The Firm was incorporated on August 21, 1986, and was capitalized by the issuance of 2,517 shares of its \$10 par value common stock. Subsequent to incorporation, additional \$10 par value common stock was issued as follows:

NOTE 2 – Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the Firm considers all short-term instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at December 31, 2020.

Allowance for Bad Debts

The Firm does not extend credit to its customers. Amounts shown as accounts receivable arise only as a result of trades which are in process and uncompleted as of the financial statement date. Such trades are normally completed during the next business day. The Firm considers accounts receivable to be fully collectible; accordingly, no allowance for bad debts is required.

Recognition of Revenue

Investment Advisory Fees:

The company provides investment advisory services on a daily basis. Advisory fees are assessed based on a percentage of client assets under management. Fees are earned and billed monthly and are recognized as revenue at that time because they relate directly to the advisory services

provided during each month. The company believes the performance obligation is satisfied on an ongoing basis, concurrent with the advisory services provided to clients.

Brokerage Commissions or Transaction Charges:

The company buys and sells securities on behalf of its customers. Each time a transaction takes place, the company charges a commission or transaction charge to offset costs. Commissions, transaction charges and related clearing expenses are recorded on the trade date. The company believes the performance obligation is satisfied on the trade date.

Depreciation and Amortization

Office equipment and leasehold improvements are recorded at cost and depreciated using the straight-line method over five to seven years.

Maintenance and repairs are charged to operations as incurred, and expenditures for significant betterments and renewals are capitalized.

Gains or losses on sales or retirement of such fixed assets are reflected in income.

Depreciation expense for the year was \$0.

Advertising Costs

The Company follows the policy of charging the costs of advertising to expense during the year in which the advertising first takes place. Advertising costs for the year ended December 31, 2020 were \$0.

Income Taxes

As of December 31, 2020, the Firm had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. Additionally, the Firm had no interest and penalties related to income taxes.

The Firm is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2016.

NOTE 3 – Net Capital Requirements
