Business and Summary of Significant Accounting Policies

Business

Emerson Equity LLC (the "Company") is a California limited liability company formed on October 10, 2003. The Company is registered with the Securities and Exchange Commission ("SEC") as a fully disclosed securities broker-dealer and is a member of the Financial Industry Regulatory Authority, Inc.

As a limited liability company, the members' liability is limited to the amount reflected in the members' capital account.

The Company operates under a clearing broker agreement with Pershing, LLC ("Pershing"), whereby the Company introduces certain brokerage accounts to Pershing and Pershing provides clearing services to such accounts on a fully disclosed basis.

Cash and Deposit with Clearing Broker

The Company maintains its cash in a bank deposit account that at times may exceed federally insured limits. The Company also maintains cash and a clearing deposit with its clearing broker that are not federally insured. The Company has not experienced any losses in such accounts.

Revenue from contracts with customers

Effective January 1, 2018, the Company adopted ASU 2014-09, "Revenue from Contracts with Customers" using the modified retrospective transition method, which did not result in a cumulative-effect adjustment at the date of adoption since the amount of adjustment of contract balances was immaterial to the financial statements as a whole. The implementation of this new standard had no material impact on the Company's financial statements for the year ended December 31, 2019.

Revenue from contracts with customers is recognized when, or as, the Company satisfies its performance obligations by transferring the promised goods or services to customers. A good or service is transferred to a customer, when, or as, the customer obtains control of that good or service. A performance obligation may be satisfied over time or at a point in time. Revenue from a performance obligation satisfied over time is recognized by measuring the Company's progress in satisfying the performance obligation in a manner that depicts the transfer of the goods or services to the customer. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the Company determines the customer obtains control over the promised good or service. The amount of revenue recognized reflects the consideration to which the

EMERSON EQUITY LLC
Notes to Financial Statements

Company expects to be entitled in exchange for those promised goods or services (i.e., the “transaction price”). In determining the transaction price, the Company considers multiple factors, including the effects of variable consideration. Variable consideration is included in the transaction price only to the extent it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainties with respect to the amount are resolved. In determining when to include variable consideration in the transaction price, the Company considers the range of possible outcomes, the predictive value of our past experiences, the time period of when uncertainties expect to be resolved and the amount of consideration that is susceptible to factors outside of the Company’s influences, such as market volatility or the judgment and actions of third parties.

The company earns revenue from contracts with customers. The following provides detailed information on the recognition of the Company’s revenue from contracts with customers.

Commissions and revenue from sale of investment company shares

The Company earns commissions from transactions in securities and sale of investment company shares. Commissions and revenue from sale of investment company shares is recorded on a trade date basis as reported by the clearing broker, the investment company, escrow agent and/or third parties. The Company believes the performance obligations is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. The Company is primarily responsible for fulfilling the promise (i.e., acts in a principal capacity) to find purchasers for securities to be sold. Although the Company relies on its broker representatives to perform the services promised to the customer, it is the Company that is responsible for ensuring that the services are performed and are acceptable to the customer.

Investment Advisory Fees

Investment advisory fees are accrued monthly as earned, and received quarterly, in accordance with the terms of the investment advisory contracts, as reported by the clearing broker. The Company believes the performance obligation for providing investment advisory services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. Fee arrangements are based on a percentage applied to the customer’s assets under management.

Other Income

Other income consists primarily of income arising from providing marketing and consulting services to investment companies under a placement agent agreement. Revenue is recognized upon completion of the promised services to the investment companies in an amount that reflects the consideration expected to be received in exchange for those services.

EMERSON EQUITY LLC
Notes to Financial Statements
December 31, 2019

Contract Balances

The Company records receivables when revenue is recognized prior to payment and it has an unconditional right to payment. The timing of revenue recognition may differ from the timing of customer payments. Alternatively, when payment precedes the position of this related services, the Company records deferred revenue until the performance obligation is satisfied. There were no material contract assets or deferred revenue at December 31, 2019.

Contract Costs

Direct incremental costs to obtain a contract or fulfill a contract are evaluated under the criteria for capitalization on a contract-by-contract basis. There were no capitalized contract costs at December 31, 2019.

Significant Judgments

The recognized and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time and when to recognize revenue based on the appropriate measure of the Company's progress under the contract.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases. The objective of the update is to increase transparency and comparability among organizations by recognizing lease assets and liabilities on the balance sheet for leases with a lease term of more than 12 months. In addition, the update will require additional disclosures regarding key information about leasing arrangements. Under existing guidance, operating leases are not recorded as lease assets and lease liabilities on the balance sheet. The Company expects that there will be no impact on the adoption of this accounting guidance on its financial statements.

Accounts Receivable

Accounts Receivable primarily include commission and other revenue receivables. The company believes that all amounts are fully collectable as of December 31, 2019.

Accounting for Income Taxes

No provision for federal or state income taxes has been made since the Company is treated as a disregarded entity for income tax purposes and its income is allocated to the members' for inclusion in the members' income tax returns. Management has concluded that the Company is not subject to income taxes in any jurisdiction and that there are no uncertain tax positions that would require recognition in the financial statements. Accordingly, no provision for income taxes is reflected in the accompanying financial statements.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

of Emerson Equity, LLC

We have performed the procedures included in Rule 17a-5(e)(4) under the Securities Exchange Act of 1934 and in the Securities Investor Protection Corporation (SIPC) Series 600 Rules, which are enumerated below and were agreed to by Emerson Equity, LLC and the SIPC, solely to assist you and SIPC in evaluating Emerson Equity, LLC's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7) for the year ended December 31, 2019. Emerson Equity, LLC's management is responsible for its Form SIPC-7 and for its compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with standards established by the Public Company Accounting Oversight Board (United States) and in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

- 1) Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries, noting no differences;
- 2) Compared the Total Revenue amounts reported on the Annual Audited Report Form X-17A-5 Part III for the year ended December 31, 2019 with the Total Revenue amount reported in Form SIPC-7 for the year ended December 31, 2019, noting a difference that resulted in an underpayment of \$138.
- 3) Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting no differences;
- 4) Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
- 5) Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed, noting no differences.

We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on Emerson Equity, LLC's compliance with the applicable instructions of the Form SIPC-7 for the year ended December 31, 2019. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of Emerson Equity, LLC and the SIPC and is not intended to be and should not be used by anyone other than these specified parties.
