NOTE A – NATURE OF BUSINESS

Nature of Business

D.H. Hill Securities, LLLP (the “Partnership”), a Texas limited partnership, was formed in June 1996. The Partnership is a broker/dealer in securities registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC).

The Partnership operates pursuant to section (k)(2)(i) exemptive provisions of Rule 15c3-3 of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Partnership does not hold customer funds or securities.

The Partnership’s operations consist primarily of providing securities, insurance brokerage and investment banking services to individuals located throughout the United States. The Partnership also provides administrative services to companies in the securities industry.

The general partner of the Partnership is H & H Services, Inc. (General Partner). The General Partner has the authority to manage and control the business affairs of the Partnership.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Substantially all the Partnership’s financial asset and liability amounts reported in the statement of financial condition are short term in nature and approximate fair value.

Revenue Recognition

Securities Commissions

Securities commissions are primarily related to the sale of various shares of unlisted real estate investment trusts and unlisted business development companies. The Partnership buys and sells securities on behalf of its customers. Each time a customer enters into a buy transaction, the Partnership charges a commission. Commissions and related expenses are recorded on the trade date (the date that the Partnership fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Partnership believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Insurance and Mutual Fund Commissions

The Partnership enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors and insurance companies to issue variable annuity contracts. The Partnership may receive distribution fees and variable annuity fees paid by the funds and insurance companies up front, over time, upon the investor's exit from the fund and annuity contracts (that is, a contingent deferred sales charge), or as a combination thereof. The Partnership believes that its performance obligation is the sale of securities or variable annuity contracts to investors and as such this is fulfilled on the trade date or variable annuity contract funding date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares or annuity contracts at future points in time as well as the length of time the investor remains in the fund and annuity contracts, both of which are highly susceptible to factors outside the Partnership's influence, the Partnership does not believe it can overcome this constraint until the market value of the funds and annuity contracts and the investor activities are known, which are either monthly or quarterly. Distribution and annuity contract fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Investment Banking

The Partnership participates in the private placements of equity securities on a best-efforts basis for business entities that want to raise funds through a sale of securities. Revenue is recognized on the trade date. The Partnership believes that the trade date is the appropriate point in time to recognize revenue as there are no significant actions which the Partnership needs to take subsequent to this date, and the issuer obtains the control and benefit of the offering amounts at that point. These amounts are considered variable consideration as the uncertainty is dependent on the achievement of certain levels of investment have been reached as specified in the private placement memorandums, which is highly susceptible to factors outside the Partnership's influence. Revenues are recognized once it is probable that a significant reversal will not occur.

Administrative Services

The Partnership provides administrative services to companies in the securities industry. The Partnership believes that the performance obligation is satisfied when individually identifiable services are provided. Administrative services are generally billed and recognized either monthly or quarterly as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

Income Taxes

Taxable income or loss of the Partnership is included in the income tax returns of the partners; therefore, no provision for federal income taxes has been made in the accompanying financial statements. The Partnership is subject to state franchise taxes.

As of December 31, 2019, open Federal tax years subject to examination include the tax years ended December 31, 2016 through December 31, 2018.

NOTE C – NET CAPITAL REQUIREMENTS

The Partnership is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, should not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2019, the Partnership had net capital of \$85,536, which was \$77,843 in excess of its required net capital of \$7,693. The Partnership's net capital ratio was 1.35 to 1.

NOTE D – RELATED PARTY TRANSACTIONS

The Partnership and two related parties (“Affiliates”) are under common control. The existence of that control creates operating results and financial position significantly different than if the Companies were autonomous. Transactions between the Partnership and the Affiliates were not consummated on terms equivalent to arm’s length transactions.

The Partnership has entered into an expense sharing agreement (“Agreement”) with the Affiliates. Under the Agreement, the Affiliates and the Partnership share certain combined administrative expenses. The Partnership is allocated one-third of such actual combined expenses incurred by the Affiliates on a monthly basis. The Partnership was allocated and paid the Affiliates \$178,546 under the Agreement during the year ended December 31, 2019. The Partnership also incurred and paid \$141,914 in discretionary management fees to one of the Affiliates during the year.

NOTE E - CONTINGENCIES

The Partnership's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The Partnership currently has one arbitration claim filed against it. The nature of this claim is related to the Partnership’s activities in the securities industry. The arbitration seeks damages in excess of \$100,000. The Partnership, based in part upon the opinion of legal counsel, does not believe there is a likelihood of a significant unfavorable outcome in this matter. No provision has been made in the accompanying financial statements related to this matter; however, it is at least reasonably possible that the Partnership’s estimate of its liability may change in the near term. The Partnership intends to vigorously defend itself against this action; however, the ultimate outcome of this and any other actions against the Partnership could have an adverse impact on the financial condition, results of operations, or cash flows of the Partnership.

NOTE F – SUBSEQUENT EVENTS

Management has evaluated the Partnership's events and transactions that occurred subsequent to December 31, 2019, and through February 26, 2020, the date which the financial statements were available to be issued. There have been no material subsequent events that occurred during this period that would require disclosure in this report or would be required to be recognized in the financial statements as of December 31, 2019.
