OFG FINANCIAL SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

1 - Organization and Summary of Significant Accounting Policies

Organization

OFG Financial Services, Inc. (the "Company") is a broker-dealer registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority (FINRA). The Company concentrates in the marketing of mutual funds and annuities covering an area which includes 23 states. A substantial part of commissions and concessions revenue is generated through two investment/insurance custodians.

Statements of Cash Flows

For purposes of the statement of cash flows, the Company considers all cash and investments with an original maturity of three months or less to be cash equivalents.

Investment and Fair Value Measurement

The Company's annuity contract investment is measured at fair value on a recurring basis. Valuation techniques used to measure fair value are prioritized into the following hierarchy:

- | | |
|----------------|--|
| Level 1 | Quoted prices in active markets for identical assets. |
| Level 2 | Quoted prices for similar assets in active or inactive markets, or inputs derived from observable market data by correlation such as appraisals or other means such as calculations based on contractual rates and published tables. |
| Level 3 | Unobservable inputs that reflect management's assumptions and best estimates based on available data. |

The Company's investment in a flexible premium deferred variable annuity contract is carried at the fair value determined by the insurance company (Level 3 measurements). Management further evaluates Level 3 measurements by determining the credit-worthiness and financial stability of the underlying insurance carrier and the timeliness and accuracy of the interest credits to the annuity contract. Credit-worthiness is evaluated by reviewing public information from independent rating agencies such as A.M. Best and S&P. The underlying investment in the annuity is a guaranteed interest account. The guaranteed interest account generally invests in highly liquid agency obligations and mutual funds. Investment in the guaranteed interest account is not insured or guaranteed by the U.S. government or by the underlying corporation; however, management believes that credit risk related to this investment is minimal.

OFG FINANCIAL SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS

1 - Organization and Summary of Significant Accounting Policies (Continued)

Furniture and Equipment

Furniture and equipment are recorded at cost and consist of items with original cost greater than \$ 5,000 and a useful life of greater than one year. Depreciation is provided on the straight-line method over the estimated useful lives of assets, which are generally five years. Assets acquired under capital leases are capitalized and amortized over a period not in excess of applicable lease terms. Expenditures for major renewals and improvements are capitalized. Expenditures for maintenance and repair are charged to expense as incurred. When equipment is retired or otherwise disposed of, the related costs and accumulated depreciation or amortization are removed from the accounts, and any gain or loss is reflected in the statement of income. Depreciation expense for the year ended December 31, 2018 was \$ 7,162.

Revenue Recognition

On January 1, 2018, the Company adopted ASU 2014-09 "Revenue from Contracts with Customers" and all subsequent amendments to the ASU. This creates a single framework for recognizing revenue from contracts with customers that fall within its scope. The Company's revenue from contracts with customers includes commissions and concessions, 12b-1 fees, and fees from asset management and investment advisory services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a given point in time or over time.

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company receives a commission. Commissions and related clearing expenses are recorded on the trade date since this is the date when pricing is agreed upon and risks and rewards of ownership have been transferred to/from the customer, thereby satisfying the Company's performance obligation. For direct business, commissions and concessions and 12b-1 fees are recorded as revenue once the investment custodian confirms that payment has been received and/or the commission, concession, or 12b-1 fee is earned. 12b-1 fees have variable considerations, such as the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, and the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly. 12b-1 fees recognized in the current period are primarily related to performance obligations satisfied in prior periods.

OFG FINANCIAL SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS
(Continued)

1 - Organization and Summary of Significant Accounting Policies (Continued)

Revenue Recognition (Continued)

The Company provides management and investment advisory services to customers on a daily basis. Fee arrangements are based on a percentage applied to the customer's assets under management. Management and investment advisory fees are received monthly or quarterly and are recognized as revenue at that time as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

Promotional Costs

Promotional costs including advertising are expensed as incurred.

Income Tax Matters

The Company's policy is to evaluate uncertain tax positions annually. Management evaluated the Company's tax positions and concluded that the Company had taken no uncertain tax positions that require adjustment to the financial statements.

The Company files income tax returns in the U.S. federal jurisdiction, Kansas and various other state jurisdictions.

Leases

In February 2016, the FASB issued an accounting standards update for leases. The ASU introduces a lessee model that brings most leases on the balance sheet. The new standard also aligns many of the underlying principles of the new lessor model with those in the current accounting guidance as well as with the FASB's new revenue recognition standard. The ASU also requires additional qualitative disclosures along with specific quantitative disclosures to better enable users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. Effective in 2019, in accordance with the lease standards update, for its office space lease, the Company will recognize on its balance sheet a right-to-use asset along with a lease liability measured on a discounted basis.

NOTES TO FINANCIAL STATEMENTS

1 - Organization and Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2 - Deposits

The Company routinely invests its surplus operating funds in money market funds. These funds generally invest in highly liquid U.S. government and agency obligations and various investment grade corporate obligations. Certain investments in money market funds are not insured or guaranteed by the U.S. government or by the underlying corporation; however, management believes that credit risk related to these investments is minimal.

The Company maintains deposits in banks. These deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$ 250,000 per bank. The Company's deposits may have exceeded the FDIC insurance limits during the year ended December 31, 2018.

3 - Investment

The Company's investment is stated at fair value and consists of the following:

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Annuity contract	\$ 602,124	\$ -	\$ -	\$ 602,124

The following table sets forth a summary of changes in the fair value of the Company's Level 3 assets for the year ended December 31, 2018:

	<u>Beginning Balance</u>	<u>Total Gains/ Losses</u>	<u>Interest Earned</u>	<u>Purchases, Issuances, Settlements</u>	<u>Ending Balance</u>	<u>Unrealized Gains/ Losses</u>
Annuity contract	\$ 584,492	\$ -	\$ 17,632	\$ -	\$ 602,124	\$ -

OFG FINANCIAL SERVICES, INC.

NOTES TO FINANCIAL STATEMENTS
(Continued)

3 - Investment (Continued)

The Company is the beneficiary of an annuity contract purchased through Security Benefit Life Insurance Company. The annuity pays interest at a guaranteed rate of 3.0%. Contract value represents principal and interest earned to date, which approximates fair market value. There has been no change to the valuation technique during 2018.

4 - Leases

The Company has a residential property lease with a related party for the purpose of providing a Topeka residence for the President of the Company. Annual lease payments for 2018 were \$ 12,000. The Company also pays annual maintenance expenses pertaining to the property, totaling \$ 21,520 in 2018. The month-to-month lease can be terminated by either party upon 30 days' notice.

The Company has a 60-month lease agreement for office space which is scheduled to terminate June 30, 2022. Annual lease expense for 2018 was \$ 72,960.

Minimum future lease payments are as follows:

2019	72,960
2020	72,960
2021	72,960
2022	<u>36,480</u>
	<u>\$ 255,360</u>

5 - Employee Benefit Plan

The Company sponsors a 401(k) profit sharing plan. Full-time employees must complete one year of service and be at least 21 years of age in order to participate in the plan. Employees can contribute up to 10% of their salary subject to Internal Revenue Service limitations. The Company provided a discretionary contribution of 15% for all twelve months of 2018. Both employee and employer contributions are 100% vested upon payment into the plan. For the year ended December 31, 2018, the Company contributed \$ 182,795 into the plan. These contributions are included in employee compensation and benefits on the statement of income.

6 - Income Taxes

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to pretax income for the year ended December 31, 2018, due to the following:

Increase (decrease) in income taxes resulting from:

Other	1,295
State income taxes, net of federal	<u>9,190</u>
 Provision for income taxes	 <u>\$ 48,595</u>

7 - Related Party Transactions

The Company also received \$ 1,550 per month from the affiliated corporation for use of office facilities and other administrative costs. These receipts are netted against certain operating expenses, including salaries, rent, communications, and promotional costs.

8 - Net Capital

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Commission, the Company is required to maintain a minimum net capital as defined under such provisions.
