1 Organization and Nature of Business

Old Greenwich Partners, LLC (the Company) formerly known as Kelbra Securities, LLC was organized in the State of Connecticut on March 5, 2009. The Company is a broker-dealer registered with the SEC and is a member of the Financial Industry Regulatory Authority - FINRA, and the Securities Investor Protection Corporation-SIPC.

The Company provides financial advisory services to entities seeking to raise capital. The Company holds no customer funds or securities and does not participate in the underwriting of Securities. Accordingly, the Company claims exemption from the requirements of Rule 15c3-3 under Section (k)(2)(i) of the rule.

2 Significant Accounting Policies

(a) Basis of Presentation

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") unless otherwise disclosed.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(c) Cash

For purposes of the statement of cash flows the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months, that are not held for sale in the ordinary course of business. The company has adopted the indirect method of presenting the statement of cash flows in accordance with current authoritative pronouncements. There were no cash equivalents at December 31, 2021.

(d) Accounts Receivable

The Company establishes an allowance for uncollectible trade accounts receivable based on managements evaluation of the collectibility of outstanding accounts receivable. There were no accounts receivable at December 31, 2021.

OLD GREENWICH PARTNERS, LLC

Notes to Financial Statements
Year Ended December 31, 2021

(e) Revenue Recognition

The Company recognizes revenue from consulting fees in accordance with FASB ASC Topic 606 as services are rendered and the contracts identified performance obligations have been satisfied. Economic factors can impact the nature, amount, timing and uncertainty of revenue and cash flows. There were no unsatisfied performance obligations at December 31, 2021.

(f) Income Taxes

The Company is treated as a sole proprietorship (disregarded entity) for federal income tax purposes. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements. The Company's tax returns and the amount of income or loss allocable to the member are subject to examination by federal and state taxing authorities. In the event of an examination of the Company's tax return, the tax liability of the member could be changed if an adjustment in the Company's income or loss is ultimately determined by the taxing authorities.

Certain transactions may be subject to accounting methods for federal and state income tax purposes which differ significantly from the accounting methods used in preparing the financial statements. Accordingly, the net income or loss of the Company and the resulting balances in the member's capital account reported for federal and state income tax purposes may differ from the balances reported for those same items in these financial statements.

The Company recognizes and measures its unrecognized tax benefits in accordance with ASC Topic 740, Income Taxes. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of the financial reporting period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

Management has determined that the Company has no uncertain tax positions that would require financial statement recognition at December 31, 2021. This determination will always be subject to ongoing evaluation as facts and circumstances may require.

In addition, no income tax related penalties or interest have been recorded for the year ended December 31, 2021.

(g) Advertising and Marketing

Advertising and marketing costs (if any) are expensed as incurred.

(i) *Subsequent Events*

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2021, and through January 11, 2022. There have been no material subsequent events that occurred during such period that would require disclosure in this report or would be required to be recognized in the financial statements as of December 31, 2021.

(j) *Fair Value Hierarchy*

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the assets or liability either directly or indirectly.

Level 3 - Inputs are unobservable for the assets or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining the fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

For further discussion of fair value, see "Note 5 Fair Value".

As of December 31, 2021 the Company was not in violation of this requirement.

The Company had no lease or equipment rental commitments, no underwriting commitments, no contingent liabilities, and had not been named as a defendant in any lawsuit at December 31, 2021 or during the year then ended.

9 COVID-19

In March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic. This pandemic event has resulted in significant business disruption and uncertainty in both global and U.S. markets. I have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Old Greenwich Partners, LLC identified the following provisions of 17 C.F.R. §15c3-3(k) under which Old Greenwich Partners, LLC claimed an exemption from 17 C.F.R. §240.15c3-3: under—(k)(2)(i), (the "exemption provisions") and (2) Old Greenwich Partners, LLC stated that Old Greenwich Partners, LLC met the identified exemption provisions throughout the most recent fiscal year without exception.
