COLONNADE SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2019

NOTE 1 - Nature of Operations

Colonnade Securities LLC (the Company) was formed in August 2002 and is organized as a limited liability company pursuant to the Limited Liability Company Act of the state of Delaware. The Company began operating under its limited liability company agreement with Colonnade Advisors LLC (the Member) on August 30, 2007. Colonnade Advisors LLC is the sole member of the Company. The Company is an approved as a FINRA/SEC member firm. As a registered securities broker-dealer, the Company provides investment banking and financial advisory services to institutional clients and high net worth individuals.

As a limited liability company, the Member's liability is limited to the capital invested. Under the operating agreement, the Company has one class of member interest, and the sole member interest is equal to the number of equity units issued. Allocation of profit, losses and distributions is in accordance with the terms as defined in the operating agreement. The Company shall continue in perpetuity unless sooner terminated as defined in the operating agreement.

NOTE 2 - Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term highly liquid investments with maturities of three months or less at the date of acquisition. The Company maintains its cash and cash equivalents in a checking account at one bank, which at times may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Investment Banking Fees

Investment banking fees include fees earned from providing merger and acquisition and financial restructuring advisory services and private placement services. These fees are recognized as earned according to each contract with clients. A portion of this revenue relates to success-based fees, which are recognized only after they have been earned.

Accounts Receivable

The Company grants credit to its customers and generally requires no collateral. Accounts receivable are reported at their outstanding balances reduced by the allowance for doubtful accounts, if any. The allowance for doubtful accounts is increased by charges to income and decreased by charge offs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on the Company's past collection experience, known and inherent risks of the customer comprising the Company's accounts receivable balance, adverse situations that may affect the customer's ability to pay, and the current economic conditions. Accounts receivable are charged off when management deems the accounts receivable balance to be uncollectible. At June 30, 2019, there was an accounts receivable balance of \$45,573, and no allowance for doubtful accounts was necessary.

Income Tax

As a limited liability company, the Company elected to be treated as a partnership; consequently, taxable income or loss is allocated to the sole member in accordance with its respective percentage ownership and no provision or liability for income taxes has been included in the financial statements. The financial statements do include a provision for state replacement taxes.

The Company is subject to the accounting standard for uncertainty in income taxes. The tax effects from an uncertain tax position can be recognized in the financial statements, only if the position is more likely than

COLONNADE SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS For the Year Ended June 30, 2019

not to be sustained on audit, based on the technical merits of the position. The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized, upon ultimate settlement with the relevant tax authority. When applicable, the Company has elected to record any potential penalties and interest related to uncertain tax positions as income tax expense on the Company's statement of income. The Company did not have any uncertain tax positions for the year ended June 30, 2019. Income tax returns have been filed for the calendar year ending December 31, 2018. Income Tax Returns filed or to be filed by the Company's sole member for the years ended June 30, 2015 through 2019 remain open, and are subject to review by applicable tax authorities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Exemptive Provision

The computation for determination of the reserve requirement under Rule 15c3-3 and the information relating to the possession or control requirements under Rule 15c3-3 are not applicable to the Company as the Company qualifies for exemption under Rule 15c3-3(k)(2)(i).

As a result of the above paragraph, the Company is exempt from the remaining provisions of Rule 15c3-3.

NOTE 3 - Related Party Transactions

The Company has an expense sharing agreement with its member. During the year ended June 30, 2019, the member provided office space and various administrative and operating services to the Company for \$439,818.

NOTE 4 - Concentrations

During the year ended June 30, 2019, the Company had 4 clients that accounted for 91% of revenues. The Company had no accounts receivable from these clients at June 30, 2019.

NOTE 5 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the Company to maintain "minimum net capital" equivalent to \$5,000 or 6 2/3% of "aggregate indebtedness", whichever is greater, as these terms are defined. SEC Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1.

At June 30, 2019, the Company had net capital of \$403,565 which was \$389,689 in excess of its minimum required net capital of \$13,877. The Company's aggregate indebtedness for the year ended June 30, 2019 was .5158 to 1.

COLONNADE SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS For the Year Ended June 30, 2019

NOTE 6- Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board issued ASU 2014-09, Revenue from Contracts with Customers. This standard has been amended 5 times with the issuance of additional ASUs. The Company has adopted this standard as amended as of July 1, 2018 as required by the standard and will implement the new standard using the modified retrospective transition method whereby a cumulative effect adjustment to retained earnings will be recognized upon adoption and the guidance is applied prospectively.

Revenues from retainer fees are recognized over time and totaled \$378,929 for the current year. Revenues from success fees, discretionary fees and earnout fees for the current year were \$3,483,129.

Beginning balance of Deferred Revenues after the cumulative effect on the accounting change was \$250,040. Net customer receipts during the year recorded in Deferred Revenues totaled \$335,000. Amounts removed from deferred revenues and recognized as revenues totaled \$378,929 resulting in the ending balance of Deferred Revenues of \$206,111.

Significant Judgments

Revenue from contracts with customers includes fees for advisory services on mergers and acquisitions (M&A) and capital raises. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Investment Banking

M&A advisory fees. The Company provides advisory services on mergers and acquisitions (M&A). Revenue is recognized over time for advisory arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer. Success fees, discretionary fees, and earnout fees are recognized at the point in time when it is probable that a significant reversal of those revenues would not occur in a future period which is normally on the closing date of the transaction or when the contract is cancelled. In some circumstances, significant judgment is needed to determine the timing and measure of progress appropriate for revenue recognition under a specific contract. Retainers and other fees received from customers prior to recognizing revenue are reflected as contract liabilities. Contract liabilities are recognized into revenue as the services are provided to the customer.
