YR Securities, LLC

Notes to Financial Statements

June 30, 2019

(1) ORGANIZATION

YR Securities, LLC ("Firm") is currently organized as an LLC Virginia partnership. As of September 23, 2015, the Firm became a registered broker/dealer with the Financial Industry Regulatory Authority (FINRA) and the Securities and Exchange Commission (SEC). The Firm is a limited service financial firm headquartered in Norfolk, Virginia. The Firm engages in application way business with various mutual fund and insurance companies. Revenue is earned through commission trails on transactions and fee trails based on a percentage of account values held with its customers. The majority of the Firm's customers are located in the southeastern United States.

(2) ACCOUNTING AND REPORTING PRINCIPLES

The following is a summary of the significant accounting policies followed by the Firm:

a. BASIS of ACCOUNTING

The accounting and reporting policies of the Firm are on the accrual basis of accounting which is in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

b. USE OF ESTIMATES

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

c. REVENUE

This includes commission income and trail income. The Firm recognizes revenue from contracts with customers according to a five-step revenue recognition model: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The Firm's contracts with customers generally contain a single performance obligation or separately identified performance obligations, each with a stated transaction price and generally do not involve a significant timing difference between satisfaction of the performance obligation and customer payment. Revenues are recognized over time or at a point in time as the performance obligations are satisfied. Recognition of these revenues does not involve significant estimates or constraints.

Commission income is recognized when a performance obligation is satisfied at a point in time. Commission income is recognized on a trade date basis. Trail income which is associated with annuity investments is recognized over time, as earned. Trail income is generally based on a percentage of the annuity premium or the account value of the investment. These revenues are shown disaggregated on the statement of operations.

YR Securities, LLC

Notes to Financial Statements

June 30, 2019

d. COMMISSION RECEIVABLE

The Firm utilizes the allowance method to recognize potential losses on commissions receivable. There were no accounts which management considered uncollectible at June 30, 2019, accordingly, no allowance was considered necessary.

e. INCOME TAXES

The Firm is organized as an LLC, treated as a partnership for tax purposes and is not subject to income taxes in any jurisdiction. Each partner is responsible for the tax liability, if any, related to its proportionate share of the Partnership's taxable income. Accordingly, no provision for income taxes is reflected in the accompanying financial statements.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, *Income Taxes*, prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Firm's management has evaluated the impact of this guidance to its financial statements. The Firm's income tax returns are subject to examination by taxing authorities, generally for a period of three years from the date the returns are filed. The Firm's policy is to classify income tax related interest and penalties in interest expense and other expenses, respectively.

f. RECENT ACCOUNTING PRONOUNCEMENTS

Effective July 1, 2018, the Firm adopted ASU 2014-09, *Revenue from Contracts with Customers*, along with its related amendments, which provides guidance on the core principle that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU applies to all contracts with customers, except financial instruments, guarantees, lease contracts, insurance contracts and certain non-monetary exchanges. The Firm used the modified retrospective approach. This guidance did not significantly affect the Firm's financial position and results of operations.

(3) CONCENTRATIONS OF CREDIT RISK

The Firm is engaged in various trading and brokerage activities in which counterparties primarily include broker/dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Firm may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Firm's policy to review, as necessary, the credit standing of each counterparty.

(4) LIABILITIES SUBORDINATE TO CLAIMS OF GENERAL CREDITORS

The Firm has no subordination agreements.

(5) SUBSEQUENT EVENTS

The Firm has evaluated subsequent events to the balance sheet date for items requiring recording or disclosure in the financial statements. The evaluation was performed through the date the financial statements were available to be issued, which was August 23, 2019.

(6) TRANSACTIONS WITH RELATED PARTIES

The Firm pays rent expense to Dominion Capital Partners, LLC ("Dominion"), who holds the main rental agreement of the office building the Firm operates out of. Dominion is a related party through common ownership. The Firm has a sublease agreement in place with Dominion that outlines the details of these transactions. The Firm's total rent expense paid under this lease for July 1, 2018 through June 30, 2019 was \$3,630.

The Firm also shares expenses with WWI LLC, its' affiliated Registered Investment Advisory Firm, for a Customer Relationship Manager (CRM) system. The Firm's total CRM expense for the year ended June 30, 2019 was \$3,765.

(7) INTANGIBLE ASSETS

During the year ended June 30, 2018 the Firm purchased a customer list including Assets Under Management. The customer list does not have specific contract terms. As of June 30, 2019, management does not believe there are any current facts or circumstances indicating impairment of the asset. Based on industry experience management has estimated a 15-year useful life for the customer list. Total amortization expense of \$5,000 was recorded as an operating expense in the Firm's statement of operations for the year ended June 30, 2019.

(8) NET CAPITAL REQUIREMENTS

The Firm is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) ("Rule"), which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital as defined by the Rule, shall not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn, or cash distributions paid if the resulting net capital ratio would exceed 10 to 1.
