

OATH OR AFFIRMATION

I, Natalie Brown, swear (or affirm) that, to the best of my knowledge and belief, the financial report pertaining to the firm of Mesirow Financial, Inc., as of 3/31, 25 is true and correct. I further swear (or affirm) that neither the company nor any partner, officer, director, or equivalent person, as the case may be, has any proprietary interest in any account classified solely as that of a customer.

Laura Dorothy Lewandowski

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Mesirow Financial, Inc.
Chicago, Illinois

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Mesirow Financial, Inc. (the "Company") as of March 31, 2025, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of March 31, 2025, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit of the financial statement provides a reasonable basis for our opinion.

Deloitte & Touche LLP

May 29, 2025

We have served as the Company's auditor since 2001.

Notes to Statement of Financial Condition
As of March 31, 2025

NOTE 1 – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies that have been followed in preparing the accompanying financial statements is set forth below.

Nature of Business

Mesirow Financial, Inc. (the "Company") is a registered securities broker-dealer principally engaged in securities sales and trading, investment banking, retail brokerage and other related financial services. The Company provides services to closely held and mid-sized public and private businesses, as well as select institutions and individuals. The Company clears its institutional sales and trading activity on a fully-disclosed basis with Pershing LLC ("Pershing"). The Company clears its retail brokerage business on a fully disclosed basis through National Financial Services, LLC ("NFS"). The Company clears its futures and options trading activity through RJ O'Brien & Associates LLC ("RJ O'Brien").

The Company has an agreement with Pershing to carry the proprietary accounts of the Company's Institutional Sales and Trading business and the cash and margin accounts of certain Company customers introduced by the Company to Pershing, and to clear certain transactions on a fully disclosed basis for such accounts. As part of this agreement, Pershing also provides the processing and servicing for certain Company customer accounts opened on the Pershing platform, communication and content services, access to account and financial information, and securities trading and other incidental or related technology services.

The Company is 80% owned by Mesirow Financial Holdings, Inc. ("MFH" or "Parent") and 20% owned by Mesirow Financial Services, Inc. ("MFS"), a wholly-owned subsidiary of MFH.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to the valuation of securities owned and securities sold, not yet purchased. Actual results could differ from those estimates.

Segments

Management has determined that the Company operates in three main reportable segments: Capital Markets, Investment Banking and Other. The Company's reportable segments offer different products and services and are managed separately as different levels and types of expertise are required to effectively manage the segments' transactions. Each segment is reviewed to determine the allocation of resources and to assess its performance. The Company's Capital Markets segment is made up of the following operating segments: Institutional Sales & Trading, Public Finance and Credit Tenant Lease Finance & Structured Debt Products. Given the similarities in economic characteristics between the operations and the common nature of the products and services, and regulatory environment of these operating segments, the Company evaluates these as one reportable segment. The Company's Investment Banking segment provides merger and acquisition advisory and financing services, particularly in the middle-market. The Company's Other segment, consisting of less than 10% of total revenue, is primarily made up of brokerage services.

Securities Transactions

Proprietary transactions are reflected in the Statement of Financial Condition on a trade date basis.

Securities owned and Securities sold, not yet purchased are carried at fair value. Fair value is generally based on quoted market prices. If quoted market prices are not available, fair value is determined based on other relevant factors, including dealer price quotations or prices for equivalent instruments. Commissions and trading gains and losses and related expenses are recognized on a trade date basis.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

Receivables from / Payables to Brokers, Dealers and Clearing Organizations

Receivables from brokers, dealers and clearing organizations primarily include amounts due from RJ O'Brien related to futures and option trading activity. Payables to brokers, dealers and clearing organizations primarily consist of the Company's payable to Pershing, which includes the Company's margin borrowings collateralized by securities owned. Due to their short-term nature, the amounts recorded approximate fair value.

Income Taxes

The Company is a member of a consolidated group for federal and state income tax purposes. A tax-sharing arrangement between the Company and MFH provides for federal and state income taxes to be determined on a separate company basis. The Company uses the parent-company down approach for purposes of assessing the need for a valuation allowance. The Company's net deferred income tax asset, which relates primarily to deferred compensation, is recorded in Other assets in the Statement of Financial Condition.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own judgments about the assumptions that market participants would use in pricing the asset or liability.

The following outlines the valuation methodologies for the Company's significant categories of assets and liabilities:

Equities Equity securities are generally valued based on quoted prices from an exchange. To the extent these securities are actively traded, they are classified as Level 1 in the fair value hierarchy, otherwise they are classified as Level 2 or 3. In instances when quoted prices are not available, fair values are generally derived using bid/ask spreads and these securities are generally categorized as Level 2.

U.S. government and agency securities U.S. treasury securities are valued using market prices obtained from actual market makers and inter-dealer brokers and are generally classified as Level 1 in the fair value hierarchy. The fair value of agency issued debt securities is derived using market prices and recent trade activity gathered from independent dealer pricing services or brokers. To Be Announced mortgage-backed securities ("TBAs") are generally valued using market prices obtained from actual market makers and inter-dealer brokers. Agency issued debt securities and TBAs are generally classified as Level 2 in the fair value hierarchy.

Corporate bonds Corporate bonds are valued based on either the most recent observable trade and/or external broker quotes, depending on availability. Corporate bonds are generally classified as Level 2 or Level 3 in the fair value hierarchy. In instances where significant inputs are unobservable, they are categorized as Level 3 in the fair value hierarchy.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

Municipal bonds The fair value of municipal bonds is derived using recent trade activity, market price quotations and new issuance activity. In the absence of this information, fair value is calculated using comparable bond credit spreads. Current interest rates, credit events, and individual bond characteristics such as coupon, call features, maturity, and revenue purpose are considered in the valuation process. These bonds are generally classified as Level 2 in the fair value hierarchy.

Mortgage and asset-backed securities Mortgage and asset-backed securities are valued based on observable price or credit spreads for the particular security, or when price or credit spreads are not observable, the valuation is based on prices of comparable bonds or the present value of expected future cash flows. When estimating the fair value based upon the present value of expected future cash flows, the Company uses its best estimate of the key assumptions, including forecasted credit losses, prepayment rates, forward yield curves and discount rates commensurate with the risks involved, while also taking into account performance of the underlying collateral. Mortgage and asset-backed securities are classified as Level 3 in the fair value hierarchy if external prices or credit spreads are unobservable or if comparable trades/assets involve significant subjectivity related to property type differences, cash flows, performance and other inputs; otherwise, they are classified as Level 2 in the fair value hierarchy.

Revenue Recognition

Commissions are recorded on trade date and are generally related to transactions when the Company buys and sells securities on behalf of its customers. After a customer enters into a buy or sell transaction, the Company will charge a commission. The Company believes that the performance obligation is satisfied on the trade date, which is when the customer receives the benefit and the pricing is agreed upon. Commissions are collected on a monthly basis.

The Company administers various trusts on behalf of its customers. The consideration is variable as the amount may vary based on the aggregate principal amount of the trust. Revenue is recognized over the time the service is rendered, and collected on a monthly basis.

The Company underwrites securities for public and private issuers including governmental entities, which raise funds through a sale of securities. Revenue is recognized and collected at a point in time, upon the completion of the offering. At the time the offering is completed, the performance obligation has been satisfied and the Company recognizes the revenue on the trade date when the Company purchases its contracted portion of securities from the issuer. The Company believes there are no significant actions subsequent to this date and the issuer has obtained control and benefit of the offering on the trade date.

The Company provides Investment Banking advisory services to private and public companies on financial objectives such as mergers and acquisitions, divestitures, and restructuring. Revenues are obtained through success fees, which are contingent on the closing of a deal, and retainer fees, which are received in advance. Success fees are recognized and collected at a point in time, specifically on the closing of a deal. Retainer fees are received in advance of services and are recorded as unearned income (a contract liability) in Deferred income in the Statement of Financial Condition. Retainer fees are subsequently recognized over the time the service is rendered. As of March 31, 2025, there was \$538,000 in Deferred income in the Statement of Financial Condition related to retainers. Transaction related expenses are deferred and recognized in the same period as the related Investment Banking revenue. To the extent transaction related expenses are reimbursable, the revenues are recognized and collected at a point in time upon either the successful closing or termination of a deal.

The Company provides high leverage, credit-backed financing services to customers. Fees are earned and collected at a point in time based on a success fee contingent on the deal closing. In some instances, a good faith deposit is given to the Company for the service rendered. The good faith deposit is recorded as a payable (a contract liability) in Payables to other in the Statement of Financial Condition. The deposit is subsequently derecognized and a success fee is recognized upon the deal closing, as the Company has earned the revenue and the benefit has been transferred to the customer. Good faith deposits are typically held for 12 months or less. As of March 31, 2025, there was \$2,601,000 in Payables to other, relating to good faith deposits in the Statement of Financial Condition.

The Company provides security processing services to MFH and its subsidiaries. Revenues are recognized over the time the service is rendered. Security processing revenue is collected on a monthly basis.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

New Accounting Pronouncements

Adopted

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which enhances interim and annual segment disclosure requirements, including disclosure of certain significant segment expenses. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company adopted this guidance on April 1, 2024, and the impact of the adoption was additional segment disclosures included in Note 8.

NOTE 2 - FAIR VALUE OF FINANCIAL INSTRUMENTS

At March 31, 2025, the Company's assets and liabilities measured at fair value consist of the following:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
Equities	\$ 2,732,000	\$ -	\$ -	\$ 2,732,000
Obligations of U.S. government and federal agencies	3,006,000	157,558,000	-	160,564,000
Corporate bonds	-	99,456,000	1,000	99,457,000
Municipal bonds	-	121,334,000	-	121,334,000
Collateralized mortgage obligations & Asset backed securities	-	7,598,000	5,642,000	13,240,000
Options	200,000	-	-	200,000
Other	-	4,000	-	4,000
Securities owned	<u>\$ 5,938,000</u>	<u>\$ 385,950,000</u>	<u>\$ 5,643,000</u>	<u>\$ 397,531,000</u>
Liabilities:				
Equities	\$ 1,075,000	\$ -	\$ -	\$ 1,075,000
Obligations of U.S. government and federal agencies	127,727,000	14,707,000	-	142,434,000
Corporate bonds	-	13,967,000	-	13,967,000
Securities sold, not yet purchased	<u>\$ 128,802,000</u>	<u>\$ 28,674,000</u>	<u>\$ -</u>	<u>\$ 157,476,000</u>

The following table provides a reconciliation of changes in Level 3 assets for the year ended March 31, 2025:

	<u>Corporate bonds</u>	<u>Mortgage and asset-backed securities</u>
Balance April 1, 2024	\$ 1,000	\$ 7,454,000
Net realized and unrealized gains	-	175,000
Purchases	-	1,599,000
Sales	-	(3,586,000)
Balance March 31, 2025	<u>\$ 1,000</u>	<u>\$ 5,642,000</u>

There were no transfers between levels for the year ended March 31, 2025. The valuation approach for Level 3 assets is primarily discounted cash flows, with significant unobservable inputs including the discount rate and liquidity premium, which can range from 7% to over 16%.

The fair value of all other financial instruments reflected in the Statement of Financial Condition (consisting primarily of Receivables from and Payables to brokers, dealers, and clearing organizations) approximates the carrying value due to the short-term nature of the financial instruments and repricing policies followed by the Company.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

NOTE 3 - CLEARING AGREEMENTS

Outstanding margin as of March 31, 2025 is collateralized by securities owned of \$397,531,000 and bears interest equal to overnight bank funding rate plus 61 basis points. As of March 31, 2025, the overnight bank funding rate was 4.33%.

NOTE 4 - RECEIVABLE FROM AND PAYABLE TO BROKERS, DEALERS AND CLEARING ORGANIZATIONS

At March 31, 2025 amounts receivable from and payable to brokers, dealers and clearing organizations include:

Receivable from RJ O'Brien	\$ 375,000
Receivable from NFS	117,000
Other	1,000
Total Receivables	<u>\$ 493,000</u>
Payable to Pershing	\$ 167,235,000
Other	85,000
Total Payables	<u>\$ 167,320,000</u>

NOTE 5 - CONTINGENCIES

In the normal course of business activities, the Company has been named as a defendant in various legal actions, including actions against underwriting groups of which the Company was a syndicate member. In view of the inherent difficulty of predicting the outcome of litigation and other claims, the Company cannot state with certainty the outcome of pending litigation or other claims. In the opinion of management, based on consultation with legal counsel, these actions will not result in any material adverse effect on the financial statements of the Company.

In the normal course of business activities, the Company is subject to regulatory examinations or other inquiries. These matters could result in censures, fines or other sanctions. Management believes the outcome of any resulting actions will not be material to the Company's Statement of Financial Condition. However, the Company is unable to predict the outcome of these matters.

In accordance with the Company's fully disclosed clearing agreements with Pershing and NFS, the Company is required to guarantee the performance of its customers in meeting contracted obligations. The Company seeks to control the risks associated with its customers' activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company has not recorded any contingent liability on the financial statements as any potential future obligations are not quantifiable.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

NOTE 6 – LEASES

The Company's non-cancelable operating leases expire at various dates through fiscal year 2030. The approximate future maturities of lease payments are as follows:

Fiscal Year Ending		
2026	\$	346,000
2027		294,000
2028		159,000
2029		88,000
2030		-
Total Lease Payments	\$	887,000
Less: Interest		77,000
Lease Liabilities	\$	810,000

The Company determines if an arrangement is an operating lease at inception. The Company does not record leases with a lease term of 12 months or less in the Statement of Financial Condition. As of March 31, 2025, the Company does not have any short-term leases. All other operating leases are recorded in the Statement of Financial Condition with operating lease right of use assets ("ROU assets") representing the right to use the underlying asset for the lease term, and lease liabilities representing the obligation to make lease payments arising from the lease. Operating lease ROU assets and lease liabilities are recognized at the commencement date based on the present value of lease payments over the lease term.

As of March 31, 2025, the weighted average remaining lease term was 3.0 years and the weighted average discount rate was 5.8%. The Company's incremental borrowing rate is used to discount the lease payments based on information available at the lease commencement or remeasurement date. As of March 31, 2025, the ROU asset was \$778,000 within Other assets in the Statement of Financial Condition. As of March 31, 2025, the lease liability was \$810,000 within Accounts payable and accrued expenses in the Statement of Financial Condition.

In addition to rent payments, operating leases for office space generally contain payments for real estate taxes, insurance costs, common area maintenance, and utilities that are not fixed. The Company accounts for these costs as variable payments and does not include those payments in the lease component.

NOTE 7 - EMPLOYEE BENEFIT PLANS

The Company participates in a 401(k) savings plan of an affiliate (the "Plan") which covers all eligible employees, as defined in the Plan. Contributions to the Plan by employees are voluntary and will be matched by the Company at a rate of fifty percent of the first eight percent of compensation up to a maximum of \$5,000.

NOTE 8 - SEGMENTS

The Company's principal operating activities are included in its Capital Markets, Investment Banking and Other business segments as described in Note 1. Revenues and expenses are attributed to the three segments based on which segment services the client. The Company's chief operating decision maker ("CODM") is the Chief Executive Officer.

The accounting policies of the segments are the same as those described in Note 1. Expenses not directly associated with specific segments are allocated based on the most applicable measures which include headcount, square footage and other factors.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

The CODM evaluates the performance of the segments to allocate resources, including employees and capital, to the segments during the annual budgeting process.

Segment assets and liabilities are not regularly utilized for management decision purposes. All transactions between reportable segments are eliminated in consolidation.

NOTE 9 - RELATED PARTY TRANSACTIONS

The Company pays MFH for management services in accordance with formal agreements.

The Company uses office facilities that are leased by MFH and furniture, equipment (including computer and software-related assets) and leasehold improvements owned by MFH.

As of March 31, 2025, Other assets include a receivable from MFH of \$1,055,000 primarily relating to tax balances. In addition, as of March 31, 2025, Accounts payable and accrued expenses include a payable to MFH of \$233,000, primarily related to the intercompany transactions described above.

As of March 31, 2025, Other assets include a receivable from MFIM of \$9,510,000 primarily related to amounts funded into an MFIM investment account.

From time to time, the Company pays dividends to its stockholders. Such dividends may require regulatory approval and may be limited by the Company's net capital at the time of the dividend. The Company did not pay any dividends during the year ended March 31, 2025. The Company did receive a total of \$5,000,000 in capital contributions from MFH and MFS during the year ended March 31, 2025.

NOTE 10 - INCOME TAXES

Deferred income taxes are attributable to temporary differences relating primarily to deferred compensation.

The net deferred tax asset from continuing operations included in Other assets in the Statement of Financial Condition at March 31, 2024 was \$4,374,000 comprised of \$4,995,000 of deferred tax assets partially offset by \$621,000 of deferred tax liabilities.

No valuation allowance has been recorded to reduce the carrying amounts of deferred tax assets because, in the opinion of management, it is more likely than not such assets will be realized.

FASB ASC 740, *Income Taxes*, defines the threshold for recognizing the benefits of tax-return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority and requires measurement of a tax position meeting the more-likely-than-not criterion, based on the largest benefit that is more than 50 percent likely to be realized. The Company's open tax years for federal income tax purposes are fiscal 2022 through 2024. The Company's open tax years for state income tax purposes are fiscal 2022 through 2024. It is the policy of the Company to record interest and penalties related to uncertain tax positions in Income tax expense.

NOTE 11 – FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK AND CONCENTRATION OF CREDIT RISK

In the normal course of business, the Company enters into transactions in financial instruments with varying degrees of off-balance-sheet risk. These financial instruments include TBAs. The trading of these financial instruments is conducted with other registered broker-dealers located in the United States. These financial instruments involve elements of off-balance sheet market risk in excess of the amounts recognized in the Statement of Financial Condition. Market risk is the potential change in value of the financial instrument caused by unfavorable changes in interest rates or the fair values of the securities underlying the instruments. The Company monitors its exposure to market risk through a variety of control procedures, including daily review of trading positions.

MESIROW FINANCIAL, INC.
Notes to Statement of Financial Condition (Continued)
As of March 31, 2025

TBAs provide for the delayed delivery of the underlying instrument. The credit risk for TBAs is limited to the unrealized market valuation gains/losses recorded in the Statement of Financial Condition.

The Company may hedge a portion of its fixed income trading inventories with options, exchange traded financial futures contracts, and TBAs. The contractual amount of these instruments reflects the extent of the Company's involvement in the related financial instrument and does not represent the risk of loss due to counterparty nonperformance. Net unrealized losses on open futures contracts of \$138,000 are included within Receivables from brokers, dealers and clearing organizations on the Statement of Financial Condition.

Securities sold, not yet purchased represent obligations of the Company to deliver specified securities at the contracted price, and thereby create a liability to purchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate liability to satisfy its obligation for Securities sold, not yet purchased may exceed the amount recognized in the Statement of Financial Condition.

To minimize the potential impact of counterparty nonperformance and market exposure in connection with its transactions in financial instruments, the Company monitors the credit standing of each counterparty with whom it does business. It also marks to fair value all customer and proprietary positions on a daily basis and monitors margin collateral levels for compliance with regulatory and internal guidelines, requesting and obtaining additional cash margin or other collateral when deemed appropriate.

Under the terms of the Company's agreements with its clearing agents, the Company has agreed to indemnify the independent licensed brokers for customers introduced by the Company that are unable to satisfy the terms of their contracts. The Company monitors its customer activity by reviewing information it receives from its clearing agents and seeks to control the aforementioned risk by requiring representatives to compensate the Company for nonperformance by its customer.

NOTE 12 - REGULATORY REQUIREMENTS

The Company, as a registered broker-dealer, is subject to the SEC Uniform Net Capital Rule. Under this rule, the Company has elected to operate under the "alternative method", whereby the Company is required to maintain "net capital" of \$250,000 or two percent of "aggregate debit items", whichever is greater, as these terms are defined. At March 31, 2025, the Company has net capital and a net capital requirement of approximately \$10,426,000 and \$250,000, respectively.

The Company claims an exemption from Rule 15c3-3 of the SEC related to customer reserve requirements under 15c3-3(k)(2)(ii) and Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. §240.17a-5, as the Company's activities are limited to those set forth in the conditions for exemption.

NOTE 13 – SUBSEQUENT EVENTS
