CU Investment Solutions LLC Notes to Financial Statements

1. Nature of Organization

CU Investment Solutions LLC (the "Company") is registered with the Securities and Exchange Commission as a securities broker/dealer under the Securities Exchange Act of 1934 and is also a registered investment adviser with the State of Kansas. The Company is a member of the Financial Industry Regulatory Authority, Inc. and the Securities Investor Protection Corporation.

The Company was incorporated in Kansas on December 21, 1988, and as of September 29, 2011 operated as a wholly owned subsidiary of U.S. Central Bridge Corporate Federal Credit Union. The Company was formed for the purpose of providing investment services to the corporate credit union network. In anticipation of a change in ownership, the Company converted from an incorporated entity to a single member limited liability company ("LLC") under the Kansas Revised LLC act on June 30, 2011.

On September 30, 2011 the Company was acquired by a group of corporate credit unions and continues to provide broker/dealer and investment advisory services to the corporate and natural person credit union sector.

The Company derives the majority of revenues and expenses from its relationships with its owner members and other corporate and natural person credit unions. Future revenues depend on the continued reliance of these entities on the Company for securities transaction processing and other services.

The Company clears all transactions for its customers on a fully-disclosed basis with a clearing broker-dealer, who carries all customers' accounts and maintains the related records. Accordingly, the Company is exempt from Rule 15c3-3 of the Securities Exchange Act of 1934, under paragraph (k)(2)(ii) of that Rule.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Company is presented to assist in understanding the financial statements of the Company. These accounting policies conform to accounting principles generally accepted in the United States ("GAAP") and reflect practices appropriate to the industry in which the Company operates.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as the disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CU Investment Solutions LLC Notes to Financial Statements

Cash and cash equivalents

Cash and cash equivalents represent funds on deposit at financial institutions. Share/deposit insurance at the natural person credit union is provided by the National Credit Union Share Insurance Fund ("NCUSIF"), a U.S. Government insurance fund for account balances up to \$250,000. Deposit insurance at the U.S. bank and trust company is provided by the Federal Deposit Insurance Corporation ("FDIC"). Cash and cash equivalents held on deposit at a U.S. bank and trust company exceeding insurance coverage was \$757,480 in the operating accounts as of September 30, 2019. Cash balances held at the U.S. clearing firm are insured by the Securities Investor Protection Corporation ("SIPC") up to \$250,000. Cash balances exceeding insurance coverage was \$805,480 at the U.S. clearing firm as of September 30, 2019.

Securities Transactions

Customer securities transactions, executed on a fully-disclosed basis by the Company's clearing broker-dealer, are recorded on a settlement-date basis, generally within two business days after trade date, with related transaction revenue recorded on a trade-date basis. In certain cases, another broker/dealer or customer will fail to deliver securities to the clearing broker-dealer, and as a result, the clearing broker-dealer will fail to deliver securities to the counterparty to the transaction. The Company's clearing broker-dealer promptly forwards securities upon receipt and settles cash when the securities are delivered.

Proprietary securities transactions, executed for the account and benefit of the Company, are recorded on a trade-date basis. As of September 30, 2019, the company did not hold any investment securities. As of September 30, 2018, the Company held investment securities with a fair value of \$1,226,256. The investment securities are recorded at fair value, with changes in fair value recorded in the statement of operations.

Interest and dividend revenues are accounted for on an accrual basis and included in interest income. Direct trading expenses associated with proprietary security transactions are recorded when incurred, which is typically the trade-date.

Revenue recognition

The Company adopted ASC Topic 606, Revenue from Contracts with Customers during the year, by applying the modified retrospective method. Adoption had no material impact on the Company's financial condition, results of operations or cash flows. Accordingly, the adoption of the new standard did not result in a transition adjustment to opening retained earnings, and as a result, revenues for contracts with customers would not have been adjusted in prior periods and are not presented herein on an adjusted basis.

The Company's revenue recognition methods for its contracts with customers prior to the adoption of Topic 606 were consistent with its methods after the adoption of Topic 606. The

CU Investment Solutions LLC Notes to Financial Statements

Company records a receivable when revenue is recognized prior to payment and when the Company has an unconditional right to payment. The Company records a contract liability when payment is received prior to the time at which the satisfaction of the contract obligation occurs.

The new revenue guidance does not apply to revenue associated with financial instruments, including securities that are accounted for under other U.S. GAAP, and as a result, did not have an impact on the elements of the Company's consolidated statement of comprehensive income most closely associated with financial instruments, including interest income. The new standard primarily impacts the presentation of the following revenue streams:

Corporate agent program ("CAP") and financial product sales ("FPS") revenues represent payment for the execution of securities transactions on behalf of corporate and natural person credit union customers. Revenues are recognized on the date of execution (trade date). The Company's performance obligations consist of trade execution and clearing services and are fully satisfied on the settlement date. Substantially all revenue received is from related parties.

Advisory revenues represent fees paid by corporate customers for assistance with asset/liability management reporting and analysis of their investment strategies. Advisory revenues are recognized when earned, generally when the services are rendered. The Company's performance obligations have been fulfilled on invoice date. Substantially all revenue received is from related parties.

Platform fee revenues represent fees paid by corporate owners for their usage of the Company's business infrastructure and services over the following twelve months. Platform fees are recorded when invoiced as Deferred Revenue and accreted to income over a twelve-month period at a straight-line rate. The Company's performance obligation is satisfied at the end of the twelve-month period. Substantially all revenue received is from related parties.

Income Taxes

The Company is treated for tax purposes substantially as a partnership and, accordingly, is not subject to federal or state income taxes.

3. Investment Securities

Investments securities at September 30, 2018 were as follows:

CU Investment Solutions LLC
Notes to Financial Statements

	2018			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Brokered Certificates of Deposit	1,239,630	-	(13,374)	1,226,256
	\$ 1,239,630	\$ -	\$ (13,374)	\$ 1,226,256

There were realized losses of (\$1,218) due to securities sales during the year ended 2019 and no realized gains or losses due to no sales of securities during the year ended September 30, 2018.

4. Fair Value Measurement

The Company follows Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a hierarchy for determining the fair value of financial and non-financial instruments. The hierarchy consists of three levels of valuations based on the evidence used to determine the fair value. ASC 820 requires that the highest level of valuation available be used based on market observable data. A "Level 1" valuation is a quoted market price for a particular (or identical) asset in a market that is actively trading. A valuation is considered to be "Level 2" when a quoted market price (in an active market) is not available, but all significant inputs into the calculation of fair value represent data observable in an active market. A valuation is considered "Level 3" when any significant component of the fair value calculation is based on data that is not observable in an active market, but rather is based on estimates by management or outside parties.

The following table presents the balances of investments measured at fair value as of September 30, 2018:

	2018 Fair Value Using			Total Fair Value
	Level 1	Level 2	Level 3	
Brokered Certificates of Deposit	-	1,226,256	-	1,226,256
	\$ -	\$ 1,226,256	\$ -	\$ 1,226,256

The fair value of certificates of deposits is estimated using third-party quotations as provided by our clearing firm, which applies commonly used pricing services and practices. These deposits are categorized in Level 2 of the fair value hierarchy.

5. Related Party Transactions

Certain of the member-owners of the Company currently utilize the CAP to facilitate marketable security transactions on behalf of their natural person credit union members

Expenses in connection with this agreement are included in professional and outside services and totaled \$78,607 and \$76,904 for the years ended September 30, 2019 and 2018, respectively. These fees were recorded as Deferred Revenue and accreted to income at a straight-line rate of \$41,667 monthly, starting in July 2018 and ending June 2019. The Corporate Platform Fee was renewed for July 2019 in the same aggregate amount and using the same accounting treatment. The balance of Deferred Revenue is \$375,000 as of September 30, 2019.

Approximately 90.8 and 79 percent of total revenue was recorded from four member owners in 2019 and three member owners in 2018, respectively.

6. Income Taxes

At September 30, 2019 and 2018, the Company believes it has retained its' non-taxable status, and therefore does not have any significant uncertain tax positions which did not meet the more likely than not measurement threshold. The Company's policy is to recognize interest and penalties related to uncertain tax positions in the income tax provision. The Company is no longer subject to income tax examinations in significant jurisdictions for years before 2016.

CU Investment Solutions LLC **Notes to Financial Statements**

8. Business Risks and Concentrations

In the normal course of business, the Company acts in the capacity of principal in executing and settling securities transactions. Business risk results from the possibility that a loss may occur from the failure of another party to perform according to the terms of settlement. The Company has control procedures regarding securities transactions with counterparties and the manner in which they are settled. The settlement of open transactions as of September 30, 2019, did not have a material adverse effect on the financial statements of the Company.

As of September 30, 2019 and 2018, the Company provided its transaction and advisory services solely to corporate credit unions and members of corporate credit unions throughout the United States. As such, the Company's business is reliant upon its relationship with corporate credit unions, including primarily its member-owners and their natural person credit union members.

In the ordinary course of its business, the Company is involved in various legal proceedings involving contractual and employment relationships and a variety of other matters. Additionally during the ordinary course of business the Company may be subjected to fines imposed by regulatory agencies. While the Company cannot predict the outcome of its pending regulatory and legal matters with certainty, the Company does not believe any currently identified claim, proceeding or litigation, either individually or in aggregate, or regulatory fines will have a material impact on the Company's results of operations, financial position or cash flows.

10. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule ("Rule 15c3-1"). The Company computes its net capital requirements under the basic method provided for in Rule 15c3-1. The basic method requires minimum net capital to be the greater of \$100,000 or 6 2/3% of aggregate indebtedness. 11. Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases (Topic 842)." This update is to "increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements." This standard will require the Company to recognize our current office space operating lease as both an asset and offsetting liability on the balance sheet. The standard is effective for reporting periods beginning after December 15, 2020.

12. Subsequent Events
