The financial statements of the Company have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other liabilities.

Cash and Cash Equivalents

The Company considers as cash all short-term investments with an original maturity of three months or less to be cash equivalents.

The Company follows Accounting Standards Codification (“ASC”) Topic 606, Revenue from Contracts with Customers, which requires the Company to follow the guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

See Independent Auditors’ Report

JOSEPH GRACE HOLDINGS, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022  
(continued)

NOTE A – SUMMARY OF ACCOUNTING POLICIES (Continued)

The Company earns revenue from agent solicitation fees, consulting income, and commission income. Refer to Note E for further discussion on revenue recognition. Revenue from Proprietary Trading is accounted for under ASC-940-320 Financial Services-Broker Dealers.

Income taxes

The Company has elected under Subchapter S of the Internal Revenue Code, to not be considered a taxable entity for federal income tax purposes. The state under which the Company is incorporated has similar provisions. Each shareholder is liable for the taxes on their share of the Company's profit or loss. The Company has adopted the provisions of ASC 740-10, Accounting for Uncertainty in Income Taxes. Under ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary. The Company records interest and penalties related to unrecognized tax benefits in regulatory fees, when applicable. The Company remains subject to income tax examinations for its federal income taxes generally for 2018 through 2022.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Securities owned are recorded at the fair value in accordance with FASB ACS-820 Fair Value Measurements. ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the assets or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

See Independent Auditors' Report

JOSEPH GRACE HOLDINGS, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022  
(continued)

NOTE A – SUMMARY OF ACCOUNTING POLICIES (Continued)

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on the management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

All securities owned are recorded as level 1 based on fair market values used to value these investments as of December 31, 2022.

Financial instruments that are subject to fair value disclosure requirements are carried in the financial statements at amount that approximate fair value. The Company's financial instruments, including due from brokers, securities owned, referral fee receivable, receivables from shareholders, other assets and accounts payable and accrued expenses, are carried at cost, which approximates their fair value because of the short-term nature of these assets and liabilities. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risk.

Concentrations

The Company has revenue concentrations in that most revenues (96%) come from two sources. There is an expense concentration directly derived from the revenue concentration. The Company has an expense concentration in that most expenses (93%) are paid out to producers of the Company.

NOTE B – NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-3 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. The Company has contracts with its customers, other registered investment advisors and other registered market participants, and its performance obligation is the solicitation of new clients for those advisors. Fees are fixed rate based on the contract terms. December 2022 referral fee receivables are expected to be collected in full during the first quarter of 2023. The Company also provides solicitation and consulting services to its customers. The benefits of the Company's services are generally transferred to the Company's customers over time as the customers simultaneous receive and consume the benefits as the Company performs the services. **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM – EXEMPTION  
REPORT REVIEW**

To the Board of Directors and Shareholders  
of Joseph Grace Holdings, Inc.:

We have reviewed management's statements, included in the accompanying exemption report, in which (1) Joseph Grace Holdings, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which Joseph Grace Holdings, Inc. claimed an exemption from 17 C.F.R. §240.15c3-3:(k)(2)(ii) (exemption provisions) and (2) Joseph Grace Holdings, Inc. stated that Joseph Grace Holdings, Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. Joseph Grace Holdings, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Joseph Grace Holdings, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
