1. ORGANIZATION

Sunstreet Securities, LLC (the Company), was registered under the laws of the state of Arizona in January 2006. The Company is a registered broker-dealer licensed by the United States Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). The Company provides broker-dealer services to institutional and retail customers as an introducing broker dealer transacting securities on a fully disclosed basis. The Company is located in Avondale, Arizona and provides services to customers throughout the United States.

The Company, like other securities firms, is directly affected by general economic market conditions including fluctuations in volume and price levels of securities, changes in interest rates and demand for investment banking, securities brokerage and other services, all of which have an impact on the Company statement of financial condition as well as its liquidity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities Transactions

Customer commission income and related commission and clearing expenses are recorded on a trade date basis. Securities transactions of the Company and commission income and expense are recorded on an accrual basis. Securities owned are valued at market value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* ("SFAS No. 144"), the Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. The Company assesses the recoverability of the long-lived and intangible assets by comparing the carrying amount to the estimated future undiscounted cash flow associated with the related assets. There were no impairments during the year ended December 31, 2019.

Property and Equipment

Accordingly, the financial statements include no provision or liability for income taxes. The Company is required to file and does file tax returns with the Internal Revenue Service and other taxing authorities. Accordingly, these financial statements do not reflect a provision for income taxes and the Company has no tax positions which must be considered for disclosure.

Penalties and interest assessed by income taxing authorities are included in operating expenses.

Cash and Cash Equivalents

For purpose of the statement of cash flows, cash equivalents represent all highly liquid debt instruments purchased with maturities of three months or less.

Concentration of Credit Risk

The Company maintains cash balances and deposits with financial institutions. Management performs periodic evaluations of the relative credit standing of these institutions. The Company has not sustained any material credit losses from these instruments.

3. NEW ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2018, The Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate

the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. Revenues from contracts with customers are comprised of commissions, mutual funds sales, and advisory service fees. Such revenues are recognized at the point in time when the Company's performance under the terms of the contractual arrangement is completed, which is typically at the close of a transaction.

Receivables

Amounts due from clearing firms are considered fully collectible; therefore, it was not considered necessary to establish an allowance for doubtful accounts.

4. FURNITURE AND EQUIPMENT

Office Furniture and equipment	\$ 14,811
	<hr/>
Less: Accumulated depreciation	(13,774)
	<hr/>
At December 31, 2019:	<u><u>\$ 1,037</u></u>

Furniture and equipment are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Depreciation expense for the year ended December 31, 2019 was \$1,562.

5. COMMITMENTS AND CONTINGENT LIABILITIES

Settlement of Securities Transactions

The Company is obligated to settle transactions with brokers and other financial institutions even if its customers fail to meet their obligations to the Company. Customers are required to complete their transactions on the settlement date, generally two business days after trade date. If customers do not fulfill their contractual obligations, the Company may incur losses. The Company has established procedures to reduce this risk by requiring deposits from customers for certain types of trades.

Statement Related to Uniform Net Capital Rule

The Company is a member of the FINRA and is subject to the SEC Uniform Net Capital Rule 15c3-1. This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500% (15:1), or, during its first year of operations, 800% (8:1).
