REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member and
Those Charged with Governance of
Tribal Capital Markets, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Tribal Capital Markets, LLC (the “Company”) as of December 31, 2024, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of the Company as of December 31, 2024 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION

DECEMBER 31, 2024

1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Tribal Capital Markets, LLC (the "Company"), is a registered securities broker and dealer under the Securities Exchange Act of 1934, with membership in the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). The Company was founded under the laws of the State of Delaware. The Company operates out of its main office in Orlando, FL. It is a wholly owned subsidiary of PLP Capital LLC.

The Company acts as an introducing broker, and all transactions for its customers are cleared through and carried by RBC on a fully-disclosed basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Segment Reporting

The Accounting Standards Update (ASU) 2023-07 issued by the Financial Accounting Standards Board (FASB) introduced enhancements to segment reporting requirements for public entities, including broker-dealers. The update aimed to improve the transparency and usefulness of financial disclosures for investors and other stakeholders. ASU 2023-07 disclosure requirements are effective for fiscal years starting after December 15, 2023. The Company has identified its Chief Financial Officer as the Chief Operating Decision Maker as specified in the ASU 2023-07. Company management reviewed the ASU 2023-07 disclosure requirements and determined that no additional disclosures are required as the Company has only one reportable segment.

Securities owned and securities sold short

Transactions in securities and derivative financial instruments are recorded on a trade-date basis. These financial instruments are carried at fair value with the resulting realized gains and losses and change in unrealized gains and losses reflected in trading revenues, net in the statement of operations.

Fixed assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is computed on the double-declining balance method over the estimated useful lives of the respective assets.

Revenue recognition

Commission income

Under ASC 606, commissions and other trading fees are recorded on a trade-date basis as securities transactions occur and are reflected separately in the statement of operations.

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION DECEMBER 31, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment banking

In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASC Topic 606") revenues from contracts with customers is recognized when, or as, the Company satisfies its performance obligations by transferring the promised services to the customers. A service is transferred to a customer when, or as, the customer obtains control of that service. A performance obligation may be satisfied at a point in time or over time. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the Company determines the customer obtains control over the promised service. Revenue from a performance obligation satisfied over time is recognized by measuring the Company's progress in satisfying the performance obligation in a manner that depicts the transfer of the services to the customer. The amount of revenue recognized reflects the consideration the Company expects to receive in exchange for those promised services (i.e., the "transaction price"). In determining the transaction price, the Company considers multiple factors, including the effects of variable consideration, if any.

Under ASC 606, the Company's advisory fees from investment banking engagements are recognized at a point in time when the related transaction is completed, as the performance obligation is to successfully broker a specific transaction.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at December 31, 2024 and the reported amounts of revenues and expenses during the year then ended. Actual results could differ from those estimates.

Income taxes

The Company is a single member Limited Liability Company, which is treated as a disregarded entity for tax purposes and accordingly, no provision has been made in the accompanying financial statements for any federal, state or local income taxes. The results of the operations of the Company flow to the members.

The Company recognizes and measures its unrecognized tax benefits in accordance with FASB ASC 740, Income Taxes. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The Company believes that it has no uncertain tax positions and accordingly, no liability has been recorded. The Company continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law, and new authoritative rulings. The 2021, 2022 and

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION DECEMBER 31, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

2023 tax years of the Company remain subject to examination by U.S. Federal and certain state and local tax authorities.

Cash and cash equivalents

Cash represents cash and cash deposits held at financial institutions. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have maturities of 3 months or less. Cash equivalents are carried at cost plus accrued interest which approximates fair value. Cash equivalents are held for the purpose of meeting short-term liquidity requirements other than for investment purposes. Cash and cash equivalents are held at major financial institutions.

3. VALUATION OF SECURITIES

The Company uses the fair value measurements standard to determine the value of its securities. Various inputs used under this method are summarized in the three broad levels listed below:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment terms, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

All of the Company's securities are Level 1 and Level 2, and are summarized as follows:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
<u>Investments</u>			
Corporate Bonds	\$ -	\$ 22,140	\$ 22,140
Deposit with clearing broker	525,266	-	525,266
Total Investments	\$ 525,266	\$ 22,140	\$ 547,406

Valuation techniques

Corporate bonds

The fair value of corporate bonds is estimated using recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer or credit default swap spreads. The spread data used is for the same maturity as the bond. If the spread data does not reference the issuer, then data that references comparable issuers is used. Usually corporate bonds are categorized as Level 2 of the fair value hierarchy.

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION

DECEMBER 31, 2024

3. VALUATION OF SECURITIES *(continued)*

Municipal bonds

The fair value of municipal bonds is estimated using recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, or fundamental data relating to the issuer. Usually municipal bonds are categorized as Level 2 of the fair value hierarchy.

Government

Government Sponsored Securities are valued by independent pricing services using pricing models based on inputs that include issuer type, coupon, cash flows, mortgage prepayment projection tables and adjustable rate mortgage evaluations that incorporate index data, periodic and life caps, the next coupon reset date, and the convertibility of the bond. To the extent that these inputs are observable, the values of government sponsored enterprises are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3. In the absence of an independent pricing service, consensus pricing is obtained and is presented as Level 2. At December 31, 2024, Government Sponsored Securities held by the Company are considered Level 2.

4. FIXED ASSETS

Fixed assets, net at December 31, 2024, are summarized as follows:

Furniture and fixtures	\$	107,046
Technology equipment		368,356
Leasehold improvements		16,916
		<u>492,318</u>
Less accumulated depreciation	\$	<u>(492,318)</u>
	\$	<u><u>-</u></u>

Depreciation expense amounted to \$0 for the year ended December 31, 2024.

5. SUBORDINATED LOANS PAYABLE

The company does not have any subordinated loans outstanding as of December 31, 2024.

6. COMMITMENTS

The company does not have any long term commitments as of December 31, 2024.

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION DECEMBER 31, 2024

7. OFF-BALANCE SHEET RISK

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to its clearing broker on a fully-disclosed basis. All of the customers' money balances and long and short securities positions are carried on the books of the clearing broker. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts.

In connection with its proprietary market-making and trading activities, the Company enters into transactions in a variety of securities and derivative financial instruments, including futures and options with similar characteristics. Futures contracts provide for the sale or purchase of financial instruments at a specified future date at a specified price or yield. These financial instruments may have market risk and/or credit risk in excess of those amounts recorded in the statement of financial condition.

Derivative financial instruments involve varying degrees of off-balance-sheet market risk whereby changes in the market values of the underlying financial instruments may result in changes in the value of the financial instruments in excess of the amounts reflected in the statement of financial condition. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments and the Company's proprietary inventories, and the volatility and liquidity in the markets in which the financial instruments are traded. In many cases, the use of such financial instruments serves to modify or offset market risk associated with other transactions and, accordingly, serves to decrease the Company's overall exposure to market risk. The Company attempts to manage its exposure to market risk arising from the use of these financial instruments through various monitoring techniques.

Securities sold, not yet purchased (short sales) represent obligations of the Company to make a future delivery of a specific security at a specified price and, correspondingly, create an obligation to purchase the security at the prevailing market price (or deliver the security if owned by the Company) at the later delivery date. As a result, short sales create the risk that the Company's ultimate obligation to satisfy the delivery requirements may exceed the amount of the proceeds initially received.

8. CONCENTRATIONS

The Company maintains cash balances in several financial institutions which are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to \$250,000 per institution. From time to time, the Company's balances may exceed these limits.

TRIBAL CAPITAL MARKETS, LLC

STATEMENT OF FINANCIAL CONDITION DECEMBER 31, 2024

9. NET CAPITAL REQUIREMENTS

The Company is subject to the uniform net capital requirements of Rule 15c3-1 of the Securities and Exchange Act, as amended, which requires the Company to maintain, at all times, sufficient liquid assets to cover indebtedness. In accordance with the Rule, the Company is required to maintain defined minimum net capital of the greater of \$100,000 or 6 2/3% of aggregate indebtedness.

At December 31, 2024, the Company had net capital, as defined, of \$933,270, which exceeded the required minimum net capital of \$100,000 by \$833,270. Aggregate indebtedness at December 31, 2024 totaled \$91,793. The Company's percentage of aggregate indebtedness to net capital was 9.84%.
