Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Bullish Bob Bagley Securities, Inc. (the Company) was organized in May 1989 as a Texas corporation. The Company is a broker/dealer in securities registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC).

The Company operates under the exemptive provisions of Rule 15c3-3(k)(2)(ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. For the Company's other business activities, it is considered a Non-Covered Firm exempt from 17 C.F.R. § 240.15c3-3. The Company does not hold customer funds or securities, carry accounts for customers or carry PAB accounts (as defined in Rule 15c3-3).

The Company's operations consist primarily of providing securities brokerage services to individuals located in the state of Texas.

Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Securities owned are held for investment purposes and are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, as described in Note 4. The increase or decrease in fair value is credited or charged to operations.

The Company's other financial asset and liability amounts reported in the statement of financial condition are short-term in nature and approximate fair value.

Note 1 - Nature of Business and Summary of Significant Accounting Policies (Continued)

Revenue Recognition

Securities Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company may charge a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. Securities commissions also includes other revenue related to customer accounts which is recorded on the trade date.

Mutual Fund Commissions

The Company enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the funds up front, over time, upon the investor's exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe it can overcome this constraint until the market value of the funds and the investor activities are known, which are either monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Income Taxes

As of September 30, 2021, open Federal tax years subject to examination include the tax years ended September 30, 2018 through September 30, 2020.

The Company is also subject to state income taxes.

Note 2 - Transactions with Clearing Broker/Dealer

The Company has an agreement with a national clearing broker/dealer to provide clearing, execution and other related services. The agreement requires minimum monthly charges of \$2,000. The agreement also requires the Company to maintain a minimum of \$10,000 in cash and/or securities in accounts held with the clearing broker/dealer.

Note 3 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At September 30, 2021, the Company had net capital of \$12,018, which was \$7,018 in excess of its net capital requirement of \$5,000. The Company's net capital ratio was 0.25 to 1.

Note 4 - Fair Value / Securities Owned

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1.* Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- *Level 2.* Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- *Level 3.* Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

Notes to Financial Statements

Note 4 - Fair Value / Securities Owned (continued)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2021.

Inverse Index Exchange traded fund: Valued at the last sale price on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any reported sales, at the mean between the last available bid and asked price.

The following table sets forth by level, within the fair value hierarchy, the Company's securities owned at fair value as of September 30, 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Inverse Index Exchange traded fund	\$ 13,081	\$ -	\$ -	\$ 13,081
Total	<u>\$ 13,081</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,081</u>

Securities owned consist of holdings in one inverse index exchange traded fund. Cost and fair value of securities owned at September 30, 2021, are as follows:

	<u>Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
Inverse Index Exchange traded fund	<u>\$ 56,749</u>	<u>\$ -</u>	<u>\$ 43,668</u>	<u>\$ 13,081</u>
	<u>\$ 56,749</u>	<u>\$ -</u>	<u>\$ 43,668</u>	<u>\$ 13,081</u>

There were no transfers between level 1 and level 2 during the year.

There were no assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (level 3) during the year ended September 30, 2021.

BULLISH BOB BAGLEY SECURITIES, INC.
Notes to Financial Statements
September 30, 2021

Note 5 - Income Taxes

The Company has a current year tax loss; therefore, there is no provision for current income taxes. The Company has a net operating loss carry forward of approximately \$270,000 available to offset future taxable income, which begins expiring in 2028. The Company also has a capital loss carryforward of approximately \$81,000 expiring beginning in 2021. The net operating loss carryforward, capital loss carryforward, and cumulative unrealized losses on securities owned creates a deferred tax asset of approximately \$83,000, which is fully reserved with a valuation allowance, therefore, there is no deferred tax asset recognized in the accompanying statement of financial condition.

Note 6 - Related Party Transactions/Economic Dependency/Concentration of Revenue

Two registered representatives generated all of the Company's commission revenue and received all of the compensation and related costs for the year ended September 30, 2021. The Company is economically dependent upon these representatives due to the concentration of revenue generated.

The sole shareholder provides office space for the Company at no cost to the Company.

Note 7 - Off-Balance-Sheet Risk

As discussed in Note 1, the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

Note 8 - Concentration of Credit Risk

The Company has cash of \$1,884 and securities owned of \$13,081, or 89%, of its total assets in cash and securities owned held at the Company's clearing broker/dealer at September 30, 2021.

Note 9 - Contingencies

There are currently no asserted claims or legal proceedings against the Company, however, the nature of the Company's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such action against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Note 10 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to September 30, 2021, through November 22, 2021, the date which the financial statements were available to be issued.

The Company's sole shareholder made additional capital contributions totaling \$2,000 in October 2021.
