#### NOTE E- MARKETABLE SECURITIES AND FAIR VALUE

##### Fair Value of Financial Instruments

Financial instruments that are subject to fair value disclosure requirements are carried in the financial at amounts that are approximate to fair value. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risks.

Management calculates the fair value of financial instruments on the books by determining the quoted value of the securities based upon prices provided by the clearing firm as of the close of the last trading day in the year multiplying this price by the number of shares that are owned on the last trading day of the year and are owned by the Company and reported on the Company's books as marketable securities.

The following information should not be interpreted by the financial statement user as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Company's assets, liabilities and credits. Due to a wider range of valuation techniques, circumstances and the degree of subjectivity used in making estimates, comparisons between the Company's disclosures and those of other companies and entities may not be meaningful. The following methods were used to estimate the fair values of the Company's financial instruments as December 31, 2019. There has been no significant or any changes in methodology for estimating fair value of the Company's financial instruments since December 31, 2020.

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quotes in active market for identical assets or liabilities ( Level 1 measurements) and the lowest priority to measurements to significant unobservable inputs ( Level 3 measurements). The three levels of fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs quoted other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

REVENUE RECOGNITION - Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance to the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when uncertainty associated with the variable consideration is resolved.

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recognized on the trade date ( the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

**Statement Related to Uniform Net Capital Rule**

---

The Company is a member of FINRA and is subject to the SEC Uniform Net Capital Rule 15c3-1. This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500% (15:1), or, during its first year of operations, 800 % (8:1). Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2020, the Company had net capital of \$114,966 which was \$14,966 in excess of the required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 0%. The Company has elected to use the basic computation method, as is permitted by the rule, which requires the Company maintain minimum net capital pursuant to a fixed dollar amount or 6- 2/3% of total aggregate indebtedness, as defined, whichever is greater, and does not, therefore, calculate its net capital requirement under the alternative reserve requirement method. There were no material differences reported as net capital in the audited computation of net capital and the broker-dealer's corresponding unaudited Part II of the Focus report required under Rule 15c3-1.

**Statement Related to Exemptive Provision (Possession and Control)**

---

The company does not have possession or control of customer's funds or securities. There was no material inadequacies in the procedures followed in adhering to the exemptive provision of SEA Rule 15c-3-3(k)(2)(ii); All customer transactions cleared through another broker-dealer on a fully disclosed basis.

**Statement of Material Inadequacies**

---

This audit did not disclose any material inadequacies since the previous audit of the financial statements contained within the audit report of the computation of minimum net capital as reported in the Supplemental Schedules contained within the audit report or the filed Financial and Operational Combined Uniform Single Report filed pursuant to SEA Rule 15c3-1. The firm is exempt from 15c3-3; it does not maintain customer funds or securities and, therefore, does not maintain customer funds to segregate nor does it maintain separate accounts for customers.

**Statement Related to SIPC Reconciliation**

---

SEA Rule 17a-5(e)(4) requires a registered broker-dealer to file a supplemental report which includes procedures related to the broker-dealer SIPC annual general assessment reconciliation or exclusion from membership forms. In circumstances where the broker-dealer reports \$500,000 or less in gross revenue they are not required to file the supplemental SIPC report. The Company is exempt from filing the supplemental report under SEA Rule 17a-5(e)(4) because it is reporting less than \$500,000 in gross revenue.

Dear Michael Jones:

We have reviewed management's statements, included in the accompanying Representation Letter of Exemptions, in which Securities Capital Corporation identified 15c3-3(k)(2)(ii) as the provision under 17 C.F.R. § 15c3-3(k) under which it claims exemption from 17 C.F.R. §240.15c3-3. Securities Capital Corporation stated that it has met the 15c3-3(k)(2)(ii) exemption throughout the most recent fiscal year without exception, or, with exception, as noted in the Representation Letter of Exemption. Securities Capital Corporation's management is responsible for compliance with the exemption provisions and its statements. Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Securities Capital Corporation's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion. Based on my review, I am not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in Rule 15c3-3 under the Securities Exchange Act of 1934.
