BRITEHORN SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

Britehorn Securities, LLC (“Britehorn Securities”, “Britehorn Securities” or the “Company”), formerly LoHi securities, LLC, is a Colorado limited liability company, organized in 2003 to engage in best efforts underwriting and private placements of securities. The Company is registered as a broker-dealer in securities with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulation Authority, Inc. (“FINRA”).

The Company is wholly owned by Britehorn Partners, LLC. Accordingly, this affiliation should be taken into consideration in reviewing the accompanying financial statements.

15c-3 Exemption

The Company, under Rule 15c3-3(k)(2)(i) is exempt from the reserve and possession or control requirements of Rule 15c3-3 of the Securities and Exchange Commission. The Company does not carry or clear customer accounts.

Cash and Cash Equivalents

The Company considers all highly-liquid investments purchased with an original maturity of three months or less on the purchase date to be cash equivalents.

Commissions Receivable

Commissions receivable are stated at cost less an allowance for doubtful accounts. The commissions are receivable from various investment companies on a monthly or quarterly basis, reflecting the prior month’s or quarter’s commission production. Management has determined that no allowance for doubtful accounts is deemed necessary at December 31, 2019. The Company’s policy is not to accrue interest on commissions’ receivable. If ever applicable, accounts will be written off as uncollectible at the time management determines that collection is unlikely.

Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606).” This ASU, as amended, provides comprehensive guidance on the recognition of revenue from customers arising from transfer of goods and services, guidance on accounting for certain contract costs, and new disclosures. The ASU did not have a material impact on the Company’s financial condition, results of operations or cash flows for the period ending December 31, 2019.

The Company primarily derives its revenues from investment banking and capital raising activities. Revenue associated with investment banking and capital raising activities is recognized when earned in accordance with the applicable investment banking and placement agent agreements. Due diligence fees and expense advances received by the Company, along with any related expenses that are incurred, are initially deferred and are recognized only when the services have been provided.

BRITEHORN SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS

(Continued)

Note 1-Organization and Summary of significant accounting policies

The company also derives revenues from offering compliance and consulting services to several clients.

The Company records its securities transactions on a trade-date basis. Changes in the valuation of portfolio investments are included in the statement of operations

Valuation of Securities

The Company accounts for its investments in accordance with Accounting Standards Codification (“ASC”) 820. Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants and the measurement date.

In determining fair value, the Company uses various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company’s assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined.

BRITEHORN SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS

(Continued)

Note 1-Organization and Summary of significant accounting policies (concluded)

Valuation of Securities (Concluded)

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Company values investments in securities that are freely tradable and listed on a national securities exchange or reported on NASDAQ national market at the last sales price as of last business day of the year.

Many cash and over-the-counter (OTC) contracts have bid-and-ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Company's valuation policies require that fair value be within the bid-ask range. The Company's policies for securities traded in the OTC markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price if held long, and last reported "asked" price if sold short. The Company considers these investments as Level 1 securities for active markets and Level 2 securities for thinly traded markets. Changes in fair value are reflected in the Company's statement of operations.

Income Taxes

The Company is recognized as a Sole Member LLC by the Internal Revenue Service. As such, the Company does not record a provision for income taxes because its members report their share of the Company's income or loss on their income tax return.

The Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any tax related appeals or litigation processes, based on the technical merits of the position. The Company files an income tax return in the U.S. federal jurisdiction and may file income tax returns in various U.S. states. The Company is not subject to income tax return examinations by major taxing authorities for years before 2012. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces net assets. However, the Company's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

BRITEHORN SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS

(Continued)

Income Taxes (Concluded)

The Company recognizes interest accrued related to unrecognized tax benefits and penalties related to unrecognized tax benefits in income taxes payable, if assessed. No interest expense or penalties have been recognized as of and for the year ended December 31, 2019.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Costs

Advertising costs are expenses as incurred.

NOTE 2 - NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. At December 31, 2019, the Company had net capital and net capital requirements of \$135,693 and \$91,100, respectively. The Company's net capital ratio (aggregate indebtedness to net capital) was 10.1 to 1. According to Rule 15c3-1, the Company's net capital ratio shall not exceed 15 to 1.

NOTE 3 - COMMITMENTS AND RELATED PARTY TRANSACTIONS

The Company recognizes and measures its leases in accordance with FASB ASC 842, Leases. The Company is a lessee in one noncancelable operating lease for office space. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the total value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Company has elected, for all underlying classes of assets, to recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. We recognize lease cost associated with our short-term leases on a straight-line basis over the lease term.

BRITEHORN SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS

(Continued)

The Company has an obligation as a lessee for office space with initial noncancelable terms in excess of one year. The Company classified this lease as an operating lease. This lease generally contains renewal options. Because the Company is not reasonably certain to exercise renewal options, the optional periods are not included in determining the lease term, and associated payments under these renewal options are excluded from lease payments. The Company's leases do not include termination options for either party to the lease or restrictive financial or other covenants. Payments due under the lease contracts include fixed payments. The Company's office space leases require it to make variable payments for the Company's proportionate share of the building's property taxes, insurance, and common area maintenance. These variable lease payments are not included in lease payments used to determine lease liability and are recognized as variable costs when incurred.

The Company has a noncancelable operating lease with an unrelated party for office space which expires in September 2020. Future minimum lease payments are as follows:

<u>Year Ending</u> <u>December 31,</u>	<u>Amount</u>
2020	<u>\$21,564</u>
2021	<u>N/A</u>
2022	<u>N/A</u>
2023	<u>N/A</u>
2024	<u>N/A</u>

Rent and related occupancy costs charged to operations amounted to \$37,336 for the year ended December 31, 2019

The Company did not pay the related party, Britehorn Partners for the year ended December 31, 2019 for managing the Company. There is no balance due to Britehorn Partners at December 31, 2019.

**NOTE 4 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK
AND OTHER RISKS AND UNCERTAINTIES**

The Company is engaged in various corporate financing activities with counterparties that primarily include issuers with which the Company has an investment banking assignment. In the event counterparties, do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

In the Company's trading activities, the Company may purchase securities for its own account and may incur losses if the market value of those securities decline subsequent to December 31, 2019.

The Company's financial instruments, including cash and cash equivalents, commissions receivable, other assets, and accrued expenses and other liabilities, are carried at amounts that approximate fair value due to the short-term nature of those instruments. Investments are valued as described in Note 1.

AND OTHER RISKS AND UNCERTAINTIES (continued)***

As of December 31, 2019, the Company does not have deposits in banks in excess of the FDIC insured amount of \$250,000.

NOTE 5 - SUBSEQUENT EVENTS

The Company has performed an evaluation of subsequent events through the date of the auditor's report which is the date the financial statements were available to be issued. The evaluation did not result in any subsequent events that required disclosures and/or adjustments.

To whom it may concern:

Dear Sir/Madam

To the best of my knowledge and belief, Britehorn Securities, LLC (the "Company") claimed exemption from possession or control requirements of SEC Rule 15c3-3 under subparagraph (k)(2)(i) for the fiscal year ended December 31, 2019.

The Company does not carry or clear customer accounts. The Company does not handle customer checks or cash.

The Company has met the identified exemption provisions throughout the most recent fiscal year without exception.
