2. Summary of Significant Accounting Policies, Continued:

Income Taxes: For federal, state and local income tax purposes, the Company is treated as a single member LLC. Accordingly, no provision has been made for federal, state or local income taxes since the taxable income of the Company is to be included in the tax returns of the individual member.

The Company follows the Financial Accounting Standards Board ("FASB") guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense and liability in the current year. Management has evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to the financial statement to comply with the provisions of this guidance as of December 31, 2021. The Company is not currently under audit by any tax jurisdiction.

Use of Estimates: The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period reported. Actual results could differ from those estimates.

Leases: In accordance with ASU 2016-02 – Leases (Topic 842), the Company recognizes leases on the balance sheet with lease liabilities and corresponding right-of-use assets based on the present value of lease payments. The Company had not entered into any leases subject to this standard as of December 31, 2021.
