Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Worth Financial Group Inc. (the Company) was organized in March 1983 as a Texas corporation. The Company is a broker-dealer in securities registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC). The Company is also a registered investment advisor with the state of Texas.

The Company operates under the exemptive provisions of Rule 15c3-3(k):(2)(i) and (2)(ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Company does not hold customer funds or securities, but as an introducing broker-dealer, will clear securities transactions on behalf of customers on a fully disclosed basis through its clearing broker-dealer, and promptly transmit customer funds to the clearing broker-dealer. The clearing broker-dealer carries accounts of the customers and maintains and preserve all related books and records as are customarily kept by a clearing broker-dealer.

The Company's operations consist primarily of providing securities brokerage, insurance brokerage, and investment advisory services to individuals located in the state of Texas.

Significant Accounting Policies:

Use of Estimates

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method and declining balance method over estimated useful lives of five to seven years.

WORTH FINANCIAL GROUP INC.
Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies (continued)

Revenue Recognition

The Financial Accounting Standards Board (FASB), issued a comprehensive new revenue recognition standard that supersedes most existing revenue recognition guidance under GAAP (FASB Accounting Standards Codification 606). The Company adopted this standard effective July 1, 2018 using the modified retrospective approach which had no effect on the Company's reported financial position or results of operations.

Securities Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company may charge a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. Securities commissions also include interest rebates on customer accounts, and other revenue related to customer accounts which is recorded on the trade date.

Insurance and Mutual Fund Commissions

The Company enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors and insurance companies to issue variable annuity contracts. The Company may receive distribution fees and variable annuity fees paid by the funds and insurance companies up front, over time, upon the investor's exit from the fund and annuity contracts (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities or variable annuity contracts to investors and as such this is fulfilled on the trade date or variable annuity contract funding date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares or annuity contracts at future points in time as well as the length of time the investor remains in the fund and annuity contracts, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe it can overcome this constraint until the market value of the funds and annuity contracts and the investor activities are known, which are either monthly or quarterly. Distribution and annuity contract fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

WORTH FINANCIAL GROUP INC.
Notes to Financial Statements
June 30, 2019

Note 1 - Nature of Business and Summary of Significant Accounting Policies (continued)

Revenue Recognition (continued)

Investment Advisory Fees

The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. Fee arrangements are based on a percentage applied to the customer's assets under management. Fees are generally received monthly in arrears. Fees are recognized as revenue monthly as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

Leases

The Company adopted FASB Topic 842, *Leases*, using the modified retrospective approach with June 30, 2019 as the year of initial adoption. The Company elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allowed the Company to carry forward the historical lease classification.

As a result of adopting the new standard, the Company recorded net lease asset and lease liability of approximately \$47,005 and \$47,005, respectively. Adoption of the new standard did not materially impact the Company's net income and had no impact on cash flows.

The Company leases certain office space. The determination of whether an arrangement is a lease is made at the lease's inception. Under ASC 842, a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed.

The office space lease is included in operating lease right-of-use ("ROU") asset and operating lease liability in the statement of financial condition. There are currently no finance leases.

ROU asset represents the right to use the underlying asset for the lease term, and lease liability represents the obligation to make lease payments. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. Since the Company's lease does not provide an implicit rate, to determine the present value of lease payments, management uses the Company's incremental borrowing rate based on the information available at lease commencement. Operating lease ROU asset also includes any lease payments made and excludes any lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain the option will be exercised.

Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies (continued)

Leases (continued)

The office lease agreement includes provisions for variable rent payments, which are adjusted periodically for inflation. The office lease agreement does not contain any material residual value guarantees.

The Company has elected to apply the short-term lease exception to all leases with a term of one year or less.

Income Taxes

As of June 30, 2019, open Federal tax years subject to examination include the tax years ended June 30, 2016, through June 30, 2018.

The Company is also subject to state income taxes.

Note 2 - Transactions with Clearing Broker/Dealer

The Company has a clearing agreement with a national clearing broker/dealer to provide clearing, execution and other related services. The agreement requires the Company to maintain a minimum of \$15,000 in an account with the clearing broker-dealer.

Note 3 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At June 30, 2019, the Company had net capital of \$12,819 which was \$7,819 in excess of its required net capital of \$5,000. The Company's net capital ratio was 3.19 to 1.

Note 4 - Property and Equipment

Property and equipment is carried at cost less accumulated depreciation and consists of the following:

Furniture and fixtures	\$ 16,498
Computer equipment	17,160
Software	<u>1,476</u>
	35,134
Accumulated depreciation	<u>(32,710)</u>
	<u>\$ 2,424</u>

WORTH FINANCIAL GROUP INC.
Notes to Financial Statements
June 30, 2019

Note 4 - Property and Equipment (continued)

Depreciation expense for the year was \$528 and is reflected in the accompanying statement of income as occupancy and equipment.

Note 5 - Income Taxes

The Company has a current year tax loss; therefore, there is no provision for current federal income taxes. The Company has a net operating loss carryforward of approximately \$32,000 available to offset future taxable income, which begins expiring in 2033. The net operating loss carryforward creates a deferred tax asset of approximately \$6,700; however, the entire amount has been offset by valuation allowance; therefore, there is no deferred tax asset recognized in the accompanying statement of financial condition.

Note 6 - Commitments and Contingencies

Office Lease

The Company leases office space under a noncancelable operating lease through July 2022. The following summarizes the line items in the statement of financial condition which include amounts for the office space lease as of June 30, 2019:

Operating Lease	
Right-of-use-asset	\$ <u>47,005</u>
Lease liability	\$ <u>47,005</u>

The discount rate used on the operating lease was 6.5%.

The maturities of the lease liability as of June 30, 2019, were as follows:

Year Ending June 30:	
2020	\$ 16,500
2021	16,500
2022	16,500
Thereafter	<u>-</u>
Total lease payments	49,500
Less: interest	<u>(2,495)</u>
Present value of lease liability	\$ <u>47,005</u>

Operating lease expense totaled \$17,814 for the year ended June 30, 2019, and is reflected in the accompany statement of income as occupancy and equipment.

WORTH FINANCIAL GROUP INC.
Notes to Financial Statements
June 30, 2019

Note 6 - Commitments and Contingencies (continued)

Contingencies

The Company's business subjects it to various claims, regulatory examinations and other proceedings in the ordinary course of business. The Company currently has one lawsuit claim filed against it seeking damages of approximately \$3 million. The nature of this claim is related to the Company's activities in the securities industry. The Company's legal counsel's opinion is that the outcome of the litigation will not have a material impact on the Company's financial condition; therefore, no provision has been made in the accompanying financial statements related to this lawsuit. The Company intends to vigorously defend itself against this action; however, the ultimate outcome of this and any other actions against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Note 7 - Concentration of Credit Risk and Revenue

The Company has commissions receivable due from and a clearing deposit held at its clearing broker/dealer totaling \$23,661, or approximately 21% of its total assets.

One of the Company's registered representatives generated approximately 37% of the Company's total revenue and accounted for approximately 47% of the Company's compensation and related costs for the year ended June 30, 2019.

Note 8 - Related Party Transactions

The Company entered into a consulting agreement (Agreement) initially effective January 1, 2007, and amended January 1, 2017, with the president and majority shareholder (Shareholder). The Agreement requires the Shareholder to advise the Company on corporate matters and day-to-day operations for a term of five years expiring December 31, 2022. Fees payable under this Agreement include: 1) consulting fees not to exceed \$150,000 per year, plus 2) commissions and overrides generated by the Shareholder. Fees are invoiced monthly and totaled \$121,291 for the year ended June 30, 2019, and are reflected in the accompanying statement of income as compensation and related costs. The Agreement was not consummated on terms equivalent to arm's length transactions.

WORTH FINANCIAL GROUP INC.
Notes to Financial Statements
June 30, 2019

Note 9 - Off-Balance-Sheet Risk

In the normal course of business, the Company's customer activities involve the execution and settlement of customer securities transactions on a fully disclosed basis with its clearing broker-dealer. The clearing broker-dealer carries accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker-dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

Note 10 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to June 30, 2019, through September 9, 2019, the date which the financial statements were available to be issued.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Worth Financial Group Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(i) and (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
