KOONCE SECURITIES, LLC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years.

The Company complies with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as tax benefit or expense in the current year.

Revenue Recognition – Revenue from the sponsorship of companies to Depository Trust are recognized at the time that the company’s application is submitted to DTC, which represents the satisfaction of a performance obligation. In the case of payment to us for these services in the prior year, the cash received is offset against a charge to Deferred Revenue. Deferred Revenues are defined as DTC introductions paid for, but not yet executed. Deferred Revenue as of 1/1/2022 was \$16,000.00.

Cash and Restricted Cash – The cash on the Statement of Cash Flows is as follows:

	<u>12/31/2022</u>
Cash and Cash Equivalents	\$ 1,039,016
Restricted Cash	<u>\$ 25,000</u>
Total cash, cash equivalents, and restricted,	
Cash shown in the Statement of Cash Flows	\$ 1,064,016

NOTE 2 - RECEIVABLE FROM/PAYABLE TO CUSTOMERS

Accounts receivable from and payable to customers include amounts due or payable on cash and margin transactions. Securities owned by customers are held as collateral for those receivables.

NOTE 3 - SECURITIES OWNED

Securities owned by the Corporation consisted primarily of the stock of DTC (Depository Trust Corporation) at December 31, 2022, as well as \$2500 in DTC preferred stock.

NOTE 4 - FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that

KOONCE SECURITIES, LLC.
NOTES TO FINANCIAL STATEMENTS

would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels Level 1, Level 2 and Level 3.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2022.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 367,990</u>	<u>\$ 367,990</u>

Level 3 Securities consist of the non-marketable securities held in DTCC (Depository Trust Company) as well as \$2500 in DTC preferred stock. Stock prices are per shareholder agreement with DTCC.

NOTE 11 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance sheet risk in the event the customer is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

NOTE 12 - CONCENTRATIONS OF CREDIT RISK

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral, or to reduce positions, when necessary.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Company executes and clears customer transactions involving the sale of securities not yet purchased, all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customers' obligations.

KOONCE SECURITIES, LLC.
NOTES TO FINANCIAL STATEMENTS

NOTE 12 - CONCENTRATIONS OF CREDIT RISK (Continued)

The Company is engaged in various trading and brokerage activities whose counterparties primarily include other broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Cash and cash equivalents consisted of investments in money market mutual funds and cash on deposit with established federally insured financial institutions. Total cash on deposit at various times during the year exceeded the federal deposit insurance limits. The company has never experienced any losses in these accounts and does not believe that it is exposed to any significant concentration of credit risk.

KOONCE SECURITIES, LLC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Koonce Securities, LLC (the "Company") is a broker and dealer in securities located in Bethesda, Maryland. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of Financial Industry Regulatory Authority (FINRA).

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed in the preparation of the accompanying financial statements.

Securities Owned, Securities Sold Not Yet Purchased – Securities owned by the Company are valued at their fair value, determined from quoted market prices. Any unrealized gain or loss is reflected in income.

Realized gains and losses on sales of securities in inventory are calculated by using the average cost method.

Securities transactions (and any related gains or losses on sales) are recorded on a settlement date basis, which is generally the third business day following the date of trade. The effect on net income of using a settlement date basis versus a trade date basis for recording securities transactions is not material.

Property and Equipment – Furniture and equipment are stated at cost, net of \$17,507 accumulated depreciation. Depreciation is calculated using accelerated methods for both financial and tax reporting purposes. All property and equipment were fully depreciated at December 31, 2022.

Leasehold improvements are stated at 0, with no accumulated amortization, and would be amortized using the straight-line method over the remaining life of the lease for financial reporting purposes and over 39 years for tax reporting purposes. All leasehold improvements were fully amortized at December 31, 2022.

Income Taxes – As an LLC the Company is no longer subject to income taxes.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due (receivable) plus deferred taxes related primarily to differences between financial and income tax reporting for securities owned, vacation accruals and other items which create recognition timing differences. Deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates.
