HEALTHCARE COMMUNITY SECURITIES CORPORATION
(A WHOLLY-OWNED SUBSIDIARY OF GROUP INSURANCE AGENCY, INC.)
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 — DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Organization

Healthcare Community Securities Corporation (the Corporation) is a wholly-owned subsidiary of Group Insurance Agency, Inc. (GIA). GIA is a wholly-owned subsidiary of HANYS Services, Inc. (Parent). Parent is a wholly-owned subsidiary of Healthcare Association of New York State, Inc. (HANYS). The Corporation was formed for the purpose of providing investment products and services to HANYS' members and their employees. The Corporation is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA).

Group Insurance Agency, Inc. (d/b/a HANYS Benefit Services) provides employee benefit programs and group and individual insurance products principally to HANYS' members and their employees.

HANYS Services, Inc. (d/b/a HANYS Solutions (HSI)) is the parent of GIA and other for-profit subsidiaries which provide software products, data analytics, and consulting services primarily to HANYS' members and the national hospital and healthcare market.

HANYS is a membership organization which provides various dues-supported services and programs to non-profit healthcare providers within New York State.

(b) Revenue Recognition/Commission and Other Receivable

Commission revenue on mutual fund and variable annuity transactions is recorded based on the settlement date, which does not differ materially from trade date accounting for such transactions. Consulting Revenue is generated from consulting and advisory services which are recognized as earned. Commissions and other receivable represent revenues earned on these transactions, but not collected by the Corporation.

(c) Current Expected Credit Losses (CECL)

The Corporation follows ASC Topic 326, Financial Instruments - Credit Losses ("ASC 326"). ASC 326 impacts the impairment model for certain financial assets measured at amortized cost by requiring a current expected credit loss ("CECL") methodology to estimate expected credit losses over the entire life of the financial asset, recorded at inception or purchase. Under the accounting update, the Corporation has the ability to determine there are no expected credit losses in certain circumstances (e.g., based on collateral arrangements or based on the credit quality of the borrower or issuer).

For certain financial assets measured at amortized cost (e.g., cash and cash equivalents), the Corporation has concluded that there are de minimis expected credit losses based on the nature and contractual life or expected life of the financial assets and immaterial historic and expected losses.

The Corporation identified receivables as impacted by the new guidance.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 — DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Current Expected Credit Losses (CECL) (Continued)

The Corporation's conclusion that an allowance for credit losses was not required is based on the Corporation's expectation for the collectability of the receivable utilizing the CECL framework. The Corporation considers factors such as historical experience, credit quality, age of balances and current and future economic conditions that may affect the Corporation's expectation of the collectability in determining the allowance for credit losses. The Corporation's expectation is that the credit risk associated with fees is not significant based on the contractual arrangement and expectation of collection in accordance with industry standards. At December 31, 2021 and 2020, an allowance for credit losses was not considered necessary.

(d) Leases

The Corporation follows ASC Topic 842, Leases. As of December 31, 2020, the liabilities and corresponding assets were fully amortized as the Corporation exited the operating lease obligation.

(e) Income Taxes

The Corporation is a for-profit corporation under the provisions of the Internal Revenue Code and is included in a consolidated federal income tax return and a combined state return with its Parent. The Parent charges each related entity, including the Corporation, for its share of federal and state income tax expense, as if it filed a separate return. Income tax expense has been provided on income as reported in the statement of income.

The Parent and subsidiaries account for income taxes under the asset and liability method of accounting for income taxes. Under this method, a deferred tax liability is recognized for taxable temporary differences and a deferred tax asset is recognized for deductible temporary differences, tax credit carryforwards and operating loss carry forwards. A valuation allowance is established to reduce deferred tax assets if it is more than likely that all, or some portion, of such deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in the period that includes the enactment date.

The Corporation follows the guidance issued by the Financial Accounting Standards Board ("FASB") regarding accounting for uncertainty in income taxes. This guidance clarifies the accounting for income taxes by prescribing the minimum recognition threshold an income tax position is required to meet before being recognized in the financial statements and applies to all income tax positions. Each income tax position is assessed using a two-step process. A determination is first made as to whether it is more likely than not that the income tax position

will be sustained, based upon technical merits, upon examination by the taxing authorities. If the income tax position is expected to meet the more likely than not criteria, the benefit recorded in the financial statements equals the largest amount that is greater than 50% likely to be realized upon its ultimate settlement.

The Corporation believes that there are no tax positions taken or expected to be taken that would significantly increase or decrease unrecognized tax benefits within 12 months of the reporting date.

(f) Exemption under Footnote 74 of Release No. 34-70073

The Corporation is a “non-covered” broker dealer and as such, it does not maintain custody of customer securities and/or cash. The Corporation is not required to maintain a reserve account for the benefit of customers under Footnote 74 of Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 of the Securities and Exchange Commission.

(g) Regulatory Reviews

The Corporation is subject to routine regulatory reviews. Management does not expect results from such reviews will have any material impact to the financial statements as of February 25, 2022

(h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(i) Cash

For purposes of the statement of cash flows, the Corporation considers cash to be cash on hand and cash in banks.

The Corporation’s cash is deposited with institutions of high credit quality. At times, these amounts may exceed Federal Deposit Insurance Corporation insurance limits.

(j) Assets Limited as to Use

Assets limited as to use include cash and investments held to fulfill deferred compensation obligations. Investments are reported at fair value with realized and unrealized gains and losses recognized in the statement of income. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 — DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Assets Limited as to Use (Continued)

The Corporation follows generally accepted accounting principles for Fair Value Measurements for financial assets, which establishes a hierarchy for inputs used in measuring fair value. Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets. The investments are mutual funds valued at Level 1 inputs.

(k) Other Post-Retirement Costs

Employers' accounting for defined benefit pension and other postretirement plans requires the recognition of a postretirement benefit plan's funded status as either an asset or liability on the balance sheet. The gain or loss and prior service cost or credits that arise during the period, but are not recognized as components of net periodic benefit costs, are recognized as a component of other comprehensive income. Amounts recognized in accumulated other comprehensive income are adjusted as they are subsequently recognized as components of net periodic benefit cost.

(l) Advertising Costs

The Corporation expenses all advertising costs as incurred. Advertising costs amounted to approximately \$8,000 and \$15,000 for the years ended December 31, 2021 and 2020, respectively.

(m) Subsequent Events

For purposes of preparing the financial statements, the Corporation considered events through February 25, 2022.

NOTE 2 — RELATED PARTY TRANSACTIONS

Pursuant to an expense sharing agreement, HANYS, HSI, and GIA allocate certain administrative and operating expenses ("corporate expenses") and occupancy expenses to the Corporation and are reimbursed by the Corporation on a monthly basis. Corporate expenses allocated from HANYS, HSI, and GIA to the Corporation approximated \$2,516,000 and \$2,609,000 in 2021 and 2020, respectively. Amounts due to affiliate at December 31, 2021 and 2020 represent the net liability due to HANYS, HSI and GIA for allocated expenses, declared dividends, and the Corporation's share of federal and state income tax expense and is payable in the normal course of business without interest. There were no dividends declared for the year ended December 31, 2021. For the year ended December 31, 2020 dividends of \$2,464,889 were declared, which were paid during 2021.

NOTE 4 — EMPLOYEE BENEFIT PLANS

Defined Contribution Retirement Plan

The Corporation participates in HANYS' defined contribution retirement plan. The Corporation's contributions to the plan are discretionary but may not exceed 10% of participants' compensation. Participants may make voluntary contributions to the plan based upon limitations as established by the Internal Revenue Code. Retirement plan costs charged to operations for the years ended December 31, 2021 and 2020 were approximately \$163,000 and \$189,000, respectively.

Deferred Compensation Plans

The Corporation has a voluntary deferred compensation plan for the benefit of the Corporation's highly compensated employees. This plan provides for benefits to the employees at the age of retirement (65 years old).

Annual deferrals are based on a percentage of the participant's salary, and are subject to limits under the Internal Revenue Code.

There were two participants in the plan as of December 31, 2021 and 2020. The assets held on behalf of the participants for the plan are reported in the statement of financial position as assets limited as to use and the unfunded obligation is reported as other liabilities. These assets are considered general assets of the Corporation.

Other Post Retirement Benefits

HANYS provides postretirement health and life insurance benefits to all of its subsidiary and related corporations through the Healthcare Association of New York State, Inc. Postretirement Welfare Plan (the "postretirement plan") for certain full-time employees with over five years of service who meet minimum age and service requirements at the time of termination and elect to receive benefits upon retirement. In 2019 HANYS offered a one-time enrollment option to those retirees who did not immediately elect the benefit upon retirement. Under the plan, enrollment is only allowed at the time of retirement. The maximum amount of benefits available to retirees is limited by HANYS' policy.
