EXHIBIT D

Exhibit Request:

For each subsidiary or affiliate of the exchange, provide unconsolidated financial statements for the latest fiscal year. Such financial statements shall consist, at a minimum, of a balance sheet and an income statement with such footnotes and other disclosures as are necessary to avoid rendering the financial statements misleading. If any affiliate or subsidiary is required by another Commission rule to submit annual financial statements, a statement to that effect, with a citation to the other Commission rule, may be provided in lieu of the financial statements required here.

Response:

1. Unaudited unconsolidated financial statements of Miami International Holdings, Inc. as of December 31, 2021 are attached.
2. Audited unconsolidated financial statements of Miami International Securities Exchange, LLC as of December 31, 2021 are attached.
3. Audited unconsolidated financial statements of MIAX Emerald, LLC as of December 31, 2021 are attached.
4. Unaudited unconsolidated financial statements of Miami International Technologies, LLC as of December 31, 2021 are attached.
5. Unaudited unconsolidated financial statements of MIAX Futures, LLC as of December 31, 2021 are attached.
6. Unaudited unconsolidated financial statements of The Bermuda Stock Exchange as of December 31, 2021 are attached.
7. Unaudited unconsolidated financial statements of M 402 Holdings, LLC as of December 31, 2021 are attached. (Balance sheet provided; no profit & loss statement as no income or expenses as of December 31, 2021.)
8. Unaudited unconsolidated financial statements of Minneapolis Grain Exchange, LLC as of December 31, 2021 are attached.
9. Unaudited unconsolidated financial statements of ConvexityShares, LLC as of December 31, 2021 are attached.
10. MIAX Global, LLC, MIAX Products, LLC, and BSD Nominee Limited are not active and financial statements are not available for these companies.

EXHIBIT I

Exhibit Request:

For the latest fiscal year of the applicant, audited financial statements which are prepared in accordance with, or in the case of a foreign applicant, reconciled with, United States generally accepted accounting principles, and are covered by a report prepared by an independent public accountant. If an applicant has no consolidated subsidiaries, it shall file audited financial statements under Exhibit I alone and need not file a separate unaudited financial statement for the applicant under Exhibit D.

Response:

Audited unconsolidated financial statements for MIAX PEARL, LLC as of December 31, 2021 are attached. MIAX PEARL, LLC has no consolidated subsidiaries.

EXHIBIT K

Exhibit Request:

This Exhibit is applicable only to exchanges that have one or more owners, shareholders, or partners that are not also members of the exchange. If the exchange is a corporation, please provide a list of each shareholder that directly owns 5% or more of a class of a voting security of the applicant. If the exchange is a partnership, please provide a list of all general partners and those limited and special partners that have the right to receive upon dissolution, or have contributed, 5% or more of the partnership's capital. For each of the persons listed in the Exhibit K, please provide the following:

1. Full legal name;
2. Title or Status;
3. Date title or status was acquired;
4. Approximate ownership interest; and
5. Whether the person has control, a term that is defined in the instructions to this Form.

Response:

Miami International Holdings, Inc. owns 100% of MIAX PEARL, LLC. Miami International Holdings, Inc. exercises "control" over the Exchange, as that term is defined in the Form 1 instructions. MIAX PEARL, LLC became a wholly-owned subsidiary of Miami International Holdings, Inc. on March 7, 2016.

EXHIBIT M

Exhibit Request:

Provide an alphabetical list of all members, subscribers or other users, including the following information:

1. Name;
2. Date of election to membership or acceptance as a member, subscriber or other user;
3. Principal business address and telephone number;
4. If member, subscriber or other user is an individual, the name of the entity with which such individual is associated and the relationship of such individual to the entity (e.g. partner, officer, director, employee, etc.);
5. Describe the type of activities primarily engaged in by the member, subscriber, or other user (e.g. floor broker, specialist, odd lot dealer, other market maker, proprietary trader, non-broker dealer, inactive or other functions). A person shall be “primarily engaged” in an activity or function for purposes of this item when that activity or function is the one in which that person is engaged for the majority of their time. When more than one type of person at an entity engages in any of the six types of activities or functions enumerated in this item, identify each type (e.g. proprietary trader, Registered Competitive Trader and Registered Competitive Market Maker) and state the number of participants, subscribers, or other users in each; and
6. The class of membership, participation or subscription or other access.

Response:

1. **MIAX Pearl Options.** Attached is a list of the members of the MIAX Pearl Options exchange dated as of June 17, 2022, including the information set forth in items 1-6 above.
2. **MIAX Pearl Equities.** Attached is a list of the members of the MIAX Pearl Equities exchange dated as of June 17, 2022, including the information set forth in items 1-6 above.

EXHIBIT N

Exhibit Request:

Provide a schedule for each of the following:

1. The securities listed in the exchange, indicating for each the name of the issuer and a description of the security;
2. The securities admitted to unlisted trading privileges, indicating for each the name of the issuer and a description of the security;
3. The unregistered securities admitted to trading on the exchange which are exempt from registration under Section 12(a) of the Act. For each security listed, provide the name of the issuer and a description of the security, and the statutory exemption claimed (e.g. Rule 12a-6); and
4. Other securities traded on the exchange, including for each the name of the issuer and a description of the security.

Response:

1.
 - A. **MIAX Pearl Options.** Attached is a list of the securities listed on the MIAX Pearl Options exchange as of June 17, 2022, indicating for each the name of the issuer and a description of the security.
 - B. **MIAX Pearl Equities.** Attached is a list of the securities listed on the MIAX Pearl Equities exchange as of June 17, 2022, indicating for each the name of the issuer and a description of the security.
2. None.
3. None.
4. None.

Independent Auditors' Report

The Board of Directors
Miami International Securities Exchange, LLC:

Opinion

We have audited the financial statements of Miami International Securities Exchange, LLC (the Company), which comprise the statement of financial condition as of December 31, 2021, and the related statements of income and changes in member's deficit, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

1. NATURE OF OPERATIONS

Miami International Securities Exchange, LLC ("MIAX" or the "Company") is a wholly owned subsidiary of Miami International Holdings, Inc. (the "Parent" or "MIH") and provides a marketplace for the trading of options products for its exchange members.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 6 ("Related Party Transactions") for more information on related party transactions.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Change in accounting principles - Consolidated Audit Trail ("CAT")

On January 1, 2021, the Company made a voluntary change to its accounting policy related to the treatment of promissory notes issued to the Company by CAT NMS LLC and CAT LLC to fund the ongoing development of CAT as detailed in Note 4 - Notes Receivable, net. Prior to adopting the new policy, the Company had fully expensed these promissory notes upon purchase. Under the new policy adopted during 2021 and applied retroactively to prior periods, the Company is expensing approximately 25% of the CAT notes based upon the expected amount recoverable, subject to SEC approval of industry fee model discussed in Note 4. The change in accounting policy resulted in a \$4.0 million increase to net profit and a \$3.7 million decrease to opening member's deficit for the year ended December 31, 2021.

Change in accounting estimate - Allocation of certain assets and liabilities held at the Parent

A change in accounting estimate was made during 2021 related to the allocation of assets and liabilities amongst the Parent and its wholly owned subsidiaries. Historically, assets and liabilities held at the Parent, were allocated to the Parent's wholly owned subsidiaries based on management's estimate of the usage of the specific asset or the estimated benefits received by the Company. During 2021, a legal entity approach was adopted wherein assets and liabilities were presented on the statement of financial conditions of the entity that has the legal right or obligation to the asset and liability. Therefore, for the year ended December 31, 2021, fixed assets, internally developed software, debt obligations and certain accrued liabilities, which are held at the Parent, were not allocated to the Company and as such not presented on the statement of financial conditions. This change in accounting estimate was accounted for prospectively beginning January 1, 2021 and there was no impact to the statement of income and member's deficit.

Cash and Cash Equivalents

The Company's operations are funded by its Parent through a centralized treasury function. Cash and cash equivalents include cash and amounts due from banks and interest-bearing bank balances. The Company places its cash and cash equivalents with financial institutions and at times, cash held in bank accounts may exceed the Federal Deposit Insurance

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

Corporation insurance limit. The Company monitors its risk of loss associated with such balances and deems the risk of loss to be remote. The carrying values of the Company's cash and cash equivalents approximates fair value. The Company did not have any restricted cash as of December 31, 2021.

Accounts Receivable

Accounts receivable are concentrated with the Company's member firms and market data distributors and are primarily collected through the Options Clearing Corporation ("OCC"). Transaction fees are netted against the liquidity payments for each member firm and the balance owed from a member firm is recognized as accounts receivable, net if the amount is to be received and as accounts payable and other liabilities if the amount is owed to the member firm. Management evaluates the Company's accounts receivables periodically and determines an appropriate allowance for uncollectible accounts receivable based on anticipated collections. In circumstances where a specific member firm's inability to meet its financial obligations is probable, the Company records a provision for uncollectible accounts against the member firm's receivable.

Fixed Assets, Net

Fixed assets are stated at cost, net of accumulated depreciation. As all fixed assets are acquired under capital leases, and depreciation is computed on a straight-line basis over the life of the lease, ranging from one to three years. The estimated useful life of the fixed assets ranges from three to five years.

Due to Miami International Holdings, Inc.

The majority of the Company's expenditures to date have been funded by the Parent. In certain instances, the Parent's other wholly owned subsidiaries may incur certain expenditure on behalf of the Company. Expenses incurred by the Company are settled on its behalf by the Parent or the Parent's other wholly-owned subsidiaries and allocated through intercompany charges and are net settled with the Parent resulting in payables due to Miami International Holdings, Inc. See Note 6 ("Related Party Transactions") for more information on related party transactions.

Management has determined that substantially all costs, other than direct financing and other financing related costs, for the build out of a marketplace for the trading of options and cash equities, are primarily attributable to the Company and its affiliates including MIAX Emerald, LLC ("Emerald") and MIAX PEARL, LLC ("PEARL"). The Company's allocated portion of cost are included in the accompanying statements of income and member's deficit. The Company considers changes in Due to Miami International Holdings, Inc., to be financing activity for purposes of the statements of cash flows.

Revenue Recognition

The Company generates revenues by assessing fees to its member firms for the services it renders, which include providing access to its exchanges, enabling transaction-based trading on its exchange, and providing access to various market data. Revenue for the Company's services are recognized as control of the services are transferred to the customer. The amount recognized is the amount that reflects the consideration the Company expects to be entitled to in exchange for its services.

The Company determines the transaction price at the outset of the arrangement based on the contractual and payment terms associated with the transaction. The typical term for the Company's contracts with customers ranges from the time it takes to complete a single transaction to one month, depending on the service being provided. Customers are usually billed each month in arrears with standard payment terms, though the Company does occasionally bill customers in advance. Fees associated with each contract are fixed within the month in which the service is provided.

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

The Company assesses the services promised in the contracts with customers and identifies a performance obligation for each promise to transfer to the customer a service that is distinct—i.e., if such service is separately identifiable and if a customer can benefit from it on its own or with other resources that are readily available to the customer.

Transaction services: Transaction services represent the customer's right to be matched on the exchange with a corresponding buyer or seller and to have the transaction executed. Fees are a function of three variables: (1) exchange fee rates; (2) overall industry trading volume; and (3) market share achieved by the exchange platforms. Transaction fees are assessed on a per contract basis and are considered earned upon the execution of a trade and are recognized on a trade date basis. Transaction fees are recorded net of applicable volume discounts. Rebates paid for certain customer transactions are accounted for as consideration payable to a customer and are recorded separately as transaction rebates, which are classified within cost of revenue in the accompanying statement of income and changes in member's deficit. In the event that a member firm prepays for transaction fees, revenue is recognized as transaction fees are incurred.

Transaction fees also result in regulatory fees. Regulatory fees include the options regulatory fee ("ORF") and Section 31 fees. ORF is in place to fund the Company's regulatory oversight function of the exchange marketplace and is determined based on the number of customer contracts and cannot be used for non-regulatory purposes. Section 31 fees are transaction fees charged by the SEC to the exchanges. The Section 31 fees charged to customers are based on the fee set by the SEC per notional value of transactions executed on the Company's securities markets and are calculated and billed monthly. The Section 31 fee collected by the Company is ultimately payable to the SEC, and is therefore classified within cost of revenue in the accompanying statement of income and changes in member's deficit...

Access fees: Access fees include allowing the customer to connect its network to the Company's exchange for a specified period of time. Fees for these services are assessed to exchange members for the opportunity to trade and use other related functions of the exchanges. Access fees are billed monthly in accordance with the published fee schedule and recognized during the period the service is provided which is generally one month.

Market data fees: Market data fees include making market data available to customers either through direct subscriptions or through the Company's participation in U.S. Tape Plans. Market data revenue includes distributions from the U.S. Tape Plans, which is distributed based upon each individual exchange's market share of U.S. volume, trades, and/or quotes. Market data revenue also includes market data revenue earned from the sale of proprietary market data directly to the customer on a subscription basis. Market data revenue is recognized in the period the data is provided.

Consideration payable to a customer: As discussed in the Transaction-based services section above, transaction rebates are accounted for as consideration payable to a customer and reduce revenue in the period in which the rebate is earned by the customer and the rebate is provided.

Income Taxes

The Company has elected to be treated as a disregarded LLC under the provisions of the Internal Revenue Code. All tax effects of Company's income and loss are passed through to the member. Therefore, no provision or liability for Federal Income Taxes is included in these financial statements. In December 2019, the FASB issued ASU 2019-12, Simplifying the Accounting for Income Taxes, which (a) clarified that an entity is not required to allocate consolidated income taxes to a legal entity that is not subject to tax for purposes of that legal entity's separate financial statements. Similar provisions apply for state and local income tax reporting. Accordingly, no provision for income taxes is provided in the accompanying financial statements.

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

3. FIXED ASSETS, NET

As of December 31, 2021, the total cost of fixed assets, consisting primarily of computer hardware that supports exchange operations, was \$40.5 million, with related accumulated depreciation of \$38.3 million. Depreciation expense was \$3.6 million for the year ended December 31, 2021.

4. NOTES RECEIVABLE, NET

The notes receivable relate to the consolidated audit trail ("CAT"), which involves the creation of an audit trail to enhance regulators' ability to monitor trading activities in the U.S. markets through a phased implementation. The funding for the development of the CAT is ultimately expected to be provided by the Self-Regulated Organizations ("SROs"), which include the Company, and the industry members. The SROs have presented the SEC with a fee model for charging fees, wherein the industry members will be responsible for 75% of the CAT cost and the SROs would be responsible for remaining 25% of the CAT cost. The funding to date has been provided by the SROs in exchange for promissory notes, which are expected to be repaid once the industry model is approved by the SEC and such industry member fees are collected. Until those fees are collected, the SROs may continue to incur additional significant costs.

The allowance for notes receivable associated with CAT is estimated based on anticipated collections. The following represents the changes in notes receivable and the allowance for notes receivable for the year ended December 31, 2021 (in thousands):

Notes receivable, gross	
Balance at January 1, 2021	\$ 5,091
Additions	5,351
Balance at December 31, 2021	<u>10,442</u>
Allowance for notes receivable	
Balance at January 1, 2021	1,380
Additions	1,338
(Write-off) / recoveries	-
Balance at December 31, 2021	<u>2,718</u>
Notes receivable, net	<u><u>\$ 7,724</u></u>

5. ACCOUNTS PAYABLE AND OTHER LIABILITIES

The following table presents the components of accounts payable and other liabilities as at December 31, 2021 (in thousands):

Transaction rebates payable	\$ 4,495
Current portion of lease obligation	2,431
Section 31 fees payable	1,085
Accounts payable and other	3,983
Accounts payable and other liabilities	<u><u>\$ 11,994</u></u>

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

6. RELATED PARTY TRANSACTIONS

The Company's utilizes assets and incurs certain liabilities that are held at the Parent level. Substantially all expenses of the Company are settled by the Parent and are charged to the Company, at cost, through intercompany charges. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2021 (in thousands):

Compensation and benefits	\$	14,374
Information technology and communication costs		3,961
Occupancy costs		711
Professional fees and outside services		1,771
Marketing and business development		994
General, administrative, and other		2,811
Total operating expenses	\$	24,622

7. COMMITMENTS AND CONTINGENCIES

Claims and Litigation

Nasdaq

On September 1, 2017, Nasdaq, Inc., filed an action against Miami International Holdings, Inc., Miami International Securities Exchange, LLC, MIAX PEARL, LLC and Miami International Technologies, LLC in the U.S. District Court for the District of New Jersey alleging patent infringement and trade secret misappropriation relating to Nasdaq's electronic trading technology and platforms. MIH subsequently filed six petitions before the Patent Trial and Appeal Board ("PTAB") at the United States Patent and Trademark Office ("USPTO") seeking a determination that the subject patent is invalid under the current law. The District Court proceeding was stayed in December 2018, pending resolution of the PTAB proceedings. All claims asserted by Nasdaq against MIH under the six patents at issue were invalidated by the PTAB in 2019 (the "PTAB Final Written Decisions"). On January 27, 2022 the PTAB granted authorization for Nasdaq to file Requests for the USPTO Director to Review the PTAB's Final Written Decisions, which invalidated the patents asserted against MIAX in litigation ("Review Requests"). On February 28, 2022, Nasdaq filed the Review Requests with the USPTO Director. On June 7, 2022, the PTAB Director denied Nasdaq's Review Requests of the PTAB Final Written Decisions. On June 21, 2022, Nasdaq waived its right to appeal the PTAB's Final Written Decisions and the stay in the District Court matter was lifted as all of the PTAB proceedings were concluded with each of the Nasdaq patent claims at issue invalidated.

On August 31, 2021, MIH filed an Answer and Counterclaims in the NJ District Court. MIH's Answer included denials of the allegations made by Nasdaq in the Complaint and Counterclaims including monopolization antitrust claims, patent misuse, sham litigation, and fraud on the USPTO by Nasdaq. MIH is seeking attorneys' fees and costs and such other relief as the Court may find to be just and proper. MIH intends to defend its interest in this matter vigorously.

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC
Notes to Financial Statements
As of and for the Year Ended December 31, 2021

General

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC. Management does not believe that the outcome of any of these reviews or inspections will have a material impact on the statement of financial conditions, the statement of income or cash flows of the Company.

In the normal course of its business, the Company is exposed to asserted and unasserted claims. In the opinion of management, these matters will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

8. SUBSEQUENT EVENTS

The Company has evaluated the possibility of subsequent events existing in the Company's financial statements through June 24, 2022, the date the financial statements were available to be issued. The Company has determined that there are no material events that would require disclosure in the Company's financial statements.

Independent Auditors' Report

The Board of Directors
MIAX Emerald, LLC:

Opinion

We have audited the financial statements of MIAX Emerald, LLC (the Company), which comprise the statement of financial condition as of December 31, 2021, and the related statements of income and changes in member's deficit, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

MIAX EMERALD, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

1. NATURE OF OPERATIONS

MIAX Emerald, LLC ("Emerald" or the "Company"), a wholly owned subsidiary of Miami International Holdings, Inc. (the "Parent" or "MIH"), provides a marketplace for the trading of equity options products for its exchange members.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Change in accounting principles - Consolidated Audit Trail ("CAT")

On January 1, 2021, the Company made a voluntary change to its accounting policy related to the treatment of promissory notes issued to the Company by CAT NMS LLC and CAT LLC to fund the ongoing development of CAT as detailed in Note 4 - Notes Receivable, net. Prior to adopting the new policy, the Company had fully expensed these promissory notes upon purchase. Under the new policy adopted during 2021 and applied retroactively to prior periods, the Company is expensing approximately 25% of the CAT notes based upon the expected amount recoverable, subject to SEC approval of industry fee model discussed in Note 3. The change in accounting policy resulted in a \$3.4 million increase to net profit and \$1.7 million decrease to opening member's deficit for the year ended December 31, 2021.

Change in accounting estimate - Allocation of certain assets and liabilities held at the Parent

A change in accounting estimate was made during 2021 related to the allocation of assets and liabilities amongst the Parent and its wholly owned subsidiaries. Historically, assets and liabilities held at the Parent, were allocated to the Parent's wholly owned subsidiaries based on management's estimate of the usage of the specific asset or the estimated benefits received by the Company. During 2021, a legal entity approach was adopted wherein assets and liabilities were presented on the statement of financial conditions of the entity that has the legal right or obligation to the asset and liability. Therefore, for the year ended December 31, 2021, fixed assets, internally developed software, debt obligations and certain accrued liabilities, which are held at the Parent, were not allocated to the Company and as such not presented on the statement of financial condition. This change in accounting estimate was accounted for prospectively beginning January 1, 2021 and there was no impact to the statement of income and member's deficit.

Cash and Cash Equivalents

The Company's operations are funded by its Parent through a centralized treasury function. Cash and cash equivalents include cash and amounts due from banks and interest-bearing bank balances. The Company places its cash and cash equivalents with financial institutions and at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insurance limit. The Company monitors its risk of loss associated with such balances and deems the risk of loss to be remote. The carrying values of the Company's cash and cash equivalents approximates fair value. The Company did not have any restricted cash as of December 31, 2021.

MIAX EMERALD, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

Accounts Receivable

Accounts receivable are concentrated with the Company's member firms and market data distributors and are primarily collected through the Options Clearing Corporation ("OCC"). Transaction fees are netted against the liquidity payments for each member firm and the balance owed from a member firm is recognized as accounts receivable, net if the amount is to be received and as accounts payable and other liabilities if the amount is owed to the member firm. Management evaluates the Company's accounts receivables periodically and determines an appropriate allowance for uncollectible accounts receivable based on anticipated collections. In circumstances where a specific member firm's inability to meet its financial obligations is probable, the Company records a provision for uncollectible accounts against the member firm's receivable.

Due to Miami International Holdings, Inc.

The majority of the Company's expenditures to date have been funded by the Parent. In certain instances, the Parent's other wholly owned subsidiaries may incur certain expenditure on behalf of the Company. Expenses incurred by the Company are settled on its behalf by the Parent or the Parent's other wholly owned subsidiaries and allocated through intercompany charges and are net settled with the Parent resulting in payables due to Miami International Holdings, Inc. See Note 5 ("Related Party Transactions") for more information on related party transactions.

Management has determined that substantially all costs, other than direct financing and other financing related costs, for the build out of a marketplace for the trading of options and cash equities, are primarily attributable to the Company and its affiliates including Miami International Securities Exchange, LLC ("MIAX") and MIAX PEARL, LLC ("PEARL"),.. The Company's allocated portion of cost are included in the accompanying statement of income and member's deficit. The Company considers changes in Due to Miami International Holdings, Inc. to be financing activity for purposes of the statements of cash flows.

Revenue Recognition

The Company generates revenues by assessing fees to its member firms for the services it renders, which include providing access to the exchange, enabling transaction-based trading on the exchange, and providing access to various market data. Revenue for the Company's services are recognized as control of the services are transferred to the customer. The amount recognized is the amount that reflects the consideration the Company expects to be entitled to in exchange for its services.

The Company determines the transaction price at the outset of the arrangement based on the contractual and payment terms associated with the transaction. The typical term for the Company's contracts with customers ranges from the time it takes to complete a single transaction to one month, depending on the service being provided. Customers are usually billed each month in arrears with standard payment terms, though the Company does occasionally bill customers in advance. Fees associated with each contract are fixed within the month in which the service is provided.

The Company assesses the services promised in the contracts with customers and identifies a performance obligation for each promise to transfer to the customer a service that is distinct—i.e., if such service is separately identifiable and if a customer can benefit from it on its own or with other resources that are readily available to the customer.

Transaction services: Transaction services represent the customer's right to be matched on the exchange with a corresponding buyer or seller and to have the transaction executed. Fees are a function of three variables: (1) exchange fee rates; (2) overall industry trading volume; and (3) market share achieved by the exchange platforms. Transaction fees are assessed on a per contract basis and are considered earned upon the execution of a trade and are recognized on a trade date basis. Transaction fees are recorded net of applicable volume discounts. Rebates paid for certain customer transactions are accounted for as consideration payable to a customer and are recorded separately as transaction rebates, which are

MIAX EMERALD, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

classified within cost of revenues in the accompanying statement of income and changes in member's deficit. In the event that a member firm prepays for transaction fees, revenue is recognized as transaction fees are incurred.

Transaction fees also result in regulatory fees. Regulatory fees include the options regulatory fee ("ORF") and Section 31 fees. ORF is in place to fund the Company's regulatory oversight function of the exchange marketplace and is determined based on the number of customer contracts and cannot be used for non-regulatory purposes. Section 31 fees are transaction fees charged by the SEC to the exchanges. The Section 31 fees charged to customers are based on the fee set by the SEC per notional value of transactions executed on the Company's securities markets and are calculated and billed monthly. The Section 31 fee collected by the Company is ultimately payable to the SEC, and is therefore classified within cost of revenue in the accompanying statement of income and changes in member's deficit.

Access fees: Access fees include allowing the customer to connect its network to the Company's exchange for a specified period of time. Fees for these services are assessed to exchange members for the opportunity to trade and use other related functions of the exchanges. Access fees are billed monthly in accordance with the published fee schedule and recognized during the period the service is provided which is generally one month.

Market data fees: Market data fees include making market data available to customers either through direct subscriptions or through the Company's participation in U.S. Tape Plans. Market data revenue includes distributions from the U.S. Tape Plans, which is distributed based upon each individual exchange's market share of U.S. volume, trades, and/or quotes. Market data revenue also includes market data revenue earned from the sale of proprietary market data directly to the customer on a subscription basis. Market data revenue is recognized in the period the data is provided.

Consideration payable to a customer: As discussed in the Transaction-based services section above, transaction rebates are accounted for as consideration payable to a customer and reduce revenue in the period in which the rebate is earned by the customer and the rebate is provided.

Income Taxes

The Company has elected to be treated as a disregarded LLC under the provisions of the Internal Revenue Code. All tax effects of Company's income and loss are passed through to the member. Therefore, no provision or liability for Federal Income Taxes is included in these financial statements. In December 2019, the FASB issued ASU 2019-12, Simplifying the Accounting for Income Taxes, which (a) clarified that an entity is not required to allocate consolidated income taxes to a legal entity that is not subject to tax for purposes of that legal entity's separate financial statements. Similar provisions apply for state and local income tax reporting. Accordingly, no provision for income taxes is provided in the accompanying financial statements.

3. NOTES RECEIVABLE, NET

The notes receivable relate to the consolidated audit trail ("CAT"), which involves the creation of an audit trail to enhance regulators' ability to monitor trading activities in the U.S. markets through a phased implementation. The funding for the development of the CAT is ultimately expected to be provided by the Self-Regulated Organizations ("SROs"), which include the Company, and the industry members. The SROs have presented the SEC with a fee model for charging fees, wherein the industry members will be responsible for 75% of the CAT cost and the SROs would be responsible for remaining 25% of the CAT cost. The funding to date has been provided by the SROs in exchange for promissory notes, which are expected to be repaid once the industry model is approved by the SEC and such industry member fees are collected. Until those fees are collected, the SROs may continue to incur additional significant costs.

The allowance for notes receivable associated with CAT is estimated based on anticipated collections. The following represents the changes in notes receivable and allowance for notes receivable for the year ended December 31, 2021 (in thousands):

Independent Auditors' Report

The Board of Directors
MIAX Pearl, LLC:

Opinion

We have audited the financial statements of MIAX Pearl, LLC (the Company), which comprise the statement of financial condition as of December 31, 2021, and the related statements of income and changes in member's deficit, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

MIAX PEARL, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

1. NATURE OF OPERATIONS

MIAX PEARL, LLC ("PEARL" or the "Company") is a wholly owned subsidiary of Miami International Holdings, Inc. (the "Parent" or "MIH"), and provides a marketplace for the trading of equity options and cash equities products for its exchange members.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S generally accepted accounting principles ("GAAP"). The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Change in accounting principles - Consolidated Audit Trail ("CAT")

On January 1, 2021, the Company made a voluntary change to its accounting policy related to the treatment of promissory notes issued to the Company by CAT NMS LLC and CAT LLC to fund the ongoing development of CAT as detailed in Note 3 - Notes Receivable, net. Prior to adopting the new policy, the Company had fully expensed these promissory notes upon purchase. Under the new policy adopted during 2021 and applied retroactively to prior periods, the Company is expensing approximately 25% of the CAT notes based upon the expected amount recoverable, subject to SEC approval of industry fee model discussed in Note 3. The change in accounting policy resulted in a \$4.7 million increase to net profit and a \$3.4 million decrease to opening member's deficit for the year ended December 31, 2021.

Change in accounting estimate - Allocation of certain assets and liabilities held at the Parent

A change in accounting estimate was made during 2021 related to the allocation of assets and liabilities amongst the Parent and its wholly owned subsidiaries. Historically, assets and liabilities held at the Parent, were allocated to the Parent's wholly owned subsidiaries based on management's estimate of the usage of the specific asset or the estimated benefits received by the Company. During 2021, a legal entity approach was adopted wherein assets and liabilities were presented on the statement of financial conditions of the entity that has the legal right or obligation to the asset and liability. Therefore, for the year ended December 31, 2021, fixed assets, internally developed software, debt obligations and certain accrued liabilities, which are held at the Parent, were not allocated to the Company and as such not presented on the statement of financial conditions. This change in accounting estimate was accounted for prospectively beginning January 1, 2021 and there was no impact to the statement of income and member's deficit.

Cash and Cash Equivalents

The Company's operations are funded by its Parent through a centralized treasury function. Cash and cash equivalents include cash and amounts due from banks and interest-bearing bank balances. The Company places its cash and cash equivalents with financial institutions and at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insurance limit. The Company monitors its risk of loss associated with such balances and deems the risk of loss

MIAX PEARL, LLC
Notes to Financial Statements
As of and for the Year Ended December 31, 2021

to be remote. The carrying values of the Company's cash and cash equivalents approximates fair value. The Company did not have any restricted cash as of December 31, 2021.

Accounts Receivable

Accounts receivable are concentrated with the Company's member firms and market data distributors and are primarily collected through the Options Clearing Corporation ("OCC") and the National Securities Clearing Corporation ("NSCC"). Transaction fees are netted against the liquidity payments for each member firm and the balance owed from a member firm is recognized as accounts receivable, net if the amount is to be received and as accounts payable and other liabilities if the amount is owed to the member firm. Management evaluates the Company's accounts receivables periodically and determines an appropriate allowance for uncollectible accounts receivable based on anticipated collections. In circumstances where a specific member firm's inability to meet its financial obligations is probable, the Company records a provision for uncollectible accounts against the member firm's receivable.

Due to Miami International Holdings, Inc.

The majority of all of the Company's expenditures to date have been funded by the Parent. In certain instances the Parent's other wholly owned subsidiaries may incur certain expenditure on behalf of the Company. Expenses incurred by the Company are settled on its behalf by the Parent or the Parent's other wholly owned subsidiaries and allocated through intercompany charges and are net settled with the Parent resulting in payables due to Miami International Holdings, Inc. See Note 5 ("Related Party Transactions") for more information on related party transactions.

Management has determined that substantially all costs, other than direct financing and other financing related costs, for the build out of a marketplace for the trading of options and cash equities, are primarily attributable to the Company and its affiliates including Miami International Securities Exchange, LLC ("MIAX") and MIAX Emerald, LLC ("Emerald"). The Company's allocated portion of cost are included in the accompanying statements of income and member's deficit. The Company considers changes in Due to Miami International Holdings Inc., to be financing activity for purposes of the statements of cash flows.

Revenue Recognition

The Company generates revenues by assessing fees to its member firms for the services it renders, which include providing access to its exchanges, enabling transaction-based trading on its exchanges, and providing access to various market data. Revenue for the Company's services are recognized as control of the services are transferred to the customer. The amount recognized is the amount that reflects the consideration the Company expects to be entitled to in exchange for its services.

The Company determines the transaction price at the outset of the arrangement based on the contractual and payment terms associated with the transaction. The typical term for the Company's contracts with customers ranges from the time it takes to complete a single transaction to one month, depending on the service being provided. Customers are usually billed each month in arrears with standard payment terms, though the Company does occasionally bill customers in advance. Fees associated with each contract are fixed within the month in which the service is provided.

The Company assesses the services promised in the contracts with customers and identifies a performance obligation for each promise to transfer to the customer a service that is distinct—i.e., if such service is separately identifiable and if a customer can benefit from it on its own or with other resources that are readily available to the customer.

Transaction services: Transaction services represent the customer's right to be matched on the exchange with a corresponding buyer or seller and to have the transaction executed. Fees are a function of three variables: (1) exchange fee rates; (2) overall industry trading volume; and (3) market share achieved by the exchange platforms. Transaction fees are assessed on a per contract basis and are considered earned upon the execution of a trade and are recognized on a trade date basis. Transaction fees are recorded net of applicable volume discounts. Rebates paid for certain customer transactions are

MIAX PEARL, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

accounted for as consideration payable to a customer and are recorded separately as transaction rebates, which are classified within cost of revenue in the accompanying statement of income and changes in member's deficit. In the event that a member firm prepays for transaction fees, revenue is recognized as transaction fees are incurred.

Transaction fees also result in regulatory fees. Regulatory fees include the options regulatory fee ("ORF") and Section 31 fees. ORF is in place to fund the Company's regulatory oversight function of the exchange marketplace and is determined based on the number of customer contracts and cannot be used for non-regulatory purposes. Section 31 fees are transaction fees charged by the SEC to the exchanges. The Section 31 fees charged to customers are based on the fee set by the SEC per notional value of transactions executed on the Company's securities markets and are calculated and billed monthly. The Section 31 fee collected by the Company is ultimately payable to the SEC, and is therefore classified within cost of revenues in the accompanying statement of income and changes in member's deficit.

Access fees: Access fees include allowing the customer to connect its network to one of the Company's exchanges for a specified period of time. Fees for these services are assessed to exchange members for the opportunity to trade and use other related functions of the exchanges. Access fees are billed monthly in accordance with the published fee schedule and recognized during the period the service is provided which is generally one month.

Market data fees: Market data fees include making market data available to customers either through direct subscriptions or through the Company's participation in U.S. Tape Plans. Market data revenue includes distributions from the U.S. Tape Plans, which is distributed based upon each individual exchange's market share of U.S. volume, trades, and/or quotes. Market data revenue also includes market data revenue earned from the sale of proprietary market data directly to the customer on a subscription basis. Market data revenue is recognized in the period the data is provided.

Consideration payable to a customer: As discussed in the Transaction-based services section above, transaction rebates are accounted for as consideration payable to a customer and reduce revenue in the period in which the rebate is earned by the customer and the rebate is provided. Additionally, the Company issues certain warrants to customers as part of its Equity Rights Programs detailed in Note 7. Under these programs, the Company records the fair value of the number of warrants that vest in a period as a cost of revenues. Customers vest in the warrants as and when they transact certain volumes of trades on the Company's exchanges which is considered a sales incentive offering that rewards customers solely in return for executing increased trading volumes with the Company.

Deferred revenue: As of December 31, 2021, the Company had deferred revenue representing prepaid transaction and non-transaction fees of \$4.0 million related to the collection of prepaid fees from customers participating in the Equity Rights Program V program detailed in Note 7. Deferred revenue is amortized to income over the applicable future periods as fees are earned.

Income Taxes

The Company has elected to be treated as a disregarded LLC under the provisions of the Internal Revenue Code. All tax effects of Company's income and loss are passed through to the member. Therefore, no provision or liability for Federal Income Taxes is included in these financial statements. In December 2019, the FASB issued ASU 2019-12, Simplifying the Accounting for Income Taxes, which (a) clarified that an entity is not required to allocate consolidated income taxes to a legal entity that is not subject to tax for purposes of that legal entity's separate financial statements. Similar provisions apply for state and local income tax reporting. Accordingly, no provision for income taxes is provided in the accompanying financial statements.

MIAX PEARL, LLC

Notes to Financial Statements

As of and for the Year Ended December 31, 2021

3. NOTES RECEIVABLE, NET

The notes receivable relate to the consolidated audit trail (“CAT”), which involves the creation of an audit trail to enhance regulators' ability to monitor trading activities in the U.S. markets through a phased implementation. The funding for the development of the CAT is ultimately expected to be provided by the Self-Regulated Organizations (“SROs”), which include the Company, and the industry members. The SROs have presented the SEC with a fee model for charging fees, wherein the industry members will be responsible for 75% of the CAT cost and the SROs would be responsible for remaining 25% of the CAT cost. The funding to date has been provided by the SROs in exchange for promissory notes, which are expected to be repaid once the industry model is approved by the SEC and such industry member fees are collected. Until those fees are collected, the SROs may continue to incur additional significant costs.

The allowance for notes receivable associated with CAT is estimated based on anticipated collections. The following represents the changes in notes receivable and the allowance for notes receivable for the year ended December 31, 2021 (in thousands):

Notes receivable, gross	
Balance at January 1, 2021	\$ 4,654
Additions	6,266
Balance at December 31, 2021	<u>10,920</u>
Allowance for notes receivable	
Balance at January 1, 2021	1,246
Additions	1,566
(Write-off) / recoveries	-
Balance at December 31, 2021	<u>2,812</u>
Notes receivable, net	<u><u>\$ 8,108</u></u>

4. ACCOUNTS PAYABLE AND OTHER LIABILITIES

The following table presents the components of accounts payable and other liabilities as at December 31, 2021 (in thousands):

Transaction rebates payable	\$ 8,313
Section 31 fees payable	2,476
Accounts payable and others	2,734
Accounts payable and other liabilities	<u><u>\$ 13,523</u></u>

5. RELATED PARTY TRANSACTIONS

The Company's utilizes assets and incurs certain liabilities that are held at the Parent level. Substantially all expenses of the Company are settled by the Parent and are charged to the Company, at cost, through intercompany charges. Similar results may not be achievable on an arm's length basis.

MIAX PEARL, LLC
Notes to Financial Statements
As of and for the Year Ended December 31, 2021

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2021 (in thousands):

Information technology and communication costs		17,448
Occupancy costs		1,189
Professional fees and outside services		2,519
Marketing and business development		986
General, administrative, and other		2,503
Total operating expenses	\$	44,317

6. COMMITMENTS AND CONTINGENCIES

Claims and Litigation

Nasdaq

On September 1, 2017, Nasdaq, Inc., filed an action against Miami International Holdings, Inc., Miami International Securities Exchange, LLC, MIAX PEARL, LLC and Miami International Technologies, LLC in the U.S. District Court for the District of New Jersey alleging patent infringement and trade secret misappropriation relating to Nasdaq's electronic trading technology and platforms. MIH subsequently filed six petitions before the Patent Trial and Appeal Board ("PTAB") at the United States Patent and Trademark Office ("USPTO") seeking a determination that the subject patent is invalid under the current law. The District Court proceeding was stayed in December 2018, pending resolution of the PTAB proceedings. All claims asserted by Nasdaq against MIH under the six patents at issue were invalidated by the PTAB in 2019 (the "PTAB Final Written Decisions"). On January 27, 2022 the PTAB granted authorization for Nasdaq to file Requests for the USPTO Director to Review the PTAB's Final Written Decisions, which invalidated the patents asserted against MIAX in litigation ("Review Requests"). On February 28, 2022, Nasdaq filed the Review Requests with the USPTO Director. On June 7, 2022, the PTAB Director denied Nasdaq's Review Requests of the PTAB Final Written Decisions. On June 21, 2022, Nasdaq waived its right to appeal the PTAB's Final Written Decisions and the stay in the District Court matter was lifted as all of the PTAB proceedings were concluded with each of the Nasdaq patent claims at issue invalidated.

On August 31, 2021, MIH filed an Answer and Counterclaims in the NJ District Court. MIH's Answer included denials of the allegations made by Nasdaq in the Complaint and Counterclaims including monopolization antitrust claims, patent misuse, sham litigation, and fraud on the USPTO by Nasdaq. MIH is seeking attorneys' fees and costs and such other relief as the Court may find to be just and proper. MIH intends to defend its interest in this matter vigorously.

General

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC. Management does not believe that the outcome of any of these reviews or inspections will have a material impact on the statement of financial conditions, the statement of income or cash flows of the Company.

In the normal course of its business, the Company is exposed to asserted and unasserted claims. In the opinion of management, these matters will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

MIAX PEARL, LLC
Notes to Financial Statements
As of and for the Year Ended December 31, 2021

7. EQUITY

PEARL is a single member limited liability company and has issued 100 membership units constituting 100% membership interest in the Company to MIH who is the Company's sole member. PEARL has not made any distributions for the period from February 11, 2016 (inception) through December 31, 2021.

Equity Rights Offering V ("ERP V")

MIH launched its first Equity Rights Program ("ERP") in September 2013 and subsequently introduced four additional ERPs between February 2015 and September 2020. Each ERP included a certain number of units allowing the Company's customers to obtain common stock warrants in return for a prepaid fee, which is applied to future purchases by the customer of the Company's services. The customer vests in the common stock warrants in tranches over designated time periods based on certain performance criteria, which generally require the customer to execute qualifying trades on the Company's exchanges in an amount equal to a specified fixed percentage of the average daily volume of trades on the applicable exchange.

On September 11, 2020, the Parent closed a fifth equity rights offering with nine firms for 22 L-Units providing for the issuance of warrants to purchase a total of 9,507,586 shares of common stock, representing 432,163 shares per L-Unit. The L-Warrants vest over a 42 month period provided that the participant met the specific performance criteria, which required the participants trade an agreed-upon number of equities contracts, subject to certain exceptions, on PEARL on a daily basis over a specified number of months. In the event of a Qualified Public Offering, merger or other liquidating event, it will result in the immediate vesting of all unvested warrants that remain eligible to vest with the L-Unit participant. The warrants expire earliest from (i) September 11, 2027, (ii) or the two year anniversary of a Qualified Public Offering, (iii) or a merger or sale of the Parent. Upon closing, the Company collected \$22 million of prepaid fees from participating member firms. The Company amortized \$7.3 million of prepaid fees during the year ended December 31, 2021, leaving an unamortized balance of \$4.0 million as of December 31, 2021 which is included in deferred transaction revenue in the Company's statement of financial condition.

The shares of common stock and warrants issued under ERP V are classified as equity instruments on the Parent's consolidated balance sheets. The ERP Awards are determined to be consideration payable to a customer and recorded as cost of revenue on the Company's statement of income and changes in member's deficit, based on the grant date fair value of the awards.

8. SUBSEQUENT EVENTS

The Company has evaluated the possibility of subsequent events existing in the Company's financial statements through June 24, 2022, the date the financial statements were available to be issued. The Company has determined that there are no material events that would require disclosure in the Company's financial statements.
