**NOTES TO FINANCIAL STATEMENTS**  
**AUGUST 31, 2020**

**1. ORGANIZATION, OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Organization:

Harvestons Securities, Inc. (the "Company"), was incorporated in the State of Colorado on January 15, 1993 for the purpose of conducting business as a registered, fully disclosed securities broker-dealer.

Harvestons has claimed an exemption from Rule 15c3-3 of the Securities and Exchange Commission. The Company does not hold cash or securities for the account of customers. The Company clears certain of its proprietary and customer transactions through a clearing organization on a fully disclosed basis. The amounts receivable from and/or payable to the clearing organization relate to these transactions. In addition, the Company maintains a deposit of \$100,000 with the clearing organization at August 31, 2020.

Depreciation and Amortization

Depreciation is provided on a straight-line basis using estimated useful lives of three to five years. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease. All property and equipment has been fully depreciated.

Securities Owned

Securities Owned consist of equities and are valued at quoted market value, which is a level 1 input, as described in Note 4. The resulting difference between cost and market is treated as unrealized gain or loss at the year end, which is included in trading revenue.

Income taxes

Income taxes are provided at the statutory rate, and are based on earnings reported in the financial statements. Deferred income taxes are provided using a liability approach based upon enacted tax laws and rates applicable to the periods in which the taxes become payable.

The Company recognizes and measures its unrecognized tax benefit in accordance with Accounting Standards Codification ("ASC") Topic 740, Income Taxes, ("ASC740"). Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. The Company's tax returns ended August 31, 2017, 2018, 2019 and (although not yet filed) 2020 are subject to potential examination by the taxing authorities.

Cash and Cash Equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business. The Company had no cash equivalents during the year ended August 31, 2020. ASC Topic 940-320-45-7 states that broker-dealers should report trading securities activities in the operation section of the statement of cash flows.

**NOTES TO FINANCIAL STATEMENTS**  
**AUGUST 31, 2020**

**1. ORGANIZATION, OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates include depreciation for property and equipment, allowance for receivables and deferred tax asset valuation allowance.

Financial Instruments

The Company accounts for its investment securities at fair value under accounting literature including Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 320, *Investments Debt and Equity Securities* ("FASB ASC 320"), pertaining to investments in debt and equity securities and the fair value option of financial instruments in FASB ASC 825, *Financial Instruments* ("FASB ASC 825").

Certain of the Company's assets and liabilities are required to be measured at fair value. For those assets and liabilities, the Company determines fair value using the fair value measurement provisions included in FASB ASC 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"). FASB ASC 820 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and requires additional disclosures about fair value measurements. The definition of fair value focuses on the price that would be received to sell the asset or paid to transfer the liability between market participants at the measurement date (an exit price). An exit price valuation will include margins for risk even if they are not observable. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels ("Level 1, 2 and 3"). See note 4 for additional information regarding FASB ASC 820.

FASB ASC 320 requires that the Company classify its investments as either (i) held to maturity, (ii) available for sale, or (iii) trading. This determination is made at the time a security is purchased. FASB ASC 320 requires that both trading and available for sales securities are to be carried at fair value. However, in the case of trading assets, both unrealized and realized gains and losses are included in trading revenue in the statement of operations.

In the period presented, all securities were classified as trading. No securities were classified as held to maturity or available for sale. For the period presented, all securities owned by the Company were accounted for at fair value with unrealized and realized gains and losses recorded in the statement of operations.

During the year ended August 31, 2020 the Company recognized \$37,107 in unrealized loss.

All securities that are classified as trading are included in securities owned at market. The determination of fair value is based on quoted market prices of an active exchange, independent

broker market quotations, valuations provided by pricing services or, when independent broker quotations or pricing service valuations are unavailable, valuation models prepared by the Company's management. These models include estimates and the valuations derived from them could differ materially from amounts realizable in an open market exchange.

Revenue Recognition

The Company adopted Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers on September 1, 2018, the date the guidance became effective for us. The Company adopted the guidance using the modified retrospective method (i.e. applied prospectively effective September 1, 2018), which had no impact on the Company's opening retained earnings. Further, the Company determined that there was no material impact to the Company's recognition of revenue upon adoption of Topic 606. All revenues are recorded in accordance with ASC 606, which is recognized when: (i) a contract with a client has been identified, (ii) the performance obligation(s) in the contract have been identified, (iii) the transaction price has been determined, (iv) the transaction price has been allocated to each performance obligation in the contract, and (v) the Company has satisfied the applicable performance obligation over time / point in time.

The Company recognizes revenue from its various revenue streams as follows:

*Investment Banking (Underwriting Income)*

Investment banking revenues include gains, losses and fees, net of syndicate expenses, arising from securities offering in which the Company acts as an underwriter or agent. Investment banking revenues also include fees earned from providing merger-and-acquisition and financial restructuring advisory services. Investment banking management fees are recorded on offering date, sales concessions on settlement date, and underwriting fee at the time the underwriting is completed and the income is recognized at that point in time.

*Commission revenue*

Transactions for customers with related commission income and expenses are reported on the trade date basis. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition. The Company did not have any commission revenue during the year ended August 31, 2020.

*Trading revenue*

Proprietary securities transactions in trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on the trade date basis. The net trading gain / (loss) is recorded under revenue in accordance with ASC Topic 940, "Financial Services-Brokers and Dealers" since it is not within scope of the new revenue recognition guidance ASC 606 "Revenue from Contracts with Customers".

**HARVESTONS SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**AUGUST 31, 2020**

**1. ORGANIZATION, OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Commission Expense

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Concentrations of Credit Risk

The Company engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

The Company maintains its cash in bank deposit accounts, which at times, may exceed federally insured limits of \$250,000. At August 31, 2020, the Company's cash balance did not exceed federally insured limits. The Company has not experienced any losses in such accounts through August 31, 2020.

Leases

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The new standard establishes a right-of-use ("ROU") model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The standard was adopted on September 1, 2019 and the Company has determined that it has no current leases which meet the requirements under ASC-842 leases.

Recent Accounting Pronouncements

The Company adopts all applicable, new accounting pronouncements as of the specified effective dates.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our financial statements upon adoption.

**2. NET CAPITAL REQUIREMENTS**

Harvestons is subject to the Securities and Exchange Uniform Net Capital Rule for fully disclosed broker-dealers (SEC Rule 15c3-1), which requires the maintenance of minimum net capital of \$100,000 and requires that the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. At August 31, 2020, the Company had net capital of \$290,361, of which \$190,361 was in excess

**AUGUST 31, 2020**

**2. NET CAPITAL REQUIREMENTS (continued)**

of its required net capital of \$100,000. The Company had aggregate indebtedness in the amount of \$214,408. Therefore, its ratio of aggregate indebtedness to net capital was 0.74 to 1 at August 31, 2020.

**3. PROPERTY AND EQUIPMENT**

Property and equipment consists of following at August 31, 2020:

Furniture and Fixtures	\$ 35,333
Computers and Equipment	42,329
Leasehold Improvements	<u>15,194</u>
	92,856
Less: Accumulated Depreciation and Amortization	<u>(92,856)</u>
	<u>\$ -</u>

These assets were fully depreciated at the beginning of the year. There is no depreciation expense for the current year.

**4. FAIR VALUE MEASUREMENTS**

In accordance with FASB ASC 820, the Company has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the hierarchy under FASB ASC 820 are described below:

- Level 1 Financial assets and liabilities whose values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 Financial assets and liabilities whose values are based on one or more of the following:
1. Quoted prices for similar assets or liabilities in active markets;
  2. Quoted prices for identical or similar assets or liabilities in non-active markets;
  3. Pricing models whose inputs are observable for substantially the full term of the asset or liability; or
  4. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.
  5. Values provided by independent pricing services.
- Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

**HARVESTONS SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**AUGUST 31, 2020**

**4. FAIR VALUE MEASUREMENTS (continued)**

In certain case, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgement, and considers factors specific to the asset or liability.

At August 31, 2020 the Company's securities owned at market are deemed to be Level 1 as the fair value is based on quoted market values.

	Level 1	Level 2	Level 3	Total
Equity Securities	\$ 206,626	\$ -	\$ -	\$ 206,626
Total	\$ 206,626	\$ -	\$ -	\$ 206,626

**5. LOANS**

Commitments and contingencies

In the normal course of business, we enter into commitments for either fixed income or equity underwritings. As of August 31, 2020, we had no such open underwriting commitments.

As a result of extensive regulation of broker-dealers, we are subject to regular reviews and inspections by regulatory authorities and self-regulation organizations. The reviews can result in the imposition of sanctions for regulatory violations, ranging from non-monetary censures to fines and, in serious cases, temporary or permanent suspension from conducting business, or limitations on certain business activities. In addition, regulatory agencies and self-regulatory organizations institute investigations from time to time into industry practices, which can also result in the imposition of such sanctions. Refer to the "Legal and regulatory matter contingencies" discussion within this footnote for more information about related loss contingency. See Note 2 for additional information regarding regulatory capital requirements applicable to us.

The Company entered into an office lease with a related party (see note 8) effective September 2017. The lease is renewed every 6 months, effective September 1, 2020 and the Company has renewed the lease until February 28, 2021. Future minimum payments required under operating lease obligations at February 28, 2021 are \$15,000.

Legal and regulatory matter contingencies

In addition to the matter specifically described below, in the normal course of our business, we may be named, from time to time, as a defendant in various legal actions, including arbitrations, class actions and other litigation, arising in connection with our activities.

We are also subject, from time to time, to other reviews, investigations and proceedings (both formal and informal) by governmental and self-regulatory agencies regarding our business. Such proceedings may involve, among other things, our sales and trading activities, financial products or offerings we sponsored, underwrote or sold, and operational matters. Some of these proceedings may in the future result, in adverse judgments, settlements, fines, penalties, injunctions or other relief and/or require us to undertake remedial actions. For the year ended August 31, 2020, we have not been party to or subject to any legal and regulatory matters.

The Company has evaluated events and transactions that occurred subsequent to August 31, 2020, for possible disclosure or recognition in the financial statements.
