The Company was originally formed on April 15, 2008 as a single member limited liability company. The Company is approved to conduct business in the areas of private placements and merger and acquisition transactions. The Company additionally provided consulting services for which an hourly fee is charged.

As is typical in the industry, the Company engages in activities with various financial institutions and brokers. In the event these counter parties do not fulfill their obligations, the Company may be exposed to risks.

Cash and Cash Equivalents

For purposes of reporting the statement of cash flows, the Company considers all cash accounts, which are not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash balances in excess of FDIC and similar insurance coverage are subject to the usual banking risks associated with funds in excess of those limits. At March 31, 2020, the Company had no uninsured cash balances.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary. The shareholders and the Company are generally not subject to U.S. federal, state or local income tax examinations related to the Company’s activities for tax years before 2015.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments

All of the Company's financial assets and liabilities are carried at market value or at amounts, which, because of their short-term nature, approximate current fair value.

Revenue Recognition

Revenue from contracts with customers includes fees from consulting services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; whether revenue should be presented gross or net of certain costs; and whether constraints on variable consideration would be applied due to uncertain future events.

Advisory Fees

The Company provides advisory services. Revenue for advisory arrangements is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction) or the contract is cancelled. However, for certain contracts, revenue is recognized over time for advisory arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer. In some circumstances, significant judgment is needed to determine the timing and measure of progress appropriate for revenue recognition under a specific contract. Retainers and other fees received from customers prior to recognizing revenue are reflected as contract liabilities. At March 31, 2020, all amounts were immaterial.

Note 2 – Net Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital at an amount equal to the greater of \$5,000 or 6 2/3% of aggregate indebtedness, and requires that the ratio of aggregate indebtedness to net capital not exceed 15 to 1.

At March 31, 2020, the Company had excess net capital of \$9,579 and a net capital ratio of 2.65% to 1.

Note 3 – Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company's future operating results may be affected by several factors. The overall downturn of the general and local economic, political and social conditions can affect the Company.

Note 4 – Related party transactions

The Company occupies space in a residence owned by the shareholder and is not paying rent.

For the year ended March 31, 2020, the Company continued its agreement with a related party to provide consulting services. The owner of the Company has a 25% ownership with the related party. The fee income received from this Agreement amounted to \$30,000, which is included in consulting fees.
