WHITEHALL-PARKER SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2021

1. ORGANIZATION AND NATURE OF BUSINESS

Whitehall-Parker Securities, Inc.(the "Company") was incorporated on February 1, 1982 under the laws of the state of California. The Company is a broker/dealer registered with the Securities and Exchange Commission("SEC"), and is a member of the Financial Industry Regulatory Authority("FINRA") and the Securities Investor Protection Corporation("SIPC"). The Company provides retail securities brokerage and portfolio advisory services. The Company follows Generally Accepted Accounting Principles(GAAP), as established by the Financial Accounting Standards Board(FASB), to ensure consistent reporting of financial condition, results of operations, and cash flows.

2. SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include valuing advisory fees earned which are paid quarterly in arrears.

Revenue Recognition:

The Company performs most of its transactions on behalf of customers through its clearing firm(Pershing, LLC) on an agency basis, but some cleared transactions are performed on a riskless principal basis(e.g. bond purchases and sales). For all transactions through the clearing firm, the Company is credited commissions at settlement date, but the Company recognizes revenue at trade date(typically two business days before settlement date). For transactions performed directly with investment issuers outside of the Company's clearing firm, the Company recognizes revenue when the investment issuer confirms to the Company that all application paperwork and funds are received by the investment issuer in good order and/or at the close of a transaction escrow. For quarterly advisory fees, the Company recognizes revenue as an estimate of the monthly portion of the quarterly fees projected to be received based on current underlying client portfolio valuations.

2. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

Income Taxes:

Deferred income taxes are provided on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences. Deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. Management has determined there are no deferred tax assets or liabilities that are required to be recorded.

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company to report information regarding its exposure to various tax positions taken by the Company. The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax positions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state tax authorities generally have the right to examine and audit the previous three to four years of tax returns filed. Any interest or penalties assessed to the Company are recorded in operating expenses.

Cash Equivalents:

The Company considers all unrestricted investment instruments purchased with original maturities of three months or less to be cash equivalents. At August 31, 2021 there were no cash equivalents, other than the required \$25,000 deposit invested in a money market account held at the Company's clearing firm(Pershing, LLC).

Depreciation/Amortization:

The Company provides for depreciation in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives, principally using the Modified Accelerated Cost Recovery method(MACRS). During the fiscal year ending in 2021, the Company had no depreciable assets with a book value greater than zero during the year. The Company amortizes prepaid assets in equal monthly amounts over the term of the prepaid item. Currently the Company is amortizing one prepaid subscription for a due diligence system(AI Insight) offered by an outside vendor.

Accounts Receivable:

Management of the Company considers all accounts receivable to be collectible at August 31, 2021. Therefore, no allowance for doubtful accounts is required.

2. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

Accrued Expenses:

The Company accrues for commissions payable to all registered representatives of the firm earned in a month but not payable until the 15th of the following month, per the terms of the underlying independent contractor agreements between the Company and its registered representatives. An estimate is made for all other trade payables, which are typically small and similar from month to month, which is included in accounts payable on the accompanying statement of financial condition.

Fair Value Measurements:

The Company reports balances that are required or permitted to be measured at fair market value in accordance with existing accounting pronouncements. Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based upon the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy is used that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity(observable inputs that are classified with Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices(unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability(other than quoted prices) such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability which are typically based on an entity's own assumptions as there is little, if any, related market data available. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The carrying values of cash, restricted deposits, receivables, and accounts payable are reasonable estimates of their fair values due to their short-term nature.

3. NET CAPITAL

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At August 31, 2021 the Company had net capital of \$49,990, which was \$41,828 in excess of its required minimum net capital of \$8,162 and \$37,747 in excess of 10% of aggregate indebtedness. The Company's net capital ratio (aggregate indebtedness to net capital) at August 31, 2021 was 2.4491 to 1.

4. SECURITIES OWNED AND FAIR VALUE MEASUREMENTS

The Company owns no securities, other than a required \$25,000 money market account on deposit with the Company's clearing firm (Pershing, LLC) since 1992. The Company owned no other securities during the fiscal year. The Company accounts for the money market account held at the clearing firm without haircuts at a non-fluctuating value of \$25,000, which is the value reported in the quarterly statements provided by the clearing firm since 1992.

5. CONCENTRATIONS OF CREDIT RISK

The Company places its cash in one checking account with Wells Fargo Bank, a high credit quality financial institution. The Company's account at this institution is insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. To reduce its risk associated with the failure of such a financial institution, the Company evaluates periodically the rating of the financial institution in which it maintains deposits.

6. RELATED PARTIES

The Company did not conduct any operations with any related parties during the year, other than processing securities transactions requested by the Company's registered representatives for the benefit of themselves and their family members. These transactions were not material to the Company's operations individually or in total. The Company did obtain a loan for \$60,000 from an employee of the firm during the fiscal year. The loan bears no interest and has no specified maturity date, but the Company expects to repay the loan to the employee from operations in FYE 2022.

7. COMMITMENTS AND CONTINGENCIES

Commitments:

The Company has no commitments other than office rent payable for its home office at 117 Paul Drive Suite B San Rafael, CA 94903 to Professional Financial Investors, Inc. at a rate of \$3,000 per month until January 31, 2023.

Litigation:

The Company occasionally is involved in legal proceedings in the ordinary course of business. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Currently, the Company is involved in a class action lawsuit involving broker/dealers across the country over the securities of an outside issuer and one customer arbitration. The Company has expended significant legal fees to defend itself in these actions. The Company believes these cases are without merit. The Company expects to incur significant legal fees to bring each of these cases to resolution. The Company does not believe the final settlements or orders from the aforementioned cases will be material to the firm's operations, but the results of these legal cases are uncertain.

Contingency-COVID 19:

During the 2021 fiscal year, the World Health Organization declared COVID-19 to constitute a "Public Health Emergency of International Concern". This pandemic has disrupted economic markets and the economic impact, duration, and spread of the COVID-19 virus is uncertain at this time. The financial performance of the Company is subject to future developments related to the COVID-19 outbreak and possible governmental advisories and restrictions placed on the financial markets and business activities. The impact on financial markets and the overall economy, all of which are highly uncertain, cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Company's results may be materially affected. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

8. SIPC RECONCILIATION REQUIREMENT

SEC Rule 17a-5(e)(4) requires a registered broker/dealer to file a supplemental report which includes procedures related to the broker/dealer's annual general assessment reconciliation or exclusion from membership forms.

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 28, 2021, the date on which the financial statements were available to be issued. There were no subsequent events that require adjustment or disclosure in the financial statements.
