Notes to Financial Statement
September 30, 2021

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

VicCar, LLC (the "Company") is a Limited Liability Company that was formed in Delaware on January 11, 2019. The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC"), the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC") as of November 5, 2020. The firm is limited to raising capital for private placements in the private equity sector.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statement has been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Accounts Receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts based on history of past write-offs and collections and current credit conditions. There was no accounts receivables and no allowance for doubtful accounts as of September 30, 2021.

Revenue and Expense Recognition

The Company has adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). ASC Topic 606 requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

Recently issued accounting standards

In June 2016, the FASB issued Accounting Standards Update "ASU" No. 2016-13, Financial Instruments - Credit Losses (Topic 326). The ASU introduces a new credit loss methodology, Current Expected Credit Losses (CECL), which requires earlier recognition of credit losses, while also providing additional transparency about credit risk. Since its original issuance in 2016, the FASB has issued several updates to the original ASU. The CECL methodology utilizes a lifetime "expected credit loss" measurement objective for the recognition of credit losses for loans, held-to-maturity securities and other receivables at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. The methodology replaces the multiple existing impairment methods in current U.S. GAAP, which generally requires that a loss be incurred before it is recognized.

For financial assets measured at amortized cost (e.g., cash and cash equivalents and receivables from clients), the Company has concluded that there are de minimus expected credit losses based on the nature and contractual life or expected life of the financial assets and immaterial historic and expected losses.

On June 1, 2020, the Company adopted Topic 326 using the modified retrospective approach for all in-scope assets, which did not result in an adjustment to the opening balance in retained earnings.

Private placement fees

The Company engages in private placement of securities. Revenues are earned from fees upon a successful placement of funds in accordance with the terms of the customer agreement.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company is a single member limited liability company that is deemed to be a disregarded entity for income tax purposes. The taxable income or loss of the Company is allocated to its member. The Company's sole member is subject to the New York City Unincorporated Business Tax ("UBT"). As the liability associated with the UBT is principally the result of the operations of the Company, the UBT, which is calculated using currently enacted tax laws and rates, is reflected on the books of the Company, in accordance with the provisions of the Income Taxes Topic of the Financial Accounting Standards Board Accounting Standards Codification. This Topic requires the consolidated current and deferred tax expense (benefit) for a group that files a consolidated tax return to be allocated among the members of the group when those members issue separate financial statements. For the eleven month period ended September 30, 2021, the Company had no allocated portion of UBT.

The Company accounts for uncertainties in income taxes under the provisions of FASB ASC 740-10-05, "Accounting for Uncertainty in Income Taxes." The ASC clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. The ASC prescribes a recognition threshold and measurement approach for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The ASC provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition, at September 30, 2021, the Company had no material unrecognized tax and no uncertain tax positions.

Use of Estimates

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Accordingly, actual results could differ from those estimates and such differences could be material.

NOTE 3 – CONCENTRATIONS OF CREDIT RISK

Cash

The Company maintains principally all cash balances in one financial institution which, at times, may exceed the amount insured by the Federal Deposit Insurance Corporation. The exposure to the Company is solely dependent upon daily bank balances and the strength of the financial institution. The Company has not incurred any losses on this account.

Revenue

During the eleven month period ended September 30, 2021, the Company's did not generate any private placement revenues.

NOTE 4 - INDEMNIFICATIONS

In the normal course of its business, the Company indemnifies and guarantees certain service providers against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

VicCar, LLC

Notes to Financial Statement
September 30, 2021

NOTE 5 – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 8 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. Net capital and aggregate indebtedness change day to day, but on September 30, 2021, the Company had net capital of \$62,535 which was \$57,535 in excess of its required net capital of \$5,000; and the Company's percentage of aggregate indebtedness to net capital was approximately 8%.

NOTE 6 – SUBSEQUENT EVENTS

Management has evaluated the Company's events and transactions that occurred subsequent to September 30, 2021 through the auditor's report date, when the financial statement was issued. There were no other events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Company's financial statement.
