**(d) Fair Value of Financial Instruments**

The carrying value of cash and cash equivalents, prepaid expenses, other receivables, accounts receivable and accrued expenses approximate their fair values based on the short-term maturity of these instruments. The carrying amounts of debt were also estimated to approximate fair value.

The Company utilizes the methods of fair value measurement as described in ASC 820 to value its financial assets and liabilities. As defined in ASC 820, fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, ASC 820 establishes a fair value hierarchy That prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

In accordance with the Indian income tax laws applicable to the Company, certain taxes have been withheld and provided to the government and are reflected as prepaid taxes on the statement of financial condition.

**(j) Recent Accounting Pronouncements**

In May 2014, FASB issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers". The update gives entities a single comprehensive model to use in reporting information about the amount and timing of revenue resulting from contracts to provide goods or services to customers. This ASU would apply to any entity that enters into contracts to provide goods or services, would supersede the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the Codification. The update removes inconsistencies and weaknesses in revenue requirements and provides a more robust framework for addressing

Motilal Oswal Securities International Private Limited  
Notes to Financial Statements  
March 31, 2023

revenue issues and more useful information to users of financial statements through improved disclosure requirements. In addition, the update improves comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets and simplifies the preparation of financial statements by reducing the number of requirements to which an entity must refer. In August 2015, FASB issued Accounting Standards Update (“ASU”) No.2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date” defers the effective date ASU No. 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. We are currently reviewing the provisions of this ASU to determine if there will be any impact on our results of operations, cash flows or financial condition.

In February 2016, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) “ASU 2016 – 02 Leases” intended to improve financial reporting about leasing transactions. The ASU affects all companies and other organizations that lease assets such as real estate, office equipment and manufacturing equipment.

The ASU will require organizations that lease assets – referred to as “lessees” – to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases.

Under the new guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current Generally Accepted Accounting Principles (GAAP), the recognition, measurement, and presentation of expenses and cash flows arising from a lease by lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP – which requires only capital leases to be recognized on the balance sheet – the new ASU will require both types of leases to be recognized on the balance sheet.

The ASU on leases will take effect for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other organizations, the ASU on leases will take effect for fiscal years beginning after December 15, 2019, and for interim periods within fiscal years beginning after December 15, 2020. The Company is currently evaluating the impact of this ASU on its financial statements. Early adoption is permitted. The Company has not adopted this guidance for 2018 and is currently evaluating the impact of adopting this guidance.

The Company adopted ASU 2016-02, effective January 1, 2019. The new FASB standard “ASC 842” related to leases in increase transparency and comparability among organizations by requiring the recognition of right of use (ROU) assets and liabilities on the balance sheet. Most prominent among the changes in the standard is the recognition of ROU assets and lease liabilities by the Company for

Motilal Oswal Securities International Private Limited  
Notes to Financial Statements  
March 31, 2023

those leases classified as operating leases under current U.S. GAAP. Under the standard, disclosures are required to meet the objective of enabling users of financial statements to assess the amount, timing and uncertainty of cash flows arising from leases. The standard became effective for the Company on January 1, 2019. The standard has a material impact on our balance sheet, but did not have a material impact on our income statement of cash flows. The Company adopted ASC 842 on a modified retrospective approach at the effective date. In addition, the Company elected the package of practical expedients permitted under ASC 842, which allowed the Company to (i) not reassess whether any expired or existing contracts contain leases, (ii) not reassess the lease classification for any expired or existing leases and (iii) not reassess the initial direct costs for existing leases.

All other recently issued accounting standards and pronouncements by the Financial Accounting Standards Board, Public Company Accounting Oversight Board, Securities and Exchange Commission and the American Institute of Public Accountants, but not yet effective did not or are not believed by management, to have a material impact on the Company's present or future financial statements.

The Company has Prepaid Expenses of \$5,710 as of March 31, 2023. It consists of vendor prepayments towards FINRA CRD.

**NOTE 4 – LOANS AND ADVANCES-RELATED PARTY**

**NOTE 6 – RELATED PARTY TRANSACTIONS.**
