MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1: ORGANIZATION AND NATURE OF BUSINESS

Maxim Group LLC (“the Company”) is a securities broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company was created on April 11, 2002 and began business on October 23, 2002. The Company clears its securities transactions on a fully disclosed basis through a clearing broker.

The Company is a New York Limited Liability Company owned 92% by Maxim Partners LLC and 8% by MJR Holdings, Inc. The Company has thirty-two non-equity members. Maxim Partners LLC is owned by MJR Holdings LLC and individual minority interests. The members of MJR Holdings LLC and the Class A members of Maxim Partners LLC make up the executive management of the Company.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of the major accounting policies is presented to assist the reader in evaluating the financial statements and other data contained herein.

BASIS OF ACCOUNTING

The Company’s policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates.

MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

RECEIVABLES

Receivables from clearing organizations are recorded based on trade-date, while other receivables are recorded when earned and when the amount is reasonably determinable. All receivables are stated at the amount management expects to collect on current outstanding balances. Management evaluates collectability of receivables periodically and adjusts the balance to the amount it expects to collect. Management believes its risk of loss on currently recorded receivables is minimal and, accordingly, no allowance for doubtful accounts has been provided.

SECURITIES OWNED AND SECURITIES SOLD, NOT YET PURCHASED

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Securities are recorded at fair value as more fully disclosed in Note 6.

PROPERTY AND EQUIPMENT

Property and equipment is recorded at cost and is depreciated using the straight line method over their estimated useful lives which are 5-7 years for furniture and equipment and the shorter of the lease term or the estimated useful life for leasehold improvements. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation is removed from the accounts and any gain or loss is included in the results of operations.

GOODWILL

The Company follows the provisions of the Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2017-04, *Accounting for Intangibles – Goodwill (Topic 350)*. Pursuant to the provisions of this ASU, management performs a qualitative assessment of goodwill impairment to assess the need to perform the traditional quantitative impairment test as previously required by generally accepted accounting principles.

MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

GOODWILL – (Continued)

Management first considers qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit to which goodwill relates is less than its carrying value. If, based on facts and circumstances, management determines that it is more likely than not that the fair value of the reporting unit is less than its fair value, then management performs a quantitative impairment assessment. The quantitative assessment requires management to compare the fair value of the reporting unit to which goodwill relates to that unit's carrying value. If the fair value exceeds its carrying value, then no impairment is recorded. If the fair value is below the carrying value, then an impairment loss is recorded for the excess of the carrying value over the implied fair value of goodwill. However, if management determines that it is not more likely than not that the fair value of the reporting unit is less than its carrying value, then goodwill is not deemed impaired and management is not required to perform the quantitative impairment test.

Management has evaluated all significant facts and circumstances existing as of the date of the financial statements and has determined that it is not more likely than not that the fair value of the reporting unit to which goodwill relates is less than its carrying amount, and, accordingly, no impairment has been recorded.

INCOME TAXES

The Company was formed under the laws of New York as a Limited Liability Company. In lieu of Company income taxes, the members of a Limited Liability Company are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal and state income taxes has been included in these financial statements. The Company is obligated to pay New York City Unincorporated Business Tax on its net income allocable to New York City, and other miscellaneous taxes to various states.

MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

INCOME TAXES – (Continued)

U.S. GAAP requires management to evaluate tax positions taken by the Company and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Company, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes that the Company's Federal, New York State, New York City, Massachusetts, Florida, Minnesota, Illinois, North Carolina, and Pennsylvania income tax returns prior to 2018, and the Company's California and New Jersey income tax returns prior to 2017, are no longer subject to examination, based on the normal statutory periods subject to audit, notwithstanding any events or circumstances that may exist, which could expand the open period. The Company began filing tax returns in Connecticut, Rhode Island and Delaware for the 2020 tax year and those returns are subject to examination as of December 31, 2021.

SUBSEQUENT EVENTS

The Company has evaluated events and transactions that occurred through February 28, 2022, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

NOTE 3: EMPLOYEE FORGIVEABLE LOANS

Throughout the year, the Company made advances to certain registered representatives. Pursuant to their employment agreements, the Company forgives a portion of these advances as these individuals earn commissions, each month over the duration of employment, and records the amounts forgiven as compensation. If the registered representatives prematurely terminate their employment with the Company, the remaining unforgiven balance becomes immediately payable to the Company. These agreements are in writing and are signed by the individuals and the Company prior to the advance being made. Interest is accrued on these advances, at various rates, and the amount forgiven and recorded as compensation includes both principal and interest. At December 31, 2021, employee forgivable loans amounted to \$329,492.

MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 4: RECEIVABLE FROM AND PAYABLE TO BROKER-DEALERS AND CLEARING ORGANIZATIONS

Amounts receivable from and payable to broker-dealers and clearing organizations at December 31, 2021, consist of the following:

	<u>Receivable</u>	<u>Payable</u>
Receivable from clearing organizations	\$ 7,385,301	\$ -
Fees and commissions receivable	<u>1,593,866</u>	<u>-</u>
Total	<u>\$ 8,979,167</u>	<u>\$ -</u>

NOTE 5: SUBORDINATED BORROWINGS

The Company had a subordinated note with Pershing, LLC in the amount of \$1,500,000, bearing interest at 10.5 percent per annum, and which was set to mature on June 4, 2021. The note was pursuant to a subordinated borrowing agreement, which was available in computing net capital under the SEC's Uniform Net Capital Rule. Pursuant to Appendix D of SEC Rule 15c3-1, and as stated in FINRA's approval letter dated December 6, 2018, the Company was required to obtain prior written approval of FINRA before any repayment of a subordinated agreement was to be made. Accordingly, unsecured advances to the lender during the term of the Agreement were not permitted, since such advances would constitute unauthorized prepayments. The Company received authorization from FINRA on March 8, 2021 and paid the note in full on April 1, 2021.

NOTE 6: FAIR VALUE

Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

MAXIM GROUP LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 6: FAIR VALUE - (Continued)

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1.* Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- *Level 2.* Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- *Level 3.* Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Processes and Structure

Management is responsible for the Company's fair value valuation policies, processes, and procedures. The Company relies on the valuation control processes of its clearing broker to validate the fair value of the company's financial instruments measured at fair value, including any that may be derived from pricing models. It is management's belief that the valuation methods used by the clearing broker are appropriate and consistent with other market participants, however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specified measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that the Company believes market participants would use in pricing the asset or liability at the measurement date.

All of the Company's securities are valued at the closing price reported in the active market in which the individual securities are traded.

NOTE 7: NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital. The Company is required to maintain minimum net capital equal to the greater of \$250,000, two percent of aggregate debit items, as defined by Rule 15c3-3, or, in the case of a market maker, minimum capital based on the number of securities in which the Company makes a market up to a maximum of \$1,000,000. At December 31, 2021 the Company's net capital of \$26,911,748, calculated pursuant to Rule 15c3-1, was in excess of its minimum required net capital by \$25,911,748. In addition, the Company's tentative net capital before haircuts on securities at December 31, 2021 was \$27,986,531.

The Company has adopted the provisions of ASC 842, *Leases* during 2019 and has applied the lease guidance to the leases noted below as well as the leases discussed in Note 9 using a discount rate of 5%. Additionally, there are no residual value guarantees that the Company is subject to, and the leases do not provide any restrictions or covenants.

NOTE 12: COMMITMENTS AND CONTINGENCIES – LEGAL MATTERS

Maxim Group LLC is involved in various claims, suits, investigations, and legal proceedings that arise from time to time in the ordinary course of its business. As required by FASB ASC 450, *Accounting for Contingencies*, Maxim accrues a liability when it believes that it is both probable that a liability has been incurred and that it can reasonably estimate the amount of the loss.
