KUYKENDALL & SCHNEIDER, INC.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2021

NOTE 1: NATURE OF BUSINESS

The Company was incorporated under the laws of the State of Texas on April 23, 1973 to operate as a broker-dealer in investment securities. The Company is a member of the Securities and Exchange Commission (SEC) and also a member of the Financial Industry Regulatory Authority (FINRA). The Company's office is located in Lubbock, Texas. The company operates under the provisions of Paragraphs K(2)(i) and K(2)(ii) of Rule 15c3-3 of the SEC. The Company is an introducing broker-dealer primarily engaged in the business of providing brokerage services on an agency basis to individuals and retirement plans.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Basis of Accounting

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles whereby revenues are recognized in the period earned and expenses when incurred.

No separation of assets and liabilities as between current and non-current is made, with the exception of our office lease liability, since, for a brokerage, such distinction has little meaning and requires arbitrary decisions. Such practice is generally accepted in the industry.

Cash Equivalents

The Company maintains its cash and cash equivalents with high quality financial institutions. At times, the amount may be in excess of the FDIC insured limits, however the Company does not consider this to be a significant credit risk.

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

KUYKENDALL & SCHNEIDER, INC.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2021

Revenue Recognition

Revenue from contracts with customers includes commission income and 12b-1 fees from mutual fund companies. The recognition and measurement of revenue is based on the assessment of the individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transactions prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Distribution Fees

The Company enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the fund up front or over time, or a combination thereof. The Company's performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which is usually monthly. Distribution fees are recognized in the period they are related to.

KUYKENDALL & SCHNEIDER, INC.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2021

Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Fair Value Measurements

The carrying amounts of the Company's financial instruments, which include cash and cash equivalent other assets, accounts payable and accrued expenses, approximate their fair values due to their short maturities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

Accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB") or other standard setting bodies are not expected to have a material impact on the Company's financial position, results of operations, or cash flows.

As of December 31, 2021, the unrecognized tax benefit accrual was zero. The Company will recognize tax benefits in income tax expense if incurred. For the year ended December 31, 2021, the Company's franchise tax payment is estimated to be \$5,044.

NOTE 7: RISK MANAGEMENT

The Company maintains various forms of insurance that Company's management believes is adequate to reduce the exposure to identified risks to an acceptable level.

NOTE 8: COVID-19

In March 2020, the World Health Organization declared a global pandemic related to the proliferation of the COVID-19 virus. Significant uncertainties about the duration and effects of the pandemic have created uncertainties in the current business environment with federal, state, and local governments recommending significant decreases in person-to-person interaction in addition to changes in other common business practices during the duration of the pandemic, including the temporary closures of all non-essential businesses. Because of the uncertainty the pandemic will have on the current business environment, management is unable to estimate the potential impact on the Company's operations.

NOTE 9: RETIREMENT PLAN

The Company offers eligible employees the option to contribute a portion of their compensation to a SIMPLE IRA retirement plan. Employees are eligible to participate in the plan after they have been employed during one previous calendar year. The Company made contributions to employee accounts of \$12,958 in 2021.

NOTE 10: NET CAPITAL REQUIREMENTS
