NOTES TO FINANCIAL STATEMENTS
December 31, 2021

1. Nature of Business and Summary of Significant Accounting Policies, continued

Fair value of financial instruments (continued)

The fair value of assets measured on a recurring basis as of December 31, 2021 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$11,092</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$11,092</u>

Mutual funds are valued at the daily closing prices reported by the fund. Mutual funds held by the Company are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Company are deemed to be actively traded.

Leases

The Company is a lessee in connection with a noncancelable lease for office space. The Company determines if an arrangement is a lease, or contains a lease, at inception and only reassesses its determination if the terms and conditions of the arrangement are changed. The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease cost associated with its short-term leases on a straight-line basis over the lease term.

For operating leases, the Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. The discount rate is the implicit rate in the lease, if it is readily determinable, or otherwise the Company uses its incremental borrowing rate. The implicit rate of the Company's lease is not readily determinable and, accordingly, the Company uses its incremental borrowing rate based on the information available at the commencement date of the lease. Lease expense for lease payments are recognized on a straight-line basis over the leases term.

Advertising

The Company expenses advertising costs as incurred. Advertising expense of \$2,844 for the year ended December 31, 2021 is included in other expenses in the statement of operations.

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used in the determination of accounts receivable, among others.

RMN SECURITIES, INC.
d/b/a SENATE SECURITIES
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

1. Nature of Business and Summary of Significant Accounting Policies, continued

Commissions receivable (continued)

Periodically, management reviews past due receivables and writes off those balances deemed uncollectible after all reasonable collection efforts have been exhausted. If the reserve method were used, it would not have a material effect on the financial statements. Management has determined there is no need for an allowance for doubtful accounts to be recorded as of December 31, 2021.

Income taxes

The Company, with the consent of its stockholder, has elected under the provisions of Sub-Chapter "S" of the Internal Revenue Code to be an S Corporation. In lieu of Federal and State corporate income taxes, the stockholders of an S Corporation are taxed individually on their proportionate share of the Company's taxable income. Accordingly, the financial statements reflect no provision or liability for Federal or State income taxes. The Company has evaluated its tax positions and has concluded that there are no uncertain tax positions that required adjustment to or disclosure in the financial statements. The Company's federal and state income tax returns for the years ended December 31, 2018 to 2021 remain open for audit by the applicable regulatory authorities.

Fair value of financial instruments

The carrying value of cash, restricted cash, commissions receivable, accounts payable and accrued expenses, and commissions payable, officer approximate their fair values based on the short-term maturity of these instruments.

The Company utilizes the methods of fair value measurement as described in generally accepted accounting principles to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, generally accepted accounting principles establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels:

Level 1: Quoted market prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

6. Regulation

The Company is registered as a broker-dealer with the United States Securities and Exchange Commission (SEC). The securities industry in the United States is subject to extensive regulation under both federal and state laws. The SEC is the federal agency responsible for the administration of the federal securities laws. The primary purpose of these requirements is to enhance the protection of customer assets. These laws and regulatory requirements subject the Company to standards of solvency with respect to capital requirements, financial reporting requirements, record keeping and business practices, the use and safekeeping of customers' funds and securities, and the conduct of directors, officers, and employees.

Securities firms are also subject to regulation by state securities administrators in those states in which they conduct business.

7. Clearing Broker

The Company conducts business with its clearing broker on behalf of its customers and for its own proprietary accounts.
