I.) Fair Market Value of Financial Instruments

The Company measures assets and liabilities at fair value based on an expected exit price which represents the amount that would be received on the sale of an asset or paid to transfer a liability, as the case may be, in an orderly transaction between market participants. As such, fair value may be based on assumptions that market participants would use in pricing an asset or liability. The authoritative guidance on fair value measurements establishes a consistent framework for measuring fair value on either a recurring or nonrecurring basis whereby inputs, used in valuation techniques, are assigned a hierarchical level.

The following are the hierarchical levels of inputs to measure fair value:

Level 1: Observable inputs that reflect prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: Inputs reflect quoted prices for identical assets or liabilities in markets that are not active; quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the assets or liabilities; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

AKAR CAPITAL MANAGEMENT, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

Level 3: Unobservable inputs reflecting the Company's assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available. The Company's financial instruments consisted primarily of accounts payable, accrued liabilities, amounts due to related parties, and debt. The Company's debt approximates fair value based upon current borrowing rates available in the Company for debt with similar maturities. The carrying amounts of the Company's financial instruments generally approximated their fair value as of December 31, 2019 due to the short-term nature of these instruments.

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flows.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
Akar Capital Management, Inc.

We have reviewed management's statements, included in the accompanying Akar Capital Management, Inc.'s Exemption Report, in which (1) Akar Capital Management, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(i) and (k)(2)(ii) (the "exemption provisions") and (2) the Company stated that they met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(i) and (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
