Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of A5 Securities LLC as of June 30, 2020, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of A5 Securities LLC as of June 30, 2020, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of A5 Securities LLC's management. Our responsibility is to express an opinion on A5 Securities LLC's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to A5 Securities LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

A5 SECURITIES LLC
(A LIMITED LIABILITY COMPANY)
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

(1) Description of business

A5 Securities LLC (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). The Company was organized in the state of New York, on February 24, 2017, and became a broker-dealer registered with Securities and Exchange Commission, on September 18, 2017.

The Company operates as a private placement marketer of securities, primarily preferred shares of real estate investment trusts. The Company’s office is located in New York. The Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

(2) Summary of significant accounting policies

Basis of preparation - These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Commission income from real estate placement deals

The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company’s progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Revenue from contracts with customers includes commission income from private placement, primarily in the real estate investment trust industry. The revenue from private placement is contingent upon the successful completion of services provided. Revenue is recognized on the date of settlement or closing of a transaction and when the income is reasonably determinable. All related expenses arising from these transactions are also recorded in the period in which the revenue is earned. Management defers recognizing any revenues until the earning process is complete. The earning process is complete when services, as outlined in each client’s agreement, has occurred and the revenue is reasonably estimable.

Cash and cash equivalents - The Company considers all highly liquid investments with an original maturity of less than three months, and not held for sale in the ordinary course of business, to be cash and cash equivalents.

(2) Summary of significant accounting policies (continued)

Accounts receivable – Accounts receivable represents commissions due for services provided to its customers. The Company does not require collateral for accounts receivable arising from the normal course of business. Management routinely assesses the financial strength of its customers and, as a consequence believes accounts receivable are stated at the net realizable value and credit risk exposure is limited. If amounts become uncollectible, they are charged to operations when that determination is made. The Company provides an allowance for uncollectible accounts based on prior experience and management’s assessment of the collectability of existing specific accounts. The allowance for doubtful accounts on accounts receivable was \$0 on June 30, 2020.

Income taxes - The Company is organized as a limited liability company with a single member and is disregarded as an entity separate from its owner for federal income tax purposes. The member of the Company is responsible for income taxes on the Company's taxable income. Accordingly, no provision or liability for federal income taxes has been included in the accompanying financial statements. The Company’s policy is to make cash distributions for the payment of taxes by its members.

The Company accounts for uncertain tax positions in accordance with FASB ASC 740, *Income Taxes*. FASB ASC 740 provides guidance for how uncertain tax provisions should be recognized, measured, presented and disclosed in the financial statements. FASB ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company’s tax returns to determine whether the tax positions would “more-likely-than-not” be sustained if challenged by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management has evaluated any tax positions taken or expected to be taken in the course of preparing the Company’s tax returns to determine whether the tax positions would “more-likely-than-not” be sustained if challenged by the applicable tax authority. The Company has no uncertain tax position as of June 30, 2020.

Recent Accounting Pronouncements – Accounting standards that have been issued or proposed by the Financial Accounting Standards Board or other standard setting bodies are not expected to have a material impact on the Company’s financial position, results of operations or cash flows.

(3) Prepaid expenses

Prepaid expenses consist of advance payment of regulatory fees and prepaid pension that will be expensed within a year. The balance was \$12,927 as of June 30, 2020.

(4) Related party transactions

The Company pays its member rent for the use of its office under a month to month arrangement. The rent expensed for the year ending June 30, 2020 is \$7,200.

In June, 2017, the Company entered into an expense sharing agreement with the sole member. The sole member agreed to pay all overhead and operational expenses for continued membership with FINRA and continuing overhead and operational expenses as a broker dealer.

(5) Net capital requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital,

(A LIMITED LIABILITY COMPANY)
NOTES TO FINANCIAL STATEMENTS

both as defined, shall not exceed 15 to 1 (and the rule of the “applicable” exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). The Company currently operates pursuant to the customer protection exemption k(2)(i) to SEC Rule 15c3-3. In addition, the Company does not hold or receive customer securities. As a result, the Company operates pursuant to a minimum net capital requirement of \$5,000.

At June 30, 2020, the Company had net capital of \$310,011 which was \$305,011 in excess of its required net capital of \$5,000. The ratio of aggregated indebtedness to net capital at June 30, 2020 was 1.35%.

(6) Commitments and contingencies

In the normal course of business as a broker dealer, the Company may be exposed to various risks such as credit risk or risk of default by a client, or legal action by a client or a client’s counterparty related to the performance of its services under a contract agreement. As of June 30, 2020, the Company is not aware of any risks or legal action which would have a material impact on the financial position or operations of the Company.

Litigation

The Company from time to time may be involved in litigation relating to claims arising out of its ordinary course of business. Management believes that there are no claims or actions pending or threatened against the Company, the ultimate disposition of which would have a material impact on the Company’s financial position, results of operations or cash flows.

Risk Management

The Company maintains various forms of insurance that the Company’s management believes are adequate to reduce the exposure to these risks to an acceptable level.

(7) Concentration risks

The Company maintains its cash and cash equivalents in a bank account which at times may exceed federally insured limits. The Company does not believe it is exposed to any significant credit risk in such account.

The Company is engaged in contract agreements with various counterparties. In the event counterparties do not fulfill their obligations, the Company may be exposed to some risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company’s policy to review, as necessary, the credit standing of each counterparty on a case by case basis.

The Company had one customer that represented approximately 16% of the Company’s revenues for the year ended June 30, 2020.

(8) Pension Plan

In June, 2018, the Company adopted a defined benefit pension plan. All employees not excluded by class are eligible to enter on the January 1 or July 1 coincident with or following the completion of one year of service and reaching the age of 21. All persons employed on January 1, 2018 and not excluded by class are eligible to participate.

Participants are fully vested upon completing three years of service, excluding years with less than 1,000 hours. The pension benefit is payable for the life of the participant and begins on the normal retirement date, which is 65 years old.

Selected financial information for the pension plan is as follows:

Change in projected benefit liability	
(Prepaid) pension payable at June 30, 2019	\$(27,075)
Pension expense for the year ending June 30, 2020	362,983
Employer Contributions	(348,356)
(Prepaid) pension payable at June 30, 2020	(12,448)
Change in fair value of plan assets	
Fair value at July 1, 2019	\$ 494,270
Actual return on plan assets	(17,538)
Employer contributions	348,356
Fair value at June 30, 2020	<u>\$ 825,088</u>

Components of benefit expense

Service cost	\$ 362,983
Benefit expense	\$362,983

The following table provides the weighted-average assumptions used to determine projected benefit liability and benefit expense for the pension plan as of June 30, 2020:

Weighted-average assumptions	
Liability discount rate	3.74%
Expected return on plan assets	4.0%

The pension plan investment strategy includes the use of actively managed securities and is reviewed periodically in conjunction with plan liabilities, an evaluation of market conditions, tolerance for risk and cash requirements for benefit payments. The investment objective is to ensure that funds are available to

Other assets	34,437	34,437
Total	<u>\$ 825,088</u>	<u>\$ 825,088</u>

(9) Subsequent events

The Company has evaluated subsequent events through August 11, 2020, the date which the financial statements were available to be issued, and has determined that, there are no additional subsequent event matters that require recognition or disclosure in the financial statements.

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (Covid-19) a global pandemic and recommended containment and mitigation measures worldwide. The Covid-19 pandemic has continued to spread and has already caused severe global disruptions. The extent of Covid-19's affect on our operational and finance performance will depend on future developments, including the duration, spread and intensity of the pandemic, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. As of the date of the independent registered public accounting firm report, the Company cannot reasonable estimate the length or severity of this pandemic, or the extent to which the disruption may materially impact the Company's financial position, results of operations and cash flows in fiscal year 2021.
