### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020

#### **Note 1 – Summary of Significant Accounting Policies**

##### *Nature of Business*

Equifinancial, LLC ("the Company") is a broker-dealer, registered with the Securities Exchange Commission ("SEC"), a member of the Financial Industry Regulatory Authority ("FINRA"), and a member of the Securities Investor Protection Corporation ("SIPC"). The Company was organized in 2004.

The Company's commission income is substantially derived from commissions from mutual funds and sales of annuities. Commission from the sale of mutual funds and variable annuities and 12b-1 fees are recognized as revenue at the point in time the associated service is fulfilled which is based on the trade date.

As is typical in the industry, the Company engages in activities with various financial institutions and brokers. In the event these counter parties do not fulfill their obligations, the Company may be exposed to risks.

##### *Cash and Cash Equivalents*

For purposes of reporting the statement of cash flows, the Company considers all cash accounts, which are not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash balances in excess of FDIC and similar insurance coverage are subject to the usual banking risks associated with funds in excess of those limits. At December 31, 2020, the Company had no uninsured cash balances.

##### *Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

##### *Income Taxes*

The Company, with the consent of its member, has elected under the Internal Revenue Code to be a Limited Liability Company for both federal and state income tax purposes. In lieu of corporation income taxes, the members of a Limited Liability Company are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements.

The Company has adopted the provisions of FASB Accounting Standards Codification 740-10, Accounting for Uncertainty in Income Taxes. Under ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. A tax position includes an entity's status, including its status as a pass-through entity, and the decision not to file a tax return. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary. The shareholders and the Company are generally not subject to U.S. federal, state or local income tax examinations related to the Company's activities for tax years before 2015.

**Note 1 – Summary of Significant Accounting Policies (continued)**

*Fair Value of Financial Instruments*

All of the Company's financial assets and liabilities are carried at market value or at amounts, which, because of their short-term nature, approximate current fair value.

**Recently Issued Accounting Pronouncements**

Revenue from contracts with customers includes distribution fees. The recognition and measurement of revenues based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the company's progress under contract; whether revenue should be presented gross or net of certain costs; and whether constraints on variable considerations should be applied due to uncertain future events.

Distribution fees. The Company enters into arrangements with managed accounts or other pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the fund upfront over time, upon the investors exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amount are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares and future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the company does not believe that it can overcome this constraint until the market value of the fund and investor activities are known which are usually monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

**Note 2 – Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital at an amount equal to the greater of \$5,000 or 6 2/3% of aggregate indebtedness, and requires that the ratio of aggregate indebtedness to net capital not to exceed 15 to 1.

At December 31, 2020, the Company had excess net capital of \$3,054.00 and a net capital ratio of 0% to 1.

**Note 3 – Related Party Transactions**
