**Notes to Financial Statements**  
**For the Year Ended December 31, 2020**

**Note 1: Description of Business**

Incorporated on June 15, 1984, Brown and Brown Securities, Inc. (the "Company") is a broker/dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA").

The Company operates under the provisions of Paragraph (k)(2)(i) and (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. The requirement of Paragraph (k)(2)(i) allows the Company to have a special account for the exclusive benefit of its customers. Paragraph (k)(2)(ii) allows the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer, and promptly transmit all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

**Note 2: Summary of Significant Accounting Policies**

Basis of accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) which is required by the SEC and FINRA.

Use of estimates

The presentation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents include investments with maturities at the time of acquisition of three months or less. The Company has not designated any other assets as cash equivalents in determining the net change in cash in the statements of cash flows.

Restricted cash

As of December 31, 2020, cash of \$25,141 was pledged as collateral to secure deposit requirements at the Company's clearing broker/dealer.

Investments

Investments are recorded at fair value. The increase or decrease in fair value is credited or charged to operations. Realized and unrealized gain on investments of \$13,560 are reflected in the accompanying Statement of Operations.

**Brown and Brown Securities, Inc.**  
**Notes to Financial Statements**  
**For the Year Ended December 31, 2020**

**Note 2: Summary of Significant Accounting Policies (Continued)**

Credit risk

The Company maintains deposits at a financial institution which may at times exceed amounts covered by insurance provided by the U.S. Federal Deposit Insurance Corporation (“FDIC”). The Company has not experienced any losses related to amounts in excess of FDIC limits.

Recent accounting pronouncements

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 removes or modifies certain current disclosures and adds additional disclosures. The changes are meant to provide more relevant information regarding valuation techniques and inputs used to arrive at measures of fair value, uncertainty in the fair value measurements, and how changes in fair value measurements impact an entity's performance and cash flows. Certain disclosures in ASU 2018-13 will need to be applied on a retrospective basis and others on a prospective basis. Early adoption is permitted. The Company adopted the provisions of this guidance on January 1, 2020. The adoption had no material effect on the disclosures of the Company's financial instruments valued at Level 1.

**Note 3: Revenue from Contracts with Customers**

Significant judgments

Revenue from contracts with customers consists entirely of commission income. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Brokerage Commissions

The Company buys and sells mutual funds on behalf of its customers. Each time a customer enters a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer

**Brown and Brown Securities, Inc.**  
**Notes to Financial Statements**  
**For the Year Ended December 31, 2020**

**Note 4: Fair Value Measurement**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable input (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

Level 1      Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2      Measured based upon inputs that are observable, either directly or indirectly, for the asset or liability other than quoted market prices included in Level 1.

Level 3      Measured based on unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date.

As required by ASC 820-10, financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodology used for the assets measured at fair value as of December 31, 2020:

Bond mutual fund – Valued at the closing price reported on the active market on the last trade of each day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Company believes its valuation methods are appropriate and consistent with other market participants; even so, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Company's investments by ASC 820-10 pricing levels at December 31, 2020:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual fund	<u>\$ 292,257</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 292,257</u>
Total investments at fair value				<u>\$ 292,257</u>

**Brown and Brown Securities, Inc.**  
**Notes to Financial Statements**  
**For the Year Ended December 31, 2020**

**Note 5: Related Party Transactions**

For the year ended December 31, 2020, the Company had a payable in the amount of \$31,200 due to a related entity.

The Company shares office space and other operating expenses with a related entity owned and operated by the shareholders of the Company. The Company pays ninety percent of its gross profit to the related entity for its share of the associated expenses. However, the reimbursements are limited if they would cause the Company to have insufficient resources to satisfy its obligations or not be in compliance with net capital requirements. Total amount paid during the year ended December 31, 2020 was \$348,200.

**Note 6: Net Capital Requirements**

The Company is subject to the net capital requirements of rule 15c3-1 of the Securities Exchange Commission, which requires a broker dealer to have at all times sufficient liquid assets to cover indebtedness. In accordance with the rule, the Company is required to maintain minimum net capital of the \$50,000 or 1/15 of aggregate indebtedness. As of December 31, 2020, the Company had net capital, as defined, of \$387,579 which exceeded the required minimum net capital by \$337,579. Aggregate indebtedness at December 31, 2020 totaled \$31,200 and the ratio of aggregate indebtedness to net capital was .0805.

**Note 7: Income Taxes**

The Company, with the consent of its shareholders, has elected under the Internal Revenue Service Code to be an S Corporation. In lieu of a provision for income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the company's taxable income.

The Company is subject to the Texas franchise tax; however, total revenue for the year ended December 31, 2020 was less than the taxable threshold. Therefore, total franchise tax due for the year ended December 31, 2020 was \$0.

The Company has adopted the provisions of ASC Topic 740 (Income Taxes) relating to unrecognized tax benefits on January 1, 2009. This standard requires an entity to recognize a liability for tax positions when there is a 50% or greater likelihood that the position will not be sustained upon examination. The Company is liable for taxes if its initial election as an S Corporation was invalid or if it ceases to meet the requirements of an S Corporation. The Company believes that its initial election was valid and that it continues to meet the requirements of an S Corporation, and that it is more likely than not that this position would be sustained upon examination. As such, there were no liabilities recorded for uncertain tax positions as of December 31, 2020.

The Company is no longer subject to U.S. Federal income tax examinations by tax authorities for years before 2017 or subject to Texas franchise tax examinations for years before 2015.

of Brown and Brown Securities, Inc.
