LIFEMARK SECURITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. THE COMPANY

LifeMark Securities Corp. (Company) is a broker/dealer registered with the Securities and Exchange Commission (SEC). The Company is a member of the Financial Industry Regulatory Authority (FINRA) and is registered to solicit business in fifty states. The Company is an “introducing broker” and primarily earns commissions by selling financial instruments to retail and institutional customers.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Company reports on the accrual basis of accounting which recognizes revenues when earned and expenses when incurred.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash – For the purposes of reporting cash flows and amounts in the Statement of Financial Condition, the Company defines cash as cash on hand and demand deposits. Cash equivalents are reported as securities owned at fair value in the Statement of Financial Condition.

Commissions Receivable – The Company has commission receivables that arise from the buying and selling of financial instruments for its client. Losses from uncollectible receivables shall be accrued when it is probable that a receivable is impaired and the amount of the loss can be reasonably estimated. As of the date of the financial statements, management believes that all commissions receivable are collectible, and as such no provision for uncollectible receivables has been recorded in these financial statements.

Accounts Receivable - Accounts receivable consists of reimbursable expenses due from brokers and registered representatives and are secured commissions earned by representatives, and ultimately by agreements with the representatives’ Office of Supervisory Jurisdiction. Accounts receivable are periodically reviewed to determine if any accounts receivable will potentially be uncollectible. After all attempts to collect a receivable have failed, the receivable is written off as a bad debt expense. Management has recorded an allowance for doubtful accounts in the amount of \$23,290 at December 31, 2022.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Property, Equipment and Depreciation – Property and equipment are stated at cost. When retired or otherwise disposed of, the related cost and accumulated depreciation are cleared from the respective accounts and the net difference, less any amount realized from the disposition, is reflected in the Statement of Operations.

Depreciation is computed using straight-line and declining balance methods over the following estimated useful lives:

Computers	5 years
Equipment, furniture and fixtures	7 years

Income Taxes – The Company filed its income tax as an “S” Corporation through December 31, 2014. The Company terminated its “S” status with the IRS effective January 1, 2015. For all years ended subsequent to December 31, 2014, the Company paid taxes on its income at the rates in effect for Corporations in the respective taxing jurisdictions. The Company adopted the provisions of Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 740-10 pertaining to accounting for uncertainty in income taxes. Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest and penalties assessed to the Company would be recorded in operating expenses. No items have been recorded in 2022. Management is not aware of any uncertain tax positions requiring measurement or disclosure in these financial statements.

Advertising Costs – The Company expenses all advertising and marketing costs when incurred. Advertising and marketing expenses for the year ended December 31, 2022, were \$1,325.

Revenue Recognition – In May, 2014 the Financial Accounting Standards Board issued Accounting Standards Update 2014-09 “Revenue from Contracts with Customers: Topic 606 to supersede nearly all existing revenue recognition guidance under US Generally Accepted Accounting Principles. The Company adopted the provisions of this guidance on January 1, 2018 using the modified retrospective approach. The adoption did not have a material impact on the timing or amounts of the Company’s revenue recognition, but impacted the disclosures within the notes to the financial statements.

Commission Revenues: The Company has two types of commission revenue – sales based commissions and trailing (residual) commissions. Sales based commissions occur when clients trade securities or purchase various types of investment products. This type of trading revenue is recognized when the performance obligation (purchase or sale of an investment or security) occurs at a specific point in time (the trade). Trailing commissions are recurring in nature and are earned based on the market value of the holdings in the eligible assets, and, as such, are recognized over a period in time. The Company earns trailing revenue primarily on mutual fund and variable annuity holdings.

LIFEMARK SECURITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

3. FAIR VALUE (CONT'D)

The Company measures the fair value of its financial instruments using the procedures set forth below for all assets and liabilities that fall in the scope of this accounting guidance. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

FASB ASC 820 establishes a three-level hierarchy for disclosure to show the extent and level of judgment used to estimate fair value measurements.

Level 1 - Uses unadjusted quoted prices that are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Uses inputs, other than Level 1, that are either directly or indirectly observable as of the reporting date through correlation with market data, including quoted prices for similar assets and liabilities in active markets and quoted prices in markets that are not active. Level 2 also includes assets and liabilities that are valued using models or other pricing methodologies that do not require significant judgment since the input assumptions used in the models, such as interest rates and volatility factors, are corroborated by readily observable data. Instruments in this category include non-exchange-traded derivatives, including interest rate swaps.

Level 3 - Uses inputs that are unobservable and are supported by little or no market activity and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

As of December 31, 2022, all financial instruments are recorded at cost which approximates fair value due to short term maturities. As such, the fair value hierarchy has not been applied in valuing any financial instruments.

4. PROPERTY AND EQUIPMENT

10. CURRENT EXPECTED CREDIT LOSSES

In June 2016, the FASB issued Accounting Standards Update ("ASU") 2016-13, "Financial Instruments – Credit Losses (Topic 326): measurements of Credit Losses on Financial Instruments", which amends the FASB's guidance on the impairment of financial instruments. The ASU adds to U.S. GAAP an impairment model (known as the current expected credit loss ("CECL") model. The CECL model utilizes a lifetime "expected credit loss" measurement objective for the recognition of credit losses for loans, held-to-maturity securities, and other receivables at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. The methodology replaced the multiple existing impairment methods in current GAAP, which generally required that a loss be incurred before it is recognized.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of LifeMark Securities Corp.:

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) LifeMark Securities Corp. identified the following provisions of 17 C.F.R. §15c3-3(k) under which LifeMark Securities Corp. claimed an exemption from 17 C.F.R. §240.15c3-3: ((k)(2)(ii)) (exemption provision) and (2) LifeMark Securities Corp. stated that LifeMark Securities Corp. met the identified exemption provision throughout the most recent fiscal year without exception.

The Company is also filing this Exemption Report because the Company's other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 are limited to effecting securities transactions via subscriptions on a subscription way basis where the funds are payable to the issuer or its agent and not to the Company. In addition, the Company did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers, other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of Rule 15c2-4 and/or funds received and promptly transmitted for effecting transactions via subscriptions on a subscription way basis where the funds are payable to the issuer or its agent and not to the Company; did not carry accounts of or for customers; and did not carry PAB accounts (as defined in Rule 15c3-3) throughout the most recent fiscal year without exception.

LifeMark Securities Corp.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about LifeMark Securities Corp.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)((2)(ii)) of Rule 15c3-3 under the Securities Exchange Act of 1934 and the Company's other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5, and related SEC Staff Frequently Asked Questions.
