The differences result primarily from the benefit of net operating losses being carried back and/or forwards, the cash basis for reporting income, expenses, and state taxes for tax purposes. These differences are recorded as deferred tax assets and/or liabilities that are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of deferred tax assets and liabilities are adjusted to reflect changes in tax rates that are recognized in the period coinciding with the enactment date.

For the year ended December 31, 2018, the Company has approximately \$198,378 and \$23,413 of net operating loss carry forwards for Federal and California purposes, respectively, expiring through 2035.

Balance at December 31, 2018	
Deferred tax Asset	\$ 221,791
Less: valuation allowance	<u>-</u>
Net deferred tax asset	<u>\$ 221,791</u>

The Company performed an analysis of the deferred tax asset account balance for the year ended December 31, 2018, concluding no change in the valuation allowance to offset against the Company's ability to utilize the deferred tax asset in future years.

Note 7 – Litigation

On April 5, 2019, the FINRA Department of Enforcement issued its decision order (the "Decision") pursuant to a six-cause Complaint against the Company as well as certain officers and registered representatives (the "Defendants"). The Decision dismissed the majority of the alleged causes, however imposed fines and costs amounting to \$167,289 and operating sanctions against the Defendants.

Upon consultation with legal counsel, the Company believes that it has meritorious defenses and intends to defend itself vigorously in accordance with the FINRA appeal process, which is multi-tiered. This process may take considerable time in the future. The Company further believes that the outcome, or range of outcomes, is not probable and estimable currently.

No adjustments are included in these financial statements related to this uncertainty.

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 7 - Litigation (continued)

In the normal course of business, the Company has possible exposure or may be a defendant in legal actions, claims and disputes arising out of its activities as a registered broker-dealer. While predicting the resolution of such matters is inherently difficult, the Company believes that there are no other actions or possible actions that would have a material impact on the financial statements.

Note 8 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2018, the Company had net capital of \$208,071 which was \$108,071 in excess of its required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 1.42 to 1.

Note 9 - Pension Plan

During 2010, the Company adopted a 401 (k) plan covering eligible employees of the Company. All employees are eligible to contribute immediately upon employment. The Company did not make any contributions to the plan for the year ended December 31, 2018.

Note 10 - Operating Lease

On May 7, 2015 the Company entered into a five year lease for office space under a non-cancellable operating lease, commencing September 1, 2015 and expiring August 31, 2020.

At December 31, 2018 future minimum lease payments under this agreement were as follows:

2019	\$ 101,487
2020	<u>69,219</u>
	<u>\$ 170,706</u>

Rent expense for the year ended December 31, 2018 was \$102,678.

Note 11 - Concentrations

Amounts held in financial institutions occasionally are in excess of the Federal Deposit Insurance Corporation and Securities Investor Protection Corporation limits. The Company deposits its cash in creditworthy financial institutions, and the Company believes it is not exposed to significant credit risk on those amounts.

The Company is engaged in various trading and brokerage activities in which counter-parties primarily include broker-dealers, banks, and other financial institutions. In the event counter-parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter-party or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counter-party.

Glendale Securities, Inc.
Notes to Financial Statements
December 31, 2018

Note 12 – Subsequent Events

The Company has reviewed transactions and events from its year-end December 31, 2018 through the date the financial statements were available to be issued for matters which require recording and/or disclosure in the financial statements. See Notes 5 and 7 for matters identified.

Note 13 – Recently Issued Accounting Pronouncements

The Financial Accounting Standards Board (the “FASB”) has established the Accounting Standards Codification (“Codification” or “ASC”) as the authoritative source of generally accepted accounting principles (“GAAP”) recognized by the FASB. The principles embodied in the Codification are to be applied by nongovernmental entities in the preparation of financial statements in accordance with GAAP in the United States. New accounting pronouncements are incorporated into the ASC through the issuance of Accounting Standards Updates (“ASUs”).

Revenue Recognition - In May 2014, the Financial Accounting Standards Board (“FASB”) updated the accounting guidance related to the revenue recognition. The updated accounting guidance provides a single, contract-based revenue recognition model to help improve financial reporting by providing clearer guidance on when an entity should recognize revenue and by reducing the number of standards to which an entity has to refer.

The core principle of the new standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for these goods or services.

The new standard was effective for the Company as of January 1, 2018. Its adoption did not have a material impact on the Company’s financial statements.

Leases - In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which supersedes the existing guidance for lease accounting. ASU 2016-02 requires lessees to recognize leases with terms longer than 12 months on their balance sheets. It requires different patterns of recording lease expense for finance and operating leases. It also requires expanded lease agreement disclosures. Lessor accounting is largely unchanged. ASU 2016-02 is effective for the Company as of its year ending December 31, 2019

Management has determined that ASU 2016-02 will not have a material impact on the Company’s financial statements.
