LEADER CAPITAL CORPORATION

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED JUNE 30, 2019

**NOTE 1 - NATURE OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

Organization – Leader Capital Corporation (the “Company”) was incorporated in the state of Oregon on June 27, 2001 and reorganized in the State of Washington on May 31, 2009. The Company is a wholly owned subsidiary of Leader Holding Company, Inc. (“Leader Holding”). The Company is registered as a broker/dealer and an investment advisor with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's principal business activity is providing investment advice.

Basis of Presentation - The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Recognition of Revenue - Effective July 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers (“ASC Topic 606”). The new revenue recognition guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies the performance obligation. The Company applied the modified retrospective method for adoption which did not result in a cumulative adjustment to retained earnings as of July 1, 2018.

Revenues are recognized when control of the promised services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. Revenues are analyzed to determine whether the Company is the principal (i.e., reports revenue on a gross basis) or agent (i.e., reports revenues on a net basis) in the contract. Principal or agent designations depend primarily on the control an entity has over the product or service before control is transferred to a customer. The indicators of which party exercises control include primary responsibility over performance obligations, inventory risk before the good or service is transferred and discretion in establishing the price.

Investment Advisory Fees - The Company recognizes revenue from investment advisory services at the time that all related services required by the Company to complete the transaction have been provided.

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED JUNE 30, 2019

NOTE 1 - NATURE OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES -  
(Continued)

Significant Judgments - The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Cash Equivalents - For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Concentrations of credit risk - The Company's cash is on deposit at two financial institutions and the balances at times may exceed the federally insured limit. The Company has not experienced any loss in such accounts.

Office Furniture, Equipment, Computers and Automobiles - Depreciation is provided using the straight-line method over three, five- and ten-year periods.

Securities Owned - The Company invests in various securities such as exchange traded funds or mutual funds. At June 30, 2019, these securities were classified as "available-for-sale" and reported at fair value, with the unrealized gains and losses included in other income on the Statement of Operations.

Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 2 - FAIR VALUE MEASUREMENT**

FASB ASC 820 defines fair value, creates a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

<b>Description</b>	<b>Fair Values as of June 30, 2019</b>	<b>Fair Value Measurements at Reporting Date Using</b>		
		<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Mutual fund	\$ 554,487	\$ 554,487	\$ 0	\$ 0

The mutual fund is a publicly traded investment consisting of a bond portfolio. The Company is the investment advisor to this mutual fund (See Note 8).
