## NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2020

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Operations

UMB Distribution Services, LLC (the Company), is a broker dealer registered with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA). The Company provides distribution and other services to registered investment companies. The Company is organized as a Wisconsin limited liability company and is a wholly owned subsidiary of UMB Fund Services, Inc. (the Parent), which is itself a subsidiary of UMB Financial Corporation (UMBFC). The Company's business is reliant upon its relationship with the Parent and UMBFC. Therefore, the Company's financial condition and operations could be materially different if the Company operated on a stand-alone basis.

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### *COVID-19*

During the first quarter of 2020, the global economy began experiencing a downturn related to the impacts of the COVID-19 global pandemic (COVID-19, or the pandemic). Such impacts have included significant volatility in the global stock and fixed income markets, a 150-basis-point reduction in the target federal funds rate, and the enactment of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). The Company continues to actively monitor developments related to COVID-19 and its impact to its business, customers, employees, counterparties, vendors, and service providers. The COVID-19 pandemic and stay-at-home and similar mandates have necessitated certain actions related to the way the Company operates its business, including transitioning most of its workforce off-site or to work-from-home to help mitigate health risks. The Company is also carefully monitoring the activities of its vendors and other third-party service providers to mitigate the risks associated with any potential service disruptions. While the Company has not experienced material adverse disruptions to its internal operations due to the pandemic, it continues to review evolving risks and developments.

#### Cash and Cash Equivalents

The Company defines cash and cash equivalents as highly liquid, short term investments with a maturity at the date of acquisition of three months or less.

#### Concentration of Credit Risk

The Company's cash accounts are on deposit at two financial institutions, including \$431,272 on deposit with UMB Bank, n.a., which is a subsidiary of UMBFC. The amounts on deposit at December 31, 2020 exceeded the federally insured limit at both of the financial institutions by \$539,733.

#### Accounts Receivable

The Company records accounts receivable at net realizable value and uses the allowance method to account for uncollectible accounts receivable. The Company estimates the allowance based on historical

collection experience and, as applicable, current conditions and reasonable and supportable forecasts that affect collectability. At December 31, 2020, no allowance for doubtful accounts was provided as all receivables are considered collectible.

### **Income Taxes**

The Company accounts for income taxes under the asset and liability method. Under the asset and liability method, deferred taxes are determined based on the differences between the financial statement and the tax basis of assets and liabilities using enacted tax rates. Deferred tax assets are reduced by a valuation allowance, when in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. No valuation allowance has been recorded as of December 31, 2020.

The Company is a single member limited liability company and is treated as a disregarded entity for federal income tax purposes. The Company files consolidated federal and state income tax returns with UMBFC and its subsidiaries. With limited exceptions, the Company is no longer subject to examination by tax authorities for years prior to 2014. Income taxes are computed utilizing the incremental consolidated tax rates. Under the Company's tax sharing agreement, for consolidated state tax returns, tax is to be allocated in accordance with the allocation of federal expense/benefit, unless applicable law requires a different method of allocation.

The Company records the financial statement effects of an income tax position when it is more likely than not, based on the technical merits, that it will be sustained upon examination. Based on its evaluation, the Company has determined that there were no significant uncertain tax positions requiring recognition in the accompanying financial statements. As of December 31, 2020, the Company had no accrued interest or penalties related to uncertain tax positions.

### **Exemptive Provision**

Rule 15c3-3 of the Securities Exchange Act of 1934, as amended, also known as the customer protection rule, requires a broker-dealer that maintains custody of customer securities and cash to maintain (i) physical possession or control over customers' fully paid and excess margin securities and (ii) a reserve of cash or qualified securities in an account at a bank that is at least equal in value to the net cash owed to customers, including cash obtained from the use of customer securities.

The Company operates under the provisions of an exemption from Rule 15c3-3 provided in paragraph (k)(1) of Rule 15c3-3. In order to operate under the exemption provided for in paragraph (k)(1), a broker-dealer must satisfy the following three conditions: (i) transactions as principal of any company account are limited to the purchase, sale and redemption of redeemable securities of registered investment companies or participations in an insurance company separate account; (ii) transactions as broker (agent) are limited to (a) the sale and or redemption of redeemable securities of registered investment companies or participations in an insurance company separate account, (b) the solicitation of share accounts for savings and loan associations insured by an instrumentality of the United States and (c) the sale of securities for the account of a customer to obtain funds for the immediate reinvestment in redeemable securities of registered investment companies; and (iii) the broker or dealer promptly transmits all funds and delivers all securities received in connection with activities as a broker or dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers.

The Company meets all of the requirements necessary to claim the exemption provided for under paragraph (k)(1). The Company does not (i) conduct securities transactions as a principal; (ii) sell or redeem securities as an agent for customers and (iii) does not receive funds or securities in connection with activities as broker or dealer (and would transmit to the appropriate party promptly if so received), and does not otherwise hold funds or securities for, or owe money or securities to, customers.

## Revenue from Contracts with Customers

The core services the Company provides are distribution and call management and fulfillment services for mutual funds, exchange traded funds (ETFs), private funds and unlisted closed-end funds. The services to be provided to each customer are outlined in a distribution agreement, a representative oversight agreement and/or inbound call management and fulfillment services agreements and include registered representative oversight, approval of fund marketing material, dealer agreement review and other services as set forth in each fee schedule. These services must be performed on an on-going monthly basis. The performance obligations for each of these services are highly-interdependent services that have the same pattern of transfer to the customer. As such, these services cannot be reasonably separated into individual performance obligations and these services are bundled as one service and one performance obligation. The performance obligation is satisfied on an on-going and continuous basis and is satisfied over time.

Fees will continue to be recognized on the accrual basis as they are provided on a monthly basis.

The following tables present balances of revenue and receivables related to contracts with customers, recorded in Revenue in the Statement of Income and Member's Equity and Accounts receivable in the Statement of Financial Condition:

<i>Revenue</i>	
Distribution fees	\$ 866,037
Fulfillment fees	137,889
Marketing fees	111,644
<b>Total</b>	<b>\$ 1,115,570</b>

<i>Accounts receivable</i>	
Distribution fees	\$ 248,059
Fulfillment fees	43,014
Marketing fees	14,825
<b>Total</b>	<b>\$ 305,898</b>

## Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## 2. RELATED-PARTY TRANSACTIONS

### UMB Fund Services, Inc.

The Company and the Parent entered into a management agreement which specifies a method by which certain expenses including salaries, benefits, rent, and administrative expenses are allocated from the Parent to the Company. The agreement also states which expenses are eligible for allocation. Expenses incurred under this agreement were \$911,600 for the year ended December 31, 2020.

The Company operates out of a location shared with the Parent.

The Company has clients in common with the Parent but provides independent services on behalf of those clients.

At December 31, 2020, net deferred tax assets were \$7,547 and net taxes payable to the parent were \$6,895.

The Company had no distributions to the Parent in 2020.

### 3. MAJOR CLIENTS

For the year ended December 31, 2020, three clients accounted for \$779,082 or approximately 70% of the Company's total revenue. Accounts receivable from these clients at December 31, 2020 totaled \$96,758, or approximately 32% of total accounts receivable.

### 4. NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3 1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash distributions paid if the resulting net capital ratio would exceed 10 to 1).

At December 31, 2020, the Company had net capital of \$625,590 which was \$600,590 in excess of its required net capital of \$25,000. The Company's ratio of aggregate indebtedness to net capital was 0.11 to 1 at December 31, 2020.

The Company is also subject to minimum capital requirements by certain state regulatory agencies and was in compliance with these requirements at December 31, 2020.

### 5. INCOME TAXES

The Company is included in a consolidated federal tax return and various consolidated or combined state returns. The consolidated current and deferred federal and state income tax expense of the group is allocated among the members in a systematic and consistent manner based on each member's share of the consolidated tax expense.

Income tax expense for the year ended December 31, 2020 includes the following components:

<b>Current tax expense:</b>		
Federal	\$	22,884
State		10,430
Total current tax expense		33,314
<b>Deferred tax benefit:</b>		
Federal		(201)
State		(48)
Total deferred tax benefit		(249)
Total tax expense	\$	33,065

Deferred income tax assets and liabilities reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax basis.

The significant components of the Company's deferred tax assets are as follows:

<b>Deferred tax assets:</b>	
Accrued expenses	\$ 7,547
Total deferred tax assets	<u>7,547</u>
Net deferred tax asset	<u>\$ 7,547</u>

No valuation allowance, as defined by ASC Topic 740, is required as management believes it is more likely than not that the deferred tax assets are realizable.

The provision for income taxes differs from the amounts computed by applying the federal statutory tax rate of 21% to income before income taxes. The reasons for these differences at December 31, 2020 are as follows:

Tax benefit at statutory rate of 21%	\$ 24,651
State income taxes, net of federal effect	8,197
Non-deductible expenses	72
Other	145
Total income tax expense	<u>\$ 33,065</u>
Effective tax rate	28.2%

## 6. INDEMNIFICATIONS

In the normal course of business, the Company has entered into agreements that include indemnification provisions. The Company has also agreed to indemnify its directors, officers, employees, and agents in certain situations. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against us that have not yet occurred. However, the Company believes the risk of loss related to these agreements is remote.

## 7. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through date of issuance. No subsequent events were identified.
