**Revenue Recognition**

Effective January 1, 2018, The Company adopted ASC Topic 606, Revenue from Contracts with Customers (“ASC Topic 606”). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. Revenues from contracts with customers are comprised of commissions. Such fees are recognized at the point in time when the Company’s performance under the terms of the contractual arrangement is completed, which is typically at the close of a transaction.

**Integral Financial, LLC**

**Integral Financial, LLC**  
**Notes to Financial Statements**  
**For the Year-Ended December 31, 2022**

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

Statement of Financial Accounting Standards (SFAS) No. 130, which opines on how to report for comprehensive income, establishes requirements for the disclosure of Comprehensive Income that includes certain items previously not included in the statement of income, including unrealized gains and losses on available-for-sale securities and foreign currency translation adjustments amongst other items. During the year ended December 31, 2022, the Company had an unrealized loss on an investments available for sale of \$133,773. This is noted on the Statement of Income and Comprehensive Income as an unrealized loss and is part of the investments available for sale on the balance sheet.

**NOTE B – NET CAPITAL REQUIREMENTS**

The Company is a member of the FINRA and is subject to the SEC Uniform Net Capital Rule 15c3-1. This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500% (15:1). Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2022, the Company had net capital of \$567,647 which was \$562,647 in excess of its required net capital of \$5,000. The Company's ratio of aggregate indebtedness (\$4,287) to net capital was 0.76%. The Company has elected to use the basic computation method, as is permitted by the rule, which requires that the Company maintain minimum Net Capital pursuant to a fixed dollar amount or 6-2/3% percent of total aggregate indebtedness, as defined, whichever is greater, and does not, therefore, calculate its net capital requirement under the alternative reserve requirement method. There were no material differences reported as Net Capital in the audited computation of Net Capital and the broker-dealer's corresponding unaudited Part IIA of the FOCUS report required under Rule 15c3-1.

**Integral Financial, LLC**  
**Notes to Financial Statements**  
**For the Year-Ended December 31, 2022**

Included in the Company's clearing agreement with its clearing broker-dealer is an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on the unsettled trade. At December 31, 2022, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware of any potential losses relating to this indemnification.

**NOTE D – RENT**

Rent expense for the year ended December 31, 2022 was \$74,338 and is included in the occupancy and equipment expenses in the accompanying Statement of Income and Comprehensive Income. The company adopted ASC Topic 842 standard on leases on January 1, 2020. The Company is not subject to this requirement. The Company leases office spaces under month-to-month lease.

**Integral Financial, LLC**  
**Notes to Financial Statements**  
**For the Year-Ended December 31, 2022**

Estimated Useful Life

Automobile	5 years	\$207,218
Furniture and Equipment	3 – 7 years	<u>27,632</u>
		\$234,850
Less – Accumulated Depreciation		<u>( 109,584)</u>
Total		<u>\$125,266</u>

Depreciation expense was \$47,250 for the year December 31, 2022 and is included in the occupancy & equipment expenses in the accompanying Statement of Comprehensive Income.

**NOTE F - SUBSEQUENT EVENT**

The management has reviewed the results of operations for the period of time from its year end December 31, 2022 through February 6, 2023 the date the financial statements were available to be issued, and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred.

**NOTE G – FAIR VALUE MEASUREMENTS**

Management calculates the fair value of financial instruments on the books by determining the quoted value of the securities on the New York Stock Exchange as of the close of the last trading day in the year and multiplying this price by the number of shares that are owned on the last trading day of the year and are owned by the Company and reported on the Company's books as marketable securities.

**Integral Financial, LLC**  
**Notes to Financial Statements**  
**For the Year-Ended December 31, 2022**

**Fair Value Hierarchy**

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements to significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

**Level 1** inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

**Level 2** inputs are inputs quoted other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

**Level 3** inputs are unobservable inputs for the asset or liability.

**Determination of Fair Value**

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between informed market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs in developing fair value measurements, in accordance with the fair value hierarchy. Fair Value measurements for assets and liabilities where there exists limited or no observable market data where there exists limited or no observable market data, and, therefore, are based upon management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability or other such factors.

Therefore, results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

**Integral Financial, LLC**  
**Notes to Financial Statements**  
**For the Year-Ended December 31, 2022**

Investments in equity securities

Investments in equity securities that are classified as available for sale are recorded at fair value on a recurring basis. When quoted market values are unobservable, management uses quotes from independent pricing vendors based on independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's rating and other credit loss assumptions. The pricing vendors may provide the Company with valuations that are based on unobservable inputs, and in those circumstances the Company would classify the fair value measurements of the investment securities as Level 3. Based on the review performed, management believes that the valuations used in its financial statements are reasonable and are appropriately classified in the fair value hierarchy.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Cash	\$165,582			\$165,582
Marketable Securities	<u>\$222,007</u>			<u>\$222,007</u>
Totals	\$387,589	\$0	\$0	\$387,589

Fair values for short-term investments and long-term investments are determined by reference to quoted market prices and other relevant information generated by market transactions. There was a minimal dividend income in relation to this position. The carrying amounts reflected on the balance sheet are the cash cost prices paid for the asset. The fair value of the securities noted have been measured on a recurring basis using Level 1 inputs, which were based on unadjusted quoted market prices traded on the New York Stock Exchange. There have been no changes in valuation techniques.

**NOTE H— RETIREMENT**

The Company has sponsored a 401k retirement plan with a Company matching provision covering all of its employees. The total retirement expense for year 2022 was \$243,765.

I have reviewed management's statements, included in the accompanying SEC Rule 15c3-3 Exemption Report in which (1) Integral Financial, LLC, identified the following provisions of 17 C.F.R. §15c3-3(k) under which Integral Financial, LLC claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the "exemption provisions") and (2) Integral Financial, LLC, stated that Integral Financial, LLC, met the identified exemption provisions throughout the most recent fiscal year ended December 31, 2022 without exception. Integral Financial, LLC's management is responsible for compliance with the exemption provisions and its statements.

My review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and accordingly, included inquiries and other required procedures to obtain evidence about Integral Financial, LLC's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, I do not express such an opinion.

Based on my review, I am not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
