## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Managing Members  
First Brokers Securities LLC

### Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of First Brokers Securities LLC as of December 31, 2019, and the related notes (collectively referred to as the "financial statement"). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of First Brokers Securities LLC as of December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

#### *Change in Accounting Principle*

As discussed in Note 2 to the financial statement, First Brokers Securities LLC has changed its method of accounting for leases in 2019 due to the adoption of Financial Accounting Standards Board Accounting Standards Codification Topic 842, *Leases*.

### Basis for Opinion

This financial statement is the responsibility of First Brokers Securities LLC's management. Our responsibility is to express an opinion on First Brokers Securities LLC's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to First Brokers Securities LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

*Citrin Cooperman & Company, LLP*

We have served as First Brokers Securities LLC's auditor since 2018.

# **First Brokers Securities LLC**

## **Notes to Statement of Financial Condition**

### **December 31, 2019**

---

#### **1. Organization**

First Brokers Securities LLC (the "Company") is a Delaware Limited Liability Company. The Company, which is headquartered in New Jersey, and has a branch office in Juno Beach, Florida, is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company's principal business activity is the brokering of corporate and government debt securities.

The Company is owned 60% by AO-First Brokers LLC and 40% by ICAP Global Broking Inc.

#### **Brokerage Capacities**

With regard to certain products, the Company acts in the capacity of either "matched principal" or "name give-up."

When acting in the capacity of "matched principal", the Company acts as a "middleman" or intermediary by serving as the counterparty for identified buyers and sellers in the matching in whole or in part of reciprocal back-to-back trades.

When acting in the "name give-up" capacity, the Company acts in an agency capacity, whereby it connects buyers and sellers and may assist in the negotiation of the price and other material terms of the transaction. At the point at which the parties agree to terms, the Company leaves the buyer and seller to clear and settle through the appropriate market mechanism.

#### **Unmatched Principal Transactions**

The Company may and does from time to time acquire unmatched positions as principal, including but not limited to, the following scenarios:

- (1) Taking a position to add liquidity for Company customers and to attract market participants to its market. Sometimes the act of posting or providing quotations may result in the Company acquiring a position as principal on an unmatched trade;
- (2) As a result of errors or out trades. From time to time, as a result of a bona fide error the Company may in "matched principal" marketplaces acquire a position in resolution of such error (this may also occur when the Company is acting as agent in an exchange based marketplace); and
- (3) Executing or facilitating customer orders. This includes, but is not limited to, acquiring a position (i) resulting from partial mismatches in timing between multiple buyers and sellers when facilitating customer orders, (ii) where appropriate, executing in anticipation of customer interest or anticipated orders, and (iii) prior to a position being novated, given-up or settled by the relevant customer(s) and/or for the purposes of gaining the customer(s) access to any applicable clearing and settlement system.

In connection with acquiring positions from unmatched principal transactions and erroneous agency transactions, the Company, while managing and liquidating such positions, may generate a profit or a loss.

**First Brokers Securities LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

**2. Summary of Significant Accounting Policies**

**(a) Basis of Presentation**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

**(b) Principal Transactions**

All principal transactions are recorded on a trade date basis.

**(c) Cash**

The Company considers short-term interest bearing investments with initial maturities of three months or less to be cash equivalents. At December 31, 2019, the Company has no cash equivalents.

**(d) Fair Value**

The Company utilizes various methods to measure the fair value of most of its investments on a recurring basis. US GAAP establishes a hierarchy that prioritizes inputs to valuation methods. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**First Brokers Securities LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

**2. Summary of Significant Accounting Policies (continued)**

Securities listed on a national exchange are valued at the last closing bid price if owned by the Company and the last closing ask price if sold short by the Company on the day of valuation. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Other assets and securities for which market quotations are not readily available are valued at estimated fair value in accordance with US GAAP.

**(e) Right of use assets and lease liabilities**

Effective January 1, 2019, the Company adopted ASC Topic 842, Leases ("ASC 842"). The new guidance increases transparency by requiring the recognition of right to use assets and lease liabilities on the statement of financial condition. The recognition of these lease assets and lease liabilities represents a change from previous US GAAP requirement, which did not require lease assets and lease liabilities to be recognized for most leases. The recognition, measurement and presentation of expenses and cash flows arising from a lease by a lessee, have not significantly changed from previous US GAAP requirements.

On January 1, 2019, the effective date of ASC 842, existing leases of the Company were required to be recognized and measured. Additionally any leases entered into during the year were also required to be recognized and measured. In applying ASC 842, the Company made an accounting policy election not to recognize the right of use assets and lease liabilities relating to short term leases. Implementation of ASC 842 included an analysis of contracts, including real estate leases and service contracts to identify embedded leases, to determine the initial recognition of the right to use assets and lease liabilities, which required subjective assessment over the determination of the associated discount rates to apply in determining the lease liabilities.

The adoption of ASC 842 resulted in the recording of operating lease right of use assets of approximately \$3,811,000 and operating lease liabilities of approximately \$4,509,000 at January 1, 2019. During the year ended December 31, 2019 additional leases were entered into with additional right of use assets and lease liabilities of approximately \$427,000.

The Company implemented ASC 842 using the modified retrospective approach. In addition, at January 1, 2019, there was no impact to members' equity upon adoption.

The Company determines if an arrangement is or contains a lease at inception. The Company's operating lease arrangements are comprised of real estate and facility leases. Right of use assets represent the Company's right to use the underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Right of use assets and lease liabilities are recognized at the commencement date based on the present value of the lease payments over the lease term. As the Company's leases do not provide an implicit rate and the implicit rate is not readily determinable, the Company estimates its incremental borrowing rate based on the information available at the commencement date in determining the present value of the lease payments. The present value of the lease payments was determined using a 3.5% incremental borrowing rate. Right of use assets also exclude lease incentives.

**First Brokers Securities LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

**3. Employee Benefits**

The Company sponsors a 401(k) retirement plan (the "Plan"). The Plan covers all employees upon commencement of employment with the Company. The Company does not match employee contributions.

**4. Securities Owned and Securities Sold Not Yet Purchased**

As more fully described in Note 1, from time-to time the Company may hold securities positions arising from unmatched principal transactions. The Company seeks to reduce the liquidity risk associated with these positions by selling certain securities that are not yet purchased. When these situations occur the Company's statement of financial condition will reflect securities owned as well as securities sold, not yet purchased. Securities sold not yet purchased consists mainly of US Treasury debt securities that serve as a hedge against corporate debt securities that may be owned. All of the corporate debt securities and the US Treasury debt securities are classified as level 2 securities within the fair value hierarchy. At December 31, 2019, there were no securities owned or securities sold, not yet purchased.

**5. Property and Equipment**

Property and equipment are depreciated using the straight line method and are comprised of the following as of December 31, 2019:

		Estimated Useful Lives
Telephone and computer equipment	\$ 402,950	3 to 5 years
Furniture and fixtures	130,948	3 to 5 years
Leasehold improvements	1,410,964	Term of Lease
Software - work in progress	265,950	3 to 5 years
	<u>2,210,812</u>	
Less: Accumulated depreciation and amortization	(492,010)	
	<u>\$ 1,718,802</u>	

**6. Related Party Transactions**

The Company entered into agreements whereby subsidiaries of the minority owner provide certain services to the Company.

Prepaid expenses and other assets include advances to employees totaling approximately \$72,000 at December 31, 2019.

The terms of any of these transactions may not be the same as those that would otherwise exist or result from agreements and transactions among unrelated parties.

As of December 31, 2019, the Company has a payable of approximately \$1.2 million to related parties of First Brokers Securities LLC, which is included in accrued compensation and related expenses on the statement of financial condition.

**First Brokers Securities LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

**7. Due from Clearing Broker**

Pursuant to an amended agreement with a clearing broker, the Company is required to maintain a clearing deposit of \$2,000,000, which is included in the net receivable from clearing broker in the accompanying statement of financial condition.

In the normal course of its business, the Company indemnifies its clearing broker against specified potential losses in connection with its acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under this indemnification cannot be estimated. However, the Company believes that it is unlikely it will have to make payments under these arrangements and, as such, has not recorded any contingent liability in the financial statements for this indemnification.

**8. Revolving Note and Cash Subordination**

On February 1, 2015, the Company entered into a Revolving Note and Cash Subordination Agreement (the "Agreement") with ICAP Securities USA LLC, an affiliate of ICAP Broker Holdings North America (IBHNA). The Agreement creates a \$5,000,000 line of credit with a draw down period that expires on January 31, 2021 and requires that any advances under the Agreement be repaid by no later than January 31, 2022. The interest rates will be agreed to at the time of each advance. Any advances will be considered as liabilities of the Company, subordinated to claims of its general creditors, and will be available to be added back for net capital purposes. During the year ended December 31, 2019, the Company borrowed \$4,500,000 and repaid \$2,500,000 resulting in an open note balance of \$2,000,000.

**9. Net Capital Requirements**

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1 (the "Rule") which requires the maintenance of minimum net capital. The Company computes its net capital under the alternative method permitted by the Rule, which requires that the Company maintain minimum net capital, as defined. At December 31, 2019, the Company's net capital was approximately \$6,258,000 which was approximately \$6,008,000 in excess of its minimum requirement of \$250,000.

The Company is exempt from the provisions of Rule 15c3-3 under the Securities Exchange Act of 1934 as the Company's activities are limited to clearing all transactions with and for customers on a fully disclosed basis with a clearing broker.

**10. Concentration**

Substantially all of the cash assets of the Company are held by one bank and a single clearing broker-dealer. The Company has a significant cash receivable from its clearing broker and in addition all of the Company's securities owned and its securities sold but not yet purchased are carried by this single clearing broker-dealer. Within each of the securities categories are significant amounts of securities issued by few issuers. The Company does not consider itself to be at any significant risk with respect to these concentrations. At times cash balances exceed FDIC limits.

As described in the preceding notes, the Company may hold unmatched principal positions and related short positions. When these securities positions arise, the amounts of the securities within the categories may be significant and may also represent securities issued by a small number of issuers.

**First Brokers Securities LLC**  
**Notes to Statement of Financial Condition**  
**December 31, 2019**

---

**11. Commitments and Contingencies**

The Company has entered into leases for its facilities in New Jersey and Florida. The Company records the expenses to occupy its facilities on a straight line basis over the lease term.

As of December 31, 2019, maturities of the outstanding lease liability for the Company were approximately as follows:

Year ending December 31:		
2020	\$	609,000
2021		622,000
2022		635,000
2023		649,000
2024		662,000
Thereafter		2,120,000
Total		<u>5,297,000</u>
Discount to present value		763,000
Lease Liability	\$	<u><u>4,534,000</u></u>

Other information related to leases as of December 31, 2019:

Weighted average remaining lease term: 7.42 years.

Weighted average discount rate: 3.5%

**12. Subsequent Events**

Management of the Company has evaluated events and transactions that have occurred since December 31, 2019 through January 30, 2020, the date the financial statements were available to be issued and determined there are no subsequent events that occurred during this period that would require recognition or disclosure in these financial statements.
