#### NOTE 1 – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Business

Falcon Square Capital, LLC (the "Company") is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and member of the Financial Industry Regulatory Authority ("FINRA") and the Municipal Securities Rulemaking Board ("MSRB"). It is exempt from the provisions of SEC Rule 15c3-3 under Section(k)(2)(ii) of that same rule. The Company was incorporated in North Carolina on April 2, 2012 and granted membership to FINRA and MSRB in March 2013.

#### **Basis of Presentation**

The financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

#### Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Company has defined cash equivalents as highly liquid investments, with original maturities at the date of purchase or the date of the financial statement of less than ninety days, which are not held for sale in the ordinary course of business.

#### Use of Estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

The Company has adopted the provisions of FASB ASC 740-10-25 Accounting for Uncertainty in Income States. Under the provision, the Company must recognize the tax benefit associated with tax taken for tax return purposes when it is more likely than not the position will be sustained. The implementation had no impact on the Company's financial statements. The Company does not believe there are any material uncertain tax positions and, accordingly, it will not recognize any liability for unrecognized tax benefits. The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress. The Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements as of December 31, 2021. As a limited liability corporation, the tax consequences of the Company's operations all pass through to the members. Accordingly, the Company's financial statements do not include a provision for income taxes.

#### Receivables

The Company uses the allowance method to determine uncollectible accounts based on an analysis of expected collection rates determined from past history. Management believes that all accounts receivables are collectible as of December 31, 2021. Therefore, no allowance for doubtful accounts has been recorded.

#### Soft Dollar

The Company ensures that any soft dollar arrangement with customers fall within the safe harbor provisions of Section 28(e) of the Securities Exchange Act of 1934 (Section 28(e), as amended, which provides for the payment of research, brokerages, quote services and other expenses permissible by Section 28(e)).

#### Fixed Assets and Depreciation

Fixed assets are stated at cost. Depreciation is computed for financial statement purposes using the straight-line method, over the estimated useful lives of the related assets as follows:

Furniture 5 years Equipment 5 years

#### Advertising

The Company expenses advertising production costs as they are incurred, and advertising communication costs the first time the advertising takes place. The advertising and promotion expenses for the year ended December 31, 2021 were \$7,295.

#### Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update ("ASU" No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), a comprehensive new revenue recognition standard that superseded nearly all existing revenue recognition guidance. The objective of ASU 2014-09 is for a company to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Company adopted the new revenue recognition standard using the modified retrospective method on January 1, 2019. As a result of adoption, there was no cumulative impact to Company's member's capital as of January 1, 2019 and no impact to revenue for the year ended December 31, 2021.

#### NOTE 2 - REVENUE RECOGNITION

All revenue recognized on the Statement of Income is considered to be revenue from contracts with customers. The following table disaggregates the Company's revenue based on the timing of satisfaction of performance obligations for the year ended December 31, 2021.

Performance obligations satisfied over time	\$	0

Total Revenue	\$	6,772,883

Commissions/fees on fixed income securities transactions and underwritings	\$	6,772,883
Total Revenue	\$	6,772,883

#### NOTE 3 - CONCENTRATION OF CREDIT RISK

The Company maintains cash balances at a national bank. The cash balances at this institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. FASB ASC 825, *Financial Instruments*, identifies these items as a concentration of credit risk requiring disclosure, regardless of risk. The Company's cash balances were fully insured as of December 31, 2021 in all accounts.

#### NOTE 4 – LEASES

Effective January 1, 2021, the Company adopted Accounting Standards Update ("ASU") No. 2016-02, Leases (Topic 842) ("ASUM 2016-02" or "ASC 842"), using the modified retrospective method and utilized the effective date as its date of initial application. At the inception of an arrangement, the Company determines whether the arrangement is or contains a lease based on the unique facts and circumstances present in the arrangement. Leases with a term greater than one year are recognized on the balance sheet as right of use assets and current and non-current lease liabilities, as applicable.

Operating lease liabilities and their corresponding right of use assets are initially recorded based on the present value of lease payments over the expected remaining lease term. Certain adjustments to the right of use asset may be required for items such as incentives received. The interest rate implicit in lease contracts is typically not readily determinable. As a result, the Company utilizes its incremental borrowing rate to discount lease payments, which reflects the fixed rate at which the Company could borrow on a collateralized basis the amount of the lease payments in the same currency, for a similar term, in a similar economic environment. Prospectively, the Company will adjust the right of use assets for straight-line rent expense or any incentives received and remeasure the lease liability at the net present value using the same incremental borrowing rate that was in effect as of the lease commencement or transition date. The Company does not have and has elected to not to recognize leases with an original term of one year or less on the statement of financial condition. The Company typically only includes an initial lease term in its assessment of a lease arrangement. Options to renew a lease are not included in the Company's assessment unless there is reasonable certainty that the Company will renew.

Assumptions made by the Company at the commencement date are re-evaluated upon occurrence of certain events, including a lease modification. A lease modification results in a separate contract when the modification grants the lessee an additional right of use not included in the original lease and when lease payments increase commensurate with the standalone price for the additional right of use. When a lease modification results in a separate contract, it is accounted for in the same manner as the new lease.

Adoption of this standard resulted in the recording of operating lease liabilities and right to use assets of \$81,432 on the Company's statement of financial condition effective date. The adoption of the standard did not have a material effect on the Company's statement of income, statement of changes in shareholder's equity, or statement of cash flows.

The Company leases office space under a lease agreement in Raleigh, North Carolina beginning January 1, 2016 and expiring on February 28, 2023. Minimum lease payments were \$13,800 from January,1, 2016 – July 31, 2018 and \$8,800 from August 1, 2018 – December 31, 2019 and are \$6,000 from January 1, 2020 – February 28, 2023.

#### NOTE 5 - NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital not to exceed 15 to 1. At December 31, 2021 the Company had excess net capital of \$666,727. The Company's required minimum net capital is \$100,000. At December 31, 2021, the Company's ratio of aggregate indebtedness to net capital was 70.17%.

#### **NOTE 6 - SUBSEQUENT EVENTS**

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through February 28, 2022, which is the date the financial statements were available to be issued.
