Re: ***Cboe EDGA Exchange, Inc.***
Form 1 Amendment

Dear Mrs. Jackson:

Enclosed please find an amendment of the Form 1 applications pursuant to Rule 6a-2(a) of the Securities Exchange Act of 1934 for Cboe BYX Exchange, Inc., Cboe BZX Exchange, Inc., Cboe EDGA Exchange, Inc., Cboe EDGX Exchange, Inc., Cboe Exchange, Inc. and Cboe C2 Exchange, Inc. (collectively, the "Exchanges").

- Exhibit D (updated to provide financial statements for the latest fiscal year for each subsidiary or affiliate of the Exchange);
- Exhibit I (updated to provide audited financial statements for the latest fiscal year for the Exchange);
- Exhibit K (included as part of annual submission but no changes as compared to Exhibit on file);
- Exhibit M (included as part of annual submission but no changes as compared to Exhibit on file);
- Exhibit N (updated to provide all securities listed on the exchange, securities admitted to unlisted privileges, exempt securities and all other securities traded on the Exchange

This amendment is filed in accordance with SEC Rule 6a-2 and is intended to replace Exhibits D, I, K, M & N currently on file with the Commission. Please do not hesitate to contact me if you have any questions or require anything further.

Sincerely,
Laura Dickman

Laura Dickman
VP, Associate General Counsel
312-786-7572
Signature executed at 3:00pm on 06/30/25

Enclosures

**** Based upon relief from the Commission staff and difficulties arising from COVID-19, we are making this filing without notarization. This document has been signed electronically.***

Form 1 Page 1 Execution Page	**U.S. SECURITIES AND EXCHANGE COMMISSION** **WASHINGTON, D.C. 20549** **APPLICATION FOR, AND AMENDMENTS TO APPLICATION FOR, REGISTRATION AS A NATIONAL SECURITIES EXCHANGE OR EXEMPTION FROM REGISTRATION PURSUANT TO SECTION 5 OF THE EXCHANGE ACT**	Date filed (MM/DD/YY) **06/30/25**	OFFICIAL USE ONLY

Attachment

Summary of changes made to Exhibit D:

- Updated consolidated financial statements for each subsidiary or affiliate of the Exchange (as of 12/31/24)

Summary of changes made to Exhibit I:

- Updated audited financial statements (as of 12/31/24)

Summary of changes made to Exhibit K:

- No changes since previous submission

Summary of changes made to Exhibit M:

- No change since previous submission

Summary of changes made to Exhibit N:

- Updated data as of 06/04/25

Exhibit D

Exhibit Request:

For each subsidiary or affiliate of the exchange, provide unconsolidated financial statements for the latest fiscal year. Such financial statements shall consist, at a minimum, of a balance sheet and an income statement with such footnotes and other disclosures as are necessary to avoid rendering the financial statements misleading. If any affiliate or subsidiary is required by another Commission rule to submit annual financial statements, a statement to that effect with a citation to the other Commission rule, may be provided in lieu of the financial statements required here.

---

1. Financial statements of each subsidiary and affiliate

2. Cboe Exchange, Inc. filed, at the same time as this filing, financial statements for the year ended December 31, 2024 with the Commission pursuant to Rule 6a-2(b)(1) under the Securities Exchange Act of 1934.

3. Cboe C2 Exchange, Inc. filed, at the same time as this filing, financial statements for the year ended December 31, 2024 with the Commission pursuant to Rule 6a-2(b)(1) under the Securities Exchange Act of 1934.

4. Cboe BZX Exchange, Inc. filed, at the same time as this filing, financial statements for the year ended December 31, 2024 with the Commission pursuant to Rule 6a-2(b)(1) under the Securities Exchange Act of 1934.

5. Cboe BYX Exchange, Inc. filed, at the same time as this filing, financial statements for the year ended December 31, 2024 with the Commission pursuant to Rule 6a-2(b)(1) under the Securities Exchange Act of 1934.

6. Cboe EDGX Exchange, Inc. filed, at the same time as this filing, financial statements for the year ended December 31, 2024 with the Commission pursuant to Rule 6a-2(b)(1) under the Securities Exchange Act of 1934.

Independent Auditors' Report

The Board of Directors
Cboe Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe Exchange, Inc. ("the Company" or "Cboe Options"), a wholly-owned subsidiary of Cboe Global Markets, Inc. ("the Parent"), is a market for the trading of exclusive options on various market indices ("index options"), as well as on non-exclusive "multi-listed" options, such as options on the stocks of individual corporations ("equity options") and options on other exchange-traded products ("ETP options"), such as exchange-traded funds ("ETF options"), exchange-traded notes ("ETN options"), and certain other index options. The Company also provides market data products to its member firms. The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company, as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from The Options Clearing Corporation ("OCC"), and the Company's share of distributable revenue receivable from Options Price Reporting Authority ("OPRA"). Management transacts with these counterparties in the normal course of business and does not anticipate loss or non-performance. Accounts receivable are primarily collected through OCC, and are with large, highly-rated clearing firms; therefore, concentrations of credit risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, *Financial Instruments – Credit Losses*. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Investments

Investments represent the Company's investment in OCC, which is accounted for using the measurement alternative as there is an absence of readily determinable fair value for the investment and the Company cannot exercise significant influence over the investment based upon the ownership interest held.

Investments are periodically reviewed to determine whether any events or changes in circumstances indicate that the investments may be other than temporarily impaired. In the event of impairment, the Company would recognize a loss for the difference between the carrying amount and the estimated fair value of the investment.

(g) Property and Equipment, Net

Property and equipment, net is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated lives of the assets, generally ranging from three to seven years. Expenditures for repairs and maintenance are charged to expense as incurred.

Long lived assets to be held and used are reviewed to determine whether any events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. The Company bases this evaluation on such impairment indicators as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If such impairment indicators are present that would indicate that the carrying amount of any asset may not be recoverable, the Company determines whether an impairment has occurred through the use of an undiscounted cash flow analysis of the asset at the lowest level for which identifiable cash flows exist. In the event of impairment, the Company recognizes a loss for the difference between the carrying amount and the estimated fair value of the asset as measured using quoted market prices or, in the absence of quoted market prices, a discounted cash flow analysis.

(h) Data Processing Software, Net

The Company expenses software development costs as incurred during the preliminary project stage, while capitalizing costs incurred during the application development stage, which includes design, coding, installation and testing activities. Estimated useful lives are three to five years for internally developed and other data processing software, generally are five years or less for other assets, and seven years for software related to the Company's migration onto the Parent's technology.

(i) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(j) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. These fees can be variable based on trade volume tiered discounts; however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from OPRA and fees charged to customers for proprietary market data. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members and earned and recognized monthly. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Proprietary market data also includes revenue from various licensing agreements. Both types of market data performance obligations are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations.

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Regulatory fees also include the options regulatory fee ("ORF") which supports the Company's regulatory oversight function, along with other miscellaneous regulatory fees, and neither can be used for non-regulatory purposes. In accordance with SEC guidelines, ORF revenue cannot exceed 75% of regulatory costs incurred and therefore, the Company calculates an appropriate deferral amount every six months. Section 31 fees and ORF are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

Other Revenue

Other revenue is a single performance obligation earned through the administration of the day-to-day business functions of the OPRA Securities Information Processor ("SIP"). The administrative fee was last renewed in 2025 for a period of two years. The revenue is recognized quarterly when the performance obligations above are met.

(3) Investments

Cboe holds a 20% investment in OCC, which is accounted for using the measurement alternative given the absence of readily determinable fair values for the investment and due to the Company's inability to exercise significant influence over the investment based upon the ownership interest held. The Company's contributed capital to OCC has been recorded under investments in the statement of financial condition as of December 31, 2024. Under OCC's current capital management policy, which was approved by the SEC on January 24, 2020, if OCC's equity capital falls below certain defined thresholds, OCC can access additional capital through an operational loss fee charged to clearing members. None of OCC's shareholders has any obligation to contribute capital to OCC under the capital management policy, nor does any shareholder have the right to receive dividends from OCC under such policy. The Company's investment in OCC as of December 31, 2024 is $333 thousand.

(4) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail ("CAT"), a portion of which notes are expected to be repaid by Consolidated Audit Trail, LLC ("CATLLC"). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 ("Rule 613"), and it strives to enhance regulators' ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S.

national securities exchanges and FINRA (who collectively are referred to as the "SROs" or "Plan Participants") to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC's behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 10 ("Commitments and Contingencies") for more information. As of December 31, 2024, the notes receivable, net balance was $17.2 million. In 2024, the Company reclassified $5.2 million to the current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT receivable, and received $0.9 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024:

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 3,939	$ —	$ —	$ —	$ 3,939

(5) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries of the Parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$ 95,036
Management fee	13,525
Technology support services	18,068
Professional fees and outside services	24,109
Travel and promotional expenses	7,482
Facilities costs	5,706
	$ 163,926

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:	
Transaction fees	$ 164
Access and capacity fees	102
	$ 266
Cost of Revenues:	
Routing and clearing fees	$ 9,458
Section 31 fees	29
	$ 9,487

(6) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of various option products in the U.S. The Company earns revenue from transaction fees, access and capacity fees, market data fees, regulatory fees, and other

revenue. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 11% of its total revenues from a single customer in 2024.

(7) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following as of December 31, 2024:

Royalties	$	40,486
Marketing fee payable		10,588
Accounts payable		6,520
Accrued liabilities		5,159
	$	62,753

(8) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Option regulatory fee (1)	$ 1,587	$ —	$ (1,587)	$ —
Liquidity provider sliding scale	—	9,600	(7,200)	2,400
Other, net	70	460	(502)	28
Total deferred revenue	$ 1,657	$ 10,060	$ (9,289)	$ 2,428

(1) The Company assesses ORF to each Trading Permit Holder for all options transactions executed or cleared by the Trading Permit Holder that are cleared by OCC, regardless of the exchange on which the transaction occurs. The fee is collected indirectly from Trading Permit Holders through their clearing firms by OCC on behalf of the Company. Under the Company's rules, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes. The amount in deferred revenue represents the fees collected that are in excess of regulatory expenses.

(9) Income Taxes

Deferred tax assets consist of the following components as of December 31, 2024:

Deferred tax assets:		
Unrecognized tax benefits	$	32,597
Allowance for credit losses		304
Investments and other		667
Subtotal		33,568
Valuation allowance		(667)
Total deferred tax assets	$	32,901
Deferred tax liabilities:		
Property and equipment, net	$	(189)
Prepaid expenses		(196)
Total deferred tax liabilities		(385)
Net deferred tax assets	$	32,516

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. A valuation allowance of $0.7 million was recorded against gross deferred tax assets for certain investments as of December 31, 2024.

The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:		
Federal	$	151,232
State		72,050
Total current tax expense		223,282
Deferred income tax benefit:		
Federal		(1,719)
State		282
Total deferred income tax benefit		(1,437)
Income tax provision	$	221,845

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$ 164,777	21.0%
Increase (decrease) in income tax resulting from:		
State income taxes	34,681	4.4%
Change in unrecognized tax benefits	22,454	2.9%
Other	(67)	0.0%
Income tax provision	$ 221,845	28.3%

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties, is as follows:

Balance at December 31, 2023	$ 126,723
Gross increases on unrecognized tax benefits in current period	22,389
Gross increases on unrecognized tax benefits in prior period	60
Gross decreases on unrecognized tax benefits in prior period	(1,610)
Settlement with taxing authorities	(34,441)
Balance at December 31, 2024	$ 113,121

As of December 31, 2024, the Company had $89.4 million of unrecognized tax benefits, net of federal benefit which, if recognized, would affect the effective income tax rate.

The Company had accrued interest and penalties of $35.4 million related to uncertain tax positions at December 31, 2024. Total interest and penalties decreased by $9.3 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under examination in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(10) Commitments and Contingencies

Legal Proceedings

As of December 31, 2024, the Company was subject to various legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the

Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT Plan to implement a revised funding model (“CAT Funding Model”) for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the “executed equivalent shares” of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously funded by monies loaned to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association (“ASA”) and Citadel Securities, LLC (“Citadel”) filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit (“11th Circuit”). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC ("Intervenors") filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule and merits briefing concluded in the second quarter of 2024.

On September 13, 2024, Citadel filed a motion to stay the CAT Funding Model Order and to enjoin the collection of certain CAT fees during the pendency of this litigation, which the 11th Circuit denied on November 27, 2024. Oral argument on the merits was held on February 3, 2025. This challenge or any other challenge to the CAT Funding Model Order and/or Plan Participant(s) fee filings on behalf of CATLLC may significantly delay efforts by CATLLC to continue collecting the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the challenge is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution

when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs' motion for a preliminary injunction and stay was denied. On January 13, 2025, plaintiffs' motion for leave to file an amended complaint was granted. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC's assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review ("PFR") of the SEC's May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities Exchange Act of 1934 ("Exchange Act") and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT ("CAT RFQ Exemptive Order") in the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC's implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

OEMS Disapproval Order Challenge

On February 13, 2024, Cboe Exchange, Inc. ("Cboe") filed a proposal to adopt a new rule regarding order and execution management systems ("OEMS"). The proposed new rule provided that an exchange-affiliated OEMS that satisfies criteria (designed to ensure the OEMS is acting independently from the exchange) is not a facility of the exchange, and therefore not subject to the rule filing requirements of Section 19(b) of the Securities Exchange Act of 1934. The objective of the proposed rule was to improve competition within the OEMS market and ultimately benefit investors.

On October 31, 2024, the SEC issued an order disapproving Cboe's proposal. On December 26, 2024, Cboe filed a Petition for Review ("PFR") of the SEC's disapproval order in the Court of Appeals for the Seventh Circuit (the "7th Circuit"). Merits briefing will conclude in the middle of the second quarter of 2025.The Company and Cboe intend to litigate the matter vigorously.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Division of Examinations and the CFTC's Division of Market Oversight as well as the SEC Division of Enforcement and CFTC Division of Enforcement seeking information about the Company's compliance with its obligations as a self-regulatory organization under the federal securities laws and Commodity Exchange Act as well as members' compliance with the federal securities laws and Commodity Exchange Act.

The Company is also currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

Contractual Obligations

The Company has contractual obligations related to licensing agreements with various licensors, some of which included fixed fees and/or variable fees calculated using agreed upon contracted rates and reported cleared volumes. Certain licensing agreements contain annual minimum fee requirements that total $7.0 million each year for the next five years.

See also Note 4 ("Notes Receivable, Net") for information on promissory notes related to the CAT.

See also Note 9 ("Income Taxes").

(11) Subsequent Events

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, the date the financial statements were available to be issued. There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2024.

Independent Auditors' Report

The Board of Directors
Cboe C2 Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe C2 Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe C2 Exchange, Inc. ("the Company" or "C2"), a wholly-owned subsidiary of Cboe Global Markets, Inc. ("the Parent"), is a market for the trading of exclusive options on various market indices ("index options"), as well as on non-exclusive "multi-listed" options, such as options on the stocks of individual corporations ("equity options") and options on other exchange-traded products ("ETP options"), such as exchange-traded funds ("ETF options"), exchange-traded notes ("ETN options"), and certain other index options. The Company also provides market data products to its member firms. The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company, as disclosed. See Note 4 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from The Options Clearing Corporation ("OCC"), and the Company's share of distributable revenue receivable from Options Price Reporting Authority ("OPRA"). Management transacts with these counterparties in the normal course of business and does not anticipate loss or non-performance. Accounts receivable are primarily collected through OCC, and are with large, highly-rated clearing firms; therefore, concentrations of credit risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, *Financial Instruments – Credit Losses*. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(g) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. These fees can be variable based on trade volume tiered discounts; however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from OPRA and fees charged to customers for proprietary market data. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members and earned and recognized monthly. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. The performance obligations for both types of market data are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations.

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Regulatory fees also include the options regulatory fee ("ORF") which supports the Company's regulatory oversight function, along with other miscellaneous regulatory fees, and neither can be used for non-regulatory purposes. In accordance with SEC guidelines, ORF revenue cannot exceed 75% of regulatory costs incurred and therefore, the Company calculates an appropriate deferral amount every six months. Section 31 fees and ORF are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

(3) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail ("CAT"), a portion of which notes are expected to be repaid by Consolidated Audit Trail, LLC ("CATLLC"). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 ("Rule 613"), and it strives to enhance regulators' ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S. national securities exchanges and FINRA (who collectively are referred to as the "SROs" or "Plan Participants") to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC's behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 8 ("Commitments and Contingencies") for more information. As of December 31, 2024, the notes receivable, net balance was $12.5 million. In 2024, the Company reclassified $3.5 million to current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT receivable, and received $0.1 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024.

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 3,804	$ —	$ —	$ —	$ 3,804

(4) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries of the Parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$ 14,753
Management fee	2,140
Technology support services	2,772
Professional fees and outside services	1,675
Travel and promotional expenses	1,233
Facilities costs	882
	$ 23,455

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:	
Transaction fees	$ 2,685
Access and capacity fees	51
	$ 2,736
Cost of revenues:	
Routing and clearing fees	$ 3,846
Section 31 fees	10
	$ 3,856

(5) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of various option products in the U.S. The Company earns revenue

from transaction fees, access and capacity fees, market data fees, and regulatory fees. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 27% of its total revenues from its largest two customers in 2024.

(6) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following as of December 31, 2024:

Accounts payable	$ 5,870
Accrued liabilities	669
	$ 6,539

(7) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Options Regulatory Fee (1)	$ 699	$ —	$ (507)	$ 192
Total deferred revenue	$ 699	$ —	$ (507)	$ 192

(1) The Company assesses an ORF to each Trading Permit Holder for all options transactions executed or cleared by the Trading Permit Holder that are cleared by OCC, regardless of the exchange on which the transaction occurs. The fee is collected indirectly from Trading Permit Holders through their clearing firms by OCC on behalf of the Company. Under the Company's rules, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes. The amount in deferred revenue represents the fees collected that are in excess of regulatory expenses.

(8) Income Taxes

Net deferred tax assets and liabilities consist of the following as of December 31, 2024:

Deferred tax assets:		
Unrecognized tax benefits	$	2,010
Allowance for credit losses		342
Investments		45
Property and equipment, net		191
Subtotal		2,588
Valuation allowance		(45)
Total deferred tax assets	$	2,543

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. A valuation allowance of $45 thousand was recorded against gross deferred tax assets for certain investments as of December 31, 2024.
The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:		
Federal	$	10,186
State		5,633
Total current tax expense		15,819
Deferred income tax benefit:		
Federal		(252)
State		8
Total deferred income tax benefit		(244)
Income tax provision	$	15,575

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$	11,129	21.0%
Increase (decrease) in income tax resulting from:			
State income taxes		2,735	5.1%
Change in unrecognized tax benefit		1,737	3.3%
Other		(26)	—%
Income tax provision and effective income tax rate	$	15,575	29.4%

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties, is as follows:

Balance at December 31, 2023	$	6,150
Gross increases on unrecognized tax benefits in current period		1,515
Gross increases on unrecognized tax benefits in prior period		2
Gross decreases on unrecognized tax benefits in prior period		(109)
Settlement with taxing authorities		(209)
Balance at December 31, 2024	$	7,349

As of December 31, 2024, the Company had $5.8 million of unrecognized tax benefits, net of federal benefit which, if recognized, would affect the effective income tax rate.

The Company had accrued interest and penalties of $1.8 million related to uncertain tax positions at December 31, 2024. Total interest and penalties increased by $0.7 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under examination in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(9) Commitments and Contingencies

Legal Proceedings

As of December 31, 2024, the Company was subject to various legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While

the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT Plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously funded by monies loaned to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association ("ASA") and Citadel Securities, LLC ("Citadel") filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit ("11th Circuit"). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC ("Intervenors") filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule and merits briefing concluded in the second quarter of 2024.

On September 13, 2024, Citadel filed a motion to stay the CAT Funding Model Order and to enjoin the collection of certain CAT fees during the pendency of this litigation, which the 11th Circuit denied on November 27, 2024. Oral argument on the merits was held on February 3, 2025. This challenge or any other challenge to the CAT Funding Model Order and/or Plan Participant(s) fee filings on behalf of CATLLC may significantly delay efforts by CATLLC to continue collecting the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the challenge is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs' motion for a preliminary injunction and stay was denied. On January 13, 2025, plaintiffs' motion for leave to file an amended complaint was granted. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC's assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review ("PFR") of the SEC's May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities

Exchange Act of 1934 (“Exchange Act”) and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT (“CAT RFQ Exemptive Order”) in the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC’s implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Division of Examinations and the CFTC’s Division of Market Oversight as well as the SEC Division of Enforcement and CFTC Division of Enforcement seeking information about the Company’s compliance with its obligations as a self-regulatory organization under the federal securities laws and Commodity Exchange Act as well as members’ compliance with the federal securities laws and Commodity Exchange Act.

The Company is also currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

See also Note 3 (“Notes Receivable, Net”) for information on promissory notes related to the CAT.

See also Note 8 (“Income Taxes”).

(10) Subsequent Events

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, the date the financial statements were available to be issued. There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2024.

Independent Auditors' Report

The Board of Directors
Cboe BZX Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe BZX Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe BZX Exchange, Inc. ("the Company" or "BZX"), a wholly-owned subsidiary of Cboe Services Company, is an electronic market for the trading of listed cash equity securities and listed equity options in the United States ("U.S."). The ultimate holding company is Cboe Global Markets, Inc. ("the Parent"). The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. In addition to equity and options trading, the Company also lists Exchange Traded Products ("ETPs") and provides market data products to its member firms. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from the Depository Trust & Clearing Corporation ("DTCC") and The Options Clearing Corporation ("OCC"), the Company's share of distributable revenue receivable from Options Price Reporting Authority ("OPRA"), and market data fees associated with the U.S. tape plans. Management transacts with these counterparties in the normal course of business and does not anticipate loss or non-performance. Accounts receivable are primarily collected through the DTCC as well as the OCC, and are with large, highly-rated clearing firms; therefore, concentrations of risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, Financial Instruments – Credit Losses. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and

deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(g) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. These fees can be variable based on trade volume tiered discounts; however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from U.S. tape plans, including the Unlisted Trading Privileges Plan ("UTP"), and the Consolidated Tape Association Plan ("CTA"), fees received by the Company from OPRA, and fees charged to customers for proprietary market data. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by the Securities and Exchange Commission ("SEC") Regulation National Market System ("NMS") that takes into account both trading and quoting activity. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members and earned and recognized monthly. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Market data performance obligations are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations.

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as

Section 31 fees payable in the statement of financial condition until paid. Regulatory fees are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled. Regulatory fees also include the options regulatory fee ("ORF") which supports the Company's regulatory oversight function, along with other miscellaneous regulatory fees, and neither can be used for non-regulatory purposes. In accordance with SEC guidelines, ORF revenue cannot exceed 75% of regulatory costs incurred and therefore, the Company calculates an appropriate deferral amount every six months. Section 31 fees and ORF are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

Other Revenue

Other revenue consists of listings fees and listing application fees revenue, and is recognized when received.

(3) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail ("CAT"), a portion of which notes are expected to be repaid by Consolidated Audit Trail, LLC ("CATLLC"). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 ("Rule 613"), and it strives to enhance regulators' ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S. national securities exchanges and FINRA (who collectively are referred to as the "SROs" or "Plan Participants") to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC's behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan

Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 9 ("Commitments and Contingencies") for more information. As of December 31, 2024, the long-term notes receivable, net balance was $29.9 million. In 2024, the Company reclassified $9.3 million of notes receivable to the current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT notes, and received $0.7 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024:

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 7,976	$ —	$ —	$ —	$ 7,976

(4) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following as of December 31, 2024:

Accounts payable	$ 27,723
Accrued liabilities	62
Current portion of tax uncertainties	43
	$ 27,828

(5) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries to the parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$ 39,477
Management fee	5,672
Technology support services	7,167
Professional fees and outside services	4,483
Travel and promotional expenses	3,911
Facilities costs	2,212
	$ 62,922

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:	
Transaction fees	$ 2,072
Access and capacity fees	707
Market data fees	476
Other revenue	35
	$ 3,290
Cost of revenues:	
Routing and clearing fees	$ 22,863
Section 31 fees	2,828
	$ 25,691

(6) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of listed cash equity securities and listed equity options in the U.S. The Company earns revenue from transaction fees, access and capacity fees, market data fees, regulatory fees, and other revenue. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 24% of its total revenues from its largest two customers in 2024.

(7) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Other, net (1)	$ 490	$ 3,780	$ (3,965)	$ 305
Total deferred revenue	$ 490	$ 3,780	$ (3,965)	$ 305

(1) Other, net deferred revenue represents cash received for unsatisfied performance obligations of liability classified contract liabilities that have yet to be recognized as revenue in the condensed consolidated statements of income, which include but are not limited to listing fees and membership fees.

(8) Income Taxes

Deferred tax assets consist of the following components as of December 31, 2024:

Deferred tax assets:		
Unrecognized tax benefits	$	8,344
Allowance for credit losses		561
Investments		78
Other		101
Subtotal		9,084
Valuation allowance		(101)
Total deferred tax assets	$	8,983

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. A valuation allowance of $0.1 million was recorded against gross deferred tax assets for certain investments as of December 31, 2024.

The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:		
Federal	$	18,962
State		12,391
Total current tax expense		31,353
Deferred income tax benefit		
Federal		(1,070)
State		(146)
Total deferred income tax benefit		(1,216)
Income tax provision	$	30,137

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$	20,838	21.0 %
Increase (decrease) in income tax resulting from:			
State income taxes		4,626	4.7 %
Change in unrecognized tax benefits		5,040	5.1 %
Other		(367)	(0.4)%
Income tax provision	$	30,137	30.4 %

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties is as follows:

Balance at December 31, 2023	$	23,264
Gross increases on unrecognized tax benefits in current period		2,862
Gross increases on unrecognized tax benefits in prior period		6
Gross decreases on unrecognized tax benefits in prior period		(240)
Settlement with taxing authorities		(1,533)
Balance at December 31, 2024	$	24,359

As of December 31, 2024, the Company had $19.2 million of unrecognized tax benefits, net of federal income tax benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of $12.8 million related to uncertain tax positions at December 31, 2024. Total interest and penalties increased by $2.9 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under exam in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(9) Commitments and Contingencies

Legal proceedings

As of December 31, 2024, the Company was subject to various legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT Plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously funded by monies loaned to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association ("ASA") and Citadel Securities, LLC ("Citadel") filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit ("11th Circuit"). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC ("Intervenors") filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule and merits briefing concluded in the second quarter of 2024.

On September 13, 2024, Citadel filed a motion to stay the CAT Funding Model Order and to enjoin the collection of certain CAT fees during the pendency of this litigation, which the 11th Circuit denied on November 27, 2024. Oral argument on the merits was held on February 3, 2025. This challenge or any other challenge to

the CAT Funding Model Order and/or Plan Participant(s) fee filings on behalf of CATLLC may significantly delay efforts by CATLLC to continue collecting the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the challenge is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs' motion for a preliminary injunction and stay was denied. A dispositive-motion briefing schedule was established and briefing is scheduled to conclude in the fourth quarter of 2025. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC's assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review ("PFR") of the SEC's May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities Exchange Act of 1934 ("Exchange Act") and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT ("CAT RFQ Exemptive Order") in the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC's implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Equity Access Fees Cap Challenge

In December 2022, the SEC released four equity market structure proposals, including one concerning Regulation NMS Amendments: Tick Size, Access Fees, and Transparency. On October 8, 2024, the SEC promulgated Final Rules concerning Reg NMS to amend the minimum pricing increments for quoting certain NMS stocks, reduce access fee caps, and enhance the transparency of better priced orders ("Final Rules"). Among other things, the Final Rules reduce the access fee cap from $0.30 per 100 shares to $0.10 per 100 shares.

On October 30, 2024, the Parent's equities exchanges, BZX, BYX, EDGX, and EDGA (collectively, the "Cboe U.S. equity exchanges") and Nasdaq, Inc. filed a Petition for Review ("PFR") in the Court of Appeals for the D.C. Circuit appealing the Final Rules. On December 3, 2024, the Cboe U.S. equity exchanges and Nasdaq, Inc. filed a request with the SEC for a stay to delay the initial implementation date of the Final Rules, which was scheduled to occur in November 2025. On December 12, 2024, the SEC granted a stay of the challenged provision of the Final Rules until the litigation is resolved. The briefing on the merits concluded on April 7, 2025, and oral argument was held on May 15, 2025. The parties are waiting for a decision.

The Final Rules, amongst other things, are expected to reduce access fee caps to a level that may inhibit our ability to incentivize liquidity on the Cboe U.S. equity exchanges, thereby resulting in a reduction in transaction fee revenue, as well as limit our ability to differentiate our fee schedule and compete with other national securities exchanges and off-exchange venues, which may have a material impact on our business, financial condition, and operating results. The Company and the Cboe U.S. equity exchanges intend to litigate the matter vigorously.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Division of Examinations and the CFTC's Division of Market Oversight as well as the SEC Division of Enforcement and CFTC Division of Enforcement seeking information about the Company's compliance with its obligations as a self-regulatory organization under the federal securities laws and Commodity Exchange Act as well as members' compliance with the federal securities laws and Commodity Exchange Act.

The Company is also currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

See also Note 3 ("Notes Receivable, Net") for information on promissory notes related to the CAT.

See also Note 8 ("Income Taxes").

(10) Subsequent Events

The Company performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, which is the date the financial statements were available to be issued.

There have been no subsequent events that have occurred during such period that would require disclosure in the financial statements or would be required to be recognized in the financial statements as of and for the year ended December 31, 2024.

Independent Auditors' Report

The Board of Directors
Cboe BYX Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe BYX Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe BYX Exchange, Inc. ("the Company" or "BYX"), a wholly-owned subsidiary of Cboe Services Company, is an electronic market for the trading of listed cash equity securities in the United States ("U.S."). The ultimate holding company is Cboe Global Markets, Inc. ("the Parent"). The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. In addition to equity trading, the Company also provides market data products to its member firms. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from the Depository Trust & Clearing Corporation ("DTCC") and market data fees associated with the U.S. tape plans. Accounts receivable are primarily collected through the DTCC, and are with large, highly-rated clearing firms; therefore, concentrations of risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, Financial Instruments – Credit Losses. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The

results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(g) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. These fees can be variable based on trade volume tiered discounts; however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from U.S. tape plans, including the Unlisted Trading Privileges Plan ("UTP"), and the Consolidated Tape Association Plan ("CTA"), and fees charged to customers for proprietary market data. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by the Securities and Exchange Commission ("SEC") Regulation National Market System ("NMS") that takes into account both trading and quoting activity. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Market data performance obligations are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations.

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Regulatory fees are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

(3) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail ("CAT"), a portion of which notes are expected to be repaid by Consolidated Audit

Trail, LLC ("CATLLC"). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 ("Rule 613"), and it strives to enhance regulators' ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S. national securities exchanges and FINRA (who collectively are referred to as the "SROs" or "Plan Participants") to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC's behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 9 ("Commitments and Contingencies") for more information. As of December 31, 2024, the long-term notes receivable, net balance was $13.5 million. In 2024, the Company reclassified $4.5 million of notes receivable to the current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT notes, and received $0.1 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024:

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 4,036	$ —	$ —	$ —	$ 4,036

(4) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following as of December 31, 2024:

Accounts payable	$	905
Current portion of tax uncertainties		10
	$	915

(5) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries to the parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$	3,941
Management fee		563
Technology support services		671
Professional fees and outside services		386
Travel and promotional expenses		443
Facilities costs		206
	$	6,210

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:		
Transaction fees	$	99
Access and capacity fees		138
	$	237
Cost of Revenues:		
Routing and clearing fees	$	3,488
Section 31 fees		1,008
	$	4,496

(6) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of listed cash equity securities in the U.S. The Company earns revenue from transaction fees, access and capacity fees, market data fees, and regulatory fees. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to

make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 10% of its total revenues from a single customer in 2024.

(7) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Other, net (1)	$ 260	$ 262	$ (267)	$ 255
Total deferred revenue	$ 260	$ 262	$ (267)	$ 255

(1) Other, net deferred revenue represents cash received for unsatisfied performance obligations of liability classified contract liabilities that have yet to be recognized as revenue in the condensed consolidated statements of income, which include but are not limited to listing fees and membership fees.

(8) Income Taxes

Deferred tax assets consist of the following components as of December 31, 2024:

Deferred tax assets:	
Unrecognized tax benefits	$ 3,520
Allowance for credit losses	250
Other	7
Total deferred tax assets	$ 3,777

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:	
Federal	$ 9,270
State	5,450
Total current tax expense	14,720
Deferred income tax benefit	
Federal	(511)
State	(61)
Total deferred income tax benefit	(572)
Income tax provision	$ 14,148

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$ 9,976	21.0 %
Increase (decrease) in income tax resulting from:		
State income taxes	2,012	4.2 %
Change in unrecognized tax benefits	2,249	4.8 %
Other	(89)	(0.2)%
Income tax provision	$ 14,148	29.8 %

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties is as follows:

Balance at December 31, 2023	$	9,885
Gross increases on unrecognized tax benefits in current period		1,374
Gross increases on unrecognized tax benefits in prior period		2
Gross decreases on unrecognized tax benefits in prior period		(104)
Settlement with taxing authorities		(472)
Balance at December 31, 2024	$	10,685

As of December 31, 2024, the Company had $8.4 million of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective income tax rate. The Company had accrued interest and penalties of $5.1 million related to uncertain tax positions at December 31, 2024. Total interest and penalties increased by $1.3 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under exam in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(9) Commitments and Contingencies

Legal proceedings

As of December 31, 2024, the Company was subject to various legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT Plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously funded by monies loaned to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association (“ASA”) and Citadel Securities, LLC (“Citadel”) filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit (“11th Circuit”). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC ("Intervenors") filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule and merits briefing concluded in the second quarter of 2024.

On September 13, 2024, Citadel filed a motion to stay the CAT Funding Model Order and to enjoin the collection of certain CAT fees during the pendency of this litigation, which the 11th Circuit denied on November 27, 2024. Oral argument on the merits was held on February 3, 2025. This challenge or any other challenge to the CAT Funding Model Order and/or Plan Participant(s) fee filings on behalf of CATLLC may significantly delay efforts by CATLLC to continue collecting the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the challenge is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs’ motion for a preliminary injunction and stay was denied. A dispositive-motion briefing schedule was established and briefing is scheduled to conclude in the fourth quarter of 2025. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC’s assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review (“PFR”) of the SEC’s May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities Exchange Act of 1934 (“Exchange Act”) and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT (“CAT RFQ Exemptive Order”) in the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC’s implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Equity Access Fees Cap Challenge

In December 2022, the SEC released four equity market structure proposals, including one concerning Regulation NMS Amendments: Tick Size, Access Fees, and Transparency. On October 8, 2024, the SEC promulgated Final Rules concerning Reg NMS to amend the minimum pricing increments for quoting certain NMS stocks, reduce access fee caps, and enhance the transparency of better priced orders (“Final Rules”). Among other things, the Final Rules reduce the access fee cap from $0.30 per 100 shares to $0.10 per 100 shares.

On October 30, 2024, the Parent’s equities exchanges, BZX, BYX, EDGX, and EDGA (collectively, the “Cboe U.S. equity exchanges”) and Nasdaq, Inc. filed a Petition for Review (“PFR”) in the Court of Appeals for the D.C. Circuit appealing the Final Rules. On December 3, 2024, the Cboe U.S. equity exchanges and Nasdaq, Inc. filed a request with the SEC for a stay to delay the initial implementation date of the Final Rules, which was scheduled to occur in November 2025. On December 12, 2024, the SEC granted a stay of the challenged

provision of the Final Rules until the litigation is resolved. The briefing on the merits concluded on April 7, 2025, and oral argument was held on May 15, 2025. The parties are waiting for a decision.

The Final Rules, amongst other things, are expected to reduce access fee caps to a level that may inhibit our ability to incentivize liquidity on the Cboe U.S. equity exchanges, thereby resulting in a reduction in transaction fee revenue, as well as limit our ability to differentiate our fee schedule and compete with other national securities exchanges and off-exchange venues, which may have a material impact on our business, financial condition, and operating results. The Company and the Cboe U.S. equity exchanges intend to litigate the matter vigorously.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Division of Examinations and the CFTC's Division of Market Oversight as well as the SEC Division of Enforcement and CFTC Division of Enforcement seeking information about the Company's compliance with its obligations as a self-regulatory organization under the federal securities laws and Commodity Exchange Act as well as members' compliance with the federal securities laws and Commodity Exchange Act.

The Company is also currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

See also Note 3 ("Notes Receivable, Net") for information on promissory notes related to the CAT.

See also Note 8 ("Income Taxes").

(10) Subsequent Events

The Company performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, which is the date the financial statements were available to be issued.

There have been no subsequent events that have occurred during such period that would require disclosure in the financial statements or would be required to be recognized in the financial statements as of and for the year ended December 31, 2024.

Independent Auditors' Report

The Board of Directors
Cboe EDGX Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe EDGX Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe EDGX Exchange, Inc. ("the Company" or "EDGX"), a wholly-owned subsidiary of Direct Edge, LLC, is an electronic market for the trading of listed cash equity securities and listed equity options in the United States ("U.S."). The ultimate holding company is Cboe Global Markets, Inc. ("the Parent"). The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. In addition to equity and options trading, the Company also provides market data products to its member firms. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 5 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from the Depository Trust & Clearing Corporation ("DTCC") and The Options Clearing Corporation ("OCC"), the Company's share of distributable revenue receivable from Options Price Reporting Authority ("OPRA"), and market data fees associated with the U.S. tape plans. Management transacts with these counterparties in the normal course of business and does not anticipate loss or non-performance. Accounts receivable are primarily collected through the DTCC as well as the OCC, and are with large, highly-rated clearing firms; therefore, concentrations of risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, Financial Instruments – Credit Losses. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and

deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(g) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. These fees can be variable based on trade volume tiered discounts; however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from U.S. tape plans, including the Unlisted Trading Privileges Plan ("UTP"), and the Consolidated Tape Association Plan ("CTA"), fees received by the Company from OPRA, and fees charged to customers for proprietary market data. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by the Securities and Exchange Commission ("SEC") Regulation National Market System ("NMS") that takes into account both trading and quoting activity. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members and earned and recognized monthly. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Market data performance obligations are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations.

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as

Section 31 fees payable in the statement of financial condition until paid. Regulatory fees are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled. Regulatory fees also include the options regulatory fee ("ORF") which supports the Company's regulatory oversight function, along with other miscellaneous regulatory fees, and neither can be used for non-regulatory purposes. In accordance with SEC guidelines, ORF revenue cannot exceed 75% of regulatory costs incurred and therefore, the Company calculates an appropriate deferral amount every six months. Section 31 fees and ORF are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

Other Revenue

Other revenue includes order-to-trade ratio fees revenue. These fees are billed in accordance with the Company's published fees and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

(3) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail ("CAT"), a portion of which notes are expected to be repaid by Consolidated Audit Trail, LLC ("CATLLC"). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 ("Rule 613"), and it strives to enhance regulators' ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S. national securities exchanges and FINRA (who collectively are referred to as the "SROs" or "Plan Participants") to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model ("CAT Funding Model") for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC's behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan

Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 9 ("Commitments and Contingencies") for more information. As of December 31, 2024, the long-term notes receivable, net balance was $30.7 million. In 2024, the Company reclassified $9.3 million of notes receivable to the current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT notes, and received $1.0 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024:

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 6,296	$ —	$ —	$ —	$ 6,296

(4) Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following as of December 31, 2024:

Accounts payable	$ 46,848
Accrued liabilities	9,119
	$ 55,967

(5) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries to the Parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$ 61,151
Management fee	8,813
Technology support services	11,279
Professional fees and outside services	6,918
Travel and promotional expenses	5,975
Facilities costs	3,467
	$ 97,603

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:	
Transaction fees	$ 195
Access and capacity fees	$ 250
	$ 445
Cost of revenues:	
Routing and clearing fees	$ 17,833
Section 31 fees	$ 1,660
Liquidity payments	$ 5
	$ 19,498

(6) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of listed cash equity securities and listed equity options in the U.S. The Company earns revenue from transaction fees, access and capacity fees, market data fees, and regulatory fees. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 27% of its total revenues from its largest two customers in 2024.

(7) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Other, net (1)	$ 314	$ 301	$ (325)	$ 290
Total deferred revenue	$ 314	$ 301	$ (325)	$ 290

(1) Other, net deferred revenue represents cash received for unsatisfied performance obligations of liability classified contract liabilities that have yet to be recognized as revenue in the condensed consolidated statements of income, which include but are not limited to listing fees and membership fees.

(8) Income Taxes

Deferred tax assets consist of the following components as of December 31, 2024:

Deferred tax assets:	
Unrecognized tax benefits	$ 3,935
Allowance for credit losses	290
Investments	80
Subtotal	4,305
Valuation allowance	(80)
Total deferred tax assets	$ 4,225

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. A valuation allowance of $0.1 million was recorded against gross deferred tax assets for certain investments as of December 31, 2024.

The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:		
Federal	$	8,501
State		5,507
Total current tax expense		14,008
Deferred income tax benefit		
Federal		(591)
State		(80)
Total deferred income tax benefit		(671)
Income tax provision	$	13,337

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$	9,183	21.0 %
Increase (decrease) in income tax resulting from:			
State income taxes		1,968	4.5 %
Change in unrecognized tax benefits		2,315	5.3 %
Other		(129)	(0.3)%
Income tax provision	$	13,337	30.5 %

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties is as follows:

Balance at December 31, 2023	$	10,646
Gross increases on unrecognized tax benefits in current period		1,270
Gross increases on unrecognized tax benefits in prior period		3
Gross decreases on unrecognized tax benefits in prior period		(100)
Settlement with taxing authorities		(195)
Balance at December 31, 2024	$	11,624

As of December 31, 2024, the Company had $9.2 million of unrecognized tax benefits, net of federal income tax benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of $5.9 million related to uncertain tax positions at December 31, 2024. Total interest and penalties increased by $1.7 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under exam in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(9) Commitments and Contingencies

Legal proceedings

As of December 31, 2024, the Company was subject to the various legal proceedings and claims discussed below, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT Plan to implement a revised funding model (“CAT Funding Model”) for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the “executed equivalent shares” of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously funded by monies loaned to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association (“ASA”) and Citadel Securities, LLC (“Citadel”) filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit (“11th Circuit”). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC ("Intervenors") filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule and merits briefing concluded in the second quarter of 2024.

On September 13, 2024, Citadel filed a motion to stay the CAT Funding Model Order and to enjoin the collection of certain CAT fees during the pendency of this litigation, which the 11th Circuit denied on November 27, 2024. Oral argument on the merits was held on February 3, 2025. This challenge or any other challenge to the CAT Funding Model Order and/or Plan Participant(s) fee filings on behalf of CATLLC may significantly delay efforts by CATLLC to continue collecting the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the challenge is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs’ motion for a preliminary injunction and stay was denied. A dispositive-motion briefing schedule was established and briefing is scheduled to conclude in the

fourth quarter of 2025. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC's assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review ("PFR") of the SEC's May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities Exchange Act of 1934 ("Exchange Act") and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT ("CAT RFQ Exemptive Order") in the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC's implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Equity Access Fees Cap Challenge

In December 2022, the SEC released four equity market structure proposals, including one concerning Regulation NMS Amendments: Tick Size, Access Fees, and Transparency. On October 8, 2024, the SEC promulgated Final Rules concerning Reg NMS to amend the minimum pricing increments for quoting certain NMS stocks, reduce access fee caps, and enhance the transparency of better priced orders ("Final Rules"). Among other things, the Final Rules reduce the access fee cap from $0.30 per 100 shares to $0.10 per 100 shares.

On October 30, 2024, the Parent's equities exchanges, BZX, BYX, EDGX, and EDGA (collectively, the "Cboe U.S. equity exchanges") and Nasdaq, Inc. filed a Petition for Review ("PFR") in the Court of Appeals for the D.C. Circuit appealing the Final Rules. On December 3, 2024, the Cboe U.S. equity exchanges and Nasdaq, Inc. filed a request with the SEC for a stay to delay the initial implementation date of the Final Rules, which was scheduled to occur in November 2025. On December 12, 2024, the SEC granted a stay of the challenged provision of the Final Rules until the litigation is resolved. The briefing on the merits concluded on April 7, 2025, and oral argument was held on May 15, 2025. The parties are waiting for a decision.

The Final Rules, amongst other things, are expected to reduce access fee caps to a level that may inhibit our ability to incentivize liquidity on the Cboe U.S. equity exchanges, thereby resulting in a reduction in transaction fee revenue, as well as limit our ability to differentiate our fee schedule and compete with other national securities exchanges and off-exchange venues, which may have a material impact on our business, financial condition, and operating results. The Company and the Cboe U.S. equity exchanges intend to litigate the matter vigorously.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Division of Examinations and the CFTC's Division of Market Oversight as well as the SEC Division of Enforcement and CFTC Division of Enforcement seeking information about the Company's compliance with its obligations as a self-regulatory organization under the federal securities laws and Commodity Exchange Act as well as members' compliance with the federal securities laws and Commodity Exchange Act.

The Company is also currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

See also Note 3 (“Notes Receivable, Net”) for information on promissory notes related to the CAT.

See also Note 8 (“Income Taxes”).

(10) Subsequent Events

The Company performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, which is the date the financial statements were available to be issued.

There have been no subsequent events that have occurred during such period that would require disclosure in the financial statements or would be required to be recognized in the financial statements as of and for the year ended December 31, 2024.

Exhibit I

Exhibit Request:

For the latest fiscal year of the applicant, audited financial statements which are prepared in accordance with, or in the case of a foreign applicant, reconciled with, United States generally accepted accounting principles, and are covered by a report prepared by an independent public accountant. If an applicant has no consolidated subsidiaries, it shall file audited financial statements under Exhibit I alone and need not file a separate unaudited financial statement for the applicant under Exhibit D.

Attached please find audited financial statements of Cboe EDGA Exchange, Inc. for the latest fiscal year ending December 31, 2024. Cboe EDGA Exchange, Inc. has no consolidated subsidiaries.

Independent Auditors' Report

The Board of Directors
Cboe EDGA Exchange, Inc.:

Opinion

We have audited the financial statements of Cboe EDGA Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2024, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(1) Nature of Operations

Cboe EDGA Exchange, Inc. ("the Company" or "EDGA"), a wholly-owned subsidiary of Direct Edge, LLC, is an electronic market for the trading of listed cash equity securities in the United States ("U.S."). The ultimate holding company is Cboe Global Markets, Inc. ("the Parent"). The Company uses Cboe Trading, Inc., an affiliated subsidiary of the Parent, to route certain orders to other market centers. In addition to equity trading, the Company also provides market data products to its member firms. The Company is headquartered in Chicago, Illinois with additional offices in Lenexa, Kansas and New York, New York.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements for the Company have been prepared from the separate records maintained by the Parent and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Company had been operated as an unaffiliated company. Portions of certain income and expenses represent allocations made from the Parent and other affiliated subsidiaries of the Parent to the Company as disclosed. See Note 4 ("Related Party Transactions") for more information on related party transactions.

(b) Principles of Accounting

The Company follows accounting standards established by the Financial Accounting Standards Board ("FASB") to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the United States ("GAAP") in these notes are to the FASB Accounting Standards Codification ("ASC").

(c) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, cost of revenues, and expenses during the reporting period. Actual results could differ materially from those estimates under different conditions or assumptions. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

(d) Cash

The Company's operations, including intercompany transactions, are funded by its Parent through a centralized treasury function. The Parent's cash is exposed to concentrations of credit risk. The Parent maintains cash at various regulated financial institutions and brokerage firms which, at times, may be in excess of the federal depository and brokerage insurance limits.

(e) Accounts Receivable

Accounts receivable consists primarily of transaction and regulatory fees from the Depository Trust & Clearing Corporation ("DTCC") and market data fees associated with the U.S. tape plans. Accounts receivable are primarily collected through the DTCC, and are with large, highly-rated clearing firms; therefore, concentrations of risk are limited. On a periodic basis, management evaluates the Company's receivables and records an allowance for expected credit losses in accordance with ASC 326, Financial Instruments – Credit Losses. Based upon the Company's assessment of historical information, credit risk, and collectability, no provision for uncollectible accounts has been recorded.

(f) Income Taxes

Deferred taxes are recorded on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and

liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an unrecognized tax benefit only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for unrecognized tax benefits. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

(g) Revenue Recognition

Transaction Fees

Transaction fees represent fees charged by the Company for meeting the point-in-time performance obligation of executing a trade on its market. Prior to November 1, 2024, these fees could have been variable based on trade volume tiered discounts; however, as all tiered discounts were calculated monthly, the actual discount was recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts (prior to November 1, 2024), were calculated and billed monthly in accordance with the Company's published fee schedules.

EDGA transitioned from an inverted fee model to a maker-taker, tier-free fee model on November 1, 2024. Under this structure, liquidity providers receive a rebate, while liquidity takers pay a fee, all within a pricing model that does not include volume-based tiers.

Access and Capacity Fees

Access and capacity fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Market Data Fees

Market data fees represent fees received by the Company from U.S. tape plans, including the Unlisted Trading Privileges Plan ("UTP"), and the Consolidated Tape Association Plan ("CTA"), and fees charged to customers for proprietary market data. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by the Securities and Exchange

Commission ("SEC") Regulation National Market System ("NMS") that takes into account both trading and quoting activity. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Market data performance obligations are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data to meet its performance obligations

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Company under the authority of the Securities and Exchange Commission ("SEC"). Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. The Company acts as the principal on these transactions, and therefore these revenues are reported gross in the statement of income and the related Section 31 fees in cost of revenues as incurred on a settlement date basis. Regulatory transaction fees are collected by the Parent and paid directly to the SEC by the Parent on behalf of the Company. As required by law, the amount due to the SEC is remitted semiannually and recorded as

Section 31 fees payable in the statement of financial condition until paid. Regulatory fees are calculated and billed monthly and recognized upon the clearing and execution of a trade when the performance obligation is fulfilled.

Other Revenue

Other revenue represents execution and license fees. During the year ended December 31, 2024, the Company charged Cboe Netherlands Services Company B.V. ("CNSC") $1.2 million in license fees in accordance with the Market Data Sharing Agreement that CNSC entered with Cboe affiliates, with only EDGA providing data, representing the entirety of services provided.

(3) Notes Receivable, Net

The notes receivable, net balance relates to promissory notes to fund the implementation and operation of the Consolidated Audit Trail (“CAT”), a portion of which notes are expected to be repaid by Consolidated Audit Trail, LLC (“CATLLC”). CAT involves the creation of an audit trail that is required by Rule 613 under the Securities Exchange Act of 1934 (“Rule 613”), and it strives to enhance regulators’ ability to monitor trading activity in the U.S. national securities markets through a phased implementation. CATLLC is a national market system plan that was created by self-regulatory organizations that include the Cboe U.S. national securities exchanges, the other U.S. national securities exchanges and FINRA (who collectively are referred to as the “SROs” or “Plan Participants”) to implement and operate the CAT.

On September 6, 2023, the SEC issued an order approving an amendment to the CAT national market system plan to implement a revised funding model (“CAT Funding Model”) for CATLLC to fund the CAT. The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the “executed equivalent shares” of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers (the brokers responsible for executing each side of the transaction) to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund a portion of prospective CAT costs.

Prior to September 3, 2024, the funding of the CAT was solely provided to CATLLC by the Plan Participants in exchange for promissory notes. However, pursuant to the CAT Funding Model, the Plan Participants submitted fee filings on behalf of CATLLC to recover a portion of historical CAT costs incurred prior to 2022, and those filings became effective as of October 1, 2024. CATLLC began remitting funds collected from CAT Executing Brokers of Buyers and Sellers to the Plan Participants in December 2024 to begin paying back a portion of the promissory notes issued by the Plan Participants to fund the CAT prior to January 1, 2022.

Additional CAT fees related to a portion of other historical CAT costs incurred between January 1, 2022 and July 15, 2024 are planned to be introduced at a later time through separate fee filings submitted by the Plan Participants. Portions of promissory notes related to the funding of the implementation and operation of the CAT may not be collectible, including if the SEC finds that the Plan Participants did not satisfy any of the financial accountability milestones.

Pursuant to fee filings submitted by Plan Participants, as of September 3, 2024, CATLLC began assessing transaction-based fees to CAT Executing Brokers of Buyers and Sellers to cover a portion of prospective CAT costs. At the same time, CATLLC also began assessing a transaction-based fee to the respective Plan Participants for the same amount. To continue to fund CATLLC as it transitioned to collecting fees from Industry Members and Plan Participants to cover ongoing CAT costs in accordance with the CAT Funding Model, Plan Participants temporarily issued short-term notes to CATLLC to cover CAT costs that were payable by CATLLC until CATLLC collected sufficient proceeds from the fees to cover those costs. As of January 2025, CATLLC has fully repaid these short-term notes through funds collected form the fees assessed to CAT Executing Brokers and Plan Participants. CATLLC has also used the funds collected to pay CATLLC expenses and has retained excess funds as a reserve per the CAT Funding Model and budget. Moving forward, CATLLC plans for the Plan Participants to submit prospective fee filings on CATLLC’s behalf every six months to update the transaction fee rates as necessary to cover prospective CAT costs. The last such filings were submitted in December 2024 and effected a rate change beginning January 2, 2025. The Company expects Plan Participants will no longer issue additional short-term notes to CATLLC to fund CAT given that CATLLC has begun imposing and collecting fees to cover CAT costs.

The allowance for notes receivable credit losses associated with the CAT is calculated using a methodology that is primarily based on the structure of the notes and various potential outcomes under the CAT Funding Model. See Note 8 ("Commitments and Contingencies") for more information. As of December 31, 2024, the long-term notes receivable, net balance was $14.2 million. In 2024, the Company reclassified $4.5 million of notes receivable to the current portion of notes receivable within other receivables within the statement of financial condition, related to the current portion of the CAT notes, and received $0.1 million in payments.

The following represents the changes in allowance for credit losses for the year ended December 31, 2024:

	Balance at December 31, 2023	Current period provision for expected credit losses	Write-offs charged against the allowance	Recoveries collected	Balance at December 31, 2024
Allowance for notes receivable credit losses	$ 4,036	$ —	$ —	$ —	$ 4,036

(4) Related Party Transactions

The Company utilizes property and equipment that are held at the Parent level. The Company has entered into an Administrative Services and Support Agreement with the Parent and other affiliated subsidiaries to the Parent. Pursuant to this agreement, the Company records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. In addition, the Company enters into transactions with the Parent and affiliated subsidiaries of the Parent. Similar results may not be achievable on an arm's length basis. During the year ended December 31, 2024, the Company charged CNSC $1.2 million in other revenue in accordance with a Market Data Sharing Agreement.

The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Compensation and benefits	$ 6,242
Management fee	889
Technology support services	995
Professional fees and outside services	610
Travel and promotional expenses	662
Facilities costs	326
	$ 9,724

The following table presents the Company's revenues and cost of revenues from the Parent and other affiliated subsidiaries of the Parent for the year ended December 31, 2024:

Revenues:	
Transaction fees	$ 58
Access and capacity fees	178
Other revenue	1,183
	$ 1,419
Cost of revenues:	
Routing and clearing fees	$ 6,173
Section 31 fees	1,077
	$ 7,250

(5) Segment Reporting

The Company operates as a single reportable segment as its sole function is to operate an electronic market for the trading of listed cash equity securities in the U.S. The Company earns revenue from transaction fees, access and capacity fees, market data fees, regulatory fees, and other revenue. See Revenue Recognition in Note 2 ("Summary of Significant Accounting Policies") for more information. The business activities and operations are managed on an entity-wide basis.

The Parent Company's Chief Executive Officer is the chief operating decision maker ("CODM") of the Company. The CODM assesses performance for the segment and determines how to allocate resources based on net income, as presented in the statement of income. The CODM assesses performance in order to make operational decisions, such as reinvesting profits or making distributions to the Parent. The Company derived 28% of its total revenues from its largest two customers in 2024.

(6) Deferred Revenue

The following table summarizes the activity in deferred revenue for the year ended December 31, 2024:

	Balance at December 31, 2023	Cash Additions	Revenue Recognition	Balance at December 31, 2024
Other, net (1)	$ 248	$ 261	$ (256)	$ 253
Total deferred revenue	$ 248	$ 261	$ (256)	$ 253

(1) Other, net deferred revenue represents cash received for unsatisfied performance obligations of liability classified contract liabilities that have yet to be recognized as revenue in the condensed consolidated statements of income, which include but are not limited to listing fees and membership fees.

(7) Income Taxes

Deferred tax assets consist of the following components as of December 31, 2024:

Deferred tax assets:	
Unrecognized tax benefits	$ 3,349
Allowance for credit losses	250
Total deferred tax assets	$ 3,599

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

The income tax provision for the year ended December 31, 2024 consists of the following:

Current tax expense:		
Federal	$	7,484
State		4,683
Total current tax expense		12,167
Deferred income tax benefit		
Federal		(471)
State		(65)
Total deferred income tax benefit		(536)
Income tax provision	$	11,631

A reconciliation of the statutory federal income tax rate to the effective income tax rate for the year ended December 31, 2024 is as follows:

Income tax provision at statutory U.S. federal income tax rate	$ 8,083	21.0 %
Increase (decrease) in income tax resulting from:		
State income taxes	1,652	4.3 %
Change in unrecognized tax benefits	2,001	5.2 %
Other	(105)	(0.3)%
Income tax provision	$ 11,631	30.2 %

A reconciliation of the beginning and ending unrecognized tax benefits, excluding interest and penalties is as follows:

Balance at December 31, 2023	$	9,081
Gross increases on unrecognized tax benefits in current period		1,109
Gross increases on unrecognized tax benefits in prior period		—
Gross decreases on unrecognized tax benefits in prior period		(79)
Settlement with taxing authorities		(412)
Balance at December 31, 2024	$	9,699

As of December 31, 2024, the Company had $7.7 million of unrecognized tax benefits, net of federal income tax benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of $5.2 million related to uncertain tax positions at December 31, 2024. Total interest and penalties increased by $1.3 million during the year ended December 31, 2024.

The Company files consolidated federal and state income tax returns with the Parent and certain state and local returns on a stand-alone basis. Income tax liabilities of the income tax filing group are allocated by the Parent to the subsidiaries on a pro-rata basis.

The Company's open tax years are 2015 through 2024 and are under exam in certain states for various periods. The Company believes the aggregate amount of any additional liabilities that may result from examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

(8) Commitments and Contingencies

Legal proceedings

As of December 31, 2024, the Company was subject to various legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is remote, reasonably possible, or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of December 31, 2024, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these legal proceedings and claims, regulatory reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any proceeding is inherently uncertain and an adverse outcome from certain matters could have a material effect on the financial position, results of operations, or cash flows of the Company in any given reporting period.

CAT Funding Model Order Litigation

On September 6, 2023, the SEC issued an order approving an amendment to the CAT National Market System Plan to implement a revised funding model for CATLLC to fund the CAT ("CAT Funding Model Order"). The approved CAT Funding Model contemplates two categories of CAT fees calculated based on the "executed equivalent shares" of transactions in eligible securities: (i) CAT fees assessed by CATLLC to Industry Members who are CAT Executing Brokers to recover a portion of historical CAT costs previously paid to CATLLC by the Plan Participants; and (ii) CAT fees assessed by CATLLC to CAT Executing Brokers and Plan Participants to fund prospective CAT costs.

On October 17, 2023, the American Securities Association ("AMA") and Citadel Securities, LLC ("Citadel") filed a Petition for Review of the CAT Funding Model Order in the U.S. Court of Appeals for the 11th Circuit ("11th Circuit"). On November 16, 2023, the Cboe U.S. national securities exchanges, the NYSE U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC filed motions to intervene on behalf of the SEC. On January 17, 2024, the 11th Circuit granted each of the motions to intervene on behalf of the SEC and established a briefing schedule. Briefing concluded in the second quarter of 2024 and the 11th Circuit is expected to schedule oral argument to occur in the second half of 2024. This challenge or any other challenge to the CAT Funding Model Order and/or Plan Participant(s) fee filings may significantly delay efforts to implement the CAT fees. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT. The Company believes the appeal is without merit and intends to vigorously litigate the matter.

CAT Putative Class Action

A putative class action was filed on April 16, 2024 captioned Erik A. Davidson, John Restivo and National Center for Public Policy Research vs. Gary Gensler, SEC and CATLLC. Cboe and the Plan Participants are not parties to this litigation. The complaint alleges, among other things, that the SEC engaged in unlawful agency action and violated multiple provisions of the U.S. Constitution when it promulgated Rule 613 in 2012 mandating the creation and funding of the CAT. Plaintiffs' motion for a preliminary injunction and stay was denied. A dispositive-motion briefing schedule was established and briefing is scheduled to conclude in the fourth quarter of 2025. This challenge or any other challenge to the constitutionality of the CAT may delay CATLLC's assessment of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Citadel Petition for Review of SEC Temporary Conditional Exemptive Order

On July 17, 2024, Citadel filed a Petition for Review ("PFR") of the SEC's May 20, 2024 Order Granting A Temporary Conditional Exemption Pursuant to Section 36(a)(1) of the Securities Exchange Act of 1934 ("Exchange Act") and Rule 608(e) of Regulation NMS Under the Exchange Act, Relating to the Reporting of Responses to Requests for Quotes and Other Solicitation Responses Provided in a Standard Electronic Format, as Required by Section 6.4(d) of the NMS Plan Governing the CAT ("CAT RFQ Exemptive Order") in

the 11th Circuit. The PFR does not identify any requested relief. On August 1, 2024, the 11th Circuit granted Citadel's July 19, 2024 unopposed motion to stay the PFR until a decision is issued in the CAT Funding Model Order Litigation (described above), which is also before the 11th Circuit. On September 11, 2024, the 11th Circuit granted motions filed by the Cboe U.S. national securities exchanges, the Nasdaq U.S. national securities exchanges and CATLLC to intervene on behalf of the SEC. This challenge or any other challenge to SEC Orders concerning the CAT may delay the CATLLC's implementation of CAT fees to recover a portion of CAT costs. As a result, the Plan Participants may continue to incur additional significant costs, and/or it may result in them not being able to collect on the promissory notes related to the funding of the implementation and operation of the CAT.

Equity Access Fees Cap Challenge

In December 2022, the SEC released four equity market structure proposals, including one concerning Regulation NMS Amendments: Tick Size, Access Fees, and Transparency. On October 8, 2024, the SEC promulgated Final Rules concerning Reg NMS to amend the minimum pricing increments for quoting certain NMS stocks, reduce access fee caps, and enhance the transparency of better priced orders ("Final Rules"). Among other things, the Final Rules reduce the access fee cap from $0.30 per 100 shares to $0.10 per 100 shares.

On October 30, 2024, the Parent's equities exchanges, BZX, BYX, EDGX, and EDGA (collectively, the "Cboe U.S. equity exchanges") and Nasdaq, Inc. filed a Petition for Review ("PFR") in the Court of Appeals for the D.C. Circuit appealing the Final Rules. On December 3, 2024, the Cboe U.S. equity exchanges and Nasdaq, Inc. filed a request with the SEC for a stay to delay the initial implementation date of the Final Rules, which was scheduled to occur in November 2025. On December 12, 2024, the SEC granted a stay of the challenged provision of the Final Rules until the litigation is resolved. The briefing on the merits concluded on April 7, 2025, and oral argument was held on May 15, 2025. The parties are waiting for a decision.

The Final Rules, amongst other things, are expected to reduce access fee caps to a level that may inhibit our ability to incentivize liquidity on the Cboe U.S. equity exchanges, thereby resulting in a reduction in transaction fee revenue, as well as limit our ability to differentiate our fee schedule and compete with other national securities exchanges and off-exchange venues, which may have a material impact on our business, financial condition, and operating results. The Company and the Cboe U.S. equity exchanges intend to litigate the matter vigorously.

Other

As an SRO under the jurisdiction of the SEC, the Company is subject to routine rule enforcement reviews and examinations by the SEC. The Company has from time to time received inquiries and investigative requests from the SEC's Office of Compliance Inspections and Examinations as well as the Division of Enforcement seeking information about the Company's compliance with its obligations as a self-regulatory organization under the federal securities laws as well as members' compliance with the federal securities laws.

The Company may also be currently a party to various other legal proceedings in addition to those already mentioned. Management does not believe that the likely outcome of any of these other reviews, inspections, investigations or other legal proceedings is expected to have a material impact on the Company's financial position, results of operations, liquidity or capital resources.

See also Note 3 ("Notes Receivable, Net") for information on promissory notes related to the CAT.

See also Note 7 ("Income Taxes").

(9) Subsequent Events

The Company performed an evaluation of events that have occurred subsequent to December 31, 2024 through June 12, 2025, which is the date the financial statements were available to be issued.

There have been no subsequent events that have occurred during such period that would require disclosure in the financial statements or would be required to be recognized in the financial statements as of and for the year ended December 31, 2024.

Exhibit K

Exhibit Request:

This Exhibit is applicable only to exchanges that have one or more owners, shareholders, or partners that are not also members of the exchange. If the exchange is a corporation, please provide a list of each shareholder that directly owns 5% or more of a class of a voting security of the applicant. If the exchange is a partnership, please provide a list of all general partners and those limited and special partners that have the right to receive upon dissolution, or have contributed, 5% or more of the partnership's capital. For each of the persons listed in the Exhibit K, please provide the following:

1. **Full legal name;**
2. **Title or Status;**
3. **Date title or status was acquired;**
4. **Approximate ownership interest; and**
5. **Whether the person has control, a term that is defined in the instructions to this Form.**

Response:

Cboe EDGA Exchange, Inc. ("EDGA") is wholly-owned by Direct Edge LLC ("Direct Edge"). Direct Edge is the sole stockholder of the Exchange and acquired its interest in the Exchange on July 22, 2010. Direct Edge exercises "control" over the Exchange, as that term is defined in the Form 1 instructions.

Direct Edge is wholly-owned by Cboe Bats, LLC. Cboe Bats, LLC is the sole member of Direct Edge, and acquired its interest in Direct Edge on January 31, 2014. Cboe Bats, LLC exercises "control" over the Exchange, as that term is defined in the Form 1 instructions.

Cboe Bats, LLC is wholly-owned by Cboe Global Markets, Inc. Cboe Global Markets, Inc. is the sole member of Cboe Bats, LLC, and acquired its interest in Cboe Bats, LLC on September 23, 2016. Cboe Global Markets, Inc. exercises "control" over the Exchange, as that term is defined in the Form 1 instructions.

Exhibit M

Exhibit Request:

Provide an alphabetical list of all members, participants, subscribers or other users, including the following information:

1. Name,

2. Date of election to membership or acceptance as a participant, subscriber or other user,

3. Principal business address and telephone number,

4. If member, participant, subscriber or other user is an individual, the name of the entity with which such individual is associated and the relationship of such individual to the entity (e.g., partner, officer, director, employee, etc.),

5. Describe the type of activities primarily engaged in by the member, participant, subscriber, or other user (e.g., floor broker, specialist, odd lot dealer, other market maker, proprietary trader, non-broker dealer, inactive or other functions). A person shall be "primarily engaged" in an activity or function for purposes of this item when that activity or function is the one in which that person is engaged for the majority of their time. When more than one type of person at an entity engages in any of the six types of activities or functions enumerated in this item, identify each type (e.g., proprietary trader, Registered Competitive Trader and Registered Competitive Market Maker) and state the number of members, participants, subscribers, or other users in each, and

6. The class of membership, participation or subscription or other access.

Response:

Exhibit N

Exhibit Request: Provide a schedule for each of the following:

1. **The securities listed in the exchange, indicating for each the name of the issuer and a description of the security;**

2. **The securities admitted to unlisted trading privileges, indicating for each the name of the issuer and a description of the security;**

3. **The unregistered securities admitted to trading on the exchange which are exempt from registration under Section 12(a) of the Act. For each security listed, provide the name of the issuer and a description of the security, and the statutory exemption claimed (e.g., Rule 12a-6); and**

4. **Other securities traded on the exchange, including for each the name of the issuer and a description of the security.**

Response:

Attached is a schedule showing the information requested by this Exhibit as of June 4, 2025.

All securities that trade through the Cboe EDGA Exchange, Inc. System are "NMS stocks," as such term is defined in Rule 600(b)(65) of Regulation NMS, and are traded pursuant to unlisted trading privileges. The Exchange does not currently list any securities, though it may do so in the future. The Exchange allows trading of Nasdaq National Market and Nasdaq Capital Market securities (both "Nasdaq securities" as defined in Rule 600(b)(59) of Regulation NMS) through Cboe EDGA Exchange, Inc. The Exchange also allows trading of exchange-traded securities, as defined in Rule 600(b)(38) of Regulation NMS, including exchange-traded funds or ETFs.
